The Public Service Commission of the State of New York for the First District, having on the 19th day of November, 1912, made an order and determination as to the manner of carrying Lambertville Avenue from Sutphin Road to Merrick Road in the Fourth Ward, Borough of Queens, across the tracks of the Montauk Division of The Long Island Railroad Company; and it appearing that no construction has been commenced by said railroad company in pursuance of said order, and it further appearing that there is or may be necessity for action to require the construction provided in said order, and the Commission desiring in this connection to be advised as to any change in the facts and circumstances affecting the said crossing and as to the necessity of any amendment, alteration or abrogation or other action concerning said order and determination, and to that end to reopen this proceeding;

Now, Therefore, it is hereby

Ordered, That this proceeding be and hereby is reopened, and that a hearing herein be held before the Commission at its hearing room, No. 49 Lafayette Street, in the Borough of Manhattan, City of New York, on the 26th day of November, 1923 at 10:30 o'clock in the forenoon.

Further Ordered, That at least ten (10) days' notice of the hearing be given to The Long Island Railroad Company, The City of New York, and to the owners of the land adjoining the location of said crossing and other parties who appeared upon the original hearing herein, by service upon them of a certified copy of this order, in the manner provided by Section 23 of the Public Service Commission Law.

Further Ordered and Certified, That George L. Lucas, Acting Chief Executive Officer be and he hereby is, pursuant to Sections 8 and 11 of the Public Service Commission Law, authorized and designated to conduct said hearing, to take the testimony therein and report the same to the Commission for its decision and determination.

By the COMMISSION,

JAMES B. WALKER,

Secretary.

1567—Case 2082

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which 195th Street (Catskill Avenue) from Atlantic Avenue (99th Avenue) to Sagamore Avenue (98th Avenue) Shall Be Extended over Company's Tracks—Order Reopening Case and Directing Hearing Adopted

The Commission adopted and ordered filed an Order in Case No. 2082, in the following form:

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

IN THE MATTER
of the

Application of THE CITY OF NEW YORK for a determination as to the manner in which the following street shall be extended across the tracks of THE LONG ISLAND RAILROAD COMPANY in the Fourth Ward of the Borough of Queens, 195th Street (Catskill Avenue) from Atlantic Avenue (99th Avenue) to Sagamore Avenue (98th Avenue).

Case No. 2082.
HEARING ORDER.

The Public Service Commission of the State of New York for the First District, having on the 9th day of June, 1916 made an order and determination as to the manner of carrying 195th Street (Catskill Avenue) from Atlantic Avenue (99th Avenue) to Sagamore Avenue (98th Avenue) across the tracks of the Long Island Railroad Company in the Fourth Ward of the Borough of Queens; and it appearing that no construction has been commenced by said railroad company in pursuance of said order, and it further appearing that there is or may be necessity for action to require the construction provided in said order, and the Commission desiring in this connection to be advised as to any change in the facts and circumstances affecting the said crossing and as to the necessity of any amendment, alteration or abrogation or other action concerning said order and determination, and to that end to reopen this proceeding,

Now, Therefore, it is hereby

Ordered, That this proceeding be and hereby is reopened, and that a hearing herein be held before the Commission at its hearing room, No. 49 Lafayette Street, in the Borough of Manhattan, City of New York, on the 26th day of November, 1923 at 11 o'clock in the forenoon.

Further Ordered, That at least ten (10) days' notice of the hearing be given to the Long Island Railroad Company, The City of New York and to the owners of the land adjoining the location of said crossing and other parties who appeared upon the original hearing herein, by service upon them of a certified copy of this order, in the manner provided by Section 23 of the Public Service Commission Law.

Further Ordered and Certified, That George L. Lucas, Acting Chief Executive Officer, be and he hereby is, pursuant to Sections 8 and 11 of the Public Service Commission Law, authorized and designated to conduct said hearing, to take the testimony therein and report the same to the Commission for its decision and determination.

BY THE COMMISSION,
JAMES B. WALNER,
Secretary.

1568—Case 2703

The New York Central Railroad Company—Application for Determination as to Manner in Which Certain Streets Shall Cross Company's Tracks on West Side of Manhattan from St. Johns Park to Harlem Ship Canal—Communication from Company Transmitting Petition—Reply by Chairman—Referred to Committee of Whole

The Secretary presented a communication, dated November 1, 1923, from Ira A. Place, Vice-President of The New York Central Railroad Company, reading as follows:

Hon. GEORGE McANENY,
Chairman, TRANSIT COMMISSION,
49 Lafayette Street,
New York, N. Y.

Dear Sir:

We are sending to you herewith original petition with Exhibit "A" "In the Matter of The Petition of The New York Central Railroad Company, for an Order of the

Transit Commission determining the elimination of certain street crossings by its railroad at grade on the West Side of Manhattan Island, from the southerly terminus of said railroad at St. Johns Park, to the Harlem Ship Canal, formerly Spuyten Duyvil Creek."

I am also sending you five copies of these documents as required by your rules. I am also sending to you for your information copy of petition with portfolio or Atlas mentioned in Paragraph Sixth "In The Matter of The Application of The New York Central Railroad Company, for an Order of the Commission, prescribing the location, elevation, size, kind and construction of poles, wires, safety devices, conduits and all erections, buildings, fixtures, appurtenances and equipment to be used in electrification, maintenance and operation of its railroads within the limits of the City of New York, pursuant to the provisions of Section 53-a of the Public Service Commission Law."

If additional copies are required for the convenience of the Commissioners we shall be glad to furnish them at any time.

Yours truly,
IRA A. PLACE.

The Secretary also presented the petition, verified October 9, 1923, of The New York Central Railroad Company, transmitted with Mr. Place's letter, together with a copy of reply, dated November 3, 1923, by Chairman McAneny, reading as follows:

Mr. IRA A. PLACE, Vice-President,
NEW YORK CENTRAL LINES,
New York Central Building,
466 Lexington Avenue,
New York City.

Dear Sir:

The Transit Commission is in receipt of your letter of the first instant, transmitting the petition of the New York Central Railroad Company for an order determining the elimination of certain street crossings at grade upon your Company's line on the west side of Manhattan Island, together with certain illustrative maps and drawings.

The Commission has also received copies, to which your letter refers, of a petition submitted by your Company to the Public Service Commission in the matter of proposed changes and improvements to be undertaken pursuant to the provisions of Section 53-A of the Public Service Commission Law.

In the matter of the proposed elimination of grade crossings, the Commission has referred both your petition and the accompanying maps, etc., to its Chief Engineer for examination and preliminary report, which probably will be within a week, I shall be glad to advise you of the procedure the Commission will take with relation to the petition itself, and I remain, meanwhile,

Very sincerely yours,
GEORGE McANENY,
Chairman.

Thereupon the above mentioned papers were referred to the Committee of the Whole.

1569

**Manhattan Railway Company and Interborough Rapid Transit Company, Lessee
—Elevated Tracks and Stairway in East 42nd Street, Manhattan—Resolution
of Board of Estimate and Apportionment Directing Removal—Filed**

The Secretary presented a communication, dated October 22, 1923, from James Matthews, Assistant Secretary of Board of Estimate and Apportionment, transmitting certified copies of two resolutions adopted by the Board on October 19, 1923, providing for (A) the removal of stairway leading from the northerly sidewalk to the station of the elevated railroad structure in East 42nd Street, Borough of Manhattan, and (B) relocation of columns supporting elevated structure in East 42nd Street, together with said resolutions.

Thereupon the above mentioned papers were ordered filed.

1570—R. T. 7345, 7489

Routes Nos. 48 and 12—Communication from Commissioners of Sinking Fund Referring Back Request for Approval of Sale of Property at Southwesterly Corner of Beekman and William Streets, Manhattan, and Southwesterly Corner of St. Felix and Fulton Streets, Brooklyn—Referred to Counsel

The following communication from the Commissioners of the Sinking Fund was referred to Counsel:

November 1, 1923.

Mr. JAMES B. WALKER,
Secretary, TRANSIT COMMISSION,
49 Lafayette Street,
N. Y. City.

Dear Sir:

At a meeting of the Commissioners of the Sinking Fund held this day, your communication requesting approval of the sale at public auction of parcels of land situated at the southwesterly corner of Beekman and William Streets, Manhattan, and the southwesterly corner of St. Felix and Fulton Streets, Borough of Brooklyn, were referred back to you with a suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter may again be submitted to the Commissioners of the Sinking Fund for their approval.

Very truly yours,

P. A. WHITNEY,
Assistant Deputy Comptroller.

1571—R. T. 7389

Contract No. 3—Consents of Sureties and National Bank of Brooklyn to Assignment of \$26,786.17 under Contract for Construction of Foundations for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Filed

The Commission ordered filed consents of the sureties upon the bond deposited by the contractor and the National Bank of Brooklyn to an assignment by Rosenthal Engineering Contracting Company, Inc. of the sum of \$26,786.17 of moneys retained by the City under the contract for the construction of foundations for the Third Addition to Shops at the Lenox Avenue and 148th Street Yard.

1572—R. T. 7457

Route No. 18, Section No. 1—Consents of Sureties and National Bank of Brooklyn to Assignment of \$23,608.56 under Contract for Construction of Enclosure to Inspection Shed at 180th Street Yard—Filed

The Commission ordered filed consents of the sureties upon the bond deposited by the contractor and the National Bank of Brooklyn to an assignment by Rosenthal Engineering Contracting Company, Inc. of the sum of \$23,608.56 of moneys retained by the City under the contract for the construction of an enclosure to the inspection shed at the 180th Street Yard.

1573—R. T. 7681

Contract No. 3—Notice by Chief Engineer of Commencement of Work for Construction of Enclosures of Third Addition to Shops at Lenox Avenue and 148th Street Yard—Filed

The Commission ordered filed a notice from the Chief Engineer dated October 29, 1923, advising of the commencement of work on October 18, 1923, by D. C. Serber,

for the construction of enclosures of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard.

1574—R. T. 7230

Rapid Transit Railroads—Report by Chief Engineer Transmitting a List of Sub-contractors Approved during the Month of September, 1923—Filed

The following report was ordered filed:

October 29, 1923.

TO TRANSIT COMMISSION:

List of Sub-Contracts.

I submit, as follows, a list of sub-contracts, approved by this Department during the month of September, including also approval given under date of August 29th, which latter approval was omitted in list of sub-contracts approved submitted with my letter of September 10th, ult.

			Donnell-Zane Co.	9/18/23	Work of field painting sub-letted to G. Urdi Co.

Route No.	Section No.	Contractor	Sub-Contractor	Date of Approval	Materials
Additional Approach Track, 148th St. & Lenox Ave. Yard.		Slattery Engineering & Const. Co.	Central Structural Steel Co.	9/27/23	Furnishing five structural steel beams. T. C. in- spected.

ROBT. RIDGWAY,
Chief Engineer.

1575—R. T. 6761

**Contract No. 3—Communication from Interborough Rapid Transit Company
Transmitting Copy of Contract for Travelling Crane for Substation No. 27—
Filed**

The Commission ordered filed a communication from the Interborough Rapid Transit Company, dated November 5, 1923, transmitting a copy of a contract dated April 13, 1923, with the Northern Engineering Works for the manufacture and erection of one thirty ton travelling crane for Substation No. 27.

1576

Employees' Calendar No. 174

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Thomas Berry, inspector of equipment, at \$125.08 per month, to take effect November 7, 1923; Maurice Friedlander, engineering inspector, at \$150.08 per month, to take effect November 1, 1923; Isabella R. Reilly, stenographer, at \$90.00 per month, to take effect November 1, 1923.

Resignations—Max Nachamis, stenographer, at \$90.00 per month, to take effect November 7, 1923; Bernard J. Sullivan, junior assistant, at \$125.08 per month, to take effect November 7, 1923.

Change of Item in Resolution of 10/30/23 concerning Joseph I. Garfunkel so as to Read as Follows: (Resignation)—Joseph I. Garfunkel, draftsman, at \$175.08 per month, to take effect October 31, 1923.

Change of Item in Resolution of 10/30/23 concerning Maurice Friedlander so as to Read as Follows: (Termination of Appointment under Rule VIII:4)—Maurice Friedlander, engineering inspector, at \$150.08 per month, to take effect October 31, 1923.

Rescission of Appointment under Rule VIII:9—Maurice Friedlander, engineering inspector, at \$150.08 per month, to take effect November 5, 1923.

Leave of Absence with Pay—Adolph R. Bergbom, file clerk, from October 1, 1923 to October 2, 1923.

1577

Voucher Schedule No. 46

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct.

Vouchers Nos. 1015-1018, open market orders \$118.89; Vouchers Nos. 540-542, miscellaneous bills, \$2,314.05; Voucher No. SO-1 (D1878) Contract No. 7175, J. B. Lyon Co., \$3,552.29.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Railroads for the Periods Indicated Below:

- Voucher No. 286; Interborough Rapid Transit Company, approximate estimate No. 4 for remedying the leaky conditions of the mezzanine roofs of 8 stations on the Jerome Avenue and 5 Stations of the White Plains Road Lines, from June 1, 1923 to August 31, 1923 (R. T. 7494) \$4,191.77;
- Voucher No. 287; Fox Reynolds Co., Inc.; approximate estimate No. 6, for the completion of newsstand enclosures at stations of the rapid transit railroads, under Contracts Nos. 3 and 4, from September 26, 1923 to October 25, 1923 (R. T. 7419) \$5,919.30;
- Voucher No. 288; Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 8 for the construction of foundations for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from September 21, 1923 to October 20, 1923 (R. T. 7589) \$11,115.14;
- Voucher No. 289; Station Finish Corporation, Assignee; approximate estimate No. 15 for the construction of station finish on Sections Nos. 3, 4, and 5 of Route No. 8 of the Fourteenth Street-Eastern Line, from October 1, 1923 to October 31, 1923 (R. T. 7516) \$2,037.13;
- Voucher No. 290; Michael DelBalso; approximate estimate No. 10, for the installation of tracks, including the furnishing of part of the track materials and the construction of drainage system and concrete inspection pits, for a portion of Route No. 18, 239th Street Yard, from October 1, 1923 to October 31, 1923 (R. T. 7528) \$6,794.92;
- Voucher No. 291; Brooklyn-Manhattan Transit Corporation, approximate estimate No. 1 and final for raising track at Whitehall Street station of the Broadway-Fourth Avenue Line, from September 1, 1923 to September 30, 1923 (R. T. 7086) \$375.73;
- Voucher No. 292; New York Rapid Transit Corporation; approximate estimate No. 7 for lengthening platform at the Canal Street station of the Centre Street Loop, from September 1 to September 30, 1923 (R. T. 7431) \$2,901.72;
- Voucher No. 293; Frederick L. Cranford, Inc.; approximate estimate No. 16 for the reconstruction of a part of Section 3 of Route No. 33, Completion of Lawrence Street station, from October 1, to October 31, 1923 (R. T. 7454) \$11,122.26;
- Voucher No. 294; Hamme & Jackson, Inc.; approximate estimate No. 3 for reconstruction of retaining wall on both sides of 60th Street Tunnel, at North Jane Street, Borough of Queens, from October 1, to October 31, 1923 (R. T. 7522) \$4,665.06;
- Voucher No. 295; Philip J. Healy, Final estimate for making test borings in the proposed Coney Island Line in the Borough of Brooklyn; in the proposed Westchester Line in the Borough of The Bronx, and along the proposed extension of the Broadway-Fourth Avenue Line in Central Park, Borough of Manhattan, Agreement "CI," to October 8, 1923 (R. T. 5006) \$734.45;
- Voucher No. 296; George Colon & Company; final estimate for the construction of Union Square Connection station, Routes Nos. 5 and 8 of the Broadway-Fourth Avenue and Fourteenth Street-Eastern Lines, to August 2, 1923 (R. T. 7513) \$5,595.67;
- Voucher No. 297; Fox, Reynolds Co., Inc.; approximate estimate No. 5 for the excavation and the construction of a retaining wall at the Lenox Avenue and 148th Street Yard, from October 1, 1923 to October 31, 1923 (R. T. 7642) \$8,090.55.

JAMES B. WALKER,

Secretary.

Proceedings for Friday, November 9, 1923

Present: LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.
The following matter was presented and action taken as noted:

1578—R. T. 7706

Agreement "CU"—Receipt of Bids for Construction of Signal Tower at 239th Street Yard—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of a signal tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Agreement "CU," had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received.

The Secretary presented the proper affidavits of publication and opened the box and read the three bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

Proceedings for Monday, November 12, 1923

1579

Hearing

The following hearing was adjourned:

11:00 A. M.; R. T. 4007—Lengthening of platforms at local stations—Contract No. 1—Adjourned to November 26, 1923, at 11:00 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, November 13, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1580—R. T. 7703

Route No. 16—Receipt of Bids for Installation of Tracks in Jerome Avenue Yard—Referred to Chief Engineer

The Secretary stated that the time within which to receive bids for the installation of tracks for a part of the Jerome Avenue Yard, Route No. 16, had elapsed at 11:30 A. M., and directed the Assistant Secretary to open the sealed box which

had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and the Assistant Secretary opened the box and read the five bids received. The bids were then referred to the Chief Engineer.

1581—R. T. 7703

Route No. 16—Resolution Authorizing Release of Checks to All Except Lowest Bidder for Installation of Tracks in Part of Jerome Avenue Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on November 13, 1923, for the installation of tracks for a part of the Jerome Avenue Yard, the Secretary be, and he hereby is authorized and directed to return to all except the lowest bidder, the certified checks in the sum of Two Thousand (\$2,000) Dollars each, deposited with their bids.

Agreement "CU"—Resolution Authorizing Release of Checks to All But Lowest Bidder for Construction of Signal Tower in 239th Street Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer, as to the bids received on November 9, 1923, for the Construction of a Signal Tower in the 239th Street Yard, of the White Plains Road Rapid Transit Railroad—Agreement "CU", the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder, the certified checks in the sum of Three Hundred (\$300.00) Dollars each, deposited with their bids.

1583—R. T. 7592

Route No. 11-B, Section No. 3—Resolution Approving Sureties upon Bond in the Sum of \$100,000 Deposited by Contractor as Security for Faithful Performance of Work—Adopted

The following resolution was adopted:

Resolved, That the National Surety Company, American Surety Company, Fidelity and Deposit Company of Maryland and United States Fidelity and Guaranty Company, be and hereby are approved as sureties, upon the bond in the sum of One Hundred Thousand (\$100,000) Dollars deposited by T. A. Gillespie Company, as security for the faithful performance of the contract for the construction of the Extension of the Fourth Avenue Subway Borough of Brooklyn, Route No. 11-B, Section No. 3,—each of said sureties being held and bound as follows:

National Surety Company	\$50,000.00
American Surety Company	16,666.66
Fidelity & Deposit Company of Maryland.....	16,666.66
United States Fidelity & Guaranty Company.....	16,666.68

1584—R. T. 7707

Order No. 23—Form of Contract, Specifications, Invitation to Contractors, etc. for Supply of Special Work for Lenox Avenue and 148th Street Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Con-

tract Drawings for the supply of Special Work (Order No. 23) for use in the construction of part of the Lenox Avenue and 148th Street Yard, under Contract No. 3.

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the supply of Special Work, Order No. 23, for use in the construction of part of the Lenox Avenue and 148th Street Yard, under Contract No. 3, be and hereby are approved and adopted and that said Invitation to Contractors be published in The City Record every day of publication continuously from and including November 16, 1923 to and including November 30, 1923 and on November 19, 1923 and November 26, 1923 in The New York Herald and The Evening World, daily newspapers published in The City of New York and that such bids as shall be received shall, on the 30th day of November, 1923 at eleven-thirty (11:30) o'clock A.M. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

1585—R. T. 7706

Agreement "CU"—Report by Chief Engineer as to Receipt of Bids for Construction of Signal Tower at 239th Street Yard and Recommendation for Award of Contract to John B. Roberts & Company, at Bid Price of \$12,757.50.—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

November 10, 1923.

To: the TRANSIT COMMISSION:

Award of contract for Construction of Signal Tower, 239th St. Yard, Agreement "CU," to John B. Roberts & Co.

On November 9, 1923 the following bids were received for work under Agreement "CU," Construction of a Signal Tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Section No. 2, Borough of The Bronx:

Name	Amount
1. John B. Roberts & Co.....	\$12,757.50
2. Edward Balaban & Co.....	12,807.00
3. John Pollock	13,365.40

Our estimate for this work amounts to \$9,136.50.

I have looked over the prices quoted by the lowest bidder, and although in general they are higher than our estimate, I consider them reasonable under present conditions.

This Contractor, either under the name of John B. Roberts or John B. Roberts & Co., has done considerable work for the Commission and its predecessors, having had contracts for Station Finish on the Lexington Avenue and Seventh Avenue Lines and other minor contracts, aggregating in all about \$800,000. All of this work was carried out successfully.

Attached I transmit herewith a copy of minutes of a conference held in my office today with a representative of John B. Roberts & Co. in which is contained its financial statement.

Recommendation: I respectfully recommend from an engineering standpoint the award of the contract for work under Agreement "CU," Construction of a Signal Tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Section No. 2, Borough of The Bronx to the lowest bidder, John B. Roberts & Co. at its bid figure of \$12,757.50 and that a requisition be made on the Board of Estimate and Apportionment for the appropriation of this amount to be charged to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for construction of a signal tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Agreement "CU," Route No. 18, Section No. 2, Borough of The Bronx, was finally adopted on

[November 13, 1923]

October 30, 1923 and subsequent to advertisement duly made, bids respectively totalling as follows were received on November 9, 1923:

John B. Roberts & Co.....	\$12,757.50
Edward Balaban & Co.	12,807.00
John Pollock	13,365.40

; and

Whereas, The Chief Engineer of this Commission, by communication dated November 10, 1923, has reported that the amount of said bid is reasonable and that the said John B. Roberts and Co., the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it, and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$12,757.50, the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of said John B. Roberts and Co. submitted as aforesaid be and the same hereby is accepted and the said proposed contract for the construction of a signal tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Agreement "CU," Route No. 18, Section No. 2, Borough of The Bronx, be and the same hereby is awarded to the said John B. Roberts & Co., subject to its being approved and consented to in form and substance, as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$12,757.50, estimated to be necessary to meet the City's obligation under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution was as follows:

November 13, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission and John B. Roberts & Co., for the construction of a signal tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Agreement "CU", Route No. 18, Section No. 2, Borough of The Bronx, together with a requisition upon your Honorable Board for the appropriation of the sum of Twelve Thousand, Seven Hundred and Fifty-seven Dollars and Fifty Cents (\$12,757.50) being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on November 9, 1923, respectively totalling as follows:

John B. Roberts & Co.....	\$12,757.50
Edward Balaban & Co.....	12,807.00
John Pollock	13,365.40

The Chief Engineer of this Commission in a communication dated November 10, 1923, reports that the bid of John B. Roberts & Co., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to said John B. Roberts & Co., subject to its being approved and consented to in form and substance, as required by law.

Your Board is therefore, requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Twelve Thousand Seven Hundred and Fifty-seven Dollars and Fifty cents (\$12,757.50) and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means of meeting the City's obligation under said proposed

contract, to wit, the sum of Twelve Thousand, Seven Hundred and Fifty-Seven Dollars and Fifty Cents (\$12,757.50).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1586—R. T. 7011

Contract No. 4—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Requisition for Additional Appropriation of \$3,000 for Maintenance of Lines Prior to Operation—Approval Resolution—Requisition upon Board of Estimate and Apportionment

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 8, 1923, recommending the making of a requisition upon the Board of Estimate and Apportionment, for an appropriation of an additional sum of \$3,000 for Maintenance of Lines Prior to Operation, under Contract No. 4.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment has established a fund for the purpose of defraying expenses in connection with the Maintenance Prior to Operation of the railroad described in the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated November 8, 1923, reported with respect to the present and future necessities in connection with the Maintenance Prior to Operation of the Railroad under said Contract No. 4, and recommended the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of an additional sum of \$3,000 under and for the purposes of said fund so established.

Resolved, That the said report and recommendation be and the same hereby is approved and that the requisition in the form now submitted by Counsel, which will effect such recommendation, be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution was as follows:

November 13, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board has established a fund known as Code CCM-406, Maintenance Prior to Operation under the contract dated March 19, 1913, known as Contract No. 4.

The Chief Engineer of this Commission has reported, under date of November 8, 1923, with respect to the said fund as follows:

“On June 29, 1923, the Board of Estimate and Apportionment appropriated \$5,000 for the Maintenance of Contract No. 4 lines prior to Operation, making a total of \$48,000 appropriated for this work. The available balances in the fund since that time are reported to have been as follows:

Date	Available Balance
July 26th	\$6,057.41
August 14th	5,655.05
October 2nd	3,956.44
November 2nd	3,058.63

From the above figures, it will be noted that the expenditures are averaging \$1000 a month and it is likely that in the next few months, the rate of expenditure will not be much below the previous average. Accordingly, it is probable that the balance on hand will be exhausted early in 1924. The earliest possible date at which train operation may be begun in the 14th St.-Eastern Subway, where most of the money from the fund for Maintenance of Contract No. 4 lines prior to Operation is expended, is early in the spring of 1924. Accordingly, it would seem advisable that at least \$3000 additional be made available in the said fund.

In making this recommendation, I assume that the City is still responsible for pumping in the 14th St.-Eastern Subway, until the line is completed and ready to turn over to the operating company.

Recommendation—

From the engineering standpoint, I accordingly recommend that requisition be made on the Board of Estimate and Apportionment for the sum of \$3,000 in addition to previous appropriations for the Maintenance of Contract No. 4 lines prior to Operation."

The Transit Commission has approved said report and requisition is accordingly made upon your Honorable Board for the additional appropriation of Three thousand dollars (\$3,000) for Maintenance Prior to Operation of the Railroad described in said Contract No. 4 between the time of the completion thereof and the beginning of operation, to be defrayed from the proceeds of corporate stock chargeable to said Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1587—R. T. 7494

Routes Nos. 16, 18, 36 & 37 and 50—Reports by Chief Engineer Recommending Approval of Agreements with Interborough Rapid Transit Company for Repairs to Leaks in Mezzanines at Stations of Jerome Avenue, White Plains Road, and Queensboro Lines—Proposed Agreements—Approval Resolution—Requisition upon Board of Estimate and Apportionment

Reports were presented from the Chief Engineer dated December 20, 1922, October 8, 1923 and November 8, 1923, recommending that proposed agreements be entered into with the Interborough Rapid Transit Company, for making repairs to leaks in mezzanines at certain stations of the elevated portions of the Jerome Avenue, White Plains Road and Queensboro Subway Lines, at estimated costs of \$17,000 for the Jerome Avenue and White Plains Road Lines and \$20,000 for the Queensboro Subway Lines. Two proposed agreements with the Interborough Rapid Transit Company were also submitted.

The following resolution was adopted:

Whereas, Heretofore and on or about the 19th day of June, 1922 The City of New York, acting by this Commission, entered into an agreement with Interborough Rapid Transit Company, for the performance of the work of remedying the leaky conditions of the mezzanine roofs at certain stations of the elevated portions of the Jerome Avenue and White Plains Road Lines of the Railroad as described in the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3; and

Whereas, By communications dated December 20, 1922, October 8, 1923 and November 8, 1923 the Chief Engineer of this Commission has recommended that similar work be performed on other and additional stations of the said Jerome Avenue and White Plains Road Lines and also on the elevated portions of the Queensboro Subway Line of said Railroad, the estimated cost of such additional work on the Jerome Avenue and White Plains Road Lines being \$17,000, and the estimated cost of such work on the Queensboro Lines being \$20,000; and

Whereas, Counsel has prepared and submitted two proposed agreements with the Interborough Rapid Transit Company, similar to the agreement of June 19, 1922 afore-

said, providing for such additional work on the stations of the municipal railroads indicated, together with a proposed requisition upon the Board of Estimate and Apportionment for the consent of said Board and the appropriation of the moneys estimated to be necessary to carry out said two proposed agreements, and has recommended the adoption and approval thereof,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed agreement and requisition so submitted be and the same hereby are approved and adopted and that said proposed agreements, together with said requisition, be transmitted to said Board of Estimate and Apportionment.

Further Resolved, That upon approval by said Board of Estimate and Apportionment and the approval of said proposed agreements as to form by the Corporation Counsel, the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed agreements.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution was as follows:

November 13, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

On April 28, 1922 your Honorable Board, pursuant to the requisition of this Commission dated May 25, 1921, consented to a proposed agreement between The City of New York, acting by this Commission, and Interborough Rapid Transit Company, for the performance of the work of remedying the leaky condition of the mezzanine roofs of eight stations on the Jerome Avenue Line and five stations on the White Plains Road Line of the Railroad, as described in the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and appropriated, for the purposes of carrying out the obligations of the City thereunder, the sum of Twenty thousand dollars (\$20,000).

So far as pertinent to this presentation the requisition of May 26, 1921 stated:

"The design of portions of the Municipal Elevated Rapid Transit Railroads constructed pursuant to the dual contracts, known as Contracts Nos. 3 and 4, and particularly the Jerome Avenue and White Plains Road Line under Contract No. 3 and subdivision VIII of the Broadway-Fourth Avenue Line described in Contract No. 4, known as the New Utrecht Avenue Line provided for the construction of track floors, which compose the mezzanine roofs at the stations to be constructed of concrete masonry slabs which rested on steel "I" beams and girders. These concrete masonry slabs were waterproofed by means of a woven fabric treated in and laid in pitch and the joint between the slab and the steel was waterproofed by means of an elastic waterproofing compound. Notwithstanding such precautions leaks have developed in the track floors, the reason for which being that the trains in passing over the steel girders cause the girders to deflect and after the trains have passed the girders resume their original position causing a constant movement of the girders, which finally breaks the joint between the concrete and the steel and permits the water to leak through.

The subject of ascertaining the best way of remedying this condition on the mezzanine roofs of the elevated lines is one of great difficulty and has been the subject of considerable study and consideration.

A form of contract was prepared and bids were received on May 14, 1920 for the solution of this difficulty on the New Utrecht Avenue Line, Contract No. 4. The lowest bid, only one bid being received, though many reputable concerns were invited to bid, was \$130,971.60, which was rejected because it was considered too high. The plan involved in this proposed contract consisted in repairing the leaks and in addition provided wooden covers at the level of the top of the railroad ties to exclude, so far as possible, snow, paper and rubbish from finding their way to the top of the mezzanine roof, and stopping up the drains provided for carrying away the water. Forty per centum of the bid so submitted was due to the provision for the wooden covers, but even with that item eliminated the price was more than was deemed by this Department to be a reasonable one for procuring a water tight mezzanine roof. It is assumed that the high price submitted was due, in great measure, to the difficulty in getting

at the places on the mezzanine roofs, which work would have to be performed under operating conditions.

Other methods were devised with a view to a simplification of the design in effecting the result desired. The engineers of the New York Municipal Railway Corporation and the Interborough Rapid Transit Company considered the subject and joined in a conference with the engineers of this Department to arrive at a conclusion as to a better method of securing a satisfactory result. It developed that the Interborough Company has experimented with repair work on the mezzanines of their elevated lines in the Bronx to find a satisfactory way of remedying the leaky conditions and that the result of their efforts seems to have been entirely satisfactory. The cost of performing such work, according to the method devised by that Company, has varied between \$1100 and \$1400 per mezzanine.

* * *

Part of the work involved necessitates removing the guard rails and removing the ties a few at a time, all of which must be done in the trainways without interfering with the operation of trains. If this proposed work of waterproofing were done by a contractor other than the Interborough Rapid Transit Company, the contractor would have to have the Company perform the work described in the trainways, as the Interborough Rapid Transit Company would not permit other than its own men to perform this work. It is therefore considered advisable to have the operating company perform all the work directly as a contractor for the City both as a matter of safety and of economy."

Under date of December 20, 1922 the Chief Engineer of this Commission reported that the work of making repairs to the waterproofing over the mezzanines on the group of stations included in the agreement approved by your Board as aforesaid had progressed satisfactorily and recommended that similar repairs should be undertaken by the operating company on other stations of the elevated portions of the municipal rapid transit railroad system, including additional stations on the Jerome Avenue and White Plains Road Line and also on portions of the Queensboro Line of the said Railroad.

The first group of stations included in one of the proposed agreements with the Interborough Rapid Transit Company, transmitted herewith, is as follows:

Jerome Avenue Line

161st Street Station
Mt. Eden Station
Mosholu Parkway Station (2 mezzanines)

White Plains Road Line

180th Street Station
Bronx Park East Station
225th Street Station
233rd Street Station
238th Street Station
241st Street Station

making in all ten mezzanines at nine stations, the estimated cost of which work is Seventeen Thousand dollars (\$17,000), and the second group of stations, for which a separate proposed agreement with the Interborough Rapid Transit Company is transmitted herewith, is the following:

Routes 36 & 37, Section 2

Beebe Avenue Station
Washington Avenue Station
Broadway Station
Grand Avenue Station
Hoyt Avenue Station
Ditmars Avenue Station

Routes 36 & 37, Section 3

Lincoln Avenue Station (2 mezzanines)
Woodside Avenue Station
Fiske Avenue Station

Routes 36 & 37, Section 3—Continued

Broadway Station
 25th Street Station
 Elmhurst Station
 Junction Avenue Station
 Alburts Avenue Station

Route 50

11th Street Station

making in all sixteen mezzanines at fifteen stations, the estimated cost of which work is Twenty thousand dollars (\$20,000).

The geographical location of the work naturally divides itself into two groups as provided for in the separate agreements. The controlling necessity, however, for this division, is the limitation of an estimated cost of Twenty-five thousand dollars (\$25,000) for entering into agreements without public advertisement, as more particularly prescribed by the Rapid Transit Act.

The Transit Commission requests your Honorable Board to consent to the two proposed agreements transmitted herewith and to appropriate for the purpose of meeting the obligations of the City under the proposed agreement for the performance of the work on the stations of the Jerome Avenue and White Plains Road Lines the sum of Seventeen thousand dollars (\$17,000), and to appropriate for the purpose of meeting the obligations of the City under the proposed agreement for the performance of the work on the stations of the elevated portions of the Queensboro Line the sum of Twenty thousand dollars (\$20,000), both sums to be in addition to the appropriations heretofore made for the purpose of carrying out the said Contract No. 3.

TRANSIT COMMISSION,
 By GEORGE McANENY,
 Chairman.

1588—R. T. 6881

Order No. 3—Application by Bethlehem Steel Products Company for Further Extension of Time to December 31, 1924, within Which to Complete Delivery of Open Hearth Rail—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Bethlehem Steel Products Company, dated November 6, 1923, requesting a further extension of time to and including December 31, 1924, within which to complete delivery of 85 pound and 100 pound open hearth rail, Order No. 3.

A report was presented from the Chief Engineer, dated November 9, 1923, recommending approval.

The following resolution was adopted:

Whereas, The City of New York, acting by the Public Service Commission for the First District, heretofore entered into a contract dated August 25, 1915, with Bethlehem Steel Products Company for the supply of open hearth rail (Order No. 3) for use in the construction of rapid transit railroads, pursuant to which said contract the obligation of said company to furnish such open hearth rail as in said contract provided, ceases on the 31st day of December, 1923 as provided in an order of the Transit Commission adopted October 31, 1922; and

Whereas, The said Bethlehem Steel Products Company, by communication dated November 6, 1923, has requested a further extension of time within which to deliver the open hearth rail in accordance with the provisions of said contract to and including December 31, 1924, and the Chief Engineer of this Commission, by communication dated November 9, 1923 reports that it is to the City's interest to have the delivery of this rail deferred and recommends that the request of the said contractor be granted,

Resolved, That in accordance with the provisions of the order of the Transit Construction Commissioner adopted on November 25, 1919 as modified by the order of the Transit Construction Commissioner adopted on June 8, 1920 and in accordance with the provisions of said latter order and upon condition that the said contract, except as herein specifically provided, shall remain in all respects unchanged and that

the said Bethlehem Steel Products Company shall deliver to this Commission in duplicate with execution duly approved, its written acceptance together with the consents of its sureties of the terms hereof and upon condition further that said Bethlehem Steel Products Company and its sureties shall forthwith, if and when demanded by this Commission, at any time or times, execute and deliver to this Commission such instruments and arrangements as shall be required by this Commission, in order to modify the said contracts in accordance with the terms hereof, that the time of the Bethlehem Steel Products Company within which to make delivery of eighty-five pound rail and one hundred pound rail in accordance with the provisions of said contract be and the same hereby is extended to and including the 31st day of December, 1924.

1589—R. T. 6080

Routes Nos. 19 & 22, Section No. 2—Application by Louisa Bauer for Permission to Occupy Premises at No. 1670 Eastchester Road, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Louisa Bauer, dated November 8, 1923, requesting permission to occupy a frame building on the property at No. 1670 Eastchester Road, Borough of The Bronx, at a rental of \$20 per month, beginning August 21, 1923.

A report was presented from the Real Estate Clerk, dated November 12, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Louisa Bauer by application dated November 8, 1923, has requested permission to occupy a frame building on the premises known as No. 1670 Eastchester Road, Borough of The Bronx, part of property acquired by condemnation on August 21, 1923, for purposes of the Westchester Avenue Line Storage Yard, agreeing to pay rent at the rate of \$20.00 per month beginning August 21, 1923, to vacate on fifteen (15) days' notice and to other conditions of a character usually contained in similar applications; and

Whereas, The Real Estate Clerk, under date of November 12, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

1590—R. T. 7457

Route No. 8, Section No. 2—Report by Chief Engineer Recommending Deduction for Hand Rail Not Installed under Contract for Enclosure to Inspection Shed at 180th Street Yard—Approved

A report was presented from the Chief Engineer dated November 11, 1923, recommending that a deduction be made from the estimate of the Rosenthal Engineering & Contracting Company at the rate of \$1 per linear foot of oak hand rail not installed under the contract for the enclosure to the inspection shed at the 180th Street Yard. Upon motion duly seconded and adopted the report was approved.

1591—R. T. 7177

Routes Nos. 36 & 37 and 52, Section No. 3—Notice to Queens Subway Apartment & Loft Building Corporation That It Will Be Required to Pay Rental for Fill on City-Owned Site for Proposed Corona Storage Yard—Approved

The following notice was approved:

November 13, 1923.

Mr. N. G. DEGNON, Treasurer,
QUEENS SUBWAY APARTMENT & LOFT BUILDING CORPORATION,
50 East 42nd Street,
New York City, N. Y.
Dear Sir:

By the order of the court the time within which Degnon Realty & Terminal Improvement Company might remove the excess fill in the land acquired by the City of New York for a car storage yard in a rapid transit condemnation proceeding commonly known as Peartree Avenue Storage, Corona Meadows, was extended from November 15, 1922, to November 1, 1923. The report of the Chief Engineer of this Commission, dated November 5, 1923, states that on November 1, 1923, approximately 20% of this excess fill had been removed from the site. So far as this Commission has learned there is no record that your Corporation, as successor to the Degnon Realty & Terminal Improvement Company, has obtained a further extension from the court of the time within which to remove this fill beyond November 1, 1923. In connection with the final decree entered on February 21, 1922, which determined this excess fill to be personal property, Mr. Justice Van Sicken in his opinion stated in part as follows: "If the applicant seeks to retain it, the same must be removed expeditiously and without interference with the uses to which the petitioner is about to put the condemned property."

Continued occupancy of the premises by your Corporation constitutes an embarrassment to the planning and construction of the very necessary rapid transit car storage yard for which the property was condemned. It is not practicable at this date to estimate just how much loss this means to The City of New York, because of such embarrassment to rapid transit construction, in dollars and cents. However, it is apparent that such loss would not be less than the fair rental value of the land during this occupancy by your Corporation for the removal of personal property. It is therefore requested that your Corporation by responsible representatives take up this matter with Counsel to the Commission before December 1, 1923.

Very truly yours,
JAMES B. WALKER,
Secretary.

1592—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Cancellation of Proposed Contract with Power Specialty Company for Purchase of Superheater for 59th Street Power House and for Approval of Purchase from Babcock & Wilcox—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated November 12, 1923, for approval of the cancellation of the proposed contract with Power Specialty Company for the supply and installation of one Foster Radiant Superheater, to be installed under the new boiler in the 59th Power House and in substitution therefor to purchase the superheater from Babcock & Wilcox.

A report was presented from Consulting Engineer Dr. Charles E. Lucke, dated November 13, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad, and assigning Work Order No. D-12-A thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, this Commission by resolution adopted July 24, 1923, approved a proposed contract to be entered into between said Interborough Rapid Transit Company and Power Specialty Company for the delivery and installation of one Foster radiant superheater to be installed under the new boiler in the 59th Street Power House of said Interborough Rapid Transit Company at a total cost of \$6,800; and

Whereas, Consulting Engineer, Dr. Chas. E. Lucke, has by communication dated November 13, 1923, reported upon investigation by the Engineers of the Commission, the Interborough Rapid Transit Company and the Power Specialty Company, it is deemed advisable to cancel the contract entered into between the Interborough Rapid Transit Company and the Power Specialty Company and to withdraw the approval of the Commission thereto of July 24, 1923 and in substitution therefor to purchase pursuant to a proposed contract submitted with the Babcock and Wilcox Company one of its superheaters similar to others approved by the Commission for installation in said power house, the cost of which is \$5,833, which must be increased to approximately \$6,800., by reason of the additional brick work in front and rear walls of the boiler in which said superheater is to be installed, and recommends the approval of the proposed contract submitted by Interborough Rapid Transit Company for the purchase and installation of one Babcock and Wilcox superheater in the 59th Street Power House in substitution for the Foster radiant superheater as approved by the Commission on July 24, 1923 and the cancellation of such approval of the Commission; and

Whereas, By supplemental communication, Consulting Engineer, Dr. Chas. E. Lucke, has reported that the Power Specialty Company has agreed to the cancellation of the contract with the Interborough Rapid Transit Company for the supply of one Foster radiant superheater, without maintaining any claim for damages of any kind; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated November 16, 1923, has recommended that said Babcock & Wilcox superheater be classified as Additional Equipment for the Railroad and that Work Order No. D-12-A be assigned thereto;

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said resolution of July 24, 1923, approving said proposed contract with the Power Specialty Company for the manufacture and delivery of one Foster radiant superheater be and the same hereby is in all respects cancelled; that the said proposed contract now submitted by the Interborough Rapid Transit Company for the purchase and installation of one Babcock and Wilcox superheater in said 59th Street Power House, as recommended by Consulting Engineer, Dr. Chas. E. Lucke, in his report of November 13, 1923, together with the plans and specifications therefor be and the same hereby are approved and adopted, the cost of such superheater to be classified as Additional Equipment of the Railroad as described in said Contract No. 3 and as to which this Commission assigns Work Order No. D-12-A.

1593—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Elimination of Penalty Clause from Proposed Contract for Two Induced Draft Centrifugal Blowers for 59th Street Power Station—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated November 9, 1923, requesting approval of the elimination of article XI from the proposed contract between the Interborough Rapid Transit Company and the B. F. Sturtevant Company, for the manufacture of two Induced Draft Centrifugal Blowers for the 59th Street Power Station.

The following resolution was adopted:

Whereas, This Commission, by resolution adopted July 10, 1923, approved a proposed contract between the Interborough Rapid Transit Company and the B. F.

Sturtevant Company, for the manufacture of two (2) 15 ft. Cindervane design No. 1 Induced Draft Centrifugal Blowers, at a cost of \$16,144; and

Whereas, Said contract contained the following Article:

"XI. In case the Contractor shall fail to deliver the Equipment, as designated in Article X hereof, within the time or times fixed for such delivery or within the time or times to which such delivery may be extended by the Company, the Contractor shall and will pay to the Company the sum of Five Dollars (\$5.00) for each and every day the delivery of each blower is delayed beyond such time or times, which said sum in view of the difficulty of ascertaining the exact damage which the Company will suffer by reason of such delay, is hereby agreed upon not as a penalty but as liquidated damages which the Company will suffer by reason of such delay; and the Company shall and may deduct and retain the amount of such liquidated damages out of moneys which may be due or become due to the Contractor under this contract."

; and

Whereas, The said Interborough Rapid Transit Company has, by communication dated November 9, 1923, made application to the Commission for its approval of the elimination of said Article XI from said contract upon the ground that it is against the policy of the contractor to execute contracts containing penalty clauses; and

Whereas, Counsel finds no objection to the elimination of said Article XI from said contract,

Resolved, That the application of the Interborough Rapid Transit Company, as aforesaid, for the elimination of Article XI above quoted from the contract between it and B. F. Sturtevant Company, dated April 13, 1923, for the manufacture of two (2) 15 ft. Cindervane Design No. 1 Induced Draft Centrifugal Blowers, at a cost of \$16,144 be and the same hereby is approved.

1594—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Elimination of Penalty Clause from Proposed Contract for Manufacture of Two Forced Draft Centrifugal Blowers for 59th Street Power Station—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated November 9, 1923, requesting approval of the elimination of Article XI from the proposed contract between the Interborough Rapid Transit Company and the B. F. Sturtevant Company for the manufacture of two forced draft centrifugal blowers for the 59th Street Power Station.

The following resolution was adopted:

Whereas, This Commission, by resolution adopted July 10, 1923, approved a proposed contract between Interborough Rapid Transit Company and the B. F. Sturtevant Company for the manufacture of two forced draft centrifugal blowers for the 59th Street Power House, at a cost of \$5,786; and

Whereas, Said contract contained the following Article:

"XI. In case the Contractor shall fail to deliver the Equipment, as designated in Article X hereof, within the time or times fixed for such delivery or within the time or times to which such delivery may be extended by the Company, the Contractor shall and will pay to the Company the sum of Five dollars (\$5.00) for each and every day the delivery of each blower is delayed beyond such time or times, which said sum in view of the difficulty of ascertaining the exact damage which the Company will suffer by reason of such delay, is hereby agreed upon not as a penalty but as liquidated damages which the Company will suffer by reason of such delay; and the Company shall and may deduct and retain the amount of such liquidated damages out of moneys which may be due or become due to the Contractor under this contract."

; and

Whereas, Interborough Rapid Transit Company by communication dated November 9, 1923, made application to the Commission for its approval of the elimination of said

Article XI from said contract on the ground that it is against the policy of the contractor to execute contracts containing penalty clauses; and

Whereas, Counsel finds no objection to the elimination of said Article XI from said contract,

Resolved, That the application of the Interborough Rapid Transit Company, as aforesaid, for the elimination of Article XI above quoted, from the contract between it and B. F. Sturtevant Company, for the manufacture of two forced draft centrifugal blowers for the 59th Street Power House, at a cost of \$5,786, be and the same hereby is approved.

1595—R. T. 7694

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Basis of Accounting for Items of Work in Connection with Ventilating Equipment at 131st Street Fan Chamber of Lexington Avenue Line—Report by Engineer of Equipment and Operation and Chief Engineer, Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated October 16, 1923, requesting approval of a basis of accounting for various items of work in connection with the ventilating equipment at the 131st Street fan chamber of the Lexington Avenue Line,—the work to be done as Construction, and the cost thereof to be charged against the company's contribution toward the Cost of Construction, under Contract No. 3.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 5, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, concurring in such classification.

The following resolution was adopted:

Whereas, Pursuant to the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has by communication dated October 16, 1923, by its President and General Manager, submitted for the approval of this Commission a basis of accounting for the various items of work necessary in connection with the providing of ventilating equipment at the 131st Street fan chamber of the Lexington Avenue Line of the Railroad, as described in said Contract No. 3, such being as stated by said President and General Manager in said letter as follows:

"I have to advise that the Company is willing in this instance to undertake this work and charge the cost thereof as outlined by Mr. Ridgway in his letter of September 18, 1923, to wit: The work of structural changes, consisting of enlargement of openings in the curtain walls at the fan location will be done and the cost charged to Equipment, and the work of construction of walls enclosing the emergency stairways and construction of concrete floors will be done as Construction and the cost thereof charged against this Company's contribution toward the cost of Construction under Contract No. 3."

; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated November 5, 1923, reported that the plans for such work have been approved, and recommend that approval be given to said proposal of Interborough Rapid Transit Company for the cost accounting of such work; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated November 8, 1923, concurs in such classification,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company of October 16, 1923, be and the same hereby is approved and that the said Interborough Rapid

Transit Company be and hereby is authorized to perform the work of installing such ventilating equipment at the 131st Street fan chamber aforesaid as indicated on its drawings Nos. S-4,111, S-4,112, S-4,113, and S-4,114, the cost thereof to be classified as indicated in said proposal of said Interborough Rapid Transit Company hereinbefore more particularly set forth.

1596—R. T. 7583

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Agreement for Maintenance of Pole on Westerly Side of Shell Road South of 86th Street, Borough of Brooklyn—Report by Engineer of Equipment and Operation and Chief Engineer and Memorandum by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 17, 1923, requesting approval of a proposed agreement with Marianna Russo and Maria Piro for the maintenance and operation of a pole line carrying high tension wires over certain property on the westerly side of Shell Road south of 86th Street, Borough of Brooklyn, at an annual payment of \$45.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 31, 1923, together with a memorandum by the Real Estate Clerk dated November 8, 1923, recommending that the application be approved, which report and memorandum were endorsed by the Auditor of Rapid Transit Costs classifying the expenditure as Operating Expense.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated October 17, 1923 submitted for the approval of this Commission a proposed agreement between said New York Rapid Transit Corporation and Marianna Russo and Maria Piro dated September 1, 1923, granting to said corporation the right to maintain and operate a pole line carrying high tension wires over property known as Lot No. 18 in Block 7191 on the westerly side of Shell Road south of 86th Street in the Borough of Brooklyn, City of New York, for which right the corporation is to pay an annual sum of forty-five dollars (\$45), and which right is revocable upon sixty (60) days in writing; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated October 31, 1923 have reported that the pole line was built several years ago and carries high tension wires supplying power to the Coney Island substation which feeds both surface and rapid transit lines; that the pole line is necessary for the proper operation of the rapid transit lines in this vicinity; that the annual rental is considered reasonable and recommend the approval of said proposed agreement; and

Whereas, The Real Estate Clerk by memorandum dated November 8, 1923, recommends that the said proposed agreement be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated November 7, 1923, has recommended that such expenditure be classified as Operating Expense,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed agreement so submitted be and the same hereby is approved; the expenditure to be made thereunder to be charged to Operating Expense under Contract No. 4.

1597—R. T. 6668, 7112

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Installing Conduits in Shafts and Building Splicing Chambers in Whitehall Street Shaft of Montague Street Tunnels—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work as Operating Expense—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 22, 1923, requesting approval of a proposed purchasing agent's order directed to The Maintenance Company, Inc. for furnishing and installing conduits in the Furman Street and Whitehall Street Shafts and building splicing chambers in the Whitehall Street Shaft of the Montague Street Tunnels at a cost of \$10,048.50.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 31, 1923, recommending approval.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations dated November 8, 1923, classifying the cost as an Operating Expense payable out of the revenue of the Railroad under Contract No. 4.

The following resolution was adopted:

Whereas, A predecessor of this Commission, the Public Service Commission for the First District, by resolution adopted September 24, 1918, approved a proposed agreement between the New York Consolidated Railroad Company, New York Telephone Company and the City of New York, acting by said Commission, for the rental of ducts in the Montague Street and 14th Street Tunnels under the East River, being parts of the railroad described in said Contract of March 19, 1913, between The City of New York, acting by said Public Service Commission and New York Municipal Railway Corporation, known as Contract No. 4, which contract with the New York Telephone Company provides in part as follows:

"The ducts leased under this contract will include ducts and splicing chambers in the river shafts and connecting drifts or tunnels at either side of the East River, being such pipes or ducts as may be necessary to connect the ducts in the tunnel with the manhole at the top of the river shafts, at which manhole at the top of the river shaft the Telephone Company will connect with its duct lines on the outside of the walls of the respective shafts. All such ducts will be provided without expense to the Telephone Company.

Such pipes, unless installed as part of 'Construction' or as part of 'Equipment' of the Railroad, as such terms are respectively defined and used in said Contract No. 4, shall be provided and installed from time to time by and at the expense of the Railroad Company or, at the request of the Railroad Company, may be provided and installed from time to time by the Telephone Company, in which latter event the cost thereof to the Telephone Company shall be deducted from the rental payable by the Telephone Company to the Railroad Company under this contract; the understanding being that, to the extent said pipes are provided and installed by either the Railroad Company or the Telephone Company, there shall be provided and installed only such number of said pipes as may from time to time be immediately required for use by the Telephone Company. If the Railroad Company shall provide and install such pipes, it shall have the right to charge the expense thereof to the actual and necessary cost of operating the Railroad under said Contract No. 4. The said pipes, whether provided by the Railroad Company or by the Telephone Company, shall be part of the Railroad. The said pipes are included in the lease under this contract, and the Telephone Company shall pay rental therefor at the rate herein provided as aforesaid."

; and

Whereas, Pursuant to the said contract and the provisions of said Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4 and said contract with the Telephone Company has by communication dated October 22, 1923, submitted for the approval of this Commission, a proposed purchasing agent's order dated October 19, 1923, directed to The Maintenance Company, Inc. for the following:

Furnish and install 3½" Steel or Wrought Iron Conduits in and adjacent to the Furman St. and Whitehall St. Shafts and construct splicing chambers in the Whitehall Street Shaft of the Montague-Whitehall St. Tunnel, Broadway-Fourth Avenue Line, as per specifications dated August 22nd, 1923; also our Drawings C-5733 and C-5734 and Transit Commission Plan No. 1001, File 2602.

For the total lump sum price of..... \$10,048.50

Work to be completed within 100 days from date of order. Bond called for in Paragraph No. 14 of the specifications, in the sum of \$25,000 will be required.

Payments for work done under this order will be made to the Contractor on the 20th day of each month for 90% of the Engineer's estimated value of the work performed during the preceding month, provided the contractor is making satisfactory progress, and payments by the Contractor to any sub-contractor, for work covered by this order, are being made consistent with payments made by the Company to the Contractor. Balance due will be paid within thirty (30) days after completion and acceptance of the work by our Engineer.

Work will be under the direct supervision of Mr. H. J. Kolb, Engr. Way & Structure, Room 1000, 85 Clinton St., Brooklyn, N. Y., with whom all questions of detail, etc. should be taken up.

The work will also be done in accordance with and subject to the obligations of the New York Rapid Transit Corp. under Contract No. 4 with the City of New York, which contract is dated March 19th, 1913.

; together with specifications dated August 22, 1923, made part thereof, which proposed purchasing agent's order has been caused to be designated as "Approval No. 376"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated October 31, 1923 reported that the following bids were received for such work:

The Maintenance Company, Inc.....	\$10,048.50
(Including \$25,000.00 bond).	
Isidor Fajans, Inc.	*11,500.00
Empire City Subway Company.....	*20,708.86
B. T. & J. J. Mack.....	Could not bid
Seymour Construction Company	Could not bid

; that the plans covering such installation were approved on September 5, 1923; that The Maintenance Company is competent to perform the work; that the price is reasonable and the best obtainable; that the form of the order and the specifications are satisfactory from an engineering standpoint; that these conduits are necessary to provide connections between the subway ducts and the manholes of the Telephone Company at the top of the shafts as called for in said contract heretofore approved on September 24, 1918, and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication dated November 8, 1923, recommended that the cost of the proposed work under said proposed purchasing agent's order be classified as an Operating Expense payable out of the revenue of the Railroad described in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; and that the said proposed purchasing agent's order and the specifications made part thereof be and the same hereby are approved, and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order; that the cost thereof be classified as Operating Expense and shall be paid for out of revenue of the Railroad under said Contract No. 4.

*Bond not included.

1598—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing and Installing Telephone Cables for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 25, 1923, requesting approval of a proposed purchasing agent's order directed to B. T. & J. J. Mack, Inc. for furnishing and installing telephone cables for the Fourteenth Street-Eastern Line at a total cost of \$15,091.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 3, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated October 25, 1923, submitted for the approval of this Commission, a proposed purchasing agent's order dated October 24, 1923, directed to B. T. & J. J. Mack, Inc., for the following:

Furnish and install telephone cables and related work 14th Street-Eastern Line, in accordance with attached specifications dated July 25th, 1923, revised October 18th, and list of prices attached.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 379"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated November 3, 1923, reported that the following bids were received for such work:

B. T. and J. J. Mack, Inc.....	\$15,091.00
James Sugden Co.	16,453.00
Seymour Construction Co.	17,026.00
Federal Construction Co.	Did not bid.
Standard Underground Cable Co.....	Did not bid.

that B. T. and J. J. Mack, Inc. are competent to perform the work; that the price is reasonable and the forms of the orders and the specifications are satisfactory from an engineering standpoint; and recommends that the said proposed purchasing agent's order be approved; and

Whereas, By endorsement dated November 8, 1923 the Auditor of Rapid Transit Costs has recommended that such work be classified as Equipment of the Railroad as described in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such work to be classified as Equipment of the Railroad, as described in said Contract No. 4.

1599—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Telephone Cables for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 25, 1923, requesting approval of a proposed purchasing agent's order directed to the American Electrical works for furnishing 42,000 feet of paper insulated lead covered telephone cable for use in the Fourteenth Street-Eastern Line at a cost of \$9,826.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 3, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated October 25, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated October 24, 1923, directed to American Electrical Works, for the following:

4,000 Ft. 50 Pr. 19 Gauge Paper Insulated Lead Covered Telephone	37.9¢ Per Foot
16,000 Ft. 30 Pr. 19 Gauge Paper Insulated Lead Covered Telephone	26.5¢ Per Foot
22,000 Ft. 20 Pr. 19 Gauge Paper Insulated Lead Covered Telephone	18.5¢ Per Foot
F. O. B. 40th St. Sta. So. Bklyn Ry.	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 380"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated November 3, 1923, reported that the following bids were received for such work:

American Electrical Works.....	\$9,826.00
Standard Underground Cable Co.....	12,417.40
Safety Insulated Wire and Cable Co.....	Could not quote
Western Electric Co.	Could not quote
J. A. Roebling's Sons Co.....	Could not quote

that the American Electrical Works are competent to perform the work; that the prices are reasonable and the forms of the orders and the specifications are satisfactory from an engineering standpoint and recommend that under the provisions of Contract No. 4, approval be given to a proposal of New York Rapid Transit Corporation to place a purchasing agent's order with the American Electrical Works in form dated October 24, 1923, designated Approval No. 380 for the furnishing of certain lead covered telephone cable; and

Whereas, By endorsement dated November 8, 1923 the Auditor of Rapid Transit Costs has recommended that such work be classified as Equipment of the Railroad, as described in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such work to be classified as Equipment of the Railroad as described in said Contract No. 4.

1600—R. T. 6685, 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing Escalator at Lawrence Street Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated October 25, 1923, requesting approval of a proposed purchasing agent's order directed to Otis Elevator Company, for furnishing and installing one escalator at the Lawrence Street Station, for the sum of \$25,300.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer dated November 7, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated October 25, 1923, requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated October 24, 1923 directed to Otis Elevator Company, for the following:

Furnish and install one (1) cleat step type escalator at Lawrence Street Station, Broadway-4th Avenue Line, in accordance with your proposal dated August 16, 1923.

For the sum of..... \$25,300.00 which proposed purchasing agent's order has been caused to be designated as "Approval No. 381"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated November 7, 1923, reported that under date of July 24, 1923 the Secretary of the Commission directed New York Rapid Transit Corporation to proceed with the installation of this escalator; that the price to be paid is reasonable and the best obtainable; that competitive bids were not obtained because the Otis Company is the only builder of escalators suitable for use in the subway, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs has, by endorsement dated November 8, 1923, recommended that the cost of such material be classified as Equipment of the Railroad as defined in said Contract No. 4;

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such work to be classified as Equipment of the Railroad as defined in said Contract No. 4.

1601—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Destination Signs for New Subway Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 26, 1923, requesting approval of a proposed purchasing agent's order directed

to Hunter Illuminated Car Sign Company for equipping fifty new subway cars with destination signs at a total cost of \$10,500.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 7, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad to be performed under Work Order No. MBA-25 heretofore assigned.

The following resolution was adopted:

Whereas, This Commission by resolution adopted July 17, 1923 as therein more particularly set forth, approved the proposed contract to be entered into between New York Rapid Transit Corporation as successor to the rights and obligations under the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, and PRESSED Steel Car Company for the manufacture and delivery of bodies and trucks for fifty (50) steel passenger cars, Series 4000-4049 together with the plans and specifications therefor and classified such material as Additional Equipment of the Railroad as more particularly defined in said Contract No. 4, and assigned thereto Work Order No. MBA-25; and

Whereas, Pursuant to the provisions of said Contract No. 4 and said proposed contract so approved as aforesaid, New York Rapid Transit Corporation by communication dated October 26, 1923 has submitted for the approval of this Commission proposed purchasing agent's order dated October 26, 1923 directed to Hunter Illuminated Car Sign Company, for the following:

For Equipping Subway Trailer Cars 4000 to 4049 Inclusive

- 50 Car Equipments of Side Window Destination Signs, (four double curtain signs per equipment) complete with all attachments and operating mechanisms ready for installation, same as furnished on N. Y. M. Corp. Receiver's order 20999 except destination curtains are to be printed with 31 printed exposures with 3 blanks as per list revised 9/15/23 instead of 27 names and 2 blanks; route curtains to be printed with 24 names and 2 blanks as per list revised 9/15/23; lettering on these double printed opaque curtains to be in 4" block type outside with 2" space between names—3" block type inside, exactly same style as previously furnished

\$52.50 Per Sign
F. O. B. Flushing

which proposed purchasing agent's order has been caused to be designated as "Approval No. 382"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated November 7, 1923 reported that such signs are standard for the subway cars of the New York Rapid Transit Corporation and are necessary for indicating to passengers the route and destination of the trains; competitive bids have never been asked for such signs; that the purchase price is reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated November 9, 1923, has recommended that the cost under said proposed purchasing agent's order be classified as Additional Equipment for the Railroad under Work Order No. MBA-25 assigned as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such work to be classified as Additional Equipment for the Railroad under Work Order No. MBA-25 assigned as aforesaid.

1602—R. T. 7005, 7224

Contracts Nos. 3 & 4—Report by Consulting Engineer Dr. Lucke as to Problems Concerned for Supply of Power for Transit Service Operation—Approved

A report was presented from Consulting Engineer Dr. Charles E. Lucke approved by Acting Chief Executive Officer, George L. Lucas, dated October 8, 1923, as to the problems involved for supplying power for operation of the lines under Contracts Nos. 3 & 4 and submitting the following suggestions for improvement of conditions:

(a) A continuous power cost accounting system suitable as a guide for engineering judgments and conclusions on values of equipment or supplies used in generating power with annual summaries.

(b) A continuous power station record system to show all important capacities, efficiencies and losses, with annual summaries.

(c) A continuous power station inspection system to check reports on (b), and to provide facts on physical condition of equipment, its inspection and upkeep, with annual summaries compared with (e).

(d) A coal purchasing system based on value as measured by cost of steam.

(e) An equipment inventory periodically checked at regular intervals, and compared with (c).

(f) A prospective power demand determination, periodically checked and corrected according to new conditions, at regular intervals.

(g) A set of power plant plans for modernizing, improving costs, and increasing capacity in existing stations, in successive steps, and including ultimate limits, to be checked yearly against (a), (b), (c), (e) and (f).

(h) Plans for a first new power station, location, type, capacity and arrangement, with estimates of cost of installation and cost of operation, to be checked and modified periodically with reference to (f) and (g).

(i) Plans for exchange of power including purchase and sale, regularly or in emergency only, and with reference to all other power stations.

Upon motion duly seconded and adopted the report was approved.

1603—Cases 1264, 1380

The Long Island Railroad Company—Eliminations at Hempstead and Jamaica Turnpike et al.—Order Approving Detailed Plans for Five Bridges Adopted

The Secretary presented communications, dated October 4 and October 27, 1923, from L. V. Morris, Chief Engineer of The Long Island Railroad Company, submitting detailed plans of five bridges to be constructed in connection with the grade crossing eliminations directed by the Order in Cases Nos. 1264 and 1380, in the Borough of Queens.

The Secretary also presented a report, dated November 7, 1923, by C. J. Slipper, Assistant Engineer, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, recommending the approval of said plans.

Thereupon the Commission adopted and ordered filed an Order in Cases Nos. 1264 and 1380, in the following form:

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

IN THE MATTER

of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossing with the tracks of THE LONG ISLAND RAILROAD COMPANY:

Hempstead and Jamaica Turnpike

CASE No. 1264.

ORDER APPROVING DETAILED PLANS.

IN THE MATTER

of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of THE LONG ISLAND RAILROAD COMPANY:

Bennett or Baylis Avenue
Wertland Avenue
Creed Avenue
Madison Avenue

CASE No. 1380.

The Public Service Commission having on or about the 8th day of December, 1911, adopted the orders and determinations herein as to changes in the grade crossings at the above named avenues and streets over the tracks of the Long Island Railroad Company having by communications under dates of October 4, 1923 and October 27, 1923, submitted for approval 21 detailed plans covering the details of the five bridges involved in said crossings, and the Commission having examined said plans, and it appearing that the same are satisfactory, it is hereby

Ordered, That the said plans described and identified as follows:

- Br. No. G.-130, Dwg. No. 1—Bennett Av.—Situation Plan dated Feb. 23, 1923
- Br. No. G.-130, Dwg. No. 2—Bennett Av.—Details of steel, revised Aug. 24, 1923
- Br. No. G.-130, Dwg. No. 3—Bennett Av.—Abutments—revised, Aug. 24, 1923
- Br. No. G.-130, Dwg. No. 4—Bennett Av.—Details of slab, dated Aug. 18, 1923
- Br. No. G.-131, Dwg. No. 1—Hempstead Turnpike—Situation Plan dated Nov. 26, 1922
- Br. No. G.-131, Dwg. No. 2—Hempstead Turnpike—Details of steel, revised Apr. 11, 1923
- Br. No. G.-131, Dwg. No. 3—Hempstead Turnpike—Abutments, revised June 11, 1923
- Br. No. G.-131, Dwg. No. 4—Hempstead Turnpike—Column pedestals revised Oct. 2, 1923
- Br. No. G.-131, Dwg. No. 5—Hempstead Turnpike—Details of slab dated Aug. 13, 1923
- Br. No. G.-135, Dwg. No. 1—Wertland Av.—Situation plan—dated Nov. 26, 1922
- Br. No. G.-135, Dwg. No. 2—Wertland Av.—Details of steel, revised Aug. 24, 1923
- Br. No. G.-135, Dwg. No. 3—Wertland Av.—Abutments, revised Aug. 8, 1923
- Br. No. G.-135, Dwg. No. 4—Wertland Av.—Details of slab, revised Sept. 15, 1923
- Br. No. G.-136, Dwg. No. 1—Creed Avenue—Situation plan—dated Dec. 20, 1922
- Br. No. G.-136, Dwg. No. 2—Creed Avenue—Details of steel, revised Aug. 25, 1923
- Br. No. G.-136, Dwg. No. 3—Creed Avenue—Abutments and column pedestals—revised Sept. 4, 1923

- Br. No. G.-136, Dwg. No. 4—Creed Avenue—Details of slab, dated Aug. 14, 1923

1604—Case 1379

Richmond Light and Railroad Company—Monthly Reports—Extension Order Adopted

The Secretary presented a communication, dated November 7, 1923, from the Richmond Light and Railroad Company asking for an extension of time to November 14, 1923, in which to file monthly report for August, 1923.

The Secretary also presented a report, dated November 12, 1923, by H. S. Fischer, Statistician, approved by the Chief, Bureau of Accounting and Valuations, recommending the granting of the application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1379, granting the desired extension of time to November 14, 1923.

1605—Case 2684

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which Cross Island Boulevard (Squire Street) Shall Cross Company's Tracks—Order Approving Detailed Plans Adopted

The Secretary presented a communication, dated October 4, 1923, from L. V. Morris, Chief Engineer, The Long Island Railroad Company, submitting for approval four detailed plans, showing general location, details of steel abutments, column pedestals and details of bridge slab, in connection with the elimination directed by the Order in Case No. 2684, adopted May 29, 1923.

The Secretary also presented a report, dated November 7, 1923, by C. J. Slipper, Assistant Engineer, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, recommending the approval of said plans.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2684, in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LEROY T. HARKNESS,	

IN THE MATTER
of the

Application of the City of New York for a determination as to the manner in which Cross Island Boulevard (Squire Street) shall be carried across the Main Line of THE LONG ISLAND RAILROAD COMPANY.

CASE No. 2684.
ORDER APPROVING DETAILED
PLANS.

The Commission having by order herein adopted May 29, 1923 determined the method by which Cross Island Boulevard (Squire Street) should be carried across the property of the main line division of the Long Island Railroad Company, namely by carrying said street across said tracks under the same, such tracks to be reconstructed by raising the same from their present elevation as prescribed in said order,

And the Long Island Railroad Company having by communication dated October 4, 1923 submitted for the approval of the Commission, four (4) detailed plans hereinafter described and the said plans having been examined by the Commission, and it appearing that the same are satisfactory, it is hereby

Ordered, That the said plans described and identified as follows:

- Br. No. G-126, Dwg. No. 1—Situation Plan, revised May 25th, 1923.
- Br. No. G-126, Dwg. No. 2—Details of steel, revised May 3rd, 1923.
- Br. No. G-126, Dwg. No. 3—Abutments & column pedestals, revised June 7th, 1923.
- Br. No. G-126, Dwg. No. 4—Details of slab, dated Aug. 13, 1923.

be and the same hereby are approved.

Further Ordered, That the approval of these plans shall not be deemed as binding the State of New York or the City of New York to pay any share of the cost of any additions and betterments to the railroad over and above such work as is necessary to the carrying of the said street across the said railroad.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1606—Case 2685

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which 211th Street (Bellaire Boulevard) Shall Cross Company's Tracks—Order Approving Detailed Plans Adopted

The Secretary presented a communication, dated October 4, 1923, from L. V. Morris, Chief Engineer, The Long Island Railroad Company, submitting for approval four detailed plans, showing general location, details of steel abutments and column pedestals and details of bridge slab, in connection with the elimination directed by the Order in Case No. 2685, adopted May 29, 1923.

The Secretary also presented a report, dated November 7, 1923, by C. J. Slipper, Assistant Engineer, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, recommending the approval of said plans.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2685, in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LEROY T. HARKNESS,	

IN THE MATTER
of the

Application of the City of New York for a determination as to the manner in which 211th Street (Bellaire Boulevard) shall be carried across the Main Line of THE LONG ISLAND RAILROAD COMPANY.

Case No. 2685.

ORDER APPROVING DETAILED
PLANS.

The Commission having by order herein dated the 29th day of May, 1923, determined the method of carrying 211th Street (Bellaire Boulevard) across the main line of the Long Island Railroad Company, namely by carrying the same under the said railroad tracks, such tracks to be reconstructed by raising the same from their present elevation as stated in said order;

And the Long Island Railroad Company having by communication dated October 4, 1923, submitted for the approval of the Commission four (4) detailed plans hereinafter described, and the Commission having examined said plans, and it appearing that same are satisfactory, it is hereby

Ordered, That the said plans described and identified as follows:

Br. No. G-128, Dwg. No. 1—Situation Plan, revised May 22nd, 1923.

Br. No. G-128, Dwg. No. 2—Details of steel, revised August 25th, 1923.

Br. No. G-128, Dwg. No. 3—Abutments and Column pedestals, revised May 23rd, 1923.

Br. No. G-128, Dwg. No. 4—Details of slab, dated August 14th, 1923.

be and the same hereby are approved.

Further Ordered, That the approval of these plans shall not be deemed as binding the State of New York or the City of New York to pay any share of the cost of any additions and betterments to the railroad over and above such work as is necessary to the carrying of the said street across the said railroad.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1607—Case 2657

The Long Island Railroad Company—Application of The City of New York for Determination as to the Manner in Which 192nd Street (Lancaster Avenue) Shall Cross Company's Tracks on Flushing and North Side Division—Report and Opinion Approved—Final Order and Determination Adopted

The Secretary presented a Report and Opinion, dated October 30, 1923, in Case No. 2657, by George L. Lucas, Acting Chief Executive Officer, recommending that 192nd Street (Lancaster Avenue) in the Borough of Queens, be extended across the tracks of the Flushing and North Side Division of The Long Island Railroad Company, by means of a temporary overhead foot bridge.

Thereupon the above mentioned Report and Opinion was approved and an Order in Case No. 2657 adopted and ordered filed in the following form:

Present:

GEORGE MCANENY,	} Commissioners.
Chairman,	
LEROY T. HARKNESS,	

IN THE MATTER
of the

Application of the Board of Estimate and Apportionment of the City of New York, for a determination as to the manner in which a temporary crossing for pedestrians should be carried across the tracks of the Flushing and Northside Division of The Long Island Railroad Company at 192nd Street (Lancaster Avenue) in the Borough of Queens.

Case No. 2657.

FINAL ORDER AND
DETERMINATION.

The Board of Estimate and Apportionment having by resolution dated April 21, 1922, made application to the Commission for a determination as to the manner in which a temporary crossing for pedestrians should be carried across the tracks of the Flushing and Northside Division of The Long Island Railroad Company at 192nd Street (Lancaster Avenue), in the Borough of Queens, and the Transit Commission having on May 23, 1922, adopted an Order directing that a hearing on said application be held on the 24th day of October, 1923, and having designated and certified George L. Lucas, Acting Chief Executive Officer, to conduct said hearing, and the same having been held before said George L. Lucas, on the 24th day of October, 1923, and he having made his report, dated October 30, 1923, and said report having been approved and adopted by the Commission on November 13, 1923, it is

Ordered and Determined, That 192nd Street (Lancaster Avenue), in the Borough of Queens, should be carried across the tracks of the Flushing and Northside Division of The Long Island Railroad Company upon a temporary Overhead bridge for pedestrian traffic, to be constructed by The Long Island Railroad Company, substantially in accordance with the dimensions, grades and clearances shown upon the map offered in evidence in this proceeding as Exhibit 5 and described as "Long Island Railroad, North Side Division, Footbridge at Auburndale Station," dated October 17, 1923 file number N-100, Sketch A.

Further Ordered, That the actual work of construction should be done by The Long Island Railroad Company, that detailed plans and specifications thereof be submitted for the approval of the Commission and that contracts, if any, similarly submitted, and the division of expense and reconstruction to be reserved for determination by the Commission upon the accounting or accountings provided by the Grade Crossing Act.

Further Ordered, That The Long Island Railroad Company shall notify the Commission within five (5) days after the receipt of a certified copy of this Order whether the terms thereof are accepted and will be obeyed.

Further Ordered, That this Order take effect at once.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1608—Cases 2684, 2685, 1264, 1380

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which Cross Island Boulevard (Squire Street) Shall Cross Company's Tracks—(Case No. 2684)

Eliminations at Hempstead and Jamaica Turnpike et al.—(Cases Nos. 1264 & 1380)—Order Approving Contract with Shoemaker Bridge Company for Furnishing Structural Steel for Seven Railroad Bridges Adopted

The Secretary presented a communication, dated April 16, 1923, from L. V. Morris, Chief Engineer, The Long Island Railroad Company, submitting copy of bids received for seven bridges to be erected in connection with the eliminations ordered in Cases Nos. 2684, 2685, 1264 and 1380, together with contract, dated March 27, 1923, with the Shoemaker Bridge Company of Pottstown, Pa., the lowest bidder for the steel work at 3.66¢ f. o. b. Richmond Hill.

The Secretary also presented a report, dated November 7, 1923, by C. J. Slipper, Assistant Engineer, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, recommending approval of contract work with the Shoemaker Bridge Company.

Thereupon the Commission adopted and ordered filed an Order in Cases Nos. 2684, 2685, 1264 and 1380, in the following form:

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of THE LONG ISLAND RAILROAD COMPANY:

Bennett or Baylis Avenue
Wertland Avenue
Creed Avenue
Madison Avenue

CASE No. 1380.
ORDER APPROVING CONTRACT
FOR STRUCTURAL STEEL.

The Commission having adopted orders and determinations in these proceedings as to the crossings of the above named avenues and streets across the tracks of the Long Island Railroad Company, and the Commission having heretofore adopted certain orders approving plans for the construction of the bridges involved in such crossings, and the Long Island Railroad Company having by communication dated April 16, 1923 submitted for approval, a contract or agreement with the Shoemaker-Satterthwait Bridge Co. of Pottstown, Pa. to furnish the structural steel for the seven railroad bridges included in the above mentioned cases, and the said agreement having been examined by the Commission, and it appearing that the same is satisfactory and that the bid therein contained is reasonable, it is hereby

Ordered, That the contract between the Long Island Railroad Company and the Shoemaker-Satterthwait Bridge Co. of Pottstown, Pa., bearing date the 27th day of March, 1923, be and the same hereby is approved.

Further Ordered, That this approval shall not bind the State of New York or the City of New York to pay any share of the cost of any additions and betterments to the railroad over and above such work as is necessary to the carrying of the said streets across the said railroad tracks.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1609—Case 2704

Manhattan Railway Company and Interborough Rapid Transit Company, Lessee—Application for Determination That Public Convenience and Necessity Require Certain Structures at 42nd Street and Third Avenue, Manhattan—Letter from Frank Hedley, President, Interborough Rapid Transit Company, Transmitting Petition of Manhattan Railway Company—Report by Counsel—Referred to Counsel

The Secretary presented a letter, dated November 8, 1923, from Frank Hedley, President and General Manager of the Interborough Rapid Transit Company, reading as follows:

Transit Commission,
49 Lafayette Street,
New York City.

Dear Sirs:

Herewith in pursuance to your suggestion I hand you a formal application for a determination and certification in respect to matters connected with the removal of the 42nd Street spur which under Chapter 788 of the Laws of 1917, Chapter 611 of the Laws of 1919 and Chapter 635 of the Laws of 1923, were delegated by these acts to the discretion and determination of the Public Service Commission. No hearing or determination has been had subsequent to the passage of Chapter 635 of the Laws of 1923, which exempts from condemnation all structures and franchises in said area determined by the Transit Commission to be necessary in order to insure the maintenance and operation of the Third Avenue Line.

The power of condemnation is limited to structures in said area which constitute "the existing 42nd Street spur." Portions of the structure in said area clearly do not form part of the spur and are absolutely necessary to the maintenance of the Third Avenue Line.

The obligation of obtaining the necessary determination in matters left subject to the discretion of the Transit Commission was by the said acts placed upon the City of New York. This legislation was drafted by the Corporation Counsel and the Interborough and Manhattan Companies having regard to their obligation to the public as common carriers have not in any way or at any time acquiesced in the removal of the free transfer facilities afforded by the spur, at least until further provision be made for transit relief in this section of the City. The City has contented itself with securing a certification in general terms that all railway structures in 42nd Street should be removed. This determination was had prior to the passage of Chapter 635 of the laws of 1923 and is clearly insufficient either to accomplish the purpose of that act or of previous legislation. Section 1 of this act has never been modified, yet it embodies the clear intent of the legislature that the Transit Commission should determine the terms and conditions of the removal which shall be, as the act states, by the Manhattan Company. Any other procedure would not be in the interest of public necessity, convenience or safety, and the City can be effectually protected by provisions similar to those embodied by the City itself in the legislation providing for the reconstruction of the elevated railway in Division Street.

It has been repeatedly recognized by the legislature, the City and your honorable body, that where elevated railway structures are to be altered under conditions of operation the operating company should have charge of the work. This is the clear and expressed intent of the existing legislation. The legislation also provides that the removal shall be without prejudice to the right and obligation of the Manhattan Company to restore under its existing franchises the structures that hereafter may be deemed desirable in the public interest. No mode of such determination is provided in the act other than the provision that the certificate of the Commission shall "include such terms or conditions as may be necessary or proper to accomplish such removal and restoration." While this Company is reluctant to be placed in a position of furthering the removal of the spur, in view of its consistent attitude that it should not be removed until other relief is provided, orderly procedure requires a further determination and certification by the Commission.

It is understood that Drawing I. R. T. Co. No. 22941 referred to in the attached petition, has been informally approved by the property owners and by the City, and it would seem that a determination might be had in the near future which would clear up questions of doubt which have arisen with regard to the legality of the pending proceeding to condemn all structures within the area defined in Chapter 635 of the Laws of 1923, which has been attempted in the absence of any action by the Commission defining what portions of the structure within said area constitute the 42nd Street spur, or what structures it may be necessary to preserve or provide within said area in order to prevent the impairment of the operation of the Third Avenue Line and great inconvenience to the travelling public.

Interborough Company would be glad to enter into any stipulation which would facilitate action or waive any mere technical grounds of objection in said proceeding, but it deems it to be clear that further action by the Commission supplementary to its previous certification is essential to further and valid procedure, and I have, therefore, requested that the determination of the Commission should be comprehensive upon all matters within the purview of the said legislation. Imperfections in legislation prior to that of 1923 have concededly been the occasion of protracted delay. This company has promptly called attention to the legal deficiencies of previous legislation in the interest of orderly procedure and it recognizes that the Commission has determined, after a full presentation of the facts, that the portions of the structure not necessary to the operation of the Third Avenue Line should be removed. His honor, Mayor Hylan, when last Spring it was pointed out to the Board of Estimate and Apportionment, that circumstances had changed and transit relief had been so delayed beyond the expectations entertained at the time of the Commission's determination, stated that a reconsideration of the whole matter should be had before final action.

We have not insisted upon such reconsideration and do not now request it. The matter has been determined on the merits and this Company now merely desires to avoid unnecessary and protracted litigation which we feel must inevitably result from

the failure to obtain the further authorization and certification of your honorable body which we now request.

Yours very truly,
FRANK HEDLEY,
President and General Manager.

The Secretary also presented the petition dated November 9, 1923, of the Manhattan Railway Company, referred to in Mr. Hedley's letter, together with a report dated November 13, 1923, by Counsel to the Commission, recommending that the matter be referred to Counsel to take up with the companies concerning the form of the petition.

Thereupon the above mentioned papers were referred to Counsel to the Commission.

1610—Case 2703

The New York Central Railroad Company—Application of Company for Determination as to Manner in Which Certain Streets Shall Cross Railroad on West Side of Manhattan Island from St. Johns Park to Harlem Ship Canal—Hearing Order Adopted

Upon report from the Committee of the Whole the Commission again took under consideration the petition verified October 9, 1923, of The New York Central Railroad Company, asking for an order of the Transit Commission determining the elimination of certain street crossings by its railroad at grade on the West Side of Manhattan Island, from the southerly terminus of said railroad at St. Johns Park to the Harlem Ship Canal, formerly Spuyten Duyvil Creek.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2703 in the following form:

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

IN THE MATTER
of the

Petition of THE NEW YORK CENTRAL RAILROAD COMPANY, for an Order of the Transit Commission determining the elimination of certain street crossings by its railroad at grade on the west side of Manhattan Island, from the southerly terminus of said railroad at St. Johns Park, to the Harlem Ship Canal, formerly Spuyten Duyvil Creek.

CASE No. 2703.
HEARING ORDER.

A petition verified October 9, 1923, having been filed with the Commission by The New York Central Railroad Company for an Order determining the elimination of certain street crossings by its railroad at grade on the west side of Manhattan Island from the southerly terminus of said railroad at St. Johns Park to Harlem Ship Canal, formerly Spuyten Duyvil Creek,

Ordered, That a hearing be held on said petition by and before the Commission on the 26th day of November, 1923, at 2:30 P. M., in the hearing room of the Commission, No. 49 Lafayette Street, Borough of Manhattan, City of New York.

Further Ordered, That notice of this hearing be given to The City of New York and The New York Central Railroad Company, by service of a certified copy of this

Order with a copy of said petition upon said municipality and the railroad company, on or before November 16, 1923.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

The Chairman stated that the Public Service Commission would sit with the Transit Commission at the same time to hear an application by The New York Central Railroad Company relative to the electrification of its railroad on the West Side of Manhattan, pursuant to the provisions of Section 53-A of the Public Service Commission Law.

1611—Cases 1264, 1380

The Long Island Railroad Company—Eliminations at Hempstead and Jamaica Turnpike et al.—Resolution of Board of Estimate and Apportionment Appropriating \$70,000, City's Share of Partial Payment—Filed

The Secretary presented a communication, dated November 5, 1923, from James Matthews, Assistant Secretary, Board of Estimate and Apportionment, transmitting certified copy of resolution adopted by the Board on October 26, 1923, reading as follows:

(Cal. No. 193)

Whereas, A final order and determination was made by the Public Service Commission for the First District on December 8, 1911, and modified by the order of the Transit Commission on December 7, 1922, determined the manner in which the following grade crossings with the tracks of the Long Island Railroad Company should be altered or changed: Hempstead and Jamaica turnpike, Bennett or Baylis avenue, Wertland avenue, Creed avenue and Madison avenue, in the Borough of Queens; and

Whereas, Under date of September 7, 1923, the Secretary of the Transit Commission, in connection with

"Case No. 1264—Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossing with the tracks of the Long Island Railroad Company:

"Hempstead and Jamaica turnpike."

—and

"Case No. 1380—Hearing on motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of the Long Island Railroad Company:

"Bennett or Baylis avenue.

"Wertland avenue.

"Creed avenue.

"Madison avenue."

—transmitted to the Board of Estimate and Apportionment and served upon The City of New York a certified copy of a resolution adopted by the said Commission on September 6, 1923, authorizing certificate of partial performance of work and payment on account of work of elimination of grade crossings with tracks of the Long Island Railroad Company at Hempstead and Jamaica turnpike, Bennett or Baylis avenue, Wertland avenue, Creed avenue and Madison avenue, in the Borough of Queens, and certifying that work to the extent of at least \$338,123.23 has been properly performed by the Long Island Railroad Company on account of the necessary work of carrying out the provisions of said order and determination, subject to the proviso that the rights of the Transit Commission and of The City of New York to object to or contest any of the items or expenditures set forth at a hearing on partial accounting held on August 15, 1923, be reserved without prejudice to object to or contest any of such items or expenditures upon future partial or final accountings in said matter, and that no party shall upon future partial or final accountings therein be precluded from contesting any expenditures made or hereafter to be made during the entire performance of the work necessary to comply with said order as modified aforesaid; and directing

a payment to the Long Island Railroad Company of \$70,000, pursuant to the provisions of the Railroad Law, as a proper and conservative payment on account of the balance due or to become due from The City of New York to the Long Island Railroad Company as its share of said work; now therefore be it

Resolved, That the Board of Estimate and Apportionment hereby accepts said certificate and authorizes the Comptroller to pay said sum of seventy thousand dollars (\$70,000); said payment to be made from the proceeds of special revenue bonds of The City of New York, to be issued pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter and redeemable from the tax levy of the year succeeding the year of their issue.

A true copy of resolution adopted by the Board of Estimate and Apportionment, October 26, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Thereupon the above mentioned papers were ordered filed in Cases Nos. 1264 and 1380.

1612—R. T. 7591

1614

Street Changes—Certified Copies of Resolutions of Board of Estimate and Apportionment Authorizing Removal of Encroachments and Widening of Roadways and Sidewalks on Fifth Avenue from 58th to 60th Streets and on East 56th Street from Park Avenue to Fifth Avenue, Borough of Manhattan—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on November 2, 1923, were ordered filed:

(Cal. No. 73-A)

Resolved, By the Board of Estimate and Apportionment, that the widths of the roadway and sidewalks on 5th avenue from the north curb line of 58th street to the north curb line of 60th street, Borough of Manhattan, be established as follows:

The roadway shall be centrally located and shall have a width of 55 feet.

The width of the sidewalk on the easterly side of the roadway shall be 22.5 feet; and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb, and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 73-B)

Whereas, The entire width of 5th avenue between 58th street and 60th street, Borough of Manhattan, is required for public purposes; be it

Resolved, By the Board of Estimate and Apportionment that all ordinances, permits or licenses heretofore adopted or granted by The City of New York or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of 5th avenue between 58th street and 60th street, Borough of Manhattan, between levels 10 feet above the curb grade and a sufficient depth below said curb to provide for the proper support of the roadway, sidewalk and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or encumbrances in accordance with the foregoing resolution; except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 76-A)

Resolved, By the Board of Estimate and Apportionment, that the widths of the roadway and sidewalks on East 56th street from the west curb line of Park avenue to the east curb line of 5th avenue, Borough of Manhattan, be established as follows:

The roadway shall be centrally located and shall have a width of thirty-four (34) feet.

The width of the sidewalks on each side of the roadway shall be thirteen (13) feet; and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb, and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

1615—R. T. 6416

Routes Nos. 36 & 37, Section No. 1—Statement as to Execution and Delivery of Original Agreement for Rearrangement of Signals and Interlocking East of Queens Plaza Station—Agreement Filed

The Commission ordered filed an original agreement between the Transit Commission and the Interborough Rapid Transit Company, dated October 11, 1923, providing for the rearrangement of signals and interlocking east of the Queens Plaza Station of the Queensboro Subway Rapid Transit Railroad, so as to provide facilities for the joint operation of the Queens Lines, which agreement had been executed on behalf of both parties and delivered on November 9, 1923.

1616—R. T. 7657

Contract No. 1—Statement as to Execution and Delivery of Original Agreement for Construction of Turnstile at South End of Northbound Platform of Prospect Avenue Station—Agreement Filed

The Commission ordered filed an original agreement between the Transit Commission and the Interborough Rapid Transit Company, dated November 2, 1923, providing for the construction of an exit turnstile at the south end of the northbound platform of the Prospect Avenue Station of the Manhattan-Bronx Rapid Transit Railroad, which agreement had been executed on behalf of both parties and delivered on November 12, 1923.

1617—R. T. 7653

Agreement "CN"—Notice by Chief Engineer of Commencement of Work for Changes in Subway Structure, so as to Permit Widening of West 32nd Street and for Construction of Ventilation Flue at West 32nd Street and Broadway—Filed

The Commission ordered filed a notice from the Chief Engineer, dated November 10, 1923, advising of the commencement of work by Slattery Engineering and Construction Company, Inc., on November 7, 1923, for making changes in the subway structure on Broadway, incidental to the widening of West 32nd Street and for the construction of a ventilation flue at West 32nd Street and Broadway—Agreement "CN".

1618

Employees' Calendar No. 175

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Thomas J. Kenny, transit inspector, at \$125.08 per month, to take effect November 13, 1923; Patrick F. Rooney, junior assistant, at \$125.08 per month to take effect November 7, 1923; Leonard Rosenthal, stenographer, at \$90.00 per month, to take effect November 12, 1923.

Appointments under Rule VIII:4—Oscar Brenner, inspector of plumbing, at \$175.08 per month, to take effect November 16, 1923; Joseph P. Brach, junior assistant, at \$125.08 per month, to take effect November 8, 1923; Edward T. Crinnion, junior assistant, at \$125.08 per month, to take effect November 7, 1923; Francis L. Garland, junior assistant, at \$125.08 per month, to take effect November 12, 1923; William Gelbman, junior assistant, at \$125.08 per month, to take effect November 7, 1923; Roger M. Hole, junior assistant, at \$125.08 per month, to take effect November 12, 1923; Augustus Miller, junior assistant, at \$125.08 per month, to take effect November 8, 1923; Kenneth H. Minch, draftsman, at \$175.08 per month, to take effect November 7, 1923; Nicholas S. Mogavero, junior assistant, at \$125.08 per month, to take effect November 7, 1923; Nathan November, draftsman, at \$175.08 per month, to take effect November 9, 1923; George F. Porter, draftsman, at \$175.08 per month, to take effect November 7, 1923; Louis B. Roggins, draftsman, at \$175.08 per month, to take effect November 8, 1923; Bernard Wohlfert, junior assistant, at \$125.08 per month, to take effect November 8, 1923; David Yale, junior assistant, at \$125.08 per month, to take effect November 13, 1923; Jay M. Zentner, draftsman, at \$175.08 per month, to take effect November 8, 1923.

Resignations—Louis Blatt, junior electrical engineer, at \$162.50 per month, to take effect November 19, 1923; Oscar Brenner, chauffeur, at \$175.00 per month, to take effect November 15, 1923; Michael Conroy, junior assistant, at \$125.08 per month, to take effect November 10, 1923; Charles Monheit, junior clerk, at \$60.00 per month, to take effect November 3, 1923.

Termination of Appointment under Rule VIII:4—Edward Wegmann, draftsman, at \$175.08 per month, to take effect November 15, 1923.

Change of Rate—John McCarthy, chauffeur, from \$30.00 per week, to \$135.00 per month, to take effect November 16, 1923.

Change of Item in Resolution of October 2, 1923, Concerning Nicholas S. Mogavero so as to Read as Follows: (Appointment under Rule XIII:4)—Nicholas S. Mogavero, junior assistant, at \$125.08 per month, to take effect October 1, 1923.

Change of Item in Resolution of October 16, 1923, Concerning Nicholas S. Mogavero so as to Read as Follows: (Termination of Appointment under Rule XIII:4)—Nicholas S. Mogavero, junior assistant, at \$125.08 per month, to take effect October 16, 1923.

Leaves of Absence with Pay—Richard H. Burton, engineer accountant, from October 17, 1923, to October 29, 1923; Alice D. Cunningham, accountant, from October 22, 1923, to October 27, 1923; Bella Hollander, clerk, from October 10, 1923, to October 16, 1923; Sander Schwartz, assistant engineer, from September 19, 1923, to October 24, 1923.

Voucher Schedule No. 47

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, the Brooklyn-Manhattan Transit Corporation, and the South Brooklyn Railway Company, as the vouchers may direct:

Vouchers Nos. 1019-1030, open market orders, \$560.32; Vouchers Nos. 543-550, miscellaneous bills, \$981.35.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

- Voucher No. 298; Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 14, for the construction of inspection shed enclosure for Route No. 18, 180th Street Yard, from October 1, 1923 to October 31, 1923 (R. T. 7457) \$8,277.96;
- Voucher No. 300; Frederick L. Cranford, Inc.; approximate estimate No. 7 for the construction of Section No. 6-A-1 of route No. 8, from October 1, 1923 to October 31, 1923 (R. T. 7667) \$31,705.98;
- Voucher No. 301; Powers-Kennedy Contracting Corporation; approximate estimate No. 17, for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 and 67, from October 1, 1923 to October 31, 1923 (R. T. 7584) \$77,573.08;
- Voucher No. 302; Oakdale Contracting Co., Inc.; approximate estimate No. 6 for the construction of a part of a rapid transit railroad, Route No. 52, Section No. 3, Flushing Line, from October 1, 1923 to October 31, 1923 (R. T. 7673) \$69,969.42;
- Voucher No. 303-BMT; M. A. Charles; approximate estimate No. 3 for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, in the Borough of Brooklyn, Agreement "CJ" (R. T. 7648) \$187.09;
- Voucher No. 303-SBR; M. A. Charles; approximate estimate No. 3 for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets in the Borough of Brooklyn, Agreement "CJ", from October 1, 1923 to October 31, 1923 (R. T. 7648) \$187.09;
- Voucher No. 303; M. A. Charles; approximate estimate No. 3 for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, Agreement "CJ", from October 1, 1923 to October 31, 1923 (R. T. 7648) \$374.17;
- Voucher No. 304; Jobson-Gifford Co.; approximate estimate No. 5 for making changes in steel work at easterly approach to the Queens Plaza station, Routes Nos. 36 and 37, Section No. 1, from October 1, 1923 to October 31, 1923 (R. T. 7585) \$7,709.26;
- Voucher No. 305; Joslin Construction Co., Inc.; approximate estimate No. 15 for the reconstruction of a part of the Queensboro Subway Rapid Transit Line, Route No. 26, Jackson Avenue station, from October 1, 1923 to October 31, 1923 (R. T. 7556) \$8,116.99;
- Voucher No. 306; Otis Elevator Co.; approximate estimate No. 5 for furnishing and installing two electric passenger elevators in the new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad from October 1, 1923 to October 31, 1923 (R. T. 7623) \$8,865.45;
- Voucher No. 307; Holbrook, Cabot & Rollins Corporation; approximate estimate No. 17 for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad from October 1, 1923 to October 31, 1923 (R. T. 6114) \$9,953.16;
- Voucher No. 308; Slattery Engineering & Construction Co., Inc.; approximate estimate No. 12, for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3 (R. T. 7366) \$6,540.62;
- Voucher No. 309; Jacob Schlesinger, Inc.; approximate estimate No. 5, for the construction of inspection shed and service buildings at the Jerome Avenue Yard, Route No. 16, from October 7, 1923 to November 6, 1923 (R. T. 7636) \$2,966.22;
- Voucher No. 310; Gustin-Morris Contracting Corporation; approximate estimate No. 7 for the construction of foundations, Route No. 52, Section No. 1, Flushing Route, from October 1, 1923 to October 31, 1923 (R. T. 7600) \$6,085.50;

Voucher No. 299; Jacob Schlesinger, Inc.; approximate estimate No. 5 for making changes in Subway structures necessitated by the widening of 60th Street between 2nd and 5th Avenues, Borough of Manhattan, from September 26, 1923 to October 25, 1923 (R. T. 7639) \$7,622.73.

Proceedings for Tuesday, November 20, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1623—R. T. 7707

Route No. 16—Report by Chief Engineer as to Receipt of Bids for Installation of Tracks in Part of the Jerome Avenue Yard and Recommendation for Award of Contract to Slattery Engineering and Construction Company, Inc., at Bid Price of \$59,878.75—Approval Resolution—Requisition on Board of Estimate and Apportionment for Appropriation of \$61,000

The following report was approved:

November 16, 1923.

TO TRANSIT COMMISSION:

*Proposed Contract for the Installation of Tracks—Part of Jerome Avenue Yard
Route No. 16.*

As previously reported the result of the bids received on November 13th for the installation of tracks in part of the Jerome Avenue Yard, resulted as follows:

Slattery Engineering & Construction Co., Inc.....	\$59,878.75
Thomas Crimmins Contracting Co.....	67,749.20
T. H. Reynolds Contracting Co., Inc.....	74,304.05
McElroy & Kerwin	79,171.50
B. T. & J. J. Mack	82,934.10

The low bidder, the Slattery Engineering & Construction Co., Inc. was examined in my office on November 15th and I believe he is competent and financially able to carry out this contract. This firm has previously done work of the same character for us in a satisfactory manner. Their bid is very reasonable, being considerably below our Engineer's estimate.

Tabulations of the bids, the financial statement of the low bidder and copies of the minutes of the examination in my office referred to above are all attached hereto.

The contract provides that unused City's track materials shall be transported by the Contractor to any place or places in the City and for such work he shall be paid under the provisions of the extra work item under the contract. It also provides that changes in the equipment if ordered by the Engineer shall be done by the Contractor at net cost to him plus 5%. In view of these items and to cover contingencies an amount somewhat in excess of the net amount of the bid should be requested. I believe that \$61,000 will cover the total cost of the contract.

Recommendation: That with the approval of Counsel the contract be awarded to Slattery Engineering & Construction Co., Inc., at their bid price of \$59,878.75 and \$61,000 be requisitioned from the Board of Estimate and Apportionment all chargeable to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of proposed contract for the installation of tracks—part of Jerome Avenue Yard—Route No. 16, was finally adopted on October 25, 1923 and subsequent to advertisement duly made bids respectively totalling as follows were received on November 13, 1923:

Slattery Engineering & Construction Co., Inc.....	\$59,878.75
Thomas Crimmins Contracting Co.....	67,749.20
T. H. Reynolds Contracting Co., Inc.....	74,304.05
McElroy & Kerwin	79,171.50
B. T. & J. J. Mack	82,934.10

; and

Whereas, The Chief Engineer of this Commission, by communication dated November 16, 1923, has reported that the amount of said bid is reasonable and that the said

Slattery Engineering & Construction Co., Inc., the low bidder, is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$61,000, the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Slattery Engineering & Construction Company, Inc., submitted as aforesaid, be and the same hereby is accepted and the said proposed contract for the installation of tracks—part of the Jerome Avenue Yard—Route No. 16, be and the same hereby is awarded to said Slattery Engineering & Construction Co., Inc., subject to its being approved and consented to in form and substance, as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel, for the consent of said Board and the appropriation of the sum of \$61,000, estimated to be necessary to meet the City's obligation under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

November 20, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Slattery Engineering & Construction Co., Inc., for the installation of tracks—part of Jerome Avenue Yard—Route No. 16, together with a requisition upon your Honorable Board for the appropriation of the sum of Sixty-one thousand dollars (\$61,000), being the amount estimated to be necessary to meet the obligation of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on November 13, 1923, respectively totalling as follows:

Slattery Engineering & Construction Co., Inc.....	\$59,878.75
Thomas Crimmins Contracting Co.....	67,749.20
T. H. Reynolds Contracting Co., Inc.....	74,304.05
McElroy & Kerwin	79,171.50
B. T. & J. J. Mack.....	82,934.10

The Chief Engineer of this Commission, in a communication dated November 16, 1923, reports that the bid of Slattery Engineering & Construction Co., Inc., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said Slattery Engineering & Construction Co., Inc., subject to its being approved and consented to in form and substance, as required by law.

Your Honorable Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Sixty-one thousand dollars (\$61,000), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Sixty-one thousand dollars (\$61,000).

Your Honorable Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, between the City of New York, acting by the Public Service Commission, and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION.

By GEORGE McANENY,
Chairman.

1624—R. T. 7489

Route No. 12—Report by Real Estate Clerk Recommending Resubmission of Request to Commissioners of Sinking Fund for Approval of Sale of Property at Southwest Corner of St. Felix Street and Fulton Street, Borough of Brooklyn, at Upset Price of \$70,000—Approval Resolution—Communication to Commissioners of Sinking Fund

A report was presented from the Real Estate Clerk dated November 14, 1923, recommending the resubmission of a request to the Commissioners of the Sinking Fund for the approval of the sale at public auction of the property at the southwest corner of St. Felix Street and Fulton Street, in the Borough of Brooklyn, at the upset price of \$70,000.

The following resolution was adopted :

Whereas, The Transit Commission, under date of April 3, 1923, requested the approval of the Commissioners of the Sinking Fund of The City of New York of the sale of a parcel of vacant land located at the southwesterly corner of St. Felix and Fulton Streets, Borough of Brooklyn, at the upset price of \$70,000, reserving certain easements for the structure and operation of the rapid transit railroad beneath the surface of the property, and upon such conditions otherwise as the Transit Commission should deem to be in the interest of The City of New York; and

Whereas, The Commissioners of the Sinking Fund at their meeting on November 1, 1923, (See Item No. 65 on the printed calendar for that date) referred back to the Commission this matter with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter might again be submitted to the Commissioners of the Sinking Fund of The City of New York for their approval; and

Whereas, The Real Estate Clerk, under date of November 14, 1923, has reported upon this matter recommending that the proposed sale of this property be resubmitted to the Commissioners of the Sinking Fund of The City of New York at the same upset price, to wit: \$70,000, and upon certain terms as set forth herein below, in which recommendation Counsel has concurred, submitting a form of communication to the Commissioners of the Sinking Fund;

Resolved, That the Commission do, and it hereby does, approve the report of the Real Estate Clerk, and that it do, and hereby does, approve the following essential terms of sale for the sale at public auction of the parcel of vacant land above referred to, the communication of the Commission to the Commissioners of the Sinking Fund of The City of New York of April 3, 1923, being in all other respects reaffirmed:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York;

that the form of communication to the Commissioners of the Sinking Fund of The City of New York, as approved by Counsel, be, and the same hereby is approved, and that the Chairman be, and he hereby is, authorized and directed to sign the said form of communication in its behalf.

The communication to the Commissioners of the Sinking Fund was as follows:

November 20, 1923.

COMMISSIONERS OF THE SINKING FUND
of THE CITY OF NEW YORK,
Municipal Building,
New York City, N. Y.
Sirs:

Your Honorable Board at its meeting on November 1, 1923 (See Item No. 65 on the printed calendar for that date) referred back to this Commission the matter of the proposed sale at public auction of a certain parcel of vacant land at the southwesterly corner of St. Felix and Fulton Streets, Borough of Brooklyn, at not less than the upset price of \$70,000, with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter may be again submitted to your Honorable Board for its approval. In accordance with such suggestion the Commission has, therefore, by resolution of this date adopted the following terms of sale to govern the sale at public auction of the property above referred to, reaffirming in other respects the substance of its communication to your Honorable Board, dated April 3, 1923:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York,

The Commission requests that your Honorable Board reconsider this matter and authorize the sale of the parcel of land in question at not less than the upset price of \$70,000 upon the terms set forth in the communication of April 3, 1923, as supplemented by the foregoing terms. A certified copy of the resolution of the Commission of this date with regard to this matter is transmitted herewith.

Very truly yours,
GEORGE McANENY,
Chairman.

1625—R. T. 7345

Route No. 48—Report by Real Estate Clerk Recommending Resubmission of Request to Commissioners of Sinking Fund for Approval of Sale of Property at Southwest Corner of William Street and Beekman Street, Borough of Manhattan, at Upset Price of \$160,000—Approval Resolution—Communication to Commissioners of Sinking Fund

A report was presented from the Real Estate Clerk dated November 14, 1923, recommending the resubmission of a request to the Commissioners of the Sinking Fund for the approval of the sale at public auction of the property at the southwest corner of William Street and Beekman Street, in the Borough of Manhattan, at the upset price of \$160,000.

The following resolution was adopted:

Whereas, The Transit Commission, under date of April 3, 1923, requested the approval of the Commissioners of the Sinking Fund of The City of New York of the sale of a parcel of vacant land located at the southwesterly corner of William and Beekman Streets, Borough of Manhattan, at the upset price of \$160,000, reserving certain

easements for the structure and operation of the rapid transit railroad beneath the surface of the property, and upon such conditions otherwise as the Transit Commission should deem to be in the interest of The City of New York; and

Whereas, The Commissioners of the Sinking Fund at their meeting on November 1, 1923, (See Item No. 64 on the printed calendar for that date) referred back to the Commission this matter with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter might again be submitted to the Commissioners of the Sinking Fund of The City of New York for their approval; and

Whereas, The Real Estate Clerk, under date of November 14, 1923, has reported upon this matter recommending that the proposed sale of this property be resubmitted to the Commissioners of the Sinking Fund of The City of New York at the same upset price, to wit: \$160,000, and upon certain terms as set forth herein below, in which recommendation Counsel has concurred, submitting a form of communication to the Commissioners of the Sinking Fund;

Resolved, That the Commission do, and it hereby does, approve the report of the Real Estate Clerk, and that it do, and hereby does, approve the following essential terms of sale for the sale at public auction of the parcel of vacant land above referred to, the communication of the Commission to the Commissioners of the Sinking Fund of The City of New York of April 3, 1923, being in all other respects reaffirmed:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York;

that the form of communication to the Commissioners of the Sinking Fund of The City of New York, as approved by Counsel, be, and the same hereby is, approved, and that the Chairman be, and he hereby is, authorized and directed to sign the said form of communication in its behalf.

The communication to the Commissioners of the Sinking Fund was as follows:

November 20, 1923.

COMMISSIONERS OF THE SINKING FUND
OF THE CITY OF NEW YORK,
Municipal Building,
New York City, N. Y.

Sirs:

Your Honorable Board at its meeting on November 1, 1923 (See Item No. 64 on the printed calendar for that date) referred back to this Commission the matter of the proposed sale at public auction of a certain parcel of vacant land at the southwesterly corner of William and Beekman Streets, Borough of Manhattan, at not less than the upset price of \$160,000, with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter may be again submitted to your Honorable Board for its approval. In accordance with such suggestion the Commission has, therefore, by resolution of this date adopted the following terms of sale to govern the sale at public auction of the property above referred to, reaffirming in other respects the substance of its communication to your Honorable Board, dated April 3, 1923:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and

mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York.

The Commission requests that your Honorable Board reconsider this matter and authorize the sale of the parcel of land in question at not less than the upset price of \$160,000 upon the terms set forth in the communication of April 3, 1923, as supplemented by the foregoing terms. A certified copy of the resolution of the Commission of this date with regard to this matter is transmitted herewith.

Very truly yours,

GEORGE McANENY,
Chairman.

1626—R. T. 7610

Route No. 52, Section No. 3—Letter from Counsel Submitting Proposed Agreement for Construction of Two Stairways in Front of Premises at No. 94 Main Street, Flushing—Approval Resolution

A letter was presented from Counsel dated November 15, 1923, submitting for approval, a proposed agreement with the Flushing National Bank, providing for two subway entrances to the Main Street Station of the Flushing Line in front of the premises at No. 94 Main Street, Flushing.

The following resolution was adopted:

Whereas, Counsel, with his letter dated November 15, 1923, has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission and Flushing National Bank for the construction, maintenance and operation of two subway entrance stairways to the Main Street Station of the Flushing Route, a rapid transit railroad in the Borough of Queens, and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

1627—R. T. 6924

Routes Nos. 19 & 22, Section No. 2—Application by Wolcott Holding Corporation for Approval of Substitution of Heavier Type of Ventilator Grating in Front of Premises at No. 766 Southern Boulevard, Borough of The Bronx—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Wolcott Holding Corporation dated October 20, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company granting the right to substitute a heavier type of ventilator grating in front of the premises at No. 766 Southern Boulevard, Borough of The Bronx.

A report was presented from the Chief Engineer dated November 13, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By communication dated October 20, 1923, Wolcott Holding Corporation has submitted for the approval of this Commission, a proposed permit issued by the

Interborough Rapid Transit Company, subject to the approval of this Commission and accepted by said Wolcott Holding Corporation granting it the right to change the type of grating of the ventilator in the municipal rapid transit railroad in front of the premises known as 766 Southern Boulevard in the Borough of The Bronx, City of New York, upon the terms and conditions herein more particularly set forth; and

Whereas, The Chief Engineer of this Commission by communication dated November 13, 1923, reports that the form of permit is satisfactory from an engineering standpoint and recommends its approval; and

Whereas, Counsel to the Commission has examined said proposed permit and finds no objection thereto,

Resolved, That the said proposed permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1628—R. T. 6444, 7556

Route No. 26—Resolution Declaring Westerly Extension of Westbound Platform of Jackson Avenue Station to Be Ready for Operation—Adopted

The following resolution was adopted:

Resolved, That under and in pursuance of the provisions of the Contract, dated March 19, 1913, between the City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, this Commission hereby declares the following portions of the Queensboro Subway Rapid Transit Railroad (described in said Contract No. 3, as the Steinway Tunnel Line) to be ready for operation at 1 o'clock A. M., on Sunday, November 18th, 1923, to wit:

The westerly extension of the westbound platform of the Jackson Avenue Subway station, between base line Stas. 173+25 and 174+98.

1629—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Lighting Fixtures for Fifty New Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated November 2, 1923, requesting the approval of a proposed purchasing agent's order directed to Dayton Manufacturing Company for furnishing lighting equipment for fifty new steel trailer cars at a cost of \$2,690.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 15, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment of the Railroad to be performed under Work Order No. MBA-25, heretofore assigned.

The following resolution was adopted:

Whereas, This Commission by resolution adopted July 17, 1923 as therein more particularly set forth, approved the proposed contract to be entered into between New York Rapid Transit Corporation as successor to the rights and obligations under the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, and Pressed Steel Car Company for the manufacture and delivery of bodies and trucks for fifty (50) steel passenger cars, Series 4000-4049 together with the plans and specifications therefor and classified such material as Additional Equipment of the Railroad as more particularly defined in said Contract No. 4, and assigned thereto Work Order No. MBA-25; and

Whereas, Pursuant to the provisions of said Contract No. 4 and said proposed contract so approved as aforesaid, New York Rapid Transit Corporation, by communication dated November 2, 1923 has submitted for the approval of this Commission proposed purchasing agent's order dated November 2, 1923 directed to Dayton Manufacturing Company, for the following:

"For Equipping Subway Trailer Cars 4000-4049 Inclusive.

300 Emergency Light Fixtures complete with Benjamin Electric & Mfg. Company's No. 61-M Socket with lamp grip feature and special base to suit R. R. Co.'s requirements. All as per Plan 3-B-193-4, furnished	\$0.80 Each
700 Deck Sill Fixtures as per Plan B-689-4 furnished, complete including cast iron base for fixture and Benjamin Electric & Mfg. Co.'s Aluminum Shell Socket Style No. 4200 complete with lamp grip feature or G. E. Co.'s style No. 50701.....	\$3.00 Each
100 Bulkhead Fixtures as per Plan B-692-3 furnished complete with Benco Aluminum Shell Socket complete with lamp grip feature... Delivery to be completed within 60 days.	\$3.50 Each Delivered."

which proposed purchasing agent's order has been caused to be designated as "Approval No. 383"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated November 15, 1923, have reported that the following bids were received for such work:

Dayton Manufacturing Co.	\$2,690
E. Schroeder Lamp Works	3,935
Ellcon Co.	Could not quote
J. L. Howard and Co.....	No reply

that the award is to the lowest bidder; that said fixtures are a necessary part of the equipment of these cars; that the price thereof is reasonable and the best obtainable and recommend the approval of same; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated November 19, 1923, has recommended that the cost of such work be classified as Additional Equipment for the Railroad under Work Order No. MBA-25 heretofore assigned.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of material under said proposed purchasing agent's order hereby approved to be classified as Additional Equipment of the Railroad as defined in said Contract No. 4 under and pursuant to Work Order No. MBA-25 heretofore assigned as aforesaid.

1630—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Car Switch Boards for Fifty New Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated November 1, 1923, requesting the approval of a proposed purchasing agent's order directed to the Consolidated Car Heating Company, for furnishing car switch boards for fifty new steel trailer cars, at a cost of \$2,950.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 15, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad, to be performed under Work Order No. MBA-25, heretofore assigned.

The following resolution was adopted:

Whereas, This Commission by resolution adopted July 17, 1923 as therein more particularly set forth, approved the proposed contract to be entered into between New York Rapid Transit Corporation as successor to the rights and obligations under the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, and Pressed Steel Car Company for the manufacture and delivery of bodies and trucks for fifty (50) steel passenger cars, Series 4000-4049 together with the plans and specifications therefor and classified such material as Additional Equipment of the Railroad as more particularly defined in said Contract No. 4 and assigned thereto Work Order No. MBA-25; and

Whereas, Pursuant to the provisions of said Contract No. 4 and said proposed contract so approved as aforesaid, New York Rapid Transit Corporation, by communication dated November 1, 1923, has submitted for the approval of this Commission proposed purchasing agent's order dated October 31, 1923 directed to Consolidated Car Heating Company, for the following:

"For Equipping Subway Trailer Cars 4000-4049 Inclusive.

50 Switchboard Complete with Switches, Fuse Clips, Terminals and all other parts shown on Plan No. 4-B-944 furnished \$59.00 Each.

Bases shall be clear slate, free from metallic veins and holes shall be drilled exact to dimensions as indicated on Plan.

Delivery to be made January 1st, 1924.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 386"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated November 15, 1923, have reported that the following bids were received for such work:

Consolidated Car Heating Company.....	Each \$59.00
Westinghouse Electric & Mfg. Co.....	135.00
Holden & White.....	Cannot quote

that the award is to the lowest bidder; that the cost is reasonable and that the equipment is necessary, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated November 19, 1923, has recommended that the cost under said proposed purchasing agent's order be classified as Additional Equipment for the Railroad under Work Order No. MBA-25 assigned, as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of material under said proposed purchasing agent's order hereby approved to be classified as Additional Equipment of the Railroad as defined in said Contract No. 4 under and pursuant to Work Order No. MBA-25 heretofore assigned as aforesaid.

1631—R. T. 6499

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Sale of Property on Westerly Side of West Seventh Street between Avenue "R" and Avenue "S," Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 30, 1923, requesting approval of the sale of certain premises abutting on the right of way of the Sea Beach Line on the westerly side of West Seventh Street between Avenue "R" and Avenue "S," Borough of Brooklyn, to the Bay Parkway Construction Company at the selling price of \$24,500.

A report was presented from the Real Estate Clerk dated November 15, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, J. H. Bennington, Real Estate & Tax Agent for New York Rapid Transit Corporation, has made application under date of October 30, 1923, for approval of a contract between New York Rapid Transit Corporation, as Vendor, and Bay Parkway Construction Company, as Vendee, covering the sale of certain vacant premises abutting on the Sea Beach Line, on the westerly side of West 7th Street between Avenue "R" and Avenue "S," in the Borough of Brooklyn, as more particularly described in said contract, the selling price to be \$24,500, payable \$1,000 on the signing of the contract, \$7,500 in cash on the delivery of the deed and the balance by a purchase money bond and mortgage for \$16,000 with interest at 6% per annum, and upon certain other terms as more particularly set forth in said contract, pursuant to the provisions of Contract No. 4; and

Whereas, The Real Estate Clerk, under date of November 15, 1923, has reported upon this application stating that the property is assessed for the year 1923 at \$15,450, and that in his opinion the selling price is reasonable, recommending that the proposed sale and form of contract be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid proposed sale and form of contract between the said New York Rapid Transit Corporation, as Vendor, and the said Bay Parkway Construction Company, as Vendee, and that the Secretary be, and he hereby is, authorized and directed to transmit a copy of this resolution to the said J. H. Bennington.

Route No. 78-A—Communication from Board of Estimate and Apportionment Transmitting Copy of Report of Transit Conference Committee Recommending Adoption of St. Nicholas Avenue, Broadway and Fort Washington Avenue Route and for Location of Station at Extreme Northerly Terminus—Referred to Committee of Whole

The following communication from the Board of Estimate and Apportionment was referred to the Committee of the Whole:

Franchises

November 14, 1923.

TRANSIT COMMISSION.
49 Lafayette Street,
New York City:
Gentlemen:

I transmit herewith copy of report, dated October 31, 1923, from the Transit Conference Committee of this Board, recommending the adoption of Route No. 78-A, as submitted by the Transit Commission, with the request that provision be made by the Transit Commission for the location of a station at the extreme northerly terminus of the proposed route. This will necessitate the extension of Route No. 78-A, for approximately 600 feet north of West 175th Street.

This report was presented to the Board at the meeting of November 9, 1923, and the recommendations contained therein were approved.

The plans and conclusions for said Route No. 78-A, were approved by resolution adopted by this Board November 9, 1923, and such resolution is now awaiting the approval of his Honor, the Mayor.

Respectfully,

PETER J. MCGOWAN,
Secretary.

Fourth Avenue Subway—Communication from Board of Estimate and Apportionment Requesting Advice as to Approximate Cost for Removing Mall Spaces, Kiosks, and Ventilators on Fourth Avenue between Atlantic Avenue and 60th Street, Borough of Brooklyn, and as to Provision for Cost of Work—Referred to Counsel and Chief Engineer

The following communication from the Board of Estimate and Apportionment was referred to Counsel and Chief Engineer:

(Cal. No. 50)

November 16, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

At the meeting of the Board of Estimate and Apportionment on November 16, 1923, the Secretary was directed to request the Transit Commission to advise this Board as to the approximate cost of removing the mall spaces, the subway kiosks and ventilators on Fourth Avenue between Atlantic Avenue and 60th street, Borough of Brooklyn. It is requested that this estimate be in alternative form; one based upon a 20-foot sidewalk, involving an increase of five feet on each side of the present roadway, and the other on a 25-foot sidewalk width as at present. It is further requested that you also give your opinion as to whether this work should be done by the Borough President, the Transit Commission or the Railroad Company, and also to advise whether or not the railroad company will consent to the reconstruction of the railroad incidental to this change.

I am directed to advise you that it is the judgment of this Board that the remodeling of the structure is a railroad purpose and that the cost thereof should be provided for from rapid transit funds. Kindly advise whether the Transit Commission concurs in this opinion.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

P. S. I am enclosing for your information, transcript of stenographic minutes of the discussion at the meeting of the Committee of the Whole on November 12, 1923, in relation to this matter.

1634—Cases 1379, 1399

Richmond Light & Railroad Company—Monthly Reports—Quarterly Reports—Extension Orders Adopted

The Secretary presented a communication, dated November 16, 1922, from H. C. Moore, Jr., Comptroller of the Richmond Light & Railroad Company, asking for an extension of time to file monthly report for August, 1923, to November 19, 1923, and for an extension of time to file quarterly report for the quarter ended September 30, 1923, and the monthly report for September, 1923, to December 1, 1923.

The Secretary also presented a report, dated November 19, 1923, by H. S. Fischer, Statistician, approved by the Chief, Bureau of Accounting and Valuations, and by George L. Lucas, Acting Chief Executive Officer, recommending the granting of the desired extensions of time.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1379, granting the Richmond Light & Railroad Company, an extension of time to November 19, 1923, to file monthly report for August, 1923, and to December 1, 1923, to file monthly report for September, 1923.

Further the Commission adopted and ordered filed an Order in Case No. 1399, granting the Richmond Light & Railroad Company an extension of time to December 1, 1923, within which to file its quarterly report for the quarter ended September 30, 1923.

1635—Case 2638

South Brooklyn Railway Company—Application of The City of New York for Determination as to Manner in Which 14th Avenue and Other Streets in the Borough of Brooklyn Shall Cross Company's Tracks—Resolution Approving Plan Showing Repavement of Street Crossings Approved

The Secretary presented a communication, dated November 10, 1923, from A. R. Piper, President, South Brooklyn Railway Company, submitting for approval plan showing repavement of street crossings in connection with the 14th Avenue elimination directed by the Order in Case No. 2638.

The Secretary also presented a report, dated November 14, 1923, by C. J. Slipper, Assistant Engineer, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, and George L. Lucas, Acting Chief Executive Officer, recommending the approval of said plan.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2638, in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LEROY T. HARKNESS,	

IN THE MATTER
of the

Application of the Board of Estimate & Apportionment of The City of New York for a determination as to the manner in which 14th Avenue, Dahill Road (West Street) and Cortelyou Road, shall be carried across the tracks of the South Brooklyn Railway Company and the Prospect Park & South Brooklyn Railroad Company, in the Borough of Brooklyn.

CASE No. 2638.

RESOLUTION APPROVING
PLAN FOR REPAVEMENT OF
STREET CROSSINGS.

The Commission having by order herein dated the 3rd day of January, 1923, determined the method of carrying 14th Avenue, Dahill Road (West Street) and Cortelyou Road across the property of the South Brooklyn Railway Company and the Prospect Park and South Brooklyn Railroad Company, in the Borough of Brooklyn; And the South Brooklyn Railway Company having by communication dated November 10, 1923, submitted for the approval of the Commission a plan hereinafter described, and the Commission having examined said plan, and it appearing that same is satisfactory, it is hereby

Ordered, That said plan described and identified as follows:

South Brooklyn Railway Company
Way and Structure Department
Brooklyn, N. Y.
Culver Line—Pavement of Street Crossings
14th Ave., Dahill Road and Cortelyou Road.
Scale 1"-20' September 19, 1923
File No. 44-F—Plan No. 672-A
Issue No. 2 revised November 7, 1923

be and the same is hereby approved.

Further Ordered, That the approval of this plan shall not be deemed as binding the State of New York or The City of New York to pay any share of the cost of any additions and betterments to the railroads over and above such work as is necessary to the carrying of the said streets across the said railroads.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1636—Case 2704

Manhattan Railway Company and Interborough Rapid Transit Company, Lessee—Application for Determination That Public Convenience and Necessity Require Certain Structures at 42nd Street and Third Avenue—Report by Counsel Approved—Hearing Order Adopted

The Secretary presented a report, dated November 20, 1923, by H. J. Cloutman, Assistant Counsel, approved by Counsel, recommending a hearing on the application, dated November 9, 1923, of the Manhattan Railway Company for a determination pursuant to Chapter 635 of the Laws of 1923, of the railway facilities and structures necessary for the public convenience, in the vicinity of its elevated railway station at Third Avenue and 42nd Street, Borough of Manhattan, City of New York.

Thereupon the above mentioned report was approved and an Order in Case No. 2704 was adopted and ordered filed in the following form:

Present:

GEORGE MCANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

IN THE MATTER
of the

Application of Manhattan Railway Company for a determination pursuant to Chapter 635 of the Laws of 1923, of the railway facilities and structures necessary for the public convenience in the vicinity of its elevated railway station at Third Avenue and 42nd Street, Borough of Manhattan, City of New York.

CASE No. 2704.

HEARING ORDER.

Application having been made to this Commission by the Manhattan Railway Company, by petition, dated November 9, 1923, for a determination pursuant to Chapter 635 of the Laws of 1923, of the railway facilities and structures necessary for the public convenience, in the vicinity of its elevated railway station at Third Avenue and 42nd Street, in the Borough of Manhattan, City of New York;

Ordered, That a hearing be had by and before the Commission upon said application on the 28th day of November, 1923 at 2:30 o'clock in the afternoon of that day, at the hearing room of the Commission, No. 49 Lafayette Street, Borough of Manhattan, City of New York.

Further Ordered, That notice of this proceeding and hearing to be held thereon be given to The City of New York, Manhattan Railway Company and Interborough Rapid Transit Company, by service of a certified copy of this Order upon said municipality and companies in the manner provided by Section 23 of the Public Service Commission Law.

Further Ordered and Certified, That George L. Lucas, Acting Chief Executive Officer, be and he is hereby, pursuant to Sections 8 and 11 of the Public Service Commission Law, authorized and designated to conduct said hearing, to take the testimony therein, and report same to the Commission together with his opinion thereon for its decision and determination.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1637—R. T. 6892

Route No. 8, Section No. 2—Certificate by Chief Engineer of Expense Incurred by City in Completion of Contract as Result of Default by Degnon Contracting Company—Approved and Ordered Filed

The Commission approved and ordered filed the following certificate by the Chief Engineer:

November 15, 1923.

To TRANSIT COMMISSION:

Subject: Route 8, Section 2, Certificate of Expense incurred by the City in the Completion of Construction

Pursuant to the provisions of Article LXI of the contract dated August 4, 1916 with the Degnon Contracting Company for the construction of Route 8, Section 2 of the Fourteenth Street-Eastern Rapid Transit Railroad, I hereby certify that the amount of the expense incurred by the City in the completion of the work is as follows:

Amount certified for payment to the Degnon Contracting Company:		
For work under the Schedule Items.....	\$525,591.14	
For work under Article XII.....	4,091.77	
For retained percentage withdrawn under the provisions of Art. XXXIII.....	87,000.00	\$616,682.91
Amount certified for payment to the Hunterspoint Lumber & Supply Co. under Agreement "AV" for maintenance and repair of timbering and decking		65,020.06
Amount certified for payment to Patrick McGovern, Inc. under the contract for the completion of construction, Route 8, Section 2, including \$10,000 retained under the provisions of Section 425 of the Specifications as guarantee for maintenance of street surface restored.....		3,155,442.29
Total certified for payments.....		<u>\$3,837,145.26</u>
Credits:		
Proceeds of sale of corporate stock deposited by the Degnon Contracting Co.....	\$106,536.23	
Proceeds of sale of 3-30" 1/8 bends waterpipe to Dept. of Water Supply (net).....	133.70	
Amount received from American Bridge Co. in settlement of claim for cost of changes in steel due to errors in shop drawings.....	224.40	\$106,894.33
Net cost of construction.....		<u>\$3,730,250.93</u>
The total estimated amounts, at the Schedule Unit Prices and under Art. XII of the Contract, that would have been payable to the Degnon Contracting Co. had it completed the work in accordance with the provisions of the contract are as follows:		
Value of all work done and all materials furnished at the Schedule Unit Prices prior to date of default....	\$620,346.77	
Value of all work done and all materials furnished under Art. XII prior to date of default.....	5,024.61

Contract No. 3 and Elevated Extensions Certificate—Acceptance by Honorable Abel E. Blackmar of Nomination as Third Arbitrator in Proceedings with Respect to Operating Expenses and Classification and Amount of Depreciation—Filed

The Commission ordered filed an acceptance from Honorable Abel E. Blackmar, dated November 12, 1923, of the nomination to act as Third Arbitrator in the Proceedings with respect to objections by the Transit Construction Commissioner to certain expenditures under Contract No. 3, and as to the determination of the classification and amount of depreciation under Contract No. 3 and the Elevated Extensions Certificate, for the period ended June 30, 1920.

1639—R. T. 7592

Route No. 11-B, Section No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Construction of Extension of Fourth Avenue Subway and Authorizing Appropriation of \$1,725,884.10—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Papers and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 2, 1923, was ordered filed:

(Cal. No. 53)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board October 10, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with T. A. Gillespie Company for the construction of a part of a rapid transit railroad, Route No. 11-B, Section No. 3 (Fourth Avenue, Brooklyn), at an estimated cost of one million seven hundred and twenty-five thousand eight hundred and eighty-four dollars and ten cents (\$1,725,884.10), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be one million seven hundred and twenty-five thousand eight hundred and eighty-four dollars and ten cents (\$1,725,884.10); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission, dated October 10, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one million seven hundred and twenty-five thousand eight hundred and eighty-four dollars and ten cents (\$1,725,884.10), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be in addition to the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication from Arthur J. W. Hilly, Acting Corporation Counsel, dated November 12, 1923, returning the above mentioned contract approved as to form, was also ordered filed.

An original contract between the City of New York acting by the Transit Commission and T. A. Gillespie Company, dated November 13, 1923, which had been executed on behalf of both parties and delivered on November 15, 1923, was also ordered filed.

1640—R. T. 7695

Agreement "CQ"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Construction of Station Finish at Queensboro Plaza Station, and Authorizing Appropriation of \$4,969—Communication from Acting Corporation Counsel, Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 2, 1923, was ordered filed:

(Cal. No. 55)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated October 16, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with Pattelli & Wilson (Agreement "CQ") for the construction of station finish work at the Queensboro Plaza Station of the Municipal Rapid Transit Railroad in the Borough of Queens at an estimated cost of four thousand nine hundred and sixty-nine dollars (\$4,969), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be four thousand nine hundred and sixty-nine dollars (\$4,969); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding four thousand nine hundred and sixty-nine dollars (\$4,969), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated November 12, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

1641

Street Changes—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Removal of Sidewalk Encroachments in Broad Street from South Street to Wall Street, Borough of Manhattan—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 9, 1923, was ordered filed:

(Cal. No. 15)

Whereas, The entire width of Broad street between South street and Wall street, Borough of Manhattan, is required for public purposes; be it

Resolved, By the Board of Estimate and Apportionment, that all ordinances, permits or licenses heretofore adopted or granted by The City of New York or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of Broad street between South street and Wall street, Borough of Manhattan, between levels 10 feet

above the curb grade and a sufficient depth below said curb to provide for the proper support of the roadway, sidewalk and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or encumbrances in accordance with the foregoing resolution; except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 9, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1642—R. T. 7592

Route No. 11-B, Section No. 3—Communication from New York Rapid Transit Corporation Electing to Operate Extension of Fourth Avenue Subway upon Separate Accounting Basis—Filed

The following communication from the New York Rapid Transit Corporation, was ordered filed:

November 19, 1923.

TRANSIT COMMISSION,
MR. JAMES B. WALKER, Secretary,
49 Lafayette Street,
New York City, N. Y.

Dear Sir:

Your letter of October 13, 1923, in which you request that this corporation advise you at once as to the basis upon which it elects to operate the proposed extension of the Fourth Avenue Line from 87th Street to a point between 95th Street and 96th Street, was considered at the meeting of the Board of Directors held today.

I am directed by resolution of the Board of Directors to advise you, in compliance with your request, that pursuant to the provisions of Contract No. 4 this corporation elects to operate the proposed extension when constructed upon the separate accounting basis set forth in Chapter V, Part III of Contract No. 4.

Very truly yours,
W. S. MENDEN, President,
N. Y. RAPID TRANSIT CORP.

1643

Fees Received during October, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of October, 1923, fees, etc., to the amount of \$432.07 and refunds of rental from rapid transit real estate to the amount of \$4,109.00, had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$432.07 to be accredited to the General Fund of The City of New York and the sum of \$4,109.00 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

1644

Employees' Calendar No. 176

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—Max Steinman, junior clerk, at \$60.00 per month, to take effect November 21, 1923.

Appointments under Rule VIII:4—Thomas L. Bove, junior assistant, at \$125.08 per month, to take effect November 19, 1923; William A. Caperell, draftsman, at \$175.08

per month, to take effect November 16, 1923; James G. Freaney, junior assistant, at \$125.08 per month, to take effect November 19, 1923; Robert I. Geyer, junior assistant, at \$125.08 per month, to take effect November 19, 1923; Hewitt S. Gurnee, junior assistant, at \$125.08 per month, to take effect November 15, 1923; Joseph Hanley, junior assistant, at \$125.08 per month, to take effect November 19, 1923; Isaac Hillman, draftsman, at \$175.08 per month, to take effect November 19, 1923; Leopold Leer, draftsman, at \$175.08 per month, to take effect November 19, 1923; John H. Meyers, junior assistant, at \$125.08 per month, to take effect November 15, 1923; Arthur J. Nicholson, junior assistant, at \$125.08 per month, to take effect November 15, 1923; Joseph Salant, junior assistant, at \$125.08 per month, to take effect November 19, 1923; Chapman W. Seaman, junior assistant, at \$125.08 per month, to take effect November 19, 1923; William Shemin, junior assistant, at \$125.08 per month, to take effect November 19, 1923; Matthew F. Wade, junior assistant, at \$125.08 per month, to take effect November 16, 1923; Daniel Walzer, junior assistant, at \$125.08 per month, to take effect November 16, 1923.

Termination of Appointments under Rule VIII:4—Anthony Barranco, junior clerk, at \$60.00 per month, to take effect November 20, 1923; Daniel C. Dunne, junior clerk, at \$60.00 per month, to take effect November 20, 1923; Hyman Firman, junior clerk, at \$60.00 per month, to take effect November 20, 1923; Max Steinman, junior clerk, at \$60.00 per month, to take effect November 20, 1923; Eugene J. Sullivan, junior clerk, at \$60.00 per month, to take effect November 20, 1923; Benjamin Wang, junior clerk, at \$60.00 per month, to take effect November 20, 1923.

Resignations—William Gelbman, junior assistant, at \$125.08 per month, to take effect November 12, 1923; Morris Roberts, draftsman, at \$175.08 per month, to take effect November 21, 1923; Morris L. Weissberg, junior assistant, at \$125.08 per month, to take effect November 10, 1923.

Leave of Absence with Pay—Edgar T. Hurley, junior electrical engineer, from October 19, 1923, to November 5, 1923.

1645

Voucher Schedule No. 48

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct:

Vouchers Nos. 1031-1035, open market orders, \$1,550.41; Vouchers Nos. 551-552, miscellaneous bills, \$4,024.44; Vouchers Nos. 198-206, City payrolls, \$92,449.50; Voucher No. CM-22, State payrolls, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 311; Charles H. Brown & Son Corporation, Assignee; approximate estimate No. 21 for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8, from October 16, 1923 to November 15, 1923 (R. T. 7539), \$10,369.59; Voucher No. 312; Powers-Kennedy Contracting Corporation; Retained Percentage Certificate No. 3-R, for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 and 67 (R. T. 7584), \$50,000.00.

1646

Hearing

The following hearing was held:

Route No. 18—Resolution Authorizing Release of Checks to All But Lowest Bidder for Erection of Fence, etc., in 239th Street Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on November 23, 1923, for the erection of a fence, etc., in the 239th Street Yard of the White Plains Road Line, the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder, the certified checks in the sum of Three Hundred (\$300.00) Dollars, each, deposited with their bids.

1651—R. T. 7708

Route No. 18, Section No. 2—Report by Chief Engineer as to Receipt of Bids for Erection of Fence, etc., at 239th Street Yard, and Recommendation for Award of Contract to Isaac E. Abbott, at Bid price of \$2,856.40—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

November 27, 1923.

To the TRANSIT COMMISSION:

Proposed Contract for the Installation of Fence, etc., in the 239th Street Yard, White Plains Road Line.

As previously reported the bids received on November 23rd for the installation of a fence, etc., in the 239th Street Yard of the White Plains Road Line, resulted as follows:

Isaac E. Abbott	\$2,856.40
Edward Balaban & Co.	3,285.00
Fox, Reynolds Co., Inc.	3,642.00

The low bidder, Isaac E. Abbott, was examined in my office on November 26th with regard to his experience and financial ability, from which I conclude that he can do the work for us under this proposed contract in a satisfactory manner.

Attached hereto are copies of the minutes of this examination and tabulations of bids.

Recommendation: that with the concurrence of Counsel the contract be awarded to Isaac E. Abbott at his bid price of \$2,856.40 and that this amount be requisitioned from the Board of Estimate and Apportionment all chargeable to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the erection of a fence, etc., in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, (Route No. 18), was finally adopted on November 7, 1923, and subsequent to advertisement duly made, bids respectively totalling as follows were received on November 23, 1923:

Isaac E. Abbott	\$2,856.40
Edward Balaban & Co.	3,285.00
Fox, Reynolds Co., Inc.	3,642.00

; and

Whereas, The Chief Engineer of this Commission by communication dated November 27, 1923, has reported that the amount of the bid of Isaac E. Abbott for the erection of said fence, etc., is reasonable and that the said Isaac E. Abbott, the low bidder under said proposed contract is financially able and competent to perform the work thereunder and has recommended the award of said proposed contract to him and the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of two thousand eight hundred fifty-six dollars and forty cents (\$2,856.40) the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Isaac E. Abbott, as aforesaid for the performance of the work under said proposed contract be and the same hereby is accepted and that the said proposed contract for the erection of a fence, etc., in the 239th Street Yard of the White Plains Road Rapid Transit Railroad (Route No. 18), be and the same hereby is awarded to the said Isaac E. Abbott, subject to its being approved and consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment, in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of two thousand eight hundred fifty-six dollars and forty cents (\$2,856.40), estimated to be necessary to meet the City's obligations under said Contract, be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

November 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission pursuant to the authority vested in it by Chapter 134 Laws of 1921 transmits for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Isaac E. Abbott, for the erection of a fence, etc. in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, (Route No. 18), together with a requisition upon your Honorable Board for the appropriation of the sum of two thousand eight hundred fifty-six dollars and forty cents (\$2,856.40), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for such work and bids were received on November 23, 1923, respectively totalling as follows:

Isaac E. Abbott	\$2,856.40
Edward Balaban & Co.	3,285.00
Fox, Reynolds Co., Inc.	3,642.00

The Chief Engineer of this Commission in a communication dated November 27, 1923, has reported that the bid of Isaac E. Abbott, the low bidder, is reasonable and that the said Isaac E. Abbott is competent and financially able to perform the work thereunder, and the Transit Commission has accepted said bid of Isaac E. Abbott and awarded the said proposed contract to the said Isaac E. Abbott, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirement of said proposed contract, to wit, the sum of two thousand eight hundred fifty-six dollars and forty cents (\$2,856.40); and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of securing the amount necessary to meet the obligations of the City under said proposed contract, to wit, the sum of two thousand eight hundred fifty-six dollars and forty cents (\$2,856.40). Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock, for the full amount necessary to pay the estimated expense to the City of carrying out said contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
by GEORGE McANENY,
Chairman.

1652

Expenses—Resolution Authorizing Requisition upon Board of Estimate and Apportionment for Appropriation of \$1,000,000 for Expenses for Year Ending December 31, 1924—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Resolved, That the Chairman and the Secretary of the Transit Commission be, and they hereby are, authorized in the name and in behalf of said Commission to make a certificate to and a requisition on the Board of Estimate and Apportionment for the sum of One Million Dollars (\$1,000,000), in the following form to wit:

"Requisition is hereby made upon you, pursuant to the provisions of Chapter 134 of the Laws of 1921, by the Transit Commission, for the sum of One Million Dollars (\$1,000,000), which sum said Transit Commission hereby certifies as necessary, on account, to properly enable it to do and perform or cause to be

November 27, 1923]

done and performed, for the year ending December 31, 1924, the duties imposed upon said Commission by said law.

"Appended hereto is a certified copy of the resolution of the Commission authorizing the execution of the certificate and requisition.

"In witness whereof, the Transit Commission has caused this requisition to be signed by its Chairman and its Secretary and its official seal to be hereto affixed this 27th day of November, 1923."

TRANSIT COMMISSION,

Chairman.

Attest:

Secretary.

The requisition was as follows:

November 27, 1923.

To the BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Requisition is hereby made upon you, pursuant to the provisions of Chapter 134 of the Laws of 1921, by the Transit Commission, for the sum of One Million Dollars (\$1,000,000), which sum said Transit Commission hereby certifies as necessary, on account, to properly enable it to do and perform or cause to be done and performed, for the year ending December 31, 1924, the duties imposed upon said Commission by said law.

Appended hereto is a certified copy of the resolution of the Commission authorizing the execution of the certificate and requisition.

In witness whereof, the Transit Commission has caused this requisition to be signed by its Chairman and its Secretary and its official seal to be hereto affixed this 27th day of November, 1923.

Yours very truly,

TRANSIT COMMISSION,

GEORGE McANENY,
Chairman.

Attest:

JAMES B. WALKER,
Secretary.

The communication transmitting the requisition to the Board of Estimate and Apportionment, was as follows:

November 27, 1923.

To the BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, in pursuance of a resolution adopted at its meeting on November 27, 1923, transmits to you herewith, and as a part hereof, a requisition in the sum of One Million Dollars (\$1,000,000), which is the amount necessary and requisite, on account, to enable the said Transit Commission to do and perform or cause to be done and performed, the duties prescribed for it by Chapter 134 of the Laws of 1921, and to provide, on account, for the expenses and compensation of the employees of the said Commission for the year ending December 31, 1924.

Such funds are necessary for the carrying on of the supervision of outstanding construction contracts and of contracts now before your Board for approval, the preparation of contract and detailed plans preliminary to the letting of contracts for the construction of the remaining portions of the lines embraced in the Dual Rapid Transit System, the legalization of additional rapid transit routes, the supervision of plans and contracts of the operating companies under the Dual System, the acquisition of real estate and other rights incident to rapid transit construction, the preparation, negotiation and installation of the statutory plan for the rehabilitation of transit facilities within the City, including the valuation and appraisal of all transit properties, the regulation of transit operation within the City and the performance of other duties imposed on the Commission by statute.

While the duties imposed upon the Commission by statute are so varied that a precise determination of its financial need for the balance of the year cannot now be made, nor an exact division of the amount now requisitioned as between construction, regulation and the development of the statutory plan of reorganization attempted, an approximation, figured as closely as possible, shows that of the amount requisitioned 80% will be expended upon the work incident to construction, 10% upon regulation and the duties incident thereto, and the remaining 10% on account of the plan of reorganization, including the appraisal and valuation of properties, legal expense, etc. The accounts of the Commission are kept in such manner that an exact distribution of expenditure as between the three divisions of its work referred to will be made and recorded as the year proceeds.

Yours very truly,
 TRANSIT COMMISSION,
 GEORGE McANENY,
 Chairman.

1653—R. T. 6881

Order No. 3—Report by Chief Engineer Recommending Request to Board of Estimate and Apportionment for Readjustment of Appropriation under Contract for Storage and Hauling of Untreated Ties and Timber—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated November 21, 1923, recommending that a request be made to the Board of Estimate and Apportionment for a readjustment of the appropriations made under the contract with J. H. Burton & Company, Inc., for the storage and hauling of untreated ties and timber, so as to appropriate an additional sum of \$1,963.95 chargeable to Contract No. 3, and to rescind the balance of \$3,423.94 chargeable to Contract No. 4.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment by action heretofore taken, consented to a proposed contract between The City of New York, acting by the Public Service Commission for the First District, and J. H. Burton & Company, Inc., for the storage and hauling of untreated ties and timber for use in the construction of municipal rapid transit railroads and appropriated for the purposes of said contract, the sums as more particularly indicated in the report of the Chief Engineer with respect thereto, dated November 21, 1923; and

Whereas, The said report of the Chief Engineer recommends that the Commission request the Board of Estimate and Apportionment to appropriate the additional sum of \$1,963.95 for the purposes of meeting the cost of the work under said contract with J. H. Burton & Company, Inc. chargeable to Contract No. 3, and to rescind the sum of \$3,423.94 of the appropriations made for said contract chargeable to Contract No. 4; and

Whereas, Counsel has prepared and submitted a proposed requisition which will effect such recommendation,

Resolved, That said report and recommendation be and the same hereby are approved and that the requisition in the form now submitted by Counsel be and the same hereby is approved, and that it be transmitted to the Board of Estimate and Apportionment of the City of New York.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

November 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
 OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board by resolution adopted on April 25, 1919 consented to a proposed contract between The City of New York, acting by the Public Service Commission for the First District and J. H. Burton & Company, Inc., for the storage and hauling of untreated ties and timber to be used in the construction of municipal

rapid transit railroads under the contracts both dated March 19, 1913, and known respectively as Contract No. 3 and Contract No. 4, and appropriated for the purposes of carrying out said contract the sum of Twenty-four thousand, five hundred dollars (\$24,500) of which Fifteen thousand, six hundred dollars (\$15,600) was charged as a sub-authorization against the appropriations made for the purposes of Contract No. 3 and Eight thousand, nine hundred dollars (\$8,900) as a sub-authorization under the appropriations made for the purposes of carrying out Contract No. 4.

In addition further appropriations were made as more particularly indicated in the Chief Engineer's report of November 21, 1923, which is as follows:

"In connection with the attached final papers under the contract dated May 7, 1919 with J. H. Burton & Co., Inc., for the storage and hauling of untreated ties and timbers for the Rapid Transit Railroad of the City of New York, your attention is called to the fact that an adjustment of appropriations and charges is necessary before the final payment can be made.

"The status of the fund is for

	<i>Appropriations</i>	
	Original Appropriation April 25, 1919.....	\$15,600.00
	Additional Appropriation August 12, 1921.....	6,000.00
	Additional Appropriation October 13, 1922.....	2,300.00
	<hr/>	
	Total	\$23,900.00
	Final Cost	25,863.95
Contract No. 3	Amount to be appropriated.....	1,963.95
	<i>Charges</i>	
	Amount charged on Vouchers—Approximate Estimates 1 to 21 inclusive.....	\$22,185.74
	Amount to be charged on account of above Estimates	25,525.04
	<hr/>	
	Amount to be transferred from Contract No. 4.....	\$3,339.30
	<i>Appropriations</i>	
	Original Appropriation April 25, 1919.....	\$8,900.00
	Additional Appropriation August 12, 1921.....	1,000.00
	Rescindment October 13, 1922.....Cr.	300.00
	<hr/>	
	Total	\$9,600.00
	Final Cost	6,176.06
Contract No. 4	Amount available for Rescindment.....	\$3,423.94
	<i>Charges</i>	
	Amount charged on Vouchers—Approximate Estimates 1 to 21 inclusive.....	\$9,515.36
	Amount to be charged on account of above Estimates	6,176.06
	<hr/>	
	Amount to be transferred to Contract No. 3.....	\$3,339.30

"Recommended (1) that the Board of Estimate and Apportionment be requested to rescind an amount of \$3,423.94 from the appropriations heretofore made under Contract No. 4 for the purposes of the contract for storing and hauling untreated ties and timber and apply such amount to the Contract No. 4 general fund and to appropriate an amount of \$1,963.95 from the Contract No. 3 general fund and make such amount available for the purposes of the contract for storing and hauling ties and timbers described above.

(2) that the Comptroller of the City of New York be requested to adjust the charges on account of the contract for storing and hauling untreated ties and timber so as to transfer an amount of \$3,339.30 from Contract No. 4—Code C-CM-404 to Contract No. 3—Code C-CM-305; and

(3) that a copy of request (1) be sent to the Comptroller and a copy of request (2) be sent to the Board of Estimate and Apportionment."

Accordingly the Transit Commission hereby makes requisition upon your Honorable Board for the appropriation of the additional sum of One thousand, nine hundred and sixty-three dollars and ninety-five cents (\$1,963.95) for the purpose of carrying out said contract in so far as it is chargeable to said Contract No. 3, such additional sum to be a sub-requisition under the appropriations heretofore made for the purposes of carrying out said Contract No. 3.

Your Honorable Board is further requested to rescind of the appropriations made by your Honorable Board for said Contract with J. H. Burton & Company, Inc., chargeable to Contract No. 4, the sum of Three thousand, four hundred and twenty-three dollars and ninety-four cents (\$3,423.94).

TRANSIT COMMISSION,
By GEORGE MCANENY,
Chairman.

1654—R. T. 7689

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Denying Request for Appropriation of \$85 as City's Share for Installing Enamel Signs at Stations—Referred to Counsel

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 16, 1923, was referred to Counsel:

(Cal. No. 27)

Resolved, That the Board of Estimate and Apportionment hereby denies the request of the Transit Commission, under date of September 6, 1923, for an appropriation of eighty-five dollars (\$85) to provide for the cost to the City of New York of installing additional standard enamel station signs at various stations of the rapid transit railroads constructed under Contract No. 3, said sum being one-half of the total estimated cost of this work.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 16, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1655—R. T. 6881

Order No. 3—Certificate by Chief Engineer of Completion of Contract for Storage and Hauling of Untreated Ties and Timber—Resolution Accepting Work and Directing That Certificate Be Filed with Comptroller

The following certificate was approved:

November 21, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Storage and Hauling of Untreated Ties and Timber.

In connection with the contract dated May 7, 1919 between the City of New York and J. H. Burton & Company, Inc., for the storage and hauling of untreated ties and timbers for the Rapid Transit Railroad of the City of New York, I hereby certify that the work was completed on June 30, 1923. The total cost of the work was \$32,040.01.

There was no time limit set in the contract.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The Contract dated May 7, 1919, between The City of New York and J. H. Burton & Company, Inc., for the storage and hauling of untreated ties and timber for municipal rapid transit railroads, prescribed no time limit for completion; and

Whereas, The Chief Engineer of this Commission by communication dated November 21, 1923, has reported that the total cost of the work under said contract was \$32,040.01; that the work contemplated by said contract was in all respects completed on June 30, 1923, and recommended that the work so performed be accepted and that

a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of The City of New York,

Resolved, That said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

1656—R. T. 7695

Agreement "CQ"—Resolution Approving Sureties upon Bond in Sum of \$2,000 Deposited by Contractor as Security for Construction of Station Finish at Queensboro Plaza Station—Adopted

The following resolution was adopted:

Resolved, That the Maryland Casualty Company and the Union Indemnity Company be and they hereby are approved as sureties upon the bond in the sum of Two thousand Dollars (\$2,000) deposited by Pattelli & Wilson as security for the faithful performance of the contract for the construction of station finish at the Queensboro Plaza Station, Borough of Queens, Agreement "CQ", each of said sureties being held and bound in the sum of One thousand dollars (\$1,000).

1657—R. T. 7603

Route No. 52, Section No. 3—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Underpinning Building at No. 105 Amity Street, Flushing—Approval Resolution

A report was presented from the Chief Engineer dated November 21, 1923, recommending the approval of a supplementary schedule item, as described below.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item 150 of the contract dated March 28, 1923, between The City of New York, acting by the Transit Commission, and the Oakdale Contracting Company, Inc., for the construction of the Flushing Extension, Route No. 52, Section No. 3, having, subject to the approval of the Commission, agreed with the Contractor upon the following supplementary schedule item:

Item No. 4AP (m)—For maintaining, protecting, securing and underpinning No. 105 Amity Street, the lump sum price of \$2,250.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1658—R. T. 7639

Agreement "CC"—Report by Chief Engineer Recommending Approval of Supplemental Schedule Items under Contract for Alterations in Railroad Structure so as to Permit Widening of East 60th Street, Borough of Manhattan—Approval Resolution

A report was presented from the Chief Engineer dated November 24, 1923, recommending the approval of the establishment of supplemental schedule items, as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of the Commission in pursuance of Item 150 of the Contract, dated May 23, 1923, between the City of New York acting by the Transit Commission of the State of New York, and Jacob Schlesinger, Inc., Contractor under Agreement "CC" for making alterations in railroad structure, Routes 4 & 36, Section 5, to permit the widening of roadway of East 60th Street, Borough of Manhattan, having, subject to the approval of the Commission, agreed with the Contractor, Jacob Schlesinger, Inc., upon the following Supplemental Schedule Items:

Item 20 H-1—For the performance of a part of the work of removing old steel beams and re-erecting them in new location, (The part of the work to be paid for hereunder was originally classified for payment at the lump sum price, in Scheduled Item 20-H. By direction of the Engineer, all of the work shown by Sections SS and MM on working drawings Nos. 213 and 212 respectively, which was originally classified under Item 20-H, has been omitted and the scheduled price for item 20-H is therefore not applicable), the lump sum of Two Hundred Dollars (\$200.00).

Item 20-H-2—For cutting off and removing existing steel sidewalk beams and for wedging up and supporting in place the remaining parts of the existing steel sidewalk beams and sidewalk not removed as shown by modified plans for Sections SS and MM and as directed by the Engineer, the lump sum of One Hundred and Twenty Dollars (\$120.00).

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1659—R. T. 6080

Routes Nos. 19 & 22—Application by Thomas S. Sherwood for Permission to Occupy Premises at No. 1668 Eastchester Road, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Thomas S. Sherwood, dated November 26, 1923, requesting permission to occupy the building on the premises at No. 1668 Eastchester Road, Borough of the Bronx, at a rental of \$16.00 per month, beginning August 21, 1923.

A report was presented from the Real Estate Clerk dated November 26, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Thomas S. Sherwood by application dated November 26, 1923, has requested permission to occupy a small frame building on the premises known as 1668 Eastchester Road, Borough of The Bronx, part of property acquired by condemnation on August 21, 1923, for purposes of the Westchester Avenue Line Storage Yard, agreeing to pay rent at the rate of \$16.00 per month beginning August 21, 1923, to vacate on fifteen (15) days' notice and to other conditions of a character usually contained in similar applications; and

Whereas, The Real Estate Clerk, under date of November 26, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

1660—R. T. 6080

Fourth Avenue Subway—Report by Real Estate Clerk Recommending That Auditor Be Authorized to Turn Over \$100 Deposited by Constantin Vassas as Security for the Replacement of Fences at the Northwest and Southeast Corners of Myrtle Avenue and Flatbush Avenue Extension, Borough of Brooklyn—Approval Resolution

A report was presented from the Real Estate Clerk dated November 26, 1923, recommending that the Auditor be authorized and directed to turn over to the Real Estate Clerk, the sum of \$100 deposited by Constantin Vassas as security for the replacement of fences in the properties at the northwest and southeast corners of Myrtle Avenue and Flatbush Avenue Extension, Borough of Brooklyn.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of November 26, 1923, has reported that there is in the custody of the Auditor of the Commission a deposit of \$100.00 for the replacement of fences at the northwest and southeast corners of Myrtle Avenue and Flatbush Avenue Extension, Borough of Brooklyn, made by Constantin Vassas in 1915, that the said Vassas surrendered his concession at the northwesterly corner and erected a small building for a restaurant at the southeasterly corner, which building covers the entire building line of the said premises, that upon the death of the said Vassas, the widow, Mary Vassas, succeeded him as tenant, and that the said Mary Vassas in connection with an application dated November 29, 1921, approved by the Commission on December 6, 1921, surrendered to the City title to the said building without, however, the said fence deposit having been returned to her, recommending that, as there will be no need for the replacement of the fence, the said deposit of \$100.00 be returned to the said Mary Vassas, in which recommendation Counsel has concurred;

Resolved, That the Auditor of the Commission be, and he hereby is, authorized and directed to turn over to the Real Estate Clerk of the Commission the said deposit of \$100.00, and that the Real Estate Clerk be, and he hereby is, authorized and directed to deliver the same to the said Mary Vassas and to take therefor from the said Mary Vassas a suitable receipt.

1661—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Furnishing Noncondensing Type Turbine for 59th Street Power Station—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated November 6, 1923, requesting approval of a proposed purchasing agent's order directed to the General Electric Company for furnishing a noncondensing type turbine for the 59th Street Power Station at a cost of \$2,626.

A report was presented from the Consulting Engineer, Dr. Charles E. Lucke, dated November 22, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment of the Railroad to be performed under Work Order No. D-18-A.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has submitted for the approval of this Commission as amplified by its letter of November 6, 1923, a proposed purchasing agent's order dated October 25, 1923, directed to General Electric Company, for the following:

1—375 H. P. 2410 R. P. M. 3 stage non-condensing type D-51 Turbine, as per I. R. T. Co's Motive Power Department spec. No. 104, Issue No. 2.

Turbine to be set for temporary operation at 250 H. P.

2100 R. P. M. with steam at 220 pounds, gauge 1500 F. superheat and 5 pounds back pressure.

Price: \$2,626.00.

To be delivered to our 59th Street and 11th Avenue Power Station in three months from date of order.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 507"; and

Whereas, Consulting Engineer Dr. Charles E. Lucke, approved by the Acting Executive Officers, has reported by communication dated November 26, 1923 that the said equipment is necessary; that the price is reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated November 26, 1923 recommends that the cost of such additional equipment be classified as Additional Equipment for the Railroad, as described in said Contract No. 3, and that Work Order No. D-18-A be assigned thereto,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order to be classified as Additional Equipment for the Railroad as defined and described in said Contract No. 3 and as for which this Commission assigns Work Order No. D-18-A.

1662—R. T. 6597, 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing Parts for Turnstiles—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 29, 1923, requesting approval of a proposed purchasing agent's order directed to Perey Manufacturing Company, Inc. for the purchase and installation of necessary parts for equipping eighteen passimeters with cast-iron heads and wooden arms for the sum of \$900.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 19, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the cost be charged to Maintenance.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has, by communication dated October 29, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated October 27, 1923, directed to the Perey Manufacturing Company, Inc., for the following:

"Furnish and attach to eighteen (18) Standard Wing Type Manual Release Passimeters, now at the Register Repair Shop, No. 849 Nostrand Ave., Brooklyn, new cast iron heads and wooden arms, for the sum of \$50.00 for the complete installation on each machine.

Before proceeding with this work you will be required to submit details of the cast iron heads and wooden arms to Mr. H. J. Kolb, Engineer Way & Structure, 85 Clinton Street, Brooklyn, N. Y. for his approval."

which proposed purchasing agent's order has been caused to be designated as "Approval No. 384"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated November 19, 1923, reported that such turnstiles are to be installed in the stations of the Fourteenth Street-Eastern Line and at the Union Square Station of the Broadway-Fourth Avenue Line of the Railroad described in said Contract No. 4; that the plans for such turnstiles have been approved and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated November 20, 1923, has recommended that the cost under said proposed purchasing agent's order be charged to Maintenance,

Resolved, That the reports and recommendations aforesaid be and the same hereby are approved; that the proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is author-

ized and directed to execute the form of approval of this Commission, made part of said proposed purchasing agent's order, the cost thereunder to be charged to Maintenance under and in accordance with the provisions of said Contract No. 4.

1663—R. T. 6820

Fourth Avenue Subway—Copy of Communication to New York Rapid Transit Corporation Requesting Attitude of Company with Respect to Removal of Mall Spaces, Subway Kiosks and Ventilators on Fourth Avenue between Atlantic Avenue and 60th Street, Brooklyn—Approved and Ordered Filed

The following copy of the communication to the New York Rapid Transit Corporation was approved and ordered filed:

November 23, 1923.

MR. W. S. MENDEN, President,
New York Rapid Transit Corp.,
85 Clinton Street, Brooklyn, N. Y.

Removal of mall spaces, subway kiosks and ventilators on 4th Avenue between Atlantic Avenue and 60th Street, Brooklyn.

Dear Sir:

The Board of Estimate and Apportionment has under consideration the removal of mall spaces, the subway kiosks and ventilators on 4th Avenue between Atlantic Avenue and 60th Street, Borough of Brooklyn, and it has requested the Commission for an estimate of cost for doing the work of changing the subway structure to conform to this plan proposing to locate new entrances to the subway on the sidewalks of the Avenue.

The resolution of the Board of Estimate and Apportionment dated November 16, 1923 requests the Transit Commission to ascertain the attitude of your Company upon the proposed public improvement. Will you therefore be good enough to communicate to this Commission, at your earliest convenience, the attitude of your Company with respect to this matter.

Very truly yours,
JAMES B. WALKER,
Secretary.

1667—Cases 1264, 1380

The Long Island Railroad Company—Alterations of Grade Crossings at Hempstead and Jamaica Turnpike et al.—Order Approving Plan Showing Drains on Springfield Boulevard (Creed Avenue) Adopted

The Secretary presented a communication, dated November 10, 1923, from L. V. Morris, Chief Engineer of The Long Island Railroad Company, submitting for approval plan showing drains on Springfield Boulevard (Creed Avenue) in connection with the eliminations directed by the Order in Cases Nos. 1264 and 1380.

The Secretary also presented a report, dated November 14, 1923, by C. J. Slipper, Assistant Engineer, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, recommending the approval of said plan.

Thereupon the Commission adopted and ordered filed an Order in Cases Nos. 1264 and 1380, in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LEROY T. HARKNESS.	

IN THE MATTER
of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossing with the tracks of THE LONG ISLAND RAILROAD COMPANY:
Hempstead and Jamaica Turnpike.

CASE No. 1264.

IN THE MATTER
of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of THE LONG ISLAND RAILROAD COMPANY:

Bennett or Baylis Avenue
Wertland Avenue
Creed Avenue
Madison Avenue.

ORDER APPROVING PLAN.
CASE No. 1380.

The Public Service Commission having on or about the 8th day of December, 1911 adopted orders and determinations herein as to changes in grade crossings at the above named avenues and streets over the tracks of the Long Island Railroad Company and said railroad company having by a communication dated November 10, 1923 submitted for approval a plan showing drains on Springfield Boulevard (Creed Avenue) to be

constructed in conjunction with the eliminations involved herein, and the Commission having examined said plan and it appearing that the same is satisfactory, it is hereby Ordered, That the plan described and identified as follows:

"QUEENS ELIMINATION
PLAN SHOWING DRAINS ON
SPRINGFIELD BOULEVARD (CREED AVE.)
L. I. R. R. CO.
OFFICE OF THE CHIEF ENGINEER
DRAWING No. 840-Q
SCALE 20'-1" DATE—10-21-22

be and the same hereby is approved.

Further Ordered, That this approval shall not be deemed as binding upon the State of New York and The City of New York to pay any share of the cost of any additions and betterments to the railroad over and above such work as is necessary to carry the said streets across the tracks of the said railroad.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1668—Case 1399

New York Rapid Transit Corporation et al.—Quarterly Reports—Extension Order Adopted

The Secretary presented a communication, dated October 9, 1923, from M. B. Hoffman, Assistant Counsel, requesting on behalf of the New York Rapid Transit Corporation, the New York Consolidated Railroad Company and Lindley M. Garrison, as Receiver thereof, a further extension of time to December 1, 1923, within which to file quarterly reports for the quarter ended June 30, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1399, granting the desired extension of time to December 1, 1923.

1669—Case 2690

New York Rapid Transit Corporation et al.—Form of Annual Report—Extension Order Adopted

The Secretary presented a communication, dated October 31, 1923, from M. B. Hoffman, Assistant Counsel, requesting on behalf of Lindley M. Garrison, as Receiver, New York Consolidated Railroad Company and the New York Municipal Railway Corporation, and on behalf of the New York Rapid Transit Corporation, a further extension of time to December 1, 1923, within which to file annual reports for the year ended June 30, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting the desired extension of time to December 1, 1923.

1670—R. T. 7661

Route No. 78-A—Communication from Board of Estimate and Apportionment Transmitting Certified Copy of Resolution Approved by Acting Mayor Consenting to Route and General Plan for St. Nicholas Avenue, Broadway and Fort Washington Avenue Route—Filed

The Commission ordered filed a communication from the Board of Estimate and Apportionment dated November 23, 1923, transmitting the following certified copy of

the resolution adopted on November 9, 1923, approved by the Acting Mayor on November 16, 1923:

Whereas, The Transit Commission has duly determined upon a route or routes and general plan of construction of a rapid transit railway for the conveyance of persons and property, to be established in the City of New York, in addition to the already existing lines, and did, by resolution adopted October 11, 1923, adopt such route or routes and general plan, being more particularly known as St. Nicholas Avenue, Broadway and Fort Washington Avenue Route; and

Whereas, Thereafter said Transit Commission did transmit to the Board of Estimate and Apportionment of the City of New York a copy of the plans and conclusions for such route or routes as adopted, which plans and conclusions were received by the said Board of Estimate and Apportionment on the 19th day of October, 1923, at a meeting of said Board of Estimate and Apportionment duly held on said day; and

Whereas, Said Board of Estimate and Apportionment, by resolutions duly adopted at said meeting, did appoint a day not less than one week nor more than 10 days after the receipt thereof for the consideration of such plans and conclusions, to wit, the 26th day of October, 1923, at 10:30 o'clock A. M., and proceeded with and continued such consideration until November 9, 1923, when such consideration was concluded; and

Whereas, The plans and conclusions are fully set forth in the resolution adopted by the Transit Commission on October 11, 1923, and which resolutions are as follows:

RESOLUTIONS ADOPTED BY THE TRANSIT COMMISSION OCTOBER 11, 1923.

St. Nicholas Avenue, Broadway and Fort Washington Avenue Route.
(Route No. 78-A.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination.

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

Route.

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point in St. Nicholas Avenue at or near West 162d Street where a connection can conveniently be made with other proposed rapid transit railroads; thence extending northerly as a subway or tunnel along and under St. Nicholas Avenue to a point in St. Nicholas Avenue at or near Broadway and West 169th Street; thence extending northerly along and under Broadway to a point in Broadway at or near West 173d Street; thence curving northwesterly across and under private property, to a point in Fort Washington Avenue at or near West 174th Street; thence extending northerly under and along Fort Washington Avenue to a point in Fort Washington Avenue at or near West 175th Street, where a connection can conveniently be made with other proposed rapid transit railroads.

General Plan of Construction.

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or subsurface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to any part of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purpose of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in one tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of roadway.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction

shall be only by tunneling or trench excavation under cover unless the Commission, in cases of necessity and for such times as may be necessary, permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

Mode of Operation.

The general mode of operation of the route above described shall be by electricity, or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

Definitions.

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

Maps or Drawings.

It is further resolved, That the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route 78-A, St. Nicholas Avenue, Broadway and Fort Washington Avenue Route, Borough of Manhattan," dated October 9, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

TRANSIT COMMISSION,
By JAMES B. WALKER,
Secretary.

October 11, 1923.

Now, therefore, be it

Resolved, That the Board of Estimate and Apportionment of the City of New York, by a majority vote, according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions and consents to the construction of a railway or railways in accordance therewith.

A true copy of resolution adopted by the Board of Estimate and Apportionment November 9, 1923.

PETER J. MCGOWAN,
Secretary.

The foregoing resolution is hereby approved.

MURRAY HULBERT,
Acting Mayor.

Dated, New York, November 16, 1923.

I hereby certify that the foregoing is a true copy of the original approved resolution as filed in this office.

PETER J. MCGOWAN,
Secretary.

1671—R. T. 7664

Route No. 33, Section No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Construction of Station Finish at Lawrence Street Station and Authorizing Appropriation of \$51,073.65—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution, adopted by the Board of Estimate and Apportionment on November 16, 1923, was ordered filed:

(Cal. No. 100)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated October 30, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with the Station Finish Corporation for the construction of station finish for part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section 3, Lawrence Street Station, at an estimated cost of fifty-one thousand and seventy-three dollars and sixty-five cents (\$51,073.65), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be fifty-one thousand and seventy-three dollars and sixty-five cents (\$51,073.65); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of the City of New York to an amount not exceeding fifty-one thousand and seventy-three dollars and sixty-five cents (\$51,073.65), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purpose of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 16, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication from Arthur J. W. Hilly, Acting Corporation Counsel, dated November 24, 1923, returning the above mentioned contract, approved as to form, was also ordered filed.

1672—R. T. 7645

Agreement "CS"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Construction of Duct Line at 239th Street Yard and Authorizing Appropriation of \$9,663—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 16, 1923, was ordered filed:

(Cal. No. 96)

Resolved, That pursuant to the requisition of the Transit Commission to this Board, dated October 11, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with Felix Hanratty for the construction of a railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad (Route No. 18), Borough of The Bronx, Agreement "CS," at an estimated cost of nine thousand six

hundred and sixty-three dollars (\$9,663), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be nine thousand six hundred and sixty-three dollars (\$9,663); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter and the requisition of the Transit Commission, dated October 11, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding nine thousand six hundred and sixty-three dollars (\$9,663), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million, two hundred thousand dollars (\$28,200,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 16, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication from Arthur J. W. Hilly, Acting Corporation Counsel, dated November 24, 1923, returning the above mentioned contract, approved as to form, was also ordered filed.

1673

Expenses—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$400,000 as Expenses for Year Ending December 31, 1923—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 16, 1923, was ordered filed:

(Cal. No. 99)

Resolved, That the Board of Estimate and Apportionment, in accordance with the requisition of the Transit Commission dated October 30, 1923, and pursuant to the provisions of chapter 134 of the Laws of 1921, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby authorizes an appropriation in the sum of four hundred thousand dollars (\$400,000) in addition to the amounts heretofore appropriated, to properly enable the Transit Commission to do and perform or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by the said law; and the Comptroller is hereby authorized, pursuant to law and the said requisition of the Transit Commission, to issue special revenue bonds of The City of New York to an amount not exceeding four hundred thousand dollars (\$400,000), redeemable from the tax levy of the year next succeeding the year of their issue, the proceeds to be used for the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 16, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1674—R. T. 7695

Agreement "CQ"—Statement as to Execution and Delivery of Original Contract for Construction of Station Finish at Queensboro Plaza Station—Filed

The Commission ordered filed an original contract dated November 21, 1923, between the Transit Commission and Pattelli & Wilson for the construction of station finish work at the Queensboro Plaza Station, Agreement "CQ," which contract had been executed on behalf of both parties and delivered on November 24, 1923.

1675—R. T. 6881

Order No. 3—Consents of Sureties to Resolution Extending Time to December 31, 1924, within Which to Complete Delivery of Open Hearth Rail—Filed

The Commission ordered filed, consents of the sureties upon the bond deposited by the Bethlehem Steel Products Company, to the resolution of the Commission, adopted on November 13, 1923, extending the time of the contractor, to and including December 31, 1924, within which to complete the delivery of 85 pound and 100 pound open hearth rail—Order No. 3.

1676—R. T. 7230

Rapid Transit Railroads—Report by Chief Engineer Transmitting List of Sub-contracts Approved during Month of October, 1923—Filed

The Commission ordered filed a report by the Chief Engineer, dated November 24, 1923, transmitting a list of sub-contracts approved during the month of October, 1923.

1677—R. T. 7112

Route No. 5—Communication from Interborough Rapid Transit Company Transmitting Copy of Agreement for Lease of Ducts in Tunnel under Harlem River—Filed

The Commission ordered filed a communication from the Interborough Rapid Transit Company, dated November 19, 1923, transmitting a copy of an agreement dated October 5, 1923, between the Interborough Rapid Transit Company and the New York Telephone Company, for the lease to the Telephone Company of eight excess ducts in the Harlem River Tunnel of the Seventh Avenue-Lexington Avenue Line, for a term of fifteen years, at an annual rental of \$1800 per duct mile.

1678

Lease—Proposed Lease for Ground Floor of Premises at No. 9215 Fifth Avenue, Borough of Brooklyn—Approval Resolution

The following resolution was adopted:

Resolved, That this Commission do and it hereby does approve the proposed form of lease from Christy Accardi and Elizabeth Accardi, now submitted to this Commission, covering the ground floor store located at and designated as 9215 Fifth Avenue, Borough of Brooklyn, City of New York, to be occupied as an office for a term commencing from the 16th day of November, 1923 to the 16th day of November, 1924 with option of renewal for a further term of one year from the last mentioned date, at the annual rental of Seven hundred and eighty (\$780) dollars, payable in monthly installments and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said lease for and on behalf of this Commission.

1679

National Association of Railway and Utilities Commissioners

Upon motion made and duly seconded, the Secretary was authorized to attend the annual convention of the National Association of Railway and Utilities Commissioners in Miami, Florida, from December 4 to December 7, 1923, inclusive.

1680

Employees' Calendar No. 177

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—Joseph P. Gowan, junior assistant, at \$125.08 per month, to take effect October 27, 1923.

Appointments under Rule VIII:4—Harry S. Babcock, junior assistant, at \$125.08 per month, to take effect November 26, 1923; Gerard J. Brinkman, junior assistant, at \$125.08 per month, to take effect December 3, 1923; Guy D. Faulkner, draftsman, at \$175.08 per month, to take effect November 26, 1923; Leo M. Glasser, junior assistant, at \$125.08 per month, to take effect November 26, 1923; Martin Katz, junior clerk, at \$60.00 per month; to take effect November 23, 1923; Dominick A. Masucci, junior assistant, at \$125.08 per month, to take effect November 26, 1923; Edward I. Meltzer, junior clerk, at \$60.00 per month, to take effect November 26, 1923; Daniel J. Quilty, junior assistant, at \$125.08 per month, to take effect November 20, 1923; Arthur W. Smith, junior assistant, at \$125.08 per month, to take effect November 21, 1923; William Spivak, junior assistant, at \$125.08 per month, to take effect November 21, 1923; Jacob J. Sternbach, draftsman, at \$175.08 per month, to take effect November 20, 1923.

Appointment under Rule VIII:9—Harold H. Dunn, consulting traffic expert, when employed, at \$35.00 per diem, to take effect August 1, 1923.

Reinstated under Rule XVI:1—Irving Miller, junior accountant, at \$137.50 per month, to take effect September 1, 1923.

Resignations—K. Samuel Axelrod, junior assistant, at \$125.08 per month, to take effect November 24, 1923; Justin D. Graves, junior assistant, at \$125.08 per month, to take effect November 30, 1923; Leland V. Matheis, junior assistant, at \$125.08 per month, to take effect November 21, 1923; Alfred W. Wyman, draftsman, at \$175.08 per month, to take effect November 24, 1923.

Laid Off for Lack of Work—Irving Miller, junior accountant, at \$137.50 per month, to take effect August 31, 1923.

1681

Voucher Schedule No. 49

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct:

Vouchers Nos. 1036-1053, open market orders, \$5,338.47; Vouchers Nos. 553-599; 601-607; 609-611, miscellaneous bills, \$5,649.76; Vouchers Nos. 29-34, special payroll, \$6,929.36.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 313; Jacob Schlesinger, Inc., approximate estimate No. 16 for the construction of a second addition to shops at the Lenox Avenue and 148th Street Yard, under Contract No. 3 (R. T. 7368), \$12,452.87;

Voucher No. 314; McClintic-Marshall Co.; approximate estimate No. 3 for furnishing and erecting structural steel for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3 (R. T. 7590), \$44,706.82;

Voucher No. 315; J. H. Burton & Co., Inc.; final estimate for the storage and hauling of untreated ties and timber for the rapid transit railroad of the City of New York to June 30, 1923 (R. T. 6881), \$338.91.

1682

Upon motion duly seconded and adopted, the meeting was adjourned to Wednesday, December 5, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, November 28, 1923

1683

Hearing

The following hearing was held:

2:45 P. M.; Case No. 2704; Manhattan Railway Company; Application for determination pursuant to Chapter 635 of the Laws of 1923, of the railway facilities and structures necessary for the public convenience, in the vicinity of its elevated railway station at 3rd Avenue and 42nd Street. George L. Lucas, Acting Chief Executive Officer, designated to conduct this hearing, presided. Adjourned to December 3, 1923, at 2:30 P. M.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, November 30, 1923

1684—R. T. 7707

Order No. 23—Receipt of Bids for Supply of Special Work—Referred to Chief Engineer

Chairman McAneny stated that the time within which to receive bids for the supply of special work, Order No. 23, for use in the construction of a part of the Lenox Avenue and 148th Street Yard, had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the four bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

The Minutes of the Proceedings for the month of September, 1923, were approved.

1688—R. T. 7707

Order No. 23—Resolution Authorizing Return of Checks to All But Lowest Bidder for Supply of Special Work—Filed

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on November 30, 1923 for the supply of special work, Order No. 23, for use in the construction of a part of the Lenox Avenue and 148th Street Yard, the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder the certified checks in the sum of One thousand dollars (\$1,000) each deposited with their bids.

1689—R. T. 7707

Order No. 23—Report by Chief Engineer as to Receipt of Bids for Supply of Special Work and Recommendation for Award of Contract to Bethlehem Steel Company at Bid Price of \$12,544—Approval Resolution—Requisition Upon Board of Estimate and Apportionment for Appropriation of \$13,000

The following report was approved:

December 1, 1923.

To the TRANSIT COMMISSION:

Proposed Contract for the Supply of Special Work, Order No. 23—Part of Lenox Avenue and 148th Street Yard.

Bids opened on November 30th for the supply of Special Work, Order No. 23 for use in part of the Lenox Avenue and 148th Street Yard, resulted, as follows:

Bethlehem Steel Company	\$12,544.00
Ramapo Ajax Corporation	13,484.00
Wm. Wharton Jr. & Co., Incorporated.....	13,839.00
Railway Switch & Crossing Corporation.....	20,005.65

The lowest bidder has furnished a large amount of similar material for use in the past and I believe there is no question as to their engineering and financial ability to turn out this order in a satisfactory manner.

Attached hereto are copies of the tabulation of bids.

The form of contract has an extra work clause in it and there is also a provision which permits the City order delivery of the material at points outside of the free lighterage limits of the City of New York in which case the City will be obligated to pay the additional freight, if any. In view of this I believe an amount in excess of the net amount of the bid should be requisitioned.

Recommendation: That, with the concurrence of Counsel, the contract be awarded to the Bethlehem Steel Company at their bid price of \$12,544 and that \$13,000 be requisitioned from the Board of Estimate and Apportionment all chargeable to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the supply of special work (Order No. 23) for part of the Lenox Avenue and 148th Street Yard was finally adopted on

November 13, 1923, and subsequent to advertisement duly made bids respectively totalling as follows were received on November 30, 1923:

Bethlehem Steel Company	\$12,544.00
Ramapo Ajax Corporation	13,484.00
William Wharton Jr. & Co. Incorporated.....	13,839.00
Railway Switch & Crossing Corporation.....	20,005.65

; and

Whereas, The Chief Engineer of this Commission, by communication dated December 1, 1923 has reported that the amount of said bid is reasonable and that the said Bethlehem Steel Company, the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it, and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$13,000 the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same is hereby approved; that the bid of Bethlehem Steel Company submitted as aforesaid be and the same hereby is accepted and the said proposed contract for the supply of special work (Order No. 23) for part of the Lenox Avenue and 148th Street Yard, be and the same hereby is awarded to said Bethlehem Steel Company, subject to its being approved and consented to in form and substance as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$13,000 estimated to be necessary to meet the City's obligation under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

December 5, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Bethlehem Steel Company, for the supply of special work (Order No. 23) for part of the Lenox Avenue and 148th Street Yard, together with a requisition upon your Honorable Board for the appropriation of the sum of Thirteen thousand dollars (\$13,000), being the amount estimated to be necessary to meet the City's obligations under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on November 30, 1923, respectively totalling as follows:

Bethlehem Steel Company	\$12,544.00
Ramapo Ajax Corporation	13,484.00
William Wharton Jr. & Co. Incorporated.....	13,839.00
Railway Switch & Crossing Corporation.....	20,005.65

The Chief Engineer of this Commission, in a communication dated December 1, 1923 reports that the bid of Bethlehem Steel Company, the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said proposed contract, and the Transit Commission has accepted said bid and awarded said proposed contract to said Bethlehem Steel Company, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Thirteen thousand dollars (\$13,000), and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Thirteen thousand dollars (\$13,000).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission, and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By GEORGE MCANENY,
Chairman.

1690—R. T. 6326, 6327

Route No. 11-B, Sections Nos. 1 and 2—Communication from Department of Finance Requesting Modification of Payment of Judgment of Degnon Contracting Company, Inc., so as to Increase Allowance for Interest—Approval Resolution—Requisition Upon Board of Estimate and Apportionment for Appropriation of \$7,606.79

A communication dated November 24, 1923, was presented from the Department of Finance by A. J. Philbin, Deputy Comptroller, requesting the modification of the payment of the judgment obtained by the Degnon Contracting Company, Inc., for claims arising under the contracts for the construction of Sections Nos. 1 and 2 of Route No. 11-B, so as to increase the allowance for interest on the amount of the judgment.

The following resolution was adopted:

Whereas, This Commission by resolution adopted on October 2, 1923, made requisition in accordance with the request of the Department of Finance, upon the Board of Estimate and Apportionment of The City of New York, for the appropriation of the sum of \$39,053.23, together with costs amounting to \$575.46, and interest from May 7, 1923 to the date of payment, to meet the judgment obtained by the Degnon Contracting Company, Inc., in respect of claims arising out of the performance of the work under the contract between the said Company and The City of New York for the construction of those portions of the municipal rapid transit railroad known as Sections Nos. 1 and 2 of Route No. 11-B of the so-called Fourth Avenue Line; and

Whereas, By communication dated November 24, 1923, A. J. Philbin, Deputy Comptroller of The Department of Finance, has requested a modification of such payment so as to increase the allowance for interest on the amount of said judgment; and

Whereas, Counsel has prepared and submitted a proposed requisition which will affect such request and also the Auditor of the Commission has prepared and submitted a voucher for the amount of such additional interest, such voucher appearing on the regular schedule therefor,

Resolved, That said requisition so submitted be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment, supplementing the requisition of this Commission of October 2, 1923.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

December 5, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

On October 2, 1923 the Transit Commission, as therein more particularly set forth and predicating such action upon the request of the Department of Finance as indicated in the letter dated September 18, 1923 from Honorable F. J. Prial, Deputy Comptroller, made requisition upon your Honorable Board for the appropriation of the sum of Forty Thousand, Six Hundred and Fifty-one Dollars and Forty-four cents (\$40,651.44) for the purpose of meeting a judgment obtained by the Degnon Contracting Company upon claims growing out of the contract for the construction of Sections 1 and 2 of Route No. 11-B of the Fourth Avenue Rapid Transit Railroad.

This requisition is pending before your Honorable Board.

Subsequently and on November 24, 1923, Honorable A. J. Philbin, Deputy Comptroller, further advised this Commission with respect to such matter, as follows:

"The Comptroller has directed that the judgment in favor of the Degnon Contracting Company, or Parker & Aaron, attorneys, for the sum of \$39,053.23, together with costs amounting to \$575.46 and interest thereon,

' * * * bears interest from the date entered, viz., April 10, 1920, upon the amount fixed by the Court of Appeals.'

Will you therefore direct that vouchers for the necessary amounts be transmitted to this Department (in lieu of those previously transmitted, bearing interest on the amount of the judgment from May 7, 1923) plus interest from April 10, 1920, to such a date subsequent to the date of the voucher as would admit of the necessary warrants being prepared, signed, etc. for payment. These vouchers to be charged against the codes and in the amounts of the judgment as stated in the communication from this Department, to your Commission dated September 18, 1923, in this matter."

Accordingly, the Commission has prepared and transmitted to the Comptroller of the City of New York simultaneously with the making of this requisition an additional voucher for the amount of the increased interest due to the change of dates both as to the beginning of the period of interest charged and also as to the new date of anticipated payment of the voucher. This additional sum amounts to Seven Thousand, Six Hundred and Six Dollars and Seventy-nine Cents (\$7,606.79).

The Transit Commission accordingly amends and supplements its requisition of October 2, 1923 and requests that the sum therein indicated be increased by the amount of the sum of Seven Thousand, Six Hundred and Six Dollars and Seventy-nine Cents (\$7,606.79) and it makes requisition herewith for said additional sum divided as follows:

Route 11-B, Section No. 1.....	\$5,710.67
Route 11-B, Section No. 2.....	1,896.12

TRANSIT COMMISSION,

By GEORGE McANENY,

Chairman.

1691—R. T. 7689

Contract No. 3—Report by Counsel Submitting Findings in Matter of Denial by Board of Estimate and Apportionment of Appropriation of \$85.00 as City's Share for Installing Enamel Station Signs—Communication to Board of Estimate and Apportionment Requesting Reconsideration—Approved

The following report by Counsel was presented:

November 30, 1923.

From: WILLIAM G. FULLEN, Counsel.

To: TRANSIT COMMISSION.

Subject: Additional Enamel Signs.

Pursuant to resolution adopted by the Transit Commission, on September 6, 1923 the Secretary transmitted to the Board of Estimate and Apportionment on the same date a requisition for the appropriation of the sum of \$85.00, being one-half of the estimated cost of installing additional standard enamel station signs on certain stations of the Railroad and the Existing Railroads, as described and defined in the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3. It was provided in the resolution of the Commission that such work would be performed by the Interborough Rapid Transit Company, as Lessee under Contract No. 3.

Thereafter and on November 16, 1923 the Board of Estimate and Apportionment adopted the following resolution:

(Cal. No. 27)

"Resolved, That the Board of Estimate and Apportionment hereby *denies* the request of the Transit Commission, under date of September 6, 1923, for an appropriation of eighty-five dollars (\$85) to provide for the cost to the City of New York of installing additional standard enamel station signs at various stations of the rapid transit railroads constructed under Contract No. 3, said sum being one-half of the total estimated cost of this work."

The report of the Engineers of the Board was in favor of the requisition and nothing appears in the record so far as I know which indicates the reason for the denial as evidenced by the Board's resolution. However, I recall the colloquy that ensued on the consideration of this matter by the members of the Board of Estimate and Apportionment at the said meeting of November 16, 1923 and summarized, the objection seemed to be that the work of installing these additional signs was a proper charge to Maintenance or Operating Expense and therefore deductible from Revenue.

Prior to the submission of this matter to the Board of Estimate and Apportionment the Accountants of the Commission certified to the correctness of the classification of this work as Additions under Contract No. 3.

It is quite pertinent to remark that the original signs installed on the stations in question were charged to Capital Account. The original signs are not being in any way changed or altered but additional new similar signs found to be necessary for the use and convenience of the travelling public utilizing such stations are to be installed and it is difficult to perceive why there should be any different accounting basis for them. The size of the unit, of course, cannot be controlling and I instance the case, by way of analogy, of a station having three stairways and it is subsequently found necessary to the betterment and improvement of the service and the convenience of the people to add a fourth stairway. Applying the only assignable reason for the action of the Board of Estimate and Apportionment in the case under consideration it would follow that the cost of the fourth stairway could not be capitalized.

Contract No. 3 contemplated Construction of the Railroad, as defined and described therein, but also provided for the necessary enlargement of the physical structure of the Railroad or of the Existing Railroads which were to be operated jointly and we find in Subdivision 16 of Article II of Contract No. 3 the definition of the word Additions as follows:

"The word 'Additions' to mean betterments, additions and improvements to the Railroad and Equipment and to the Existing Railroads and to the Existing Equipment which are constructed or provided after the commencement of initial operation in accordance with the provisions of Chapters IV and V of Part Third of this contract and also such Equipment as is provided for initial operation and which shall cost in excess of the amount specified above in the definition of Equipment for Initial Operation; but shall not mean repairs, replacements, substitutions or renewals to the Railroad or Equipment or to the Existing Railroads or Existing Equipment, made after the placing in operation of the portion thereof so repaired, replaced or renewed or for which such new part is substituted."

While the amount of the requisition is small, yet the principle involved is as large as the life of the contract and should be corrected in the first instance.

I am therefore of the opinion that such enamel signs being additional new signs and not repairs, replacements, substitutions or renewals of the existing or original signs constitute Additions, as defined in the contract imposing the obligation upon The City of New York to pay one-half the cost thereof in accordance with Article LXX of said Contract No. 3, which provides as follows:

"The principal object of the City in making this contract is to secure for the public convenience an adequate, comfortable and rapid system of passenger transportation in the portions of New York which will be served by the Railroad and the Existing Railroads. By the foregoing provisions of the Lease the Lessee has covenanted, among other things, to operate the Railroad and the Existing Railroads carefully and skillfully, according to the highest standards of railway operation; to supply adequate Equipment; to run trains so as to furnish adequate service; to use the best safety devices; to keep the Railroad, the Equipment, the Existing Railroads and the Existing Equipment, clean, dry, well lighted, heated and ventilated; and to do other things, as hereinbefore set forth, for the convenience and accommodation of the public. These covenants on the part of the Lessee are among the principal moving considerations to the City in making this contract, and any breach thereof will entitle the City to the remedies provided in this contract. If at any time Additions to the Railroad or Equipment or to the Existing Railroads or Existing Equipment or any change in the mode of operating the Railroad or the Existing Railroads or conducting the business thereof are necessary in order to carry out the purposes of the Lease in securing service and facilities as shall be safe and adequate and in all respects just and reasonable, the Commission

[December 5, 1923]

may direct the construction or provision of such Additions and the making of such changes in the mode of operation of the Railroad or the Existing Railroads or in the conduct of the business thereof as may be necessary to accomplish such purposes. Such construction or provision of Additions and such changes shall be made to the satisfaction of the Commission and, when necessary, under such forms of contracts, plans, specifications and directions as it may issue or approve. If the direction shall have reference to the Equipment or to operation the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to construction the cost of complying therewith shall be shared equally by the City and by the Lessee (except in the case of Additions to the Extensions in which event the cost shall be borne wholly by the City) and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission or directly by the Lessee as the Commission may elect. If the Lessee shall neglect or refuse to comply with such direction the Commission in addition to other remedies may cause such changes or Additions to be made at the expense of the Lessee."

I recommend that a copy of these findings be forwarded to the Board of Estimate and Apportionment with the resubmission of the matter for its reconsideration and that it be suggested, if this is not convincing, that the matter be referred to the Corporation Counsel and his auditors.

WILLIAM G. FULLEN,
Counsel.

The following communication to the Board of Estimate and Apportionment, was approved:

December 5, 1923.

To the BOARD OF ESTIMATE AND APPOINTMENT
OF THE CITY OF NEW YORK,
Municipal Building,
New York City.

Gentlemen:

This Commission is in receipt of the resolution adopted by your Honorable Board on November 16, 1923, as follows:

(Cal. No. 27)

Resolved, That the Board of Estimate and Apportionment hereby *denies* the request of the Transit Commission, under date of September 6, 1923, for an appropriation of eighty-five dollars (\$85) to provide for the cost to the City of New York of installing additional standard enamel station signs at various stations of the rapid transit railroads constructed under Contract No. 3, said sum being one-half of the total estimated cost of this work.

At the meeting of this Commission on December 5, 1923, an opinion was submitted by Counsel dated November 30, 1923 wherein certain findings are made with respect to the legal questions involved in said resolution. The Commission directed that a copy of such opinion be submitted to your Honorable Board with a request for its reconsideration of the action of November 16, 1923. Attention is directed to the suggestion in the opinion that the matter be referred to the Corporation Counsel and his auditors.

A copy of the opinion is transmitted herewith, and your Honorable Board is requested to reconsider your action of November 16, 1923 and to approve the requisition of the Commission upon which it was predicated.

Very truly yours,
FRANK N. ROBINSON,
Acting Secretary.

1692—R. T. 7591

Routes Nos. 70-A-1 and 70-B—Draft Form of Contract for Construction of North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route and Manhattan Avenue, Roebling Street and Bedford Avenue Route—Resolution Directing that Public Hearing Be Held and Notice Be Advertised

The following resolution was adopted:

Whereas, There is now submitted to this Commission by the Chief Engineer and Counsel a draft form of a proposed contract for the construction of the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Route No. 70-A-1 and the Manhattan Avenue, Roebling Street and Bedford Avenue Route, Route No. 70-B.

Resolved, That before finally fixing the terms and conditions of said proposed contract for the construction of the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Route No. 70-A-1 and the Manhattan Avenue, Roebling Street and Bedford Avenue Route, Route No. 70-B, a public hearing upon the proposed terms and conditions thereof shall be held on the 21st day of December, 1923, at the office of the Transit Commission, at No. 49 Lafayette Street, Borough of Manhattan, New York City, at 11:00 o'clock A. M. at which hearing citizens shall be entitled to appear and be heard and that notice of such hearing shall be published in the City Record every day of publication continuously from and including December 7, 1923 to and including December 21, 1923 and on December 10, 1923 and December 17, 1923 in the Brooklyn Daily Eagle and The Brooklyn Daily Times, daily newspapers published in the City of New York and that such notice shall state that copies of said draft of proposed contract may be obtained at the said office of the Transit Commission on payment of the fee of One Dollar (\$1), for each copy.

1693—R. T. 7681

Contract No. 3—Application by D. C. Serber for Approval of Assignment to D. C. Serber, Inc. of Contract for Construction of Enclosures for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Approval Resolution

An application was presented from D. C. Serber dated November 22, 1923, requesting approval of a proposed assignment to D. C. Serber, Inc. of the contract for the construction of enclosures for the Third Addition to Shops at the Lenox Avenue and 148th Street Yard.

The following resolution was adopted:

Whereas, D. C. Serber, by communication dated November 22, 1923, has requested the approval of this Commission to the assignment by him to D. C. Serber, Inc., of the contract dated October 22, 1923 between the said D. C. Serber and The City of New York, acting by this Commission, for the Construction of Enclosures for the Third Addition to the Shops at Lenox Avenue and 148th Street Yard (under Contract No. 3); and

Whereas, Counsel has examined the proposed agreement and assignment of said contract, the form of consent of the Commission attached thereto, and prepared the proposed consent of the Commission, now submitted for the purpose of effecting the request of the said D. C. Serber, and recommends approval thereof,

Resolved, That the said application be and the same hereby is granted, that the proposed agreement and assignment, and the form of consent of this Commission attached thereto, together with the proposed consent of the Commission, are approved subject to terms and conditions contained therein and the Chairman and Secretary of this Commission be and they hereby are authorized and directed to execute and deliver said consent to such assignment, and also to execute the form of consent attached to such assignment.

Further Resolved, That this consent shall be of no force or effect unless and until there shall be delivered to this Commission a consent in writing to such assignment by the sureties upon the bond deposited as security for the faithful performance of said contract, in a form to be approved by Counsel to the Commission.

1694—R. T. 7664

Route No. 33, Section No. 3—Resolution Approving Sureties upon Bond Deposited by Contractor as Security for Construction of Station Finish at Lawrence Street Station—Adopted

The following resolution was adopted:

Resolved, That the Maryland Casualty Company and Union Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Five thousand dollars (\$5,000) deposited by Station Finish Corporation as security for the construction of station finish for the Lawrence Street Station of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, each of said sureties being held and bound in the sum of Two thousand five hundred dollars (\$2,500).

1695—R. T. 7602

Route No. 52, Section No. 2—Resolution Approving Sureties upon Bond Deposited by Contractor as Security for Construction of Column Foundations for Part of Flushing Line—Adopted

The following resolution was adopted:

Resolved, That the National Surety Company and Union Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Ten Thousand dollars (\$10,000) deposited by Gotham Construction Corporation as security for the construction of column foundations on Route No. 52, Section No. 2, Flushing Line, each of said sureties being held and bound in the sum of Five thousand dollars (\$5,000).

1696—R. T. 7645

Agreement "CS"—Resolution Approving Sureties upon Bond Deposited by Contractor as Security for the Construction of a Duct Line at 239th Street Yard—Adopted

The following resolution was adopted:

Resolved, That the National Surety Company and Union Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Two thousand dollars (\$2,000) deposited by Felix Hanratty as security for the faithful performance of the contract for the construction of the railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Borough of The Bronx, Agreement "CS," each of said sureties being held and bound in the sum of One thousand dollars (\$1,000).

1697—R. T. 7626

Route No. 8—Proposed Agreement With Long Island Railroad Company for Use of Bushwick Avenue Yard—Approval Resolution

The following resolution was adopted:

Whereas, In the construction of the subway portion of the 14th Street-Eastern Line of the Railroad as described in the Contract dated March 19, 1913, known as Contract No. 4, for present operation of said portion, a physical rail connection with the Bushwick Avenue Yard of the Long Island Railroad for the purpose of putting in and taking out cars in said rapid transit railroad; and

Whereas, Counsel has prepared and submitted a proposed agreement between The Long Island Railroad Company, The City of New York, acting by this Commission and the New York Rapid Transit Corporation, providing for a permit to use and occupy a portion of said Bushwick Avenue Yard of the Long Island Railroad for said purpose and recommends the approval of said proposed agreement,

Resolved, That said proposed agreement so submitted be and the same hereby is approved; and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed agreement for and on behalf of this Commission.

1698—R. T. 7596

Agreement "CF"—Report by Chief Engineer Recommending Extension of Time to New York Consolidated Railroad Company Within Which to Complete Contract for Distributing and Installing Covers, Frames and Panels for Low Bench Duct Manholes—Approval Resolution

A report was presented from the Chief Engineer dated December 3, 1923, recommending that an extension of time be granted to the New York Consolidated Railroad Company, to and including August 10, 1923, within which to complete the work under the contract for distributing and installing covers, frames and asbestos lumber panels for low bench duct manholes—Agreement "CF."

The following resolution was adopted:

Whereas, The contract dated November 20, 1922 between The City of New York, acting by the Transit Commission, and New York Consolidated Railroad Company and/or its Receiver (Agreement "CF"), for distributing and installing covers, frames and asbestos lumber panels for low bench duct manholes in the Railroad described in the contract dated March 19, 1913, known as Contract No. 4, required the completion of all work thereunder on or before the expiration of four months after the date of the delivery of said agreement, which agreement was delivered on December 1, 1922, the last date for completion therefor being April 1, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated December 3, 1923, has reported that the work under said contract was in all respects completed on August 10, 1923; that no loss or damage was sustained by the City on account of the delay, but on the other hand, as the work was performed by the company's own employees it was probably done at less cost than would have been the case had extra men been employed to complete the work within the original contract period, and accordingly recommends that the time within which to complete the work under said contract be extended to and including August 10, 1923,

Resolved, That said report and recommendation be and the same hereby is approved and that the time within which to complete the work under said contract aforesaid be and the same hereby is extended to and including August 10, 1923.

1699—R. T. 6080

Contract No. 3—Application by Lenox Paper Stock Company for Permission to Continue in Occupancy of Premises on Northerly Side of West 145th Street Between Lenox Avenue and Harlem River, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the Lenox Paper Stock Company, dated November 26, 1923, requesting permission to continue in occupancy of the premises on the northerly side of West 145th Street between Lenox Avenue and the Harlem River, Borough of Manhattan, at a rental of \$60 per month beginning November 1, 1923 and to increase the rental to \$75 per month beginning July 1, 1924.

A report was presented from the Real Estate Clerk dated November 30, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Lenox Paper Stock Co., a domestic corporation of the State of New York, having its main office at No. 5 West 145th Street, Borough of Manhattan, City of New York, has made application under date of November 26, 1923, for permission to occupy substantially the same concession rented by it prior to November 1, 1923, from Daly Brothers Company, a tenant of this Commission, on the northerly side of West 145th Street, between Lenox Avenue and the Harlem River, Borough of Manhattan, agreeing to pay \$60.00 per month rent beginning November 1, 1923, and to increase the monthly rental to \$75.00 beginning July 1, 1924, to vacate on thirty (30)

days' notice and to other terms similar to those usually contained in like applications, including absolute restriction against assignment or subletting without the express consent of the Commission, the concession to be used for a general paper stock business; and

Whereas, The Real Estate Clerk, under date of November 30, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of Lenox Paper Stock Co., and that the Secretary be, and he hereby is, authorized and directed to subscribe its approval on said application.

1700—R. T. 6080

Contract No. 3—Application by William Eyrich & Company for Permission to Continue in Occupancy of the Premises on the Northerly Side of West 145th Street Between Lenox Avenue and Harlem River, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from William Eyrich & Company, dated November 30, 1923, requesting permission to continue in occupancy of the premises on the northerly side of West 145th Street, between Lenox Avenue and Harlem River, Borough of Manhattan, at a rental of \$125.00 per month, beginning November 1, 1923.

A report was presented from Real Estate Clerk dated November 30, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, William Eyrich & Company, a domestic corporation of the State of New York, having its main office at No. 23 West 145th Street, Borough of Manhattan, City of New York, has made application under date of November 30, 1923, for permission to occupy substantially the same concession rented by it prior to November 1, 1923, from Daly Brothers Company, a tenant of this Commission, on the northerly side of West 145th Street, between Lenox Avenue and the Harlem River, Borough of Manhattan, agreeing to pay \$125.00 per month rent beginning November 1, 1923, to vacate on thirty (30) days' notice and to other terms similar to those usually contained in like applications, including absolute restriction against assignment or subletting without the express consent of the Commission, the concession to be used for an automobile repair shop business; and

Whereas, The Real Estate Clerk, under date of November 30, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of William Eyrich & Company, and that the Secretary be, and he hereby is, authorized and directed to subscribe its approval on said application.

1701—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Installation of Lighting Equipment for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated November 23, 1923, requesting approval of a proposed purchasing agent's order directed to Lord Electric Company, for furnishing and installing tunnel lighting equipment for the Fourteenth Street-Eastern Line, at a cost of \$184,007.75.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 3, 1923, recommending that the application be approved,

which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated November 22, 1923, directed to Lord Electric Company for the following:

Furnish and Install Tunnel Lighting Equipment and Lighting, Heating and Toilet Ventilating Systems for Subway Railroad Stations designated Sixth Avenue, Union Square, Third Avenue, First Avenue, Bedford Avenue, Lorimer Street, Graham Avenue and Grand Street, 14th Street—Eastern Line, in accordance with attached specifications and prices named therein.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 388"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated December 3, 1923, have reported for the reasons therein more particularly set forth that the price proposed to be paid to the Lord Electric Company is reasonable for the work to be done; that the work is part of the standard equipment of the Railroad as defined in said Contract No. 4; that the specifications for such work have previously been approved by the Chief Engineer of this Commission and recommend the approval of said proposed purchasing agent's order so submitted; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated December 4, 1923, has recommended that the cost of such work be classified as Equipment of the Railroad as defined in said Contract No. 4,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

1702—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Circuit Breaker Housings at Lorimer Street and at Myrtle Avenue of Broadway Elevated Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated November 15, 1923, requesting approval of a proposed purchasing agent's order directed to John H. Duncan, Inc., covering certain breaker housings at Lorimer Street and at Myrtle Avenue of the Broadway Elevated Line at a total cost of \$4,685.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 30, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as a Replacement to be performed under Work Order No. MCR-8 heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted October 10, 1922, this Commission approved, pursuant to the provisions of the contract dated March 19, 1913, known as Contract

No. 4, the proposal of Lindley M. Garrison, as Receiver of the New York Municipal Railway Corporation, to provide additional feeder cable and circuit breakers and houses for portions of the Broadway-Fourth Avenue Line of the Railroad and of the Broadway Line of the Existing Railroads as more particularly described in said resolution, said approval being given upon the following condition:

"(b) That the cost of the additional feeder system on the Broadway Line of the Existing Railroads be classified as a Replacement for which payment will be made out of that portion of the moneys of the 'Depreciation Fund for Existing Railroads,' which has been made available by retirements from service and to which project this Commission assigns Work Order No. MCR-8."

; and

Whereas, Pursuant to said Contract No. 4 New York Rapid Transit Corporation, as successor to the rights and obligations thereunder, has, by communication dated November 15, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated November 14, 1923, directed to John H. Duncan, Inc., for the following:

"Furnish and install One Circuit Breaker Housing at Lorimer St. and One Circuit Breaker Housing at Myrtle Avenue, Broadway Elevated Line, in accordance with attached specifications dated Sept. 10, 1923, except that all electrical installation is to be omitted, excepting the setting of porcelain tubes which will be furnished by the Company.

Payment to be as follows:

Housing at Lorimer Street.....	\$2,285.00
Housing at Myrtle Avenue.....	2,400.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 387"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated November 30, 1923, have reported that the following bids were received for such work:

	Lorimer St.	Myrtle Ave.
John H. Duncan, Inc.....	\$2,285.00	\$2,400.00
Rufus H. Brown.....	3,230.00	3,488.00
B. T. and J. J. Mack, Inc.....	6,300.00	6,500.00
Seymour Construction Co.....	6,800.00	7,200.00
Wagner Engineering Co.....	7,000.00	8,000.00

; that the award is to the lowest bidder which is a reputable firm; that the prices are the best obtainable; that the provision of these housings as already been authorized by the resolution of this Commission adopted October 10, 1922, and recommend the approval of the said proposed purchasing agent's order so submitted; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated December 3, 1923, has recommended that the cost of performing such work be classified as a Replacement under said Work Order No. MCR-8 assigned as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such work to be charged under and in accordance with Work Order No. MCR-8 heretofore assigned by this Commission.

1703—R. T. 6449

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Contract for Purchase of Premises Abutting on West End Line South of Avenue "Z", Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated November 21, 1923, requesting approval of a proposed contract for the purchase from Georgianna Powell, et al, of certain premises abutting on the West

End Line right-of-way, south of Avenue "Z," Borough of Brooklyn, known as part of West Meadow Bank Lot No. 33, for the sum of \$3,500.

A report was presented from the Real Estate Clerk dated December 3, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, J. H. Bennington, Real Estate & Tax Agent for New York Rapid Transit Corporation, under date of November 21, 1923, has requested approval, pursuant to the provisions of Contract No. 4, of a contract between Georgianna Powell, et al, Vendors, and New York Rapid Transit Corporation, Vendee, covering the acquisition for the sum of \$3,500 of certain premises abutting on the West End Line right of way of the Nassau Electric Railroad Company, known generally as part of West Meadow Bank Lot No. 33, upon certain terms as set forth more fully in said contract; and

Whereas, The Real Estate Clerk, under date of December 3, 1923, has reported that this property was taken by condemnation, after failure of negotiations to purchase, for the purposes of a railroad yard, and that the proposed purchase is in the nature of a settlement of pending condemnation proceedings and that the proposed purchase price is reasonable, recommending that the said application be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application and the said contract, and that the Secretary be, and he hereby is, authorized and directed to transmit to the said J. H. Bennington a copy of this resolution.

1704—Cases 1264, 1380

The Long Island Railroad Company—Alteration of Grade Crossings at Hempstead and Jamaica Turnpike, etc., Borough of Queens—Hearing Order Adopted for Second Intermediate Accounting

The Secretary presented a communication, dated October 3, 1923, from L. V. Morris, Chief Engineer, The Long Island Railroad Company, submitting statements of cost to August 31, 1923, of the eliminations directed by the Order in Cases Nos. 1264 and 1380, in the Borough of Queens.

The Secretary also presented a report, dated November 30, 1923, by C. L. Slipper, Assistant Engineer, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, recommending hearing on second intermediate accounting.

Thereupon the Commission adopted and ordered filed an Order in Cases Nos. 1264 and 1380, in the following form:

Present:

GEORGE McANENY, }
 Chairman, } Commissioners.
 LEROY T. HARKNESS, }

IN THE MATTER
 of the

Hearing on the motion of the COMMISSION on the question of alterations and changes in the following grade crossing with the tracks of THE LONG ISLAND RAILROAD COMPANY:

Hempstead and Jamaica Turnpike.

CASE No. 1264.

RESOLUTION FOR HEARING
 ON SECOND PARTIAL
 ACCOUNTING.

IN THE MATTER
 of the

Hearing on motion of the COMMISSION on the question of alterations and changes in the following grade crossings with the tracks of THE LONG ISLAND RAILROAD COMPANY:

Bennett or Baylis Avenue
 Wertland Avenue,
 Creed Avenue,
 Madison Avenue.

CASE No. 1380.

Whereas, On December 8, 1911, the Public Service Commission for the First District adopted an order and determination in this proceeding as to the changes in the grade crossings above named; and

Whereas, On December 7, 1922, the Transit Commission adopted an Order modifying the Order of December 8, 1911, with respect to said changes; and

Whereas, The Long Island Railroad Company, through L. V. Morris, Chief Engineer, by communication, dated October 3, 1923, has requested a hearing for a second partial accounting in order to determine the amount of a payment which may be made on account of the work done in accordance with the terms of said Order and determination modified as aforesaid, now therefore, it is

Resolved, That a hearing be had before the Commission at its hearing room, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 18th day of December, 1923, at 10:30 o'clock in the forenoon, at which hearing The Long Island Railroad Company and The City of New York shall submit accounts and give testimony showing the amounts expended by each with interest.

Further Resolved and Certified, That Carleton S. Cooke, Assistant Counsel to the Commission be and he hereby is pursuant to Sections 8 and 11 of the Public Service Commission Law, authorized and designated to conduct said hearing, to take the testimony therein and report same to the Commission together with his opinion thereon for its decision and determination.

Further Resolved. That a notice of this hearing be given to The Long Island Railroad Company and The City of New York by service upon each of them of a certified copy of this resolution.

By the COMMISSION,
 FRANK N. ROBINSON,
 Acting Secretary.

1705—Case 1399**Richmond Light & Railroad Company—Quarterly Reports—Extension Order Adopted**

The Secretary presented a communication, dated November 30, 1923, from the Richmond Light & Railroad Company, requesting an extension of time of two weeks, within which to file quarterly report for the quarter ended September 30, 1923.

The Secretary also presented a report, dated December 3, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting and Valuations, recommending an extension of time to December 6, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1399, granting the Richmond Light & Railroad Company an extension of time to December 6, 1923, within which to file said quarterly report.

1706—Case 1399**New York Rapid Transit Corporation et al—Quarterly Reports—Application for Extension of Time—Letter to Companies Authorized Requesting Report on Present Status of Books**

The Secretary presented a communication, dated November 30, 1923, from M. B. Hoffman, Assistant Counsel, New York Rapid Transit Corporation and for Lindley M. Garrison, Receiver, New York Consolidated Railroad Company and New York Municipal Railway Corporation, requesting an extension of time to January 1, 1924, within which to file quarterly reports for the quarter ended June 30, 1923.

The Secretary also presented a report, dated December 3, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting and Valuations, recommending letter to companies requesting report on present status of books and records.

Thereupon the Secretary was authorized to transmit a letter to the companies requesting the desired information.

1707—Case 2690**New York Rapid Transit Corporation et al—Annual Reports—Application for Extension of Time—Letter to Companies Authorized Requesting Report on Present Status of Books**

The Secretary presented a communication, dated November 30, 1923, from M. B. Hoffman, Assistant Counsel, New York Rapid Transit Corporation and for Lindley M. Garrison, as Receiver, New York Consolidated Railroad Company and New York Municipal Railway Corporation, requesting an extension of time to January 1, 1924, within which to file annual reports for the year ended June 30, 1923.

The Secretary also presented a report, dated December 3, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending letters to companies requesting report on present status of books and records.

Thereupon the Secretary was authorized to transmit a letter to the companies requesting the desired information.

1708—Case 2082

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which 195th Street, in Borough of Queens, Shall Cross Company's Tracks—Report and Opinion Approved—Amended Order and Determination Adopted

The Secretary presented a Report and Opinion in Case No. 2082, by George L. Lucas, Acting Chief Executive Officer, recommending the adoption of an amended Order therein requiring The Long Island Railroad Company, to submit new location plan for approval within thirty days and requiring the elimination of the 195th Street crossing in accordance with said plan.

Thereupon the above mentioned Report and Opinion in Case No. 2082, was approved and an Order therein adopted and ordered filed in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LEROY T. HARKNESS,	

IN THE MATTER
of the

Application of THE CITY OF NEW YORK for a determination as to the manner in which the following street shall be extended across the tracks of THE LONG ISLAND RAILROAD COMPANY in the Fourth Ward of the Borough of Queens; 195th Street (Catskill Avenue) from Atlantic Avenue (99th Avenue) to Sagamore Avenue (98th Avenue).

CASE No. 2082.
AMENDED ORDER AND
DETERMINATION.

The Public Service Commission of the State of New York for the First District having on the 9th day of June, 1916, made an order and determination as to the manner of carrying 195th Street (Catskill Avenue) from Atlantic Avenue (99th Avenue) to Sagamore Avenue (98th Avenue) across the tracks of the Long Island Railroad Company in the Fourth Ward of the Borough of Queens, and the Public Service Commission having on the 29th day of June, 1916, by resolution approved blueprints of drawing entitled "Long Island Railroad. Hollis Elimination. 195th Street Bridge. Plan and Details of Steel Bridge No. 120, June 21, 1916. Drawing No. 1," and having by the same resolution approved the bid for the fabrication and delivery of the structural steel for said bridge; and the Long Island Railroad Company having filed plans and specifications for the said elimination and the same having been qualifiedly approved by resolution of the Public Service Commission adopted December 27, 1917;

And the Commission having by order dated November 7, 1923, reopened the case and ordered a further hearing herein and George L. Lucas, Acting Chief Executive Officer of the Commission, having been designated and certified in said order to hold said hearing, and a hearing having been held on the 26th day of November, 1923, and said George L. Lucas having made his report dated December 3, 1923, and the said report having been approved and adopted by the Commission, it is hereby

Ordered, That pursuant to Section 90 of the Railroad Law, the Long Island Railroad Company be and it is hereby directed to carry 195th Street (Catskill Avenue) in the Fourth Ward of the Borough of Queens, across the tracks of the Long Island Railroad Company under the tracks of said railroad company substantially as shown upon the maps or plans heretofore submitted to and approved by the Public Service Commission in and by its orders and resolutions aforesaid, the said under-crossing and approaches to be constructed by the railroad company.

Further Ordered, That the railroad company within 30 days after service of this order upon it, submit to the Commission its new location plan showing the said undercrossing and approaches to be constructed by said railroad company, for approval.

Further Ordered, That in case such work is to be done by contract, the proposals of contractors shall be submitted to this Commission for its approval.

Further Ordered, That the Long Island Railroad Company shall notify the Commission within 5 days after the receipt of a certified copy of this order whether the terms thereof are accepted and will be obeyed.

By the COMMISSION,
FRANK N. ROBINSON,
Acting Secretary.

1709

The Staten Island Rapid Transit Railway Company—New Tariff Effective January 1, 1924, Eliminating Rates Covering Fifty Trip Family Tickets Between New York and Grasmere to Tottenville—Report by Chief of Tariff Bureau—Letter to Commissioner, Department of Plant and Structures—Referred to Chairman

The Secretary presented a report, dated November 30, 1923, by E. D. Hutchinson, Chief of Tariff Bureau, with respect to the new tariff, dated November 30, 1923, effective January 1, 1924, filed by The Staten Island Rapid Transit Railway Company, eliminating rates covering fifty trip family tickets between New York and Grasmere to Tottenville, and advising that on inquiry, the company proposed to discontinue sale of fifty trip family tickets on recommendation of the Commissioner of the Department of Plant and Structures.

The Secretary also presented a copy of a communication, which he had transmitted to said Commissioner advising that the tariff would take effect January 1, 1924, unless withdrawn.

Thereupon the above mentioned papers were referred to the Chairman.

1710

The Long Island Railroad Company—New Tariff Showing Changes in Rates for Special Club Cars—Report by Chief of Tariff Bureau Filed

The Secretary presented a report, dated November 28, 1923, by E. D. Hutchinson, Chief of Tariff Bureau, with respect to new tariff effective January 1, 1924, filed by The Long Island Railroad Company showing increase rate for Special Club Cars, and advising that increase was agreeable to association renting only car used for the purpose in the City of New York, between Pennsylvania Station and Far Rockaway, and recommending that tariff be filed.

Thereupon the above mentioned papers were ordered filed.

1711

Operation of Local Service Over Williamsburg Bridge by Department of Plant and Structures—Reports by Chief of Transit Bureau—Correspondence with Commissioner, Department of Plant and Structures and with Police Commissioner—Filed

The Secretary presented a communication, dated November 26, 1923, from Grover A. Whalen, Commissioner, Department of Plant and Structures, relative to

the proposed discontinuance of operation of through service across the Williamsburg Bridge on December 1, 1923, at which time the City of New York would begin the operation over said bridge of local service together with a copy of the reply, dated November 27, 1923, by the Chairman to the foregoing communication, advising among other things that the Commission is without power to compel a corporation to give, or to continue to give, a service where there is no legal obligation on the part of the corporation so to do.

The Secretary also presented a copy of his communication, dated November 28, 1923, to the Police Commissioner calling attention to the proposed discontinuance of service by the railroad companies and the proposed new operation by the City, so that if he deemed it advisable, proper police arrangements might be made to meet any confusion or other emergency that might attend the operation of the respective lines on and after December 1, 1923, together with a communication, dated November 30, 1923, from C. J. Young, Secretary to the Police Commissioner, advising that the matter would receive the proper attention of the Police Department.

The Secretary also presented reports, dated September 22, 1923 and December 1, 1923, by the Chief of Transit Bureau, relative to the new local service over Williamsburg Bridge.

Thereupon the above mentioned papers were ordered filed.

1712—R. T. 7602

Route No. 52, Section No. 2—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Construction of Column Foundations for Part of Flushing Line, and Authorizing Appropriation of \$149,830—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 23, 1923, was ordered filed:

(Cal. No. 62)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 7, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with the Gotham Construction Corporation for the construction of column foundations for part of the Flushing line, Route No. 52, Section No. 2, at an estimated cost of one hundred and forty-nine thousand eight hundred and thirty dollars (\$149,830) without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be one hundred and forty-nine thousand eight hundred and thirty dollars (\$149,830); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891 as amended, the provisions of section 45 of the Greater New York Charter and the requisition of the Transit Commission, dated November 7, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one hundred and forty-nine thousand eight hundred and thirty dollars (\$149,830), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Ap-

portionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated November 28, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract approved as to form, was also ordered filed.

1713—R. T. 6616

Contract No. 2—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$600,000 for Payment of Claims of Rapid Transit Subway Construction Company for Subsections Nos. 2-A and 3—Filed

The following certified copy of resolution adopted by the Board of Estimate and Apportionment on November 23, 1923, was ordered filed:

(Cal. No. 53)

Whereas, In the matter of certain claims of the Rapid Transit Subway Construction Company (Claims A and B, Subsection 2-A, and Claim C, Subsection 2-A and Subsection 3) in connection with the contract dated July 21, 1902, between The City of New York and said Rapid Transit Subway Construction Company for the construction, equipment, maintenance and operation of the Brooklyn-Manhattan Rapid Transit Railroad, known as Contract No. 2, the Chief Engineer of the Transit Commission has rendered a determination wherein he finds that the reasonable value of the additional work performed and additional materials furnished is in the aggregate sum of six hundred thousand dollars (\$600,000); and

Whereas, A stipulation has been entered into between the said Rapid Transit Subway Construction Company and the Transit Commission accepting said determination without appeal and the said Rapid Transit Subway Construction Company agreeing to waive all other claims comprised in said A, B and C claims, upon condition that the said determined sum of six hundred thousand dollars (\$600,000) is paid without recourse to legal proceedings; therefore be it

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 18, 1923, the Board of Estimate and Apportionment does hereby consent to an appropriation of six hundred thousand dollars (\$600,000) for the purpose of paying the said determined amounts due the Rapid Transit Subway Construction Company for additional work and additional materials furnished and supplied in the performance of extra work on said Sections 2-A and 3, under Contract No. 2 without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to proceeds of corporate stock available for said purpose shall be six hundred thousand dollars (\$600,000); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891 as amended, the provisions of section 45 of the Greater New York Charter and the requisition of the Transit Commission, dated April 18, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding six hundred thousand dollars (\$600,000) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes aforesaid; said issue of corporate stock to be in addition to all appropriations heretofore made for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 2.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1714

Street Changes—Certified Copies of Resolutions of Board of Estimate and Apportionment Authorizing Removal of Encroachments in West 27th Street from Fifth Avenue to Sixth Avenue and in 31st Street from Broadway to Fourth Avenue, Borough of Manhattan—Filed

The following certified copies of resolutions adopted by the Board of Estimate and Apportionment on November 23, 1923, were ordered filed:

(Cal. No. 88-A)

Resolved, By the Board of Estimate and Apportionment, that the widths of the roadway and sidewalks on West 27th street from the west curb line of 5th avenue to the east curb line of 6th avenue, Borough of Manhattan, be established as follows:

The roadway shall be centrally located and shall have a width of thirty-four (34) feet.

The width of the sidewalks on each side of the roadway shall be thirteen (13) feet; and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license, encroachments of any nature which interfere with the proper support of the roadway, curb and necessary and proper subsurface structures be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 88-B)

Whereas, The entire width of West 27th street between 5th avenue and 6th avenue, Borough of Manhattan, is required for public purposes; be it

Resolved, By the Board of Estimate and Apportionment, that all ordinances, permits or licenses heretofore adopted or granted by The City of New York or by any body or officer thereof which permit or license, or which purport to permit or license, encroachments of any nature which project beyond the building line of West 27th street between 5th avenue and 6th avenue, Borough of Manhattan, between levels 10 feet above the curb grade and a sufficient depth below said curb to provide for the proper support of the roadway, sidewalk and necessary and proper subsurface structures be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or encumbrances in accordance with the foregoing resolution; except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 89-A)

Resolved, By the Board of Estimate and Apportionment, that the widths of the roadway and sidewalks on 31st street from the east curb line of Broadway to the west curb line of 4th avenue, Borough of Manhattan, be established as follows:

The roadway shall be centrally located and shall have a width of thirty-four (34) feet.

The width of the sidewalks on each side of the roadway shall be thirteen (13) feet; and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere

with the proper support of the roadway, curb, and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, November 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 89-B)

Whereas, The entire width of 31st street between Broadway and 4th avenue, Borough of Manhattan, is required for public purposes, be it

Resolved, By the Board of Estimate and Apportionment, that all ordinances, permits or licenses heretofore adopted or granted by The City of New York or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of 31st street between Broadway and 4th avenue, Borough of Manhattan, between levels 10 feet above the curb grade and a sufficient depth below said curb to provide for the proper support of the roadway, sidewalk and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or encumbrances in accordance with the foregoing resolution; except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

Tests—Resolution Authorizing William H. Freeman, Railway Engineer, to Attend Tests of Operation of New Design of Electric Locomotive to be Conducted by General Electric Company—Adopted

The following resolution was adopted:

Whereas, This Commission is informed that on December 5th and 6th, 1923, at Erie, Pennsylvania, the General Electric Company will conduct a series of tests of the operation of a new design of an electric locomotive; and

Whereas, The Commission is advised that during said tests valuable information may be obtained and changes developed which may be applied to the improvement of subway rolling stock of the Rapid Transit lines of the City of New York, subject to the jurisdiction of this Commission.

Resolved, That the Transit Commission do and hereby does authorize and direct the following member of its staff—William H. Freeman, Railway Engineer, to attend said tests for the purpose above indicated and in performance of necessary duties of the Commission.

1718

Employees' Calendar No. 178

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII: 4—Joseph Barnett, draftsman, at \$175.08 per month, to take effect November 30, 1923; John M. Baxter, junior assistant, \$125.08 per month, to take effect November 27, 1923; Joseph H. Corr, junior assistant, at \$125.08 per month, to take effect December 3, 1923; Edward Fritz, Jr., draftsman, at \$175.08 per month, to take effect December 3, 1923; Albert W. Preston, Jr., junior assistant, at \$125.08 per month, to take effect December 3, 1923; William Ulanoff, draftsman, at \$175.08 per month, to take effect November 30, 1923

Appointments under Rule VIII: 9—Morris Bass, draftsman, at \$175.08 per month, to take effect December 13, 1923; G. William Berg, junior assistant, at \$125.08 per month, to take effect December 20, 1923; Gustav M. Blom, junior assistant, at \$125.08 per month, to take effect December 20, 1923; Arnold Brauer, draftsman, at \$175.08 per month, to take effect December 17, 1923; Sidney R. Brown, draftsman, at \$175.08 per month, to take effect December 24, 1923; James P. Carmody, inspector of steel, at \$175.00 per month, to take effect December 27, 1923; Sylvester Catalanotto, junior assistant, at \$125.08 per month, to take effect December 22, 1923; J. Paul Conway, junior assistant, at \$125.08 per month, to take effect December 16, 1923; Juan A. Delgado, draftsman, at \$175.08 per month, to take effect December 20, 1923; Charles E. Downey, architectural draftsman, at \$175.08 per month, to take effect December 22, 1923; William S. Fanning, architectural draftsman, at \$175.08 per month, to take effect December 29, 1923; Samuel Freeman, junior assistant, at \$125.08 per month, to take effect December 20, 1923; William Fierstein, draftsman, at \$175.08 per month, to take effect December 27, 1923; Samuel N. Gerson, draftsman, at \$175.08 per month, to take effect December 20, 1923; Joseph C. Gotzen, junior assistant, at \$125.08 per month, to take effect December 20, 1923; Victor H. Greenwald, architectural draftsman, at \$175.08 per month, to take effect December 20, 1923; Paul Haan, architectural draftsman, at \$175.08 per month, to take effect December 7, 1923; William F. Johnson, draftsman, at \$175.08 per month, to take effect December 28, 1923; Alfred B.

Kasten, junior assistant, at \$125.08 per month, to take effect December 20, 1923; Walter R. Many, draftsman, at \$175.08 per month, to take effect December 20, 1923; Edward V. Maitland, junior assistant, at \$125.08 per month, to take effect December 22, 1923; Dominick C. Martocci, junior assistant, at \$125.08 per month, to take effect December 17, 1923; Walter A. Murphy, junior assistant, at \$125.08 per month, to take effect December 20, 1923; Edwin A. O'Hanlon, architectural draftsman, at \$175.08 per month, to take effect December 20, 1923; John F. O'Heir, Jr., engineering inspector, at \$150.08 per month, to take effect December 9, 1923; William A. O'Leary, draftsman, at \$175.08 per month, to take effect December 20, 1923; William V. Power, junior assistant, at \$125.08 per month, to take effect December 20, 1923; Henry Reich, junior assistant, at \$125.08 per month, to take effect December 16, 1923; James E. Sampson, draftsman, at \$175.08 per month, to take effect December 21, 1923; Vincent Schiliro, draftsman, at \$175.08 per month, to take effect December 20, 1923; Walter E. Speck, junior assistant, at \$125.08 per month, to take effect December 14, 1923; Samuel Steinfeld, draftsman, at \$175.08 per month, to take effect December 21, 1923; Setrag A. Sulahian, junior assistant, at \$125.08 per month, to take effect December 22, 1923; John A. Teufer, Sr., junior assistant, at \$125.08 per month, to take effect December 20, 1923; Claude M. Twombly, architectural draftsman, at \$175.08 per month, to take effect December 20, 1923; Herbert B. Walters, junior assistant, at \$125.08 per month, to take effect December 17, 1923; Francis J. Weber, draftsman, at \$175.08 per month, to take effect December 7, 1923; Hyman Zasky, junior assistant, at \$125.08 per month, to take effect December 14, 1923.

Terminations of Appointments under Rule VIII: 4—Morris Bass, draftsman, at \$175.08 per month, to take effect December 12, 1923; G. William Berg, junior assistant, at \$125.08 per month, to take effect December 19, 1923; Gustav M. Blom, junior assistant, at \$125.08 per month, to take effect December 19, 1923; Arnold Brauer, draftsman, at \$175.08 per month, to take effect December 16, 1923; Sidney R. Brown, draftsman, at \$175.08 per month, to take effect December 23, 1923; James P. Carmody, inspector of steel, at \$175.00 per month, to take effect December 26, 1923; Sylvster Catalanotto, junior assistant, at \$125.08 per month, to take effect December 21, 1923; J. Paul Conway, junior assistant, at \$125.08 per month, to take effect December 15, 1923; Juan A. Delgado, draftsman, at \$175.08 per month, to take effect December 19, 1923; Charles E. Downey, architectural draftsman, at \$175.08 per month, to take effect December 21, 1923; William S. Fanning, architectural draftsman, at \$175.08 per month, to take effect December 28, 1923; Samuel Freeman, junior assistant, at \$125.08 per month, to take effect December 19, 1923; William Fierstein, draftsman, at \$175.08 per month, to take effect December 26, 1923; Samuel N. Gerson, draftsman, at \$175.08 per month, to take effect December 19, 1923; Joseph C. Gotzen, junior assistant, at \$125.08 per month, to take effect December 19, 1923; Victor H. Greehwald, architectural draftsman, at \$175.08 per month, to take effect December 19, 1923; Paul Haan, architectural draftsman, at \$175.08 per month, to take effect December 6, 1923; William F. Johnson, draftsman, at \$175.08 per month, to take effect December 27, 1923; Alfred B. Kasten, junior assistant, at \$125.08 per month, to take effect December 19, 1923; Walter R. Many, draftsman, at \$175.08 per month, to take effect December 19, 1923; Edward V. Maitland, junior assistant, at \$125.08 per month, to take effect December 21, 1923; Dominick C. Martocci, junior assistant, at \$125.08 per month, to take effect December 16, 1923; Walter A. Murphy, junior assistant, at \$125.08 per month, to take effect December 19, 1923; Edwin A. O'Hanlon, architectural draftsman, at \$175.08 per month, to take effect December 19, 1923; John F. O'Heir, Jr., engineering inspector, at \$150.08 per month, to take effect December 8, 1923; William A. O'Leary, draftsman, at \$175.08 per month, to take effect December 19, 1923; William V. Power, junior assistant, at \$125.08 per month, to take effect December 19, 1923; Henry Reich, junior assistant, at \$125.08 per month, to take effect December 15, 1923; James E. Sampson, draftsman, at \$175.08 per month, to take effect December 20, 1923; Vincent Schiliro, draftsman, at \$175.08 per month, to take effect December 19, 1923; Walter E. Speck, junior assistant, at \$125.08 per month, to take effect December 13, 1923; Samuel Steinfeld, draftsman, at \$175.08 per month, to take effect December 20, 1923; Setrag A. Sulahian, junior assistant, at \$125.08 per month, to take effect December 21, 1923; John A. Teufer, Sr., junior assistant, at \$125.08 per month, to take effect December 19, 1923; Claude M. Twombly, architectural draftsman, at \$175.08 per month, to take effect December 19, 1923; Herbert B. Walters, junior assistant, at \$125.08 per month, to take effect December 16, 1923; Francis J. Weber,

draftsman, at \$175.08 per month, to take effect December 6, 1923; Hyman Zasky, junior assistant, at \$125.08 per month, to take effect December 13, 1923.

Resignation: Sigmund S. Jax, junior assistant, at \$125.08 per month, to take effect November 28, 1923.

Change of Item in Resolution of July 10, 1923, Concerning Elmer R. Hauck so as to Read as Follows: (Resignation)—Elmer R. Hauck, engineering inspector, at \$150.08 per month, to take effect July 15, 1923.

Leaves of Absence with Pay—Richard H. Burton, engineer accountant, from November 5, 1923, to November 16, 1923; Julia N. Mollahan, clerk, from December 1, 1923, to February 29, 1924; David Reichmuller, junior assistant, from November 5, 1923, to November 17, 1923.

1719

Voucher Schedule No. 50

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of The State of New York, as the vouchers may direct:

Vouchers Nos. 1054-1115, open market orders, \$2,739.30; Vouchers Nos. 600; 608; 612-618, miscellaneous bills, \$4,699.78; Vouchers Nos. 207-216, City payrolls, \$95,369.45; Voucher No. CM-23, State payrolls, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 316; Jacob Schlesinger, Inc.; supplementary approximate estimate No. 1-A for making changes in subway structure necessitated by the widening of 60th Street between Second and Fifth Avenue, Borough of Manhattan, from June 4, 1923 to October 31, 1923 (R. T. 7639) \$481.42;

Voucher No. 317; New York Rapid Transit Corporation; approximate estimate No. 8 for the lengthening of platforms at the Canal Street station of the Centre Street Loop of the Broadway-Fourth Avenue Rapid Transit Railroad, from October 1, 1923 to October 31, 1923 (R. T. 7431) \$2,690.40;

Voucher No. 318; Rosenthal Engineering Contracting Company, Inc.; approximate estimate No. 9 for the construction of foundations for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from October 21, 1923 to November 20, 1923 (R. T. 7589) \$16,190.26;

Voucher No. 319; Rapid Transit Subway Construction Company; Requisition No. 1 for additional work principal Contract No. 2, Brooklyn-Manhattan Rapid Transit Railroad, as per determination of the Chief Engineer of the Transit Commission dated March 27, 1923 (R. T. 6616) \$240,000.00;

Voucher No. 320; Rapid Transit Subway Construction Company; Requisition No. 2, subsection No. 2-A for additional work principal Contract No. 2, Brooklyn-Manhattan Rapid Transit Railroad, as per determination of Chief Engineer of the Transit Commission dated April 11, 1923 (R. T. 6616) \$60,000.00;

Voucher No. 321; Rapid Transit Subway Construction Company; Requisition No. 1, subsection No. 3 for additional work principal Contract No. 2, Brooklyn-Manhattan Rapid Transit Railroad as per determination of the Chief Engineer of Transit Commission, dated April 11, 1923 (R. T. 6616) \$300,000.00;

Voucher No. 322; Station Finish Corporation, Assignee; approximate estimate No. 16, for the construction of station finish on Sections Nos. 3, 4 and 5 of Route No. 8, from November 1, 1923 to November 30, 1923 (R. T. 7516) \$7,588.69;

Voucher No. 323; T. H. Reynolds Contracting Co., Inc.; approximate estimate No. 11 for the installation of tracks, Sections 1 to 5 inclusive, Route No. 8, from October 1, 1923 to November 23, 1923 (R. T. 7536) \$8,560.64;

Voucher No. 324; Fox, Reynolds Company, Inc.; approximate estimate No. 6 for the excavation and the construction of a retaining wall at the Lenox Avenue Yard, from November 1, 1923 to November 30, 1923 (R. T. 7642) \$7,619.62;

Voucher No. 325; Degnon Contracting Company, or Parker & Aaron, Attorneys; For additional interest in full payment of the judgment in the action of Degnon Contracting Company vs. The City of New York, entered in the office of the Clerk of the County of New York on May 7, 1923, in connection with the contract for the construction of Sections Nos. 1 and 2 of Route No. 11-B (R. T. 6326, 6327) \$7,606.79;
 Voucher No. 326; Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 15, for the construction of inspection shed enclosure for Route No. 18, 180th Street Yard, of the White Plains Road Line, from November 1, 1923 to November 30, 1923 (R. T. 7457) \$4,790.94.

1720

Upon motion duly seconded and adopted the meeting was adjourned to Thursday, December 6, 1923.

FRANK N. ROBINSON,
 Acting Secretary.

Proceedings for Thursday, December 6, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner, Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1721—Case 2704

Manhattan Railway Company and Interborough Rapid Transit Company—Application for Certificate of Convenience and Necessity Relative to Elevated Structure and Facilities in Vicinity of 42nd Street Elevated Station on Third Avenue Elevated Line—Report and Opinion Approved—Order Authorizing Two Certificates of Convenience and Necessity Adopted—Certificates Executed

The Secretary presented a Report and Opinion in Case No. 2704, by George L. Lucas, Acting Chief Executive Officer, reading as follows:

STATE OF NEW YORK
 TRANSIT COMMISSION

IN THE MATTER
 of the

Application of the MANHATTAN RAILWAY COMPANY for a determination, pursuant to Chapter 635 of the Laws of 1923, of railway facilities and structures necessary for the public convenience in the vicinity of its elevated railway station at Third Avenue and 42nd Street.

REPORT AND OPINION.
 CASE NO. 2704.

To the TRANSIT COMMISSION:

I, GEORGE L. LUCAS, Acting Chief Executive Officer, designated and certified to conduct a hearing herein by order of the Commission, dated November 20, 1923, do hereby report as follows:

I have taken the testimony and evidence produced at the hearings in this proceeding and the same is hereby submitted.

This is an application of Manhattan Railway Company under Chapter 635 of the Laws of 1923 amending Chapter 788 of the Laws of 1917, as amended by Chapter 611 of the Laws of 1919, entitled "An Act to provide for the removal of the railroad structures of the Manhattan Railway Company on Forty-second Street in the City of New York", Section 1-a of which in part provides as follows:

"* * * but nothing in this act contained shall be deemed to extinguish or impair any existing franchise rights of the Manhattan Railway Company to construct and maintain a circuit breaker and such facilities including stairways in connection with and immediately adjacent to its Third Avenue station at Forty-second street as the transit commission may determine to be necessary for the public convenience and necessity."

The prayer of the petition requested this Commission to determine that public convenience and necessity require the retention, rearrangement and enjoyment of certain existing facilities at Forty-second Street and Third Avenue and the construction of additional facilities; that the certification of the Public Service Commission for the First District pursuant to Chapter 788 of the Laws of 1917, as amended by Chapter 611 of the Laws of 1919, that public necessity and convenience did not require the continued maintenance and operation of the so-called Forty-second Street spur was without prejudice to the right of the Manhattan Railway Company to construct, maintain or operate the same or the right or obligation of the said company to restore the spur, if in the future, it should be deemed necessary for the public service; and also that the Commission determine that it was necessary that the Manhattan Railway Company perform the work of physically removing the spur.

At the opening of the petitioner's case Counsel to the Commission maintained that under Chapter 635 of the Laws of 1923 the Commission was confined to a determination as to the necessity and convenience of retaining facilities or structures of the existing Forty-second Street spur as were within the area of condemnation, described by metes and bounds in the law under which the petition is made, together with such structures outside of the area of condemnation as were physically inseparable from those to be retained within such area; that section 1 of the law under consideration was permissive in character and provided for the making of an agreement between the owner of the Forty-second Street spur and the City of New York as to its removal under which as part of the negotiations it might have been agreed that the Manhattan Railway Company retain its franchises to re-erect the spur in the future but that upon the enactment of Section 1-a and the fixation of a date for the reaching of such an agreement under Section 1 the Commission became functus officio under Section 1 and the mandatory provisions of Section 1-a immediately became applicable upon said date having past and no agreement having been reached. Counsel to the Commission also contended that the Commission could make no finding as to who would physically remove the structure since upon the vesting of title to the spur in the City of New York jurisdiction over the property would be in the Commissioner of the Sinking Fund of The City of New York. After some discussion the attorney for the petitioner orally amended its petition so as to make application for a certificate of convenience and necessity under Section 53 of the Public Service Commission Law for the right to exercise the company's franchise and to erect and maintain these structures shown upon its plan made part of the petition and numbered 22941, outside of the area of condemnation referred to in Chapter 635 of the Laws of 1923 and in no way connected with the portion of the spur within the area of condemnation.

Upon an examination of the record and a study of the exhibits there seems to be presented for consideration the following matters:

(a) The relocation of the columns supporting Forty-second Street Station of the Third Avenue Elevated Line, which columns are now within the roadway of Forty-second Street west of Third Avenue so as to relocate said columns on the south and north sidewalks of Forty-second Street, respectively. This, in turn, requiring the substitution of a plate girder for the present lattice type construction extending from the northerly curb to the southerly curb of Forty-second Street. The type of plate girder necessitated by the best engineering practice is probably not less than five feet in depth which substitution requires in turn a reconstruction of the existing stairway at the northwest corner of Forty-second Street and Third Avenue in order that it might correlate with the new conditions. In this connection it is also proposed to

reconstruct a portion of the existing undergrade footbridge so as to provide a direct connection between the stairway at the northwest corner of Forty-second Street and the proposed stairway at the northeast and southwest corners of Forty-second Street and Third Avenue.

(b) The construction of a new stairway at the southwest corner of Forty-second Street and Third Avenue which will afford a direct connection with the downtown local platform and with the uptown platform by means of the under-grade footbridge.

(c) The construction of a new stairway at the northeast corner of Forty-second Street and Third Avenue leading from Third Avenue to the uptown platform and to the express station platform and also to the downtown platform of the station by means of the said undergrade footbridge.

(d) The retention and/or reconstruction of a porter's closet, women's toilet, house for trackmen, circuit breaker house, cable splicing platform, which are necessary, it is claimed, by reason of the power cable connection between the Third Avenue Line and the Queensboro Subway under and along Forty-second Street.

(e) The construction of approximately 125 feet of duct line under and along Forty-second Street between Shaft No. 1 of the Queensboro Subway Rapid Transit Railroad and a pipe connection along a column of the elevated railroad to the circuit breaker house proposed to be retained.

The consideration of these matters divides itself into three parts:

1. Those structures or facilities which are necessitated by the removal of the Forty-second Street spur.

2. Those structures or facilities which are not necessitated by the removal of the Forty-second Street spur but which may promote the convenience of the travelling public using the Forty-second Street station of the Third Avenue Elevated Line.

3. Those units which could be considered by the Commission under the contract or certificate made with or issued to Interborough Rapid Transit Company either as Lessee of the City Railroad or as Lessee of the Manhattan Elevated Railroads.

The Engineers of the Commission and of the Company are of the opinion which was not refuted by the expert for the City upon cross-examination, that the proper engineering treatment of the spur for the Third Avenue Station upon its removal necessitates the relocation of the supporting columns to the sidewalk on the north and south sides of Forty-second Street and substitution of the plate girder for the existing lattice type girder. The Engineers are also agreed that the installation of such new girder will require the reconstruction of the stairway at the northwest corner of Forty-second Street and Third Avenue as indicated upon said drawing numbered 22941 and that the additional risers and landings shown upon said plan within the area of condemnation are necessary. With this opinion I agree.

At the request of the Corporation Counsel inspectors of the Commission took counts of the people using the stairway at the westerly end of the existing Forty-second Street Spur which were taken on November 20, 1923 and November 21, 1923 between the hours of 6:10 A. M. and 12:00 M. A tabulation of this count is shown on Exhibit No. 7 herein and it will be noted that the total number of people using said stairway at the westerly end of the Forty-second Street Spur between said hours on November 20, 1923 was 12,309 and on November 21, 1923, 12,137; that between the hours of 8:00 and 9:00 A. M. a total of 3,213 persons used said stairways on November 20, 1923 and a total of 3,165 used said stairway on November 21, 1923 between the hours of 8:00 A. M. and 9:00 A. M. The said stairway at the westerly end of the spur is approximately 7 feet in width. The Engineers of the Commission and the experts in the Transit Bureau of the Commission are unanimous in the belief that the removal of this stairway at the westerly end of the spur as a part of the spur creates a necessity for the construction of the additional stairway at the southwest corner of Forty-second Street and Third Avenue. While the expert for the City, Mr. Breckenridge, testified that in his opinion, no additional stairway was necessary. I am of the opinion that the removal of a facility such as a seven foot stairway obviously without any consideration, theoretical hypothesis or mathematical calculation requires the substitution of another facility of sufficient size to accommodate the number of passengers who formerly used the stairway to be removed. I am therefore of the opinion that the new stairway from the southerly side of Forty-second Street as shown upon said drawing numbered 22941 is necessary and should be constructed and maintained within the area of condemnation.

The construction of the stairway from the southerly side of Forty-second Street as shown upon the petitioner's drawing No. 22941 leads also to the conclusion that the retention of the waiting room, porter's closet, house for trackmen, women's toilet, circuit breaker house and cable splicing platform should also be retained or reconstructed for the reason that the waiting room, porter's closet and circuit breaker house being easterly of the new stairway afford no greater encroachment than formerly upon Forty-second Street. The cable splicing platform should also be retained for the reason as will hereafter be more clearly indicated; that the connection between the power supply of the Third Avenue Elevated Line and the Queensboro Subway Rapid Transit Railroad will probably be continued for sometime to come.

The Interborough Company is now maintaining as part of the so-called power consolidation scheme a connection between the power supply on the Third Avenue Elevated Line and the power supply in the Queensboro Subway Rapid Transit Railroad by means of cables supported by the spur and Column No. 5 through Shaft No. 1 of the Rapid Transit Railroad in addition to certain telephone and other cables. This connection affords a double source of supply, one from the Manhattan Power House and the other from the Interborough Company's power house which it is conceded is necessary in the operation of under river railroads so as to insure as nearly as may be a full and independent supply of power from two sources in case of breakdown. Apart from the consideration to be given to the necessity of additional power supply to operate the extension of the Queensboro Rapid Transit Railroad westerly of Seventh Avenue it is undoubtedly the fact that the present tie between Third Avenue Elevated Railroad and the subway at Forty-second Street is to continue indefinitely and upon the removal of the spur some way must be found for taking care of these tie and other cables. The Engineers of the Commission and of the petitioner are of the opinion that the better and cheaper method of affording this housing for the cables is by means of a duct line between Shaft No. 1 of the said Queensboro subway and a pipe leading to the elevated structure at the corner of Forty-second Street and Third Avenue. The construction of ducts sufficient to house the existing cables on the spur is necessary. The Commission, however, will no doubt, in its approval of plans for the construction of such a duct line anticipate the future needs of this Rapid Transit Railroad under and along Forty-second Street but in my opinion provision for additional ducts is not necessitated by the removal of the Forty-second Street Spur.

The construction of a new house for trackmen under the express track while outside of the area of condemnation seems reasonably necessary as a substitute for equal facilities now existing on the spur and in my opinion should be provided for the convenience of the employees of the petitioner. This unit as stated is outside of the area of condemnation but all the units heretofore discussed are within the area of condemnation as defined by the act under which this petition is made.

The stairway at the northeast corner of Forty-second Street and Third Avenue I consider to be entirely divorced from the removal of the spur and in no way necessitated by its removal. It does appear, however, from the opinion of the experts of the Commission that such a stairway would greatly add to the convenience of the travelling public using the Forty-second Street Station of the Third Avenue Line. It should be noted also that this station is an express station as well as a local station.

I therefore conclude and recommend that the Commission issue a certificate pursuant to the provisions of Chapter 635 of the Laws of 1923 that it is necessary for the public convenience and necessity that the petitioner maintain, construct or reconstruct within the area of condemnation as prescribed by said law, two columns supporting the Forty-second Street Station of the Third Avenue Elevated Line, which columns are now within the roadway of Forty-second Street west of Third Avenue and a plate girder in place of the present lattice type construction extending from the northerly curb to the southerly curb of Forty-second Street, the existing stairway at the north-westerly corner of Forty-second Street and Third Avenue, a new stairway at the south-westerly corner of Forty-second Street and Third Avenue, the existing waiting room, porter's closet, house for trackmen, women's toilet, circuit breaker house and cable splicing platform and the construction of a duct line under and along Forty-second Street between Shaft No. 1 of the Queensboro Subway Rapid Transit Railroad and a pipe connection to the elevated railroad at the corner of Forty-second Street and Third Avenue substantially as shown upon petitioner's said drawing number 22941.

That the Commission pursuant to the authority vested in it by the provisions of Section 53 of the Public Service Commission Law issue a certificate that the public

convenience and necessity, apart from the effect resultant upon the removal of the Forty-second Street Spur and independent of such removal would be promoted by the construction, maintenance and operation of the stairway at the northeast corner of Forty-second Street and Third Avenue as shown upon said plan hereinbefore referred to.

That the Commission reserve for determination under its contractual power the number of ducts to be installed under and along Forty-second Street for the additional power supply made necessary by the extension of the Queensboro Subway Rapid Transit Railroad including the ducts necessary to accommodate the cables now maintained upon the spur.

Dated, New York, December 6, 1923.

GEO. L. LUCAS,
Acting Chief Executive Officer.

Thereupon the above mentioned Report and Opinion in Case No. 2704 was approved and adopted and an Order in Case No. 2704 was adopted and ordered filed in the following form:

Present:
GEORGE McANENY, }
Chairman, } Commissioners.
LEROY T. HARKNESS, }

<p>IN THE MATTER of the Application of the MANHATTAN RAILWAY COMPANY for a determination, pursuant to Chapter 635 of the Laws of 1923, of railway facilities and structures necessary for the public convenience in the vicinity of its ele- vated railway station at Third Avenue and 42d Street.</p>	<p>ORDER AND DETERMINATION, CASE No. 2704.</p>
--	--

The Public Service Commission for the First District having, by certificate dated April 22, 1921, in Case No. 2582, certified, pursuant to Chapter 788 of the Laws of 1917, as amended by Chapter 611 of the Laws of 1919, that the tracks, structures, station and appurtenances of the Manhattan Railway Company in East 42d Street, in the Borough of Manhattan, City of New York, are no longer necessary and convenient for the public service and constitute an impediment and obstruction to the public use of said street; and Chapter 635 of the Laws of 1923 having prescribed the area within which the said tracks, structure, station and appurtenances should be condemned by The City of New York pursuant to said certificate of the Public Service Commission, and having further provided that nothing in said act contained should be deemed to extinguish or impair any existing franchise right of the Manhattan Railway Company to construct and maintain a circuit breaker and such facilities, including stairways in connection with and immediately adjacent to its Third Avenue Station at 42d Street as the Transit Commission should determine to be necessary for the public convenience and necessity; and the said Manhattan Railway Company having, by petition dated November 9, 1923, made application to the Commission for a determination that public convenience and necessity requires:

- (a) the construction, reconstruction, maintenance and operation of certain structures and facilities designated on I. R. T. Drawing No. 22941.
- (b) that the portion of the elevated railroad structures, tracks, stations, platforms, stairways and appurtenances now existing within the condemnation area and obstructing said street are only such as are not indicated on said drawing No. 22941.
- (c) that the said certificate dated April 22, 1921 is without prejudice to any franchise of said company to construct, maintain or operate or restore said facilities.
- (d) that said removal shall be accomplished and effected by Manhattan Railway Company, the necessary and reasonable cost thereof to be paid by the City.

; and the Commission having, by order herein dated November 20, 1923, directed that a hearing on said application be held on November 28, 1923, said order designating and certifying George L. Lucas, Acting Chief Executive Officer, to conduct said hearing, take the testimony and report same to the Commission, together with his opinion thereon for its decision and determination; and the said hearing having been duly held on November 28, December 3 and 4, 1923 and Counsel to the petitioner at said hearing having orally amended its petition to make application for a certificate of convenience and necessity under Section 53 of the Public Service Commission Law for the right to exercise the company's franchise and to erect, maintain and operate such structures shown on its plan, Drawing No. 22941 as are outside of the area of condemnation referred to in Chapter 635 of the Laws of 1923; and the said Acting Chief Executive Officer having made his report and opinion dated December 6, 1923, wherein he finds and recommends

(1) That the Commission issue a certificate of convenience and necessity pursuant to Chapter 635 of the Laws of 1923; that the petitioner maintain, construct or reconstruct and operate

(a) two columns supporting the 42nd Street Station of the Third Avenue Elevated Line, which columns are now within the roadway of 42nd Street west of Third Avenue and a plate girder in place of the present lattice type construction extending from the northerly curb to the southerly curb of 42nd Street.

(b) a stairway at the southwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(c) a stairway at the northwesterly corner of 42d Street and Third Avenue leading from the street to said elevated railroad structure.

(d) the waiting room, house for trackman, porter's closet, women's toilet, circuit breaker house and cable splicing platform now upon the structure of the said elevated railroad.

(e) a duct line under and along 42d Street from Shaft No. 1 of the Queensboro Subway Rapid Transit Railroad to a pipe connection on a column supporting the elevated railroad at 42nd Street and Third Avenue sufficient to accommodate all cables now carried on the spur.

All substantially as shown on said Drawing No. 22941.

(2) That the Commission issue a certificate of convenience and necessity pursuant to Section 53 of the Public Service Commission Law; that the petitioner construct, maintain and operate a stairway at the northeast corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure, substantially as shown on said Drawing No. 22941.

(3) That the Commission reserve for consideration, under its contractual power, the number of ducts to be installed under and along 42d Street for the additional power supply made necessary by the extension of the Queensboro Subway Rapid Transit Railroad; and said report and opinion having been approved on December 6, 1923,

Now, Therefore, The Transit Commission does hereby
Order and Determine

(1) That the Commission issue a certificate of convenience and necessity pursuant to Chapter 635 of the Laws of 1923; that the petitioner maintain, construct or reconstruct and operate

(a) two columns supporting the 42nd Street Station of the Third Avenue Elevated Line, which columns are now within the roadway of 42nd Street west of Third Avenue and a plate girder in place of the present lattice type construction extending from the northerly curb to the southerly curb of 42nd Street.

(b) a stairway at the southwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(c) a stairway at the northwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(d) the waiting room, house for trackman, porter's closet, women's toilet, circuit breaker house and cable splicing platform now upon the structure of the said elevated railroad.

(e) a duct line under and along 42nd Street from Shaft No. 1 of the Queensboro Subway Rapid Transit Railroad to a pipe connection on a column

supporting the elevated railroad at 42nd Street and Third Avenue sufficient to accommodate all cables now carried on the spur.

All substantially as shown on said Drawing No. 22941.

(2) That the Commission issue a certificate of convenience and necessity pursuant to Section 53 of the Public Service Commission Law; that the petitioner construct, maintain and operate a stairway at the northeast corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure, substantially as shown on said Drawing No. 22941.

(3) That the Commission reserve for consideration, under its contractual power, the number of ducts to be installed under and along 42nd Street for the additional power supply made necessary by the extension of the Queensboro Subway Rapid Transit Railroad.

By the COMMISSION,
FRANK N. ROBINSON,
Acting Secretary.

Thereupon the certificates authorized by the foregoing order were executed by the Chairman and Acting Secretary of the Commission in the following form:

STATE OF NEW YORK—TRANSIT COMMISSION.

IN THE MATTER
of the

Application of the MANHATTAN RAILWAY COMPANY for a determination, pursuant to Chapter 635 of the Laws of 1923, of railway facilities and structures necessary for the public convenience in the vicinity of its elevated railway station at Third Avenue and 42nd Street.

CASE No. 2704.
CERTIFICATE PURSUANT TO
CHAPTER 635 OF THE
LAWS OF 1923.

The Public Service Commission for the First District having by certificate dated April 22, 1923, in Case No. 2582 certified pursuant to Chapter 788 of the Laws of 1917, as amended by Chapter 611 of the Laws of 1919, that the tracks, structures, station and appurtenances of the Manhattan Railway Company in East 42nd Street, in the Borough of Manhattan, City of New York, are no longer necessary and convenient for the public service and constitute an impediment and obstruction to the public use of said street; and Chapter 635 of the Laws of 1923 having prescribed the area within which the said tracks, structure, station and appurtenances should be condemned by The City of New York pursuant to said certificate of the Public Service Commission, and having further provided that nothing in said act contained should be deemed to extinguish or impair any existing franchise right of the Manhattan Railway Company to construct and maintain a circuit breaker and such facilities, including stairways in connection with and immediately adjacent to its Third Avenue Station at 42nd Street as the Transit Commission should determine to be necessary for the public convenience and necessity; and the said Manhattan Railway Company having, by petition dated November 9, 1923, made application to the Commission for a determination that public convenience and necessity requires:

(a) The construction, reconstruction, maintenance and operation of certain structures and facilities designated on I. R. T. Drawing No. 22941.

(b) that the portion of the elevated railroad structures, tracks, stations, platforms, stairways and appurtenances now existing within the condemnation area and obstructing said street are only such as are not indicated on said drawing No. 22941.

(c) that the said certificate dated April 22, 1921, is without prejudice to any franchise of said company to construct, maintain or operate or restore said facilities.

(d) that said removal shall be accomplished and effected by Manhattan Railway Company, the necessary and reasonable cost thereof to be paid by the City.

; and the Commission having, by order herein dated November 20, 1923, directed that a hearing on said application be held on November 28, 1923, said order designating

and certifying George L. Lucas, Acting Chief Executive Officer, to conduct said hearing, take the testimony and report same to the Commission, together with his opinion thereon for its decision and determination; and the said hearing having been duly held on November 28, December 3 and 4, 1923, and Counsel to the petitioner at said hearing having orally amended its petition to make application for a certificate of convenience and necessity under Section 53 of the Public Service Commission Law for the right to exercise the company's franchise and to erect, maintain and operate such structures shown on its plan, Drawing No. 22941 as are outside of the area of condemnation referred to in Chapter 635 of the Laws of 1923; and the said Acting Chief Executive Officer having made his report and opinion dated December 6, 1923, wherein he finds and recommends

(1) That the Commission issue a certificate of convenience and necessity pursuant to Chapter 635 of the Laws of 1923; that the petitioner maintain, construct or reconstruct and operate

(a) two columns supporting the 42nd Street Station of the Third Avenue Elevated Line, which columns are now within the roadway of 42nd Street west of Third Avenue, and a plate girder in place of the present lattice type construction extending from the northerly curb to the southerly curb of 42nd Street.

(b) a stairway at the southwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(c) a stairway at the northwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(d) the waiting room, house for trackmen, porter's closet, women's toilet, circuit breaker house and cable splicing platform now upon the structure of the said elevated railroad.

(e) a duct line under and along 42nd Street from Shaft No. 1 of the Queensboro Subway Rapid Transit Railroad to a pipe connection on a column supporting the elevated railroad at 42nd Street and Third Avenue, sufficient to accommodate all cables now carried on the spur.

All substantially as shown on said Drawing No. 22941.

; and the Commission having, on December 6, 1923, adopted an order and determination herein, a copy of which is annexed hereto and made part hereof, ordering and determining, among other things,

(1) That the Commission issue a certificate of convenience and necessity, pursuant to Chapter 635 of the Laws of 1923; that the petitioner maintain, construct or reconstruct and operate

(a) two columns supporting the 42nd Street Station of the Third Avenue Elevated Line, which columns are now within the roadway of 42nd Street west of Third Avenue, and a plate girder in place of the present lattice type construction extending from the northerly curb to the southerly curb of 42nd Street.

(b) a stairway at the southwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(c) a stairway at the northwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(d) the waiting room, house for trackmen, porter's closet, women's toilet, circuit breaker house and cable splicing platform now upon the structure of the said elevated railroad.

(e) a duct line under and along 42nd Street from Shaft No. 1 of the Queensboro Subway Rapid Transit Railroad to a pipe connection on a column supporting the elevated railroad at 42nd Street and Third Avenue, sufficient to accommodate all cables now carried on the spur.

All substantially as shown on said Drawing No. 22941.

Now, Therefore, The Transit Commission does hereby certify pursuant to Chapter 635 of the Laws of 1923 that public convenience and necessity require the Manhattan Railway Company to maintain, construct or reconstruct and operate within the condemned area prescribed in said Chapter 635 of the Laws of 1923.

(a) two columns supporting the 42nd Street Station of the Third Avenue Elevated Line, which columns are now within the roadway of 42nd Street west of Third Avenue, and a plate girder in place of the present lattice type construction extending from the northerly curb to the southerly curb of 42nd Street.

(b) a stairway at the southwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(c) a stairway at the northwesterly corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure.

(d) the waiting room, house for trackmen, porter's closet, women's toilet, circuit breaker house and cable splicing platform now upon the structure of the said elevated railroad.

(e) a duct line under and along 42nd Street from Shaft No. 1 of the Queensboro Subway Rapid Transit Railroad to a pipe connection on a column supporting the elevated railroad at 42nd Street and Third Avenue, sufficient to accommodate all cables now carried on the spur.

All substantially as shown on said Drawing No. 22941.

Dated, December 6, 1923.

GEORGE McANENY,
Chairman.

FRANK N. ROBINSON,
Acting Secretary.

STATE OF NEW YORK—TRANSIT COMMISSION

IN THE MATTER
of the

Application of the MANHATTAN RAILWAY COMPANY for a determination, pursuant to Chapter 635 of the Laws of 1923, of railway facilities and structures necessary for the public convenience in the vicinity of its elevated railway station at Third Avenue and 42nd Street.

CASE No. 2704.
CERTIFICATE PURSUANT TO SECTION 53 OF THE PUBLIC SERVICE COMMISSION LAW.

The Public Service Commission for the First District having, by certificate dated April 22, 1921, in Case No. 2582, certified, pursuant to Chapter 788 of the Laws of 1917, as amended by Chapter 611 of the Laws of 1919, that the tracks, structures, station and appurtenances of the Manhattan Railway Company in East 42d Street in the Borough of Manhattan, City of New York, are no longer necessary and convenient for the public service and constitute an impediment and obstruction to the public use of said street; and Chapter 635 of the Laws of 1923 having prescribed the area within which the said tracks, structure, station and appurtenances should be condemned by The City of New York pursuant to said certificate of the Public Service Commission, and having further provided that nothing in said act contained should be deemed to extinguish or impair any existing franchise right of the Manhattan Railway Company to construct and maintain a circuit breaker and such facilities, including stairways in connection with and immediately adjacent to its Third Avenue Station at 42d Street as the Transit Commission should determine to be necessary for the public convenience and necessity; and the said Manhattan Railway Company having, by petition dated November 9, 1923, made application to the Commission for a determination that public convenience and necessity requires:

(a) the construction, reconstruction, maintenance and operation of certain structures and facilities designated on I. R. T. Drawing No. 22941.

(b) that the portion of the elevated railroad structures, tracks, stations, platforms, stairways and appurtenances now existing within the condemnation area and obstructing said street are only such as are not indicated on said drawing No. 22941.

(c) that the said certificate dated April 22, 1921 is without prejudice to any franchise of said company to construct, maintain or operate or restore said facilities.

(d) that said removal shall be accomplished and effected by Manhattan Railway Company, the necessary and reasonable cost thereof to be paid by the City.

; and the Commission having, by order herein dated November 20, 1923, directed that a hearing on said application be held on November 28, 1923, said order designating and certifying George L. Lucas, Acting Chief Executive Officer, to conduct said hear-

ing, take the testimony and report same to the Commission, together with his opinion thereon for its decision and determination; and the said hearing having been duly held on November 28, December 3 and 4, 1923 and Counsel to the petitioner at said hearing having orally amended its petition to make application for a certificate of convenience and necessity under Section 53 of the Public Service Commission Law for the right to exercise the company's franchise and to erect, maintain and operate such structure shown on its plan, Drawing No. 22941 as are outside of the area of the condemnation referred to in Chapter 635 of the Laws of 1923; and the said Acting Chief Executive Officer having made his report and opinion dated December 6, 1923, wherein he finds and recommends that the Commission issue a certificate of convenience and necessity pursuant to Section 53 of the Public Service Commission Law; that the petitioner construct, maintain and operate a stairway at the northeast corner of 42d Street and Third Avenue leading from the street to said elevated railroad structure, substantially as shown on said Drawing No. 22941.

And the Commission having on the 6th day of December, 1923, adopted an order and determination herein, a copy of which is annexed hereto and made part hereof ordering and determining, among other things,

(1) That the Commission issue a certificate of convenience and necessity pursuant to Section 53 of the Public Service Commission Law; that the petitioner construct, maintain and operate a stairway at the northeast corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure substantially as shown on said Drawing No. 22941.

Now, Therefore, the Transit Commission

Does Hereby Certify pursuant to Section 53 of the Public Service Commission Law that it is necessary or convenient for the public service that Manhattan Railway Company construct, maintain and operate a stairway at the northeast corner of 42nd Street and Third Avenue leading from the street to said elevated railroad structure substantially as shown on said Drawing No. 22941.

Route No. 78-B—Resolution Extending Time of Board of Estimate and Apportionment for Thirty Days from December 10, 1923, within Which to Consider Route and General Plan for Central Park, Eighth Avenue and St. Nicholas Avenue Route—Adopted

The following resolution was adopted:

Whereas, This Commission, by resolution adopted on October 11, 1923, adopted a route and general plan for a proposed rapid transit railroad, in the Borough of Manhattan, in the City of New York, known as the Central Park, Eighth Avenue and St. Nicholas Avenue Route, Route No. 78-B, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration, pursuant to the provisions of the Rapid Transit Act, which, by the provisions of Section 5 thereof, requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time expires on December 10, 1923; and

Whereas, The said route and general plan is now being considered by the Committees of said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said Committees,

Resolved, That the time within which a final vote shall be taken upon said route and general plan by the Board of Estimate and Apportionment in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended thirty (30) days from December 10, 1923.

Contract No. 3—Copy of Communication to Brown, Wheelock Company Requesting Appraisal of Property in Block Bounded by West 150th and West 151st Streets, Seventh Avenue and Harlem River, Borough of Manhattan—Approved

A copy of the following communication was approved; and it was directed that an order be issued for the performance of the work:

December 6, 1923.

BROWN, WHEELOCK COMPANY,
14 Wall Street,
New York City, N. Y.

Att. of: Mr. Stevens.

Gentlemen:

This Commission is desirous of ascertaining the present fair market value of the block of waterfront property located between West 150th and West 151st Streets, Seventh Avenue and the Harlem River, Borough of Manhattan. This property is known as Block 2019, Lot 1, on the assessment roll for the Borough of Manhattan, containing approximately 49 lots of upland, together with riparian rights.

Your Mr. Stevens has given Mr. Schermerhorn of this office a figure of \$500. as the charge of your Company for making the desired appraisal and has stated that he thought the appraisal could be furnished by Monday or Tuesday of next week.

Please, therefore, furnish this Commission with an appraisal of this property by Monday or Tuesday of next week. Please present bill for this service in duplicate.

Very truly yours,

JAMES B. WALKER,
Secretary.

Route No. 78-B—Resolution Amending Resolution of December 6, 1923, Extending Time of Board of Estimate and Apportionment within which to Consider Route and General Plan for Central Park, Eighth Avenue and St. Nicholas Avenue Route, so as to Substitute Date—Adopted

The following resolution was adopted:

Resolved, That the resolution adopted by this Commission on December 6, 1923, as follows:

“Whereas, This Commission, by resolution adopted on October 11, 1923, adopted a route and general plan for a proposed rapid transit railroad, in the Borough of Manhattan, in the City of New York, known as the Central Park, Eighth Avenue and St. Nicholas Avenue Route, Route No. 78-B, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration, pursuant to the provisions of the Rapid Transit Act, which, by the provisions of Section 5 thereof, requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time expires on December 10, 1923; and

Whereas, The said route and general plan is now being considered by the Committees of said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said Committees,

Resolved, That the time within which a final vote shall be taken upon said route and general plan by the Board of Estimate and Apportionment in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended thirty (30) days from December 10, 1923.”

be amended so as to read as follows:

“Whereas, This Commission, by resolution adopted on October 11, 1923, adopted a route and general plan for a proposed rapid transit railroad, in the Borough of Manhattan, in the City of New York, known as the Central Park, Eighth Avenue and St. Nicholas Avenue Route, Route No. 78-B, and thereafter transmitted said

route and general plan to the Board of Estimate and Apportionment for its consideration, pursuant to the provisions of the Rapid Transit Act, which, by the provisions of Section 5 thereof, requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time expires on December 18, 1923; and

Whereas, The said route and general plan is now being considered by the Committees of said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said Committees,

Resolved, That the time within which a final vote shall be taken upon said route and general plan by the Board of Estimate and Apportionment in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended thirty (30) days from December 18, 1923."

1727—R. T. 7603

Route No. 52, Section No. 3—Proposed Assignment by Oakdale Contracting Company, Inc., to Equitable Trust Company of Sum of \$75,224.28 of Moneys Due Under Contract for Construction of Part of Flushing Line—Approval Resolution

A proposed assignment was presented from the Oakdale Contracting Company, Inc., to the Equitable Trust Company, assigning the sum of \$75,224.28 of moneys due or to grow due under the contract for the construction of Section No. 3 of Route No. 52—Flushing Line.

The following resolution was adopted:

Whereas, On or about the 28th day of March, 1923, The City of New York, acting by the Transit Commission, entered into a contract with Oakdale Contracting Company, Inc., for the construction of a part of the Flushing Route Rapid Transit Railroad (Section No. 3 of Route No. 52) in the Borough of Queens, City of New York; and

Whereas, Said Oakdale Contracting Company, Inc., has submitted to the Transit Commission a proposed assignment dated the 7th day of December, 1923, assigning Seventy-five thousand two hundred and twenty-four dollars and twenty-eight cents (\$75,224.28) moneys due and to grow due under or on account of said contract to the Equitable Trust Company of New York and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment,

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following:

First: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as subcontractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the rights of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or the Transit Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: The consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said contract shall consent in writing to said assignment and the conditions of this reso-

lution in form to be approved by Counsel to the Commission and further until the assignee under said assignment, the Equitable Trust Company of New York, shall consent and accept the terms and conditions of this resolution, in form to be approved by Counsel to the Commission.

1728—R. T. 7681

Contract No. 3—Proposed Assignment by D. C. Serber, Inc., to Chatham & Phenix National Bank of Sum of \$12,000 of Moneys Due Under Contract for Construction of Enclosures to Third Addition to Shops on Lenox Avenue and 148th Street Yard—Approval Resolution

A proposed assignment was presented from D. C. Serber, Inc., to the Chatham & Phenix National Bank, assigning the sum of \$12,000 of moneys due or to grow due under the contract for the construction of enclosures to the 3rd Addition to Shops, at the Lenox Avenue and 148th Street Yard.

The following resolution was adopted:

Whereas, D. C. Serber, Inc., assignee of D. C. Serber, under a contract dated October 22, 1923 between The City of New York, acting by this Commission, and said D. C. Serber, for construction of enclosures to the Third Addition to Shops at the Lenox Avenue and 148th Street Yard under Contract No. 3, has submitted to this Commission for approval a proposed assignment dated December 11, 1923, to the Chatham & Phenix National Bank of the City of New York of the sum of \$12,000, now due or to grow due under said contract; and

Whereas, Counsel has recommended the approval of said assignment,

Resolved, That said assignment so submitted be and the same hereby is approved subject to the terms and conditions contained in said contract and upon condition further:

First: That said assignment and the consent herein given shall in no respects affect or impair such rights and remedies as contractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or service performed or material furnished if said assignment had never been made, said rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment and the consent herein given shall in no respect affect the rights of The City of New York or the rights of this Commission or of any agent or employee acting for the City of New York or this Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification of estimates for payment of moneys pursuant to the terms or conditions of said contract (including but not limited to the right to satisfy or discharge liens with interest and cost and to pay the amount of any judgment on account of injuries to persons or property) such rights as well as all other rights of the City of New York to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: That this consent shall be of no force or effect unless and until there shall be delivered to this Commission a consent in writing to such assignment by the sureties upon the bond deposited as security for the faithful performance of said contract, in a form to be approved by Counsel to this Commission.

1729—R. T. 7640

Order No. 8—Certificate by Chief Engineer of Completion of Contract for Supply of Ties and Timber—Resolution Accepting Work and Directing That Certificate be Filed with Comptroller

The following certificate was approved:

December 7, 1923.

TO: TRANSIT COMMISSION

Subject: Certificate of Completion: Ties and Timber
Order No. 8

In connection with the contract dated May 11, 1923 between the City of New York and Alfred R. Sax Lumber Company for the supply of ties and timber, Order

No. 8, I hereby certify that the delivery of materials was completed on September 17, 1923. The total cost of the work was \$19,999.46.

In accordance with the provisions of the contract all materials should have been delivered by September 18, 1923. As all material was delivered within the contract time, there are no liquidated damages to be assessed.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The contract dated May 11, 1923, between The City of New York, acting by the Transit Commission, and Alfred R. Sax, Lumber Company, for the supply of ties and timber (Order No. 8), for use in the installation of tracks in municipal rapid transit railroads, required the completion of all work thereunder on or before September 18, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated December 7, 1923, has reported that all the work required under said contract was in all respects completed on or before September 18, 1923; that the total amount due therefor was \$19,999.46, and recommends that the work so performed and the material delivered be accepted and that a certificate of such completion of performance and delivery be prepared and transmitted to the Comptroller of The City of New York.

Resolved, That said report and recommendation be and the same hereby are approved; that the work performed and the material delivered under said contract be and the same hereby is accepted and that a certificate of such completion of performance and delivery and acceptance be prepared and transmitted to the Comptroller of The City of New York.

1730—R. T. 7596

Agreement "CF"—Certificate by Chief Engineer of Completion of Contract for Distribution and Installation of Covers, Frames and Panels for Low Duct Bench Manholes—Resolution Accepting Work and Directing that Certificate be Filed with Comptroller.

The following certificate was approved:

December 6, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Distributing and Installing Covers, Frames and Asbestos Panels for Low Duct Bench Manholes, Agreement "CF."

In connection with contract dated November 20, 1922, between the City of New York, acting by the Transit Commission, and New York Rapid Transit Corporation, as successor to New York Consolidated Railroad Company, or its Receiver, for the distribution and installation of covers, frames and asbestos panels for low duct bench manholes (Contract No. 4), I hereby certify that all work was completed on August 10, 1923. The total cost of the work was \$3,679.95.

In accordance with the provisions of the contract all work should have been completed by April 1, 1923. The time for completion, however, was extended to August 10, 1923, by resolution of the Transit Commission adopted on December 5, 1923.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The contract dated November 20, 1922, between The City of New York, acting by the Transit Commission, and New York Rapid Transit Corporation (as successor to New York Consolidated Railroad Company and/or its Receiver) for the distribution and installation of covers, frames and asbestos panels for low duct bench manholes, required the completion of all work thereunder on or before April 1, 1923, which time was extended to and including August 10, 1923, by resolution of the Transit Commission adopted on December 5, 1923; and

Whereas, The Chief Engineer of this Commission by communication, dated December 6, 1923, has reported that all the work required under said contract was in all respects completed on or before August 10, 1923; that the total amount due therefor was \$3,679.95 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

Resolved, That said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

1731—R. T. 7539

Route No. 8, Sections Nos. 1 and 2—Report by Chief Engineer Recommending Approval of Schedule Item for Grouting Space Between Girders at Union Square Station under Contract for Construction of Station Finish—Approval Resolution

A report was presented from the Chief Engineer dated December 7, 1923, recommending the establishment of a supplementary schedule item, as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of this Commission, in pursuance of Item 150 of the contract dated February 24, 1922 between the City of New York acting by the Transit Commission and Chas. H. Brown & Son Corporation, for the completion of construction of station finish for a part of Fourteenth Street-Eastern Rapid Transit Railroad, known as Route 8, Sections 1 and 2, having, subject to the approval of the Commission, agreed with the said contractor on the following schedule item:

Item No. 11-F—For grouting the space between all the double longitudinal girders supporting the Broadway subway and forming part of the ceiling of the Union Square Station, 14th Street-Eastern Line, including all labor, material and all necessary and incidental work connected therewith in accordance with the directions of the Engineer, the lump sum price of..... \$2,068.37

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1732—R. T. 7080

Contract No. 2—Application by Interborough Rapid Transit Company for Approval of Agreement for Stand Privileges at Atlantic, Flatbush and Fourth Avenues, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated November 21, 1923, requesting approval of an extension until September 30, 1926, of an agreement with the Burnee Corporation, covering stand privileges on the sidewalk at Atlantic Avenue, Flatbush Avenue and Fourth Avenue, Borough of Brooklyn.

A report was presented from the Real Estate Clerk, dated December 10, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Interborough Rapid Transit Company by application dated November 21, 1923, has requested approval of an extension until September 30, 1926, of its license agreement with Burnee Corporation, which was approved by the Transit Construction Commissioner on March 15, 1921, and which will expire on January 1, 1924, covering stand privileges on the sidewalk adjoining the island subway station in the triangle bounded by Atlantic, Flatbush and Fourth Avenues, Borough of Brooklyn, upon the same terms otherwise and at the same rental, to wit: \$7,500 per annum, as now obtain; and

Whereas, The Real Estate Clerk, under date of December 10, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of Interborough Rapid Transit Company, and that the Chairman be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

1733—R. T. 6080

Contract No. 3—Application by Lenox Lumber Co., Inc., for Permission to Continue in Occupancy of Premises on Northerly Side of West 145th Street Between Lenox Avenue and Harlem River, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the Lenox Lumber Co., Inc. dated December 8, 1923, requesting permission to continue in occupancy of the premises on the northerly side of West 145th Street between Lenox Avenue and the Harlem River, Borough of Manhattan, at a rental of \$150 per month beginning November 1, 1923, and \$175 per month beginning July 1, 1924.

A report was presented from the Real Estate Clerk dated December 10, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Lenox Lumber Co., Inc., a domestic corporation of the State of New York, having its main office at No. 11 West 145th Street, Borough of Manhattan, City of New York, has made application under date of December 8, 1923, for permission to occupy substantially the same concession rented by it prior to November 1, 1923, from Daly Brothers Company, a tenant of this Commission, on the northerly side of West 145th Street, between Lenox Avenue and the Harlem River, Borough of Manhattan, agreeing to pay \$150.00 per month rental beginning November 1, 1923, and \$175.00 per month rental beginning July 1, 1924, to vacate on thirty (30) days' notice and to other terms similar to those usually contained in like applications, including absolute restriction against assignment or subletting without the express consent of the Commission, the concession to be used for a poultry market; and

Whereas, The Real Estate Clerk, under date of December 10, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of Lenox Lumber Co., Inc., and that the Secretary be, and he hereby is, authorized and directed to subscribe its approval on said application.

1734—R. T. 6080

Contract No. 3—Application by Cohn & Frankel for Permission to Continue in Occupancy of Premises on Northerly Side of West 145th Street, Between Lenox Avenue and Harlem River, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Cohn & Frankel, dated December 6, 1923, requesting permission to continue in occupancy of the premises on the northerly side of West 145th Street between Lenox Avenue and the Harlem River, Borough of Manhattan, at a rental of \$60.00 per month beginning November 1, 1923 and \$75.00 per month beginning July 1, 1924.

A report was presented from the Real Estate Clerk dated December 10, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Cohn & Frankel, a partnership, having an office at No. 9 West 145th Street, Borough of Manhattan, City of New York, has made application under date of December 6, 1923, for permission to occupy substantially the same concession rented by it prior to November 1, 1923, from Daly Brothers Company, a tenant of this Commission, on the northerly side of West 145th Street, between Lenox Avenue and the Harlem River, Borough of Manhattan, agreeing to pay \$60.00 per month rental beginning November 1, 1923, and \$75.00 per month rental beginning July 1, 1924, to vacate on thirty (30) days' notice and to other terms similar to those usually contained in like applications, including absolute restriction against assignment or subletting without the express consent of the Commission, the concession to be used for a poultry market; and

Whereas, The Real Estate Clerk, under date of December 10, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of Cohn & Frankel, and that the Secretary be, and he hereby is, authorized and directed to subscribe its approval on said application.

1735—R. T. 6080

Contract No. 3—Application by Henry E. Fox for Permission to Continue in Occupancy in Premises on Northerly Side of West 145th Street Between Lenox Avenue and Harlem River, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Henry E. Fox, dated December 4, 1923, requesting permission to continue in occupancy of the premises on the northerly side of West 145th Street between Lenox Avenue and the Harlem River, Borough of Manhattan, at a rental of \$40 per month, beginning November 1, 1923, and \$50 per month beginning July 1, 1924. A report was presented from the Real Estate Clerk dated December 10, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Henry E. Fox, having an office at No. 81 East 125th Street, Borough of Manhattan, City of New York, has made application under date of December 4, 1923, for permission to occupy substantially the same concession rented by him prior to November 1, 1923, from Daly Brothers Company, a tenant of this Commission, on the northerly side of West 145th Street, between Lenox Avenue and the Harlem River, Borough of Manhattan, agreeing to pay \$40.00 per month beginning November 1, 1923, and \$50.00 per month beginning July 1, 1924, to vacate on thirty (30) days' notice and to other terms similar to those usually contained in like applications, including absolute restriction against assignment or subletting without the express consent of the Commission, the concession to be used for the storage of contractors' materials and machinery; and

Whereas, The Real Estate Clerk, under date of December 10, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of Henry E. Fox, and that the Secretary be, and he hereby is, authorized and directed to subscribe its approval on said application.

1736—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Form of Contract, Specifications, etc. for Hot Water Heating System for Additions to Shops at 148th Street and Lenox Avenue Yard—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated November 19, 1923, requesting approval of a proposed form of contract, specifications,

etc., for furnishing and erecting a hot water heating system for the Second Addition to Shops, at the 148th Street and Lenox Avenue Yard, together with connections to the heating system of the old shops and to a future heating system of the Third Addition to Shops now being erected.

A report was presented from the Chief Engineer dated December 8, 1923, stating that the estimated cost of the proposed work is \$200,000, and recommending that the application be approved, from an engineering standpoint.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated November 19, 1923 has submitted for the approval of this Commission a proposed form of Invitation to Contractors, Contractor's Proposal, Contract, Specifications and Bond for the furnishing and erection of a hot water heating system for the second addition to shops at 148th Street and Lenox Avenue, together with connections to the heating system of the old shops and to a future heating system of the third addition to said shops now being erected, and has also requested this Commission to approve of the procurement of bids from the following selected contractors instead of general advertising for bids:

Gillis & Goeghegan.....	537 West Broadway
A. B. Barr.....	30 East 42nd Street
M. W. Kellog.....	90 West Street
Almirall & Company.....	1 Dominick Street
Wm. J. Olvany Inc.....	100 Charles Street

; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated December 8, 1923 have reported that the form of the proposed contract and specifications is satisfactory from an engineering standpoint, and recommend the approval of said proposed contract and the procurement of bids from the stated contractors in lieu of a general advertisement for bids so that the heating plant may be installed with the least delay; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed contract so submitted be and the same hereby is approved and that the Interborough Rapid Transit Company be and hereby is authorized to request bids from the stated contractors in lieu of advertising for bids.

1737—R. T. 6595

Contract No. 4—Statements From New York Rapid Transit Corporation of Results of Operation for Month of October, and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

The Commission referred to the Chief Accountant a communication dated December 5, 1923, from the New York Rapid Transit Corporation by Howard Abel, Comptroller, submitting statements of results of operation, for the month of October, 1923, and the status of the Maintenance and Depreciation Funds, under Contract No. 4.

1738—R. T. 7103

Contract No. 3—Report by Chief Engineer Recommending Acquisition of Property at 150th and 151st Streets, Seventh Avenue and Harlem River—Report by Real Estate Clerk Submitting Appraisal—Resolution Approving Agreement

A report was presented from the Chief Engineer dated November 13, 1923, recommending the purchase of the property located between 150th and 151st Streets, Seventh

Avenue and the Harlem River, from the Pinkney Estate for the sum of \$200,000 to be used for storage yard facilities.

A report was presented from the Real Estate Clerk dated December 10, 1923, transmitting an appraisal by Brown, Wheelock: Harris Vought & Company, Inc., submitting a valuation of \$270,000 for the property.

The following resolution was adopted:

Whereas, The Chief Engineer by report dated November 13, 1923, has recommended the purchase of certain property bounded generally by West 150th Street, West 151st Street, Seventh Avenue and the Harlem River, in the Borough of Manhattan, together with all riparian rights, to provide for additional space to be used in connection with the development of the present 148th Street Shop and Yard, for the sum of \$200,000; and

Whereas, The Real Estate Clerk, under date of December 10, 1923, has submitted an appraisal by Brown, Wheelock: Harris Vought & Co., Inc., which valued the property at \$270,000, stating that in his opinion the purchase price is fair to the City; and

Whereas, The Commission, pursuant to the provisions of Section 39 of the Rapid Transit Act, deems it necessary for the construction, maintenance and operation of rapid transit railroads described in and to be constructed pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, to acquire by purchase the property above referred to, together with all riparian rights of the owner thereof and all rights of said owner in streets abutting on said premises; and

Whereas, Counsel has submitted a proposed contract of sale of such property and rights between Clarence H. Kelsey, as Administrator with the Will Annexed of the Estate of Mary G. Pinkney, deceased, owner of the said property, and The City of New York, acting by the Commission, for the purchase price of \$200,000, which said proposed contract has been examined and found satisfactory by Counsel, who recommends its approval and execution;

Resolved, That the Commission do, and it hereby does, approve the said contract so submitted; that the Chairman and the Secretary be, and they hereby are, authorized and directed to respectively execute the said contract on behalf of the Commission and affix thereto the seal of the Commission; that upon execution an original of the said contract be delivered to the representative of the said Clarence H. Kelsey, as such Administrator, and that a certified copy thereof be transmitted to the Comptroller of The City of New York, together with a voucher in the sum of \$200,000 for the payment of the purchase price thereunder; and it is further

Resolved, That Counsel be, and he hereby is, authorized and directed to take the necessary steps to secure an examination of the title of said premises and appropriate title insurance therefor and to effectuate delivery of the deed thereof to The City of New York.

1739—R. T. 7431

Fourth Avenue Subway—Report by Chief Engineer Recommending Preparation of Plans for Lengthening Platforms of Certain Local Stations to 530 Feet—Approved

A report was presented from the Chief Engineer dated December 11, 1923 recommending that the Commission revise its recommendation of June 27, 1922 as to the lengthening of the stations of the Fourth Avenue Subway, from Union Street to 25th Street inclusive, so that plans may now be made for lengthening such stations from 435 feet to 530 feet, and that he be authorized to prepare plans for lengthening the 45th Street, 53rd Street, Bay Ridge Avenue, 77th Street and 86th Street Stations, from 495 feet to 530 feet.

Upon motion duly seconded and adopted, the report was approved.

1740—Case 1364

Belt Line Railway Corporation—Transfers on Street Surface Lines—Report by Counsel Recommending Retention of H. T. Kingsbury as Special Counsel, Payment of Bill for Services and That Appeal Be Taken—Report Approved

The Secretary presented a report, dated December 5, 1923, by George H. Stover, Assistant Counsel, recommending the retention of H. T. Kingsbury, as Special Counsel in the action brought in the United States District Court for the Southern District of New York by the Belt Line Railway Corporation v. Newton et al., on appeal from the order of said court, the payment of the bill of Mr. Kingsbury for \$4,000 for services rendered therein and an appeal from the order of said court.

The Secretary also presented a communication, dated December 7, 1923, from Mr. Kingsbury advising that the Corporation Counsel of The City of New York had recommended that an appeal be taken on behalf of the District Attorney of New York County.

Thereupon the above mentioned report of Assistant Counsel Stover was approved.

1741—Case 1402

The Long Island Railroad Company—Application of The City of New York for Determination of Grade of Ashland Street to Be Opened Across Company's Tracks—Report and Opinion Approved—Amended Order Adopted

The Secretary presented a Report and Opinion in Case No. 1402, dated December 4, 1923, by George L. Lucas, Acting Chief Executive Officer, recommending the adoption of an Amended Order in Case No. 1402, relative to the Ashland Street elimination across the tracks of The Long Island Railroad Company.

Thereupon the above mentioned Report and Opinion in Case No. 1402 was approved and an Order therein adopted and ordered filed in the following form:

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

IN THE MATTER

of the

Application of the City of New York relative to the opening across the tracks of the New York and Rockaway Beach Division of THE LONG ISLAND RAILROAD COMPANY, Ashland Street, in the Fourth Ward, Borough of Queens, City of New York.

CASE No. 1402.
ORDER AMENDING ORDER
AND DETERMINATION OF
NOVEMBER 24, 1911.

The Public Service Commission for the First District having on the 24th day of November, 1911 made a final order and determination herein and no construction having been commenced upon the grade crossing elimination above mentioned, and the Commission having by order of November 7, 1923, reopened the case and directed a further hearing herein, and a hearing having been had on the 26th day of November, 1923, and George L. Lucas, Acting Chief Executive Officer, authorized and certified to conduct the said hearing, having made his report and opinion, and the same having been adopted and approved by the Commission, it is hereby

Ordered, That paragraphs (1) to (6) inclusive, of the said order and determination of the Public Service Commission dated the 24th day of November, 1911, be and the same hereby are consolidated and amended to read as follows:

“Ordered, That, pursuant to Sections 90 and 91 of the Railroad Law, the Long Island Railroad Company be and it is hereby directed to carry Ashland

Street in the Fourth Ward, Borough of Queens, City of New York, across the tracks of the Long Island Railroad Company under the said railroad, substantially as shown upon the blueprint received in evidence in this proceeding and entitled "Map and Profile Showing Scheme for carrying Ashland Street, Borough of Queens, across the tracks of N. Y. & Rockaway Beach Div. of L. I. R. R. P1055," being Exhibit No. 1 in this proceeding, the said undercrossing and approaches thereto to be constructed by the railroad company."

Further Ordered, That the said railroad company shall within 60 days after service of this order upon it, submit to the Commission for approval detailed plans and specifications and an estimate of the expenses of the proposed elimination.

Further Ordered, That the Long Island Railroad Company shall notify the Commission within 5 days after the receipt of a certified copy of this order whether the terms thereof are accepted and will be obeyed.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1742—Case 2705

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which 195th Street, 198th Street and 202nd Street, in Borough of Queens, Shall Cross Main Line of Railroad—Hearing Order Adopted

The Secretary presented a certified copy of Resolution adopted by the Board of Estimate and Apportionment on October 19, 1923, requesting that the Commission determine the manner in which 195th Street, 198th Street and 202d Street, in the Borough of Queens, shall cross the Main Line of The Long Island Railroad Company.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2705, directing a hearing with respect to the above mentioned application at a date to be fixed and certifying and authorizing George L. Lucas, Acting Chief Executive Officer, to conduct said hearing, pursuant to Sections 8 and 11 of the Public Service Commission Law, to take the testimony therein and report the same to the Commission together with his opinion thereon for its decision and determination.

1743

The Baltimore and Ohio Railroad Company—New Tariff Relative to Shipments of Less Than Carload Lots in New York City—Report by Chief of Tariff Bureau Filed

The Secretary presented a report, dated December 6, 1923, by E. D. Hutchinson, Chief of Tariff Bureau, with respect to the new tariff filed by The Baltimore & Ohio Railroad Company, effective December 30, 1923, and advising that after said date it would not be possible to reforward or reconsign less than carload lots over lines of said railroad to any other station or pier in New York City, except by applying combination rates, that the matter is one that applies only to interstate shipments and recommending that said tariff be filed.

Thereupon the foregoing report was ordered filed.

1744—R. T. 7664

Route No. 33, Section No. 3—Statement as to Execution and Delivery of Original Contract for Construction of Station Finish at Lawrence Street Station—Contract Filed

The Commission ordered filed, an original contract dated December 4, 1923, between the City of New York acting by the Transit Commission and Station Finish Corporation, for the construction of Station Finish at the Lawrence Street Station—Route No. 33, Section No. 3 of the Broadway-Fourth Avenue Rapid Transit Railroad, which contract had been executed on behalf of both parties and delivered on December 4, 1923.

1745—R. T. 7602

Route No. 52, Section No. 2—Statement as to Execution and Delivery of Original Contract for Construction of Column Foundations—Contract Filed

The Commission ordered filed an original contract dated December 4, 1923, between the City of New York, acting by the Transit Commission, and the Gotham Construction Corporation for the construction of column foundations on Section No. 2 of Route No. 52, which contract had been executed on behalf of both parties and delivered on December 6, 1923.

1746—R. T. 7645

Agreement "CS"—Statement as to Execution and Delivery of Original Contract for Construction of Duct Line at 239th Street Yard—Contract Filed

The Commission ordered filed an original contract dated December 1, 1923, between the City of New York, acting by the Transit Commission, and Felix Hanratty for the construction of a duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Agreement "CS," which contract had been executed on behalf of both parties and delivered on December 6, 1923.

1747

Expenses—Communication from Board of Estimate and Apportionment with Respect to Provision for Corporate Stock Instead of Special Revenue Bonds for Expenses of Transit Commission—Referred to Counsel

The following communication from the Board of Estimate and Apportionment was referred to Counsel:

(Cal. No. 99)

December 7, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Gentlemen:

At the meeting of the Board of Estimate and Apportionment on November 16, 1923, in connection with your request for an additional appropriation of \$400,000 for the expenses and compensation of employees of the Commission for the year ending December 31, 1923, the following matters were referred to the Committee on Transportation Facilities to take up with the Transit Commission:

(a) The question of the conversion or funding by an issue of corporate stock of revenue bonds already issued for the expenses and compensation of employees of the Transit Commission.

(b) The question of providing for the 1924 payroll conditions and expenses of the Transit Commission out of corporate stock instead of special revenue bonds.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

1748

Employees' Calendar No. 179

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—James P. Carmody, inspector of steel, at \$175.00 per month, to take effect December 15, 1923; William Y. Llewelyn, inspector of steel, at \$175.00 per month, to take effect December 15, 1923.

Appointments under Rule VIII:4—Leland F. Brown, junior assistant, at \$125.08 per month, to take effect December 10, 1923; Robert Barret, junior assistant, at \$125.08 per month, to take effect December 10, 1923; James P. Hanley, draftsman, at \$175.08 per month, to take effect December 10, 1923; Harry Kerner, assistant chemist, at \$150.00 per month, to take effect December 6, 1923; Edward J. Macri, draftsman, at \$175.08 per month, to take effect December 10, 1923; Wallace Moir, junior assistant, at \$125.08 per month, to take effect December 10, 1923; Leo Nyman, junior assistant at \$125.08 per month, to take effect December 4, 1923; Nathan Schulman, junior clerk, at \$60.00 per month, to take effect December 6, 1923.

Appointment under Rule VIII:9—Herman J. Meschonat, examiner, at \$300.00 per month, to take effect December 6, 1923.

Resignations—Edwin T. Courtney, junior electrical engineer, at \$137.50 per month, to take effect December 31, 1923; A. James Jacobs, junior assistant, at \$125.08 per month, to take effect November 26, 1923; Louis Jones, junior assistant, at \$125.08 per month, to take effect December 6, 1923; Arthur J. Nicholson, junior assistant, at \$125.08 per month, to take effect December 8, 1923; Helen Ovenden, junior clerk, at \$60.00 per month, to take effect December 15, 1923; Margaret M. Reinwald, clerk, at \$65.00 per month, to take effect December 15, 1923; Charles Shilowitz, junior assistant, at \$125.08 per month, to take effect December 8, 1923; Harry S. Stern, junior clerk, \$60.00 per month, to take effect December 15, 1923.

Termination of Appointment under Rule VIII:9—William Y. Llewelyn, inspector of steel, at \$175.00 per month, to take effect December 14, 1923.

Rescission of Appointment under Rule VIII:9—James P. Carmody, inspector of steel, at \$175.00 per month, to take effect December 27, 1923.

Change of Item in Resolution of December 5, 1923, Concerning James P. Carmody so as to read as follows: (Termination of appointment under Rule VIII:4)—James P. Carmody, inspector of steel, at \$175.00 per month, to take effect December 14, 1923.

Leave of Absence with Pay—George Paaswell, assistant engineer, from November 12, 1923, to November 18, 1923.

1749

Voucher Schedule No. 51

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 1116-1152, open market orders, \$2,350.13; Vouchers Nos. 619-636, miscellaneous bills, \$24,767.64.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 327; David Levy, approximate estimate No. 1 for making changes in the railroad structure to provide for a crossover on Section No. 5 of Route No. 8, Agreement "CP," from October 18, 1923 to November 30, 1923 (R. T. 7644) \$1,291.50;

Voucher No. 328; Jacob Schlesinger, Inc.; approximate estimate No. 6 for making changes in subway structure necessitated by the widening of 60th street, between Second and Fifth Avenues, Borough of Manhattan, from October 26, 1923 to November 25, 1923 (R. T. 7639) \$10,062.81;

Voucher No. 329; New York Rapid Transit Corporation, final estimate for distributing and installing covers, frames and asbestos lumber panels for low bench duct man-holes, Contract No. 4 (R. T. 7596) \$117.27;

- Voucher No. 330; Michael DelBalso; approximate estimate No. 11 for the installation of tracks, including furnishing part of track materials and the construction of drainage system and concrete inspection pits for a portion of the White Plains Road Rapid Transit Railroad, 239th Street Yard, from November 1, 1923 to November 30, 1923 (R. T. 7528) \$5,907.03;
- Voucher No. 331; Slattery Engineering & Construction Co., Inc.; approximate estimate No. 13 for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3, from November 1, 1923 to November 30, 1923 (R. T. 7366) \$1,195.43;
- Voucher No. 332; Wagner Engineering Company, Inc.; approximate estimate No. 9 for the construction of direction signs at stations of Rapid Transit Railroad, from October 6, 1923 to December 5, 1923 (R. T. 7482) \$1,623.41;
- Voucher No. 333; D. C. Serber; approximate estimate No. 1 for the construction of enclosure of Third Addition to Shops at Lenox Avenue and 148th Street Yard, under Contract No. 3, from October 22, 1923 to November 30, 1923 (R. T. 7681) \$26,898.03;
- Voucher No. 334; Oakdale Contracting Co.; approximate estimate No. 7 for the construction of Section 3 of Route No. 52, Flushing Route, from November 1, 1923 to November 30, 1923 (R. T. 7673) \$75,224.28;
- Voucher No. 335; Frederick L. Cranford, Inc.; approximate estimate No. 8 for the construction of Section 6-A-1 of Route No. 8, from November 1, 1923 to November 30, 1923, (R. T. 7667) \$33,780.27;
- Voucher No. 336; Fox, Reynolds Co., Inc.; approximate estimate No. 7 for the completion of Newsstand enclosure at stations, under Contracts Nos. 3 and 4, from October 26, 1923 to November 25, 1923 (R. T. 7419) \$10,147.05;
- Voucher No. 337; Slattery Engineering and Contracting Co., Inc.; approximate estimate No. 1 for making changes in subway structure at West 32nd Street and Broadway, Routes Nos. 4 and 36, Section No. 2, from October 17, 1923 to November 30, 1923 (R. T. 7653) \$6,526.80;
- Voucher No. 338; Alfred R. Sax Lumber Company; Final Estimate for the supply of ties and timber, Order No. 8, to September 17, 1923 (R. T. 7640) \$1,069.74;
- Voucher No. 339; Frederick L. Cranford, Inc.; approximate estimate No. 17 for the reconstruction of a part of Section 3 of Route No. 33, Completion of Lawrence Street station, (R. T. 7454) \$18,619.03;
- Voucher No. 340; Hamme & Jackson, Inc.; approximate estimate No. 4 for reconstructing retaining wall of the 60th Street Tunnel at No. Jane Street, Borough of Queens, under the jurisdiction of the President of the Borough of Queens, from November 1, 1923 to November 30, 1923 (R. T. 7522) \$5,503.95;
- Voucher No. 341; Holbrook, Cabot & Rollins Corporation; approximate estimate No. 18 for the construction of new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from November 1, 1923 to November 30, 1923 (R. T. 6114) \$8,120.56;
- Voucher No. 342; Gustin-Morris Contracting Corporation; approximate estimate No. 8, for construction of foundations, Route No. 52, Section No. 1, Flushing Route, from November 1, 1923 to November 30, 1923 (R. T. 7670) \$9,269.23;
- Voucher No. 343; Jacob Schlesinger, Inc.; approximate estimate No. 6, for the construction of inspection shed and service building at Jerome Avenue Yard, Route No. 16 (R. T. 7636) \$18,264.13;
- Voucher No. 344; Powers-Kennedy Contracting Corporation; approximate estimate No. 18, for the construction of Routes Nos. 35 and 67, from November 1, 1923 to November 30, 1923 (R. T. 7584) \$70,613.96;
- Voucher No. 345; Otis Elevator Company; approximate estimate No. 6 for furnishing and installing two electric passenger elevators in new entrance to 168th Street station of Manhattan-Bronx Rapid Transit Railroad, from November 1, 1923 to November 30, 1923 (R. T. 7623) \$805.95.

1750

Upon motion duly seconded and adopted, the meeting was adjourned to Friday, December 14, 1923.

JAMES B. WALKER,
Secretary

Hearing

The following hearing was adjourned:

Cases Nos. 2697 & 2698; Interborough Rapid Transit Company and New York Rapid Transit Corporation. Hearing on motion of the Commission as to the construction, operation, equipment, facilities or devices used or to be used in connection with the transportation of passengers and property with particular reference to the installation of an experimental one mile of block signals on the local tracks of the elevated portions of the lines of said companies. Adjourned by direction of the Commission to December 19, 1923, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, December 14, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matter was presented and action taken as noted:

1752—Case 2627

Interborough Rapid Transit Company—Application for Permission to Issue and Sell \$2,250,000 Equipment Trust Certificates Series "B"—Approval Order

The Secretary presented a petition, dated December 13, 1923, of the Interborough Rapid Transit Company, asking for permission to issue and sell \$2,250,000 Equipment Trust Certificates, Series "B."

Thereupon the Commission adopted and ordered filed an Order in Case No. 2627, in the following form:

Present:

GEORGE McANENY,	}	Commissioners.	
LEROY T. HARKNESS,			
JOHN F. O'RYAN,			

IN THE MATTER
of the

Hearing on the motion of the Commission upon the regulations, practices, equipment, appliances and service of the Interborough Rapid Transit Company.

CASE No. 2627.
SERVICE ORDER "B."

ORDER APPROVING "INTERBOROUGH EQUIPMENT TRUST SERIES 'B.'"

Whereas, The Transit Commission on May 2, 1922 adopted and served a final order herein directing Interborough Rapid Transit Company to order, equip and have ready for operation as more particularly set forth in said Order, 350 steel cars for use in the opera-

tion of the Railroad and Existing Railroads described in a certain contract dated March 19, 1913 entered into between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company for the construction, equipment, maintenance and operation thereof, which contract is known and hereinafter referred to as Contract No. 3, which order was duly accepted in writing by said Interborough Rapid Transit Company on May 3, 1922, and

Whereas, The Transit Commission by Order adopted and served on August 22, 1923, amended said Service Order "B" of May 2, 1922, aforesaid, in respect of the time when the said Interborough Rapid Transit Company shall order, equip and have ready for operation the said 350 steel cars as in said Order of August 22, 1923, more particularly set forth, which said order was duly accepted in writing by said Interborough Rapid Transit Company on September 27, 1923.

Whereas, By petition dated and verified the 13th day of December, 1923, said Interborough Rapid Transit Company has requested this Commission to approve of

(a) the purchase of 100 steel motor cars complete as set forth in a certain proposed Equipment Lease and Agreement comprising the "Interborough Equipment Trust, Series 'B'" as Additional Equipment in accordance with the provisions of and as is more particularly defined in said Contract No. 3; and

(b) the issuance and sale at not less than 96% of the par value thereof by said petitioner of the principal amount of the sum of \$2,250,000 of six and one-half per cent. (6½%) equipment trust certificates, Series "B," the proceeds of which are to be used by said petitioner to pay in part the cost of said 100 steel motor cars complete; and

(c) the execution by said petitioner of instruments creating such equipment trust in form as annexed to said petition;

; and

Whereas, After due deliberation and consideration it is now the opinion of this Commission that the money to be procured by the issuance of said equipment trust certificates is necessary to and reasonably required by said Interborough Rapid Transit Company for the purpose of permitting it to comply in part with the said amended order issued by this Commission on August 22, 1923, as aforesaid;

Ordered, That the Transit Commission does hereby approve of the purchase by said Interborough Rapid Transit Company of 100 steel motor cars as outlined in its petition aforesaid as "Additional Equipment" in accordance with the provisions of Contract No. 3, subject, however, to the following conditions:

1. That the rentals payable by the Interborough Rapid Transit Company under said Equipment Lease and agreement shall for the purposes of accounting under said Contract No. 3 be divided and paid as follows:

a. Capital payments, being the cost as defined in Subdivision 18 of Article II of Contract No. 3, shall be paid by the Interborough Rapid Transit Company out of its own resources realized from the stipulated contractual deductions from Revenue in accordance with Subdivision (6) of Article XLIX of said Contract No. 3 or other resources; provided, however, that if the said Interborough Rapid Transit Company shall provide such capital payments in any other matter than out of the contractual deductions under Subdivision (6) of Article XLIX of said Contract No. 3, or shall refinance the cost of said 100 motor cars by the issuance of its long term obligations, or otherwise, then the capital cost shall not be increased by the amount of any expense, by discount or otherwise, which said Interborough Rapid Transit Company shall sustain by reason of said provision or refinancing nor shall the rate of interest chargeable as part of the stipulated contractual deduction from Revenue in accordance with Subdivision (8) of Article XLIX of said Contract No. 3 with respect to said 100 steel motor cars, be greater than five per centum (5%) per annum, except as provided in Subdivision (b) of this paragraph 1.

b. Revenue deductions, including interest payments accruing on the cost of any of the said 100 motor cars complete after the placing in operation of the same shall be paid from the stipulated contractual deduction from Revenue in accordance with Subdivision (8) of Article XLIX of said Contract No. 3.

2. That no charges other than expenses (including discount not to exceed four per centum (4%) on said \$2,250,000 principal amount of Interborough Rapid Transit Com-

pany Equipment Trust Certificates, Series "B,") which may be properly included in the actual and necessary net Cost of Equipment as defined in Contract No. 3 as if actually provided by said Interborough Rapid Transit Company, shall be added to the cost of acquiring said 100 steel motor cars.

3. That full depreciation allowance on said 100 steel motor cars complete shall be paid by the Interborough Rapid Transit Company from Revenue from the agreed contractual deduction as provided for in Subdivision (5) of Article XLIX of said Contract No. 3.

Further Ordered, That Interborough Rapid Transit Company be and it is hereby authorized to enter into and to execute the agreements constituting the said equipment trust and the equipment lease provided for therein, and thereby to assume and discharge the obligations on its part created by said instruments, including payment of sums sufficient to pay the face amount of and the dividends upon the equipment trust certificates provided to be issued by the Trustees under said trust agreement for an aggregate face amount not exceeding \$2,250,000, of which certificates one-fifth of such face amount, or \$450,000, shall mature each year during the period of five years from and after the date of such certificates, and on all of which certificates there shall be payable dividends at the rate of six and one-half per centum (6½%) per annum until the respective maturities, payable semi-annually, all as set forth and provided in the said agreement and equipment lease made part of said petition.

Further Ordered, That the issuance of said equipment trust certificates is authorized and consented to upon the conditions following and not otherwise, to wit:

(a) that the said \$2,250,000 of said certificates shall be issued for a consideration equal to not less than 96% of the par value thereof and that the Interborough Rapid Transit Company shall cause the said certificates and the proceeds thereof to be applied only for and to the purposes set forth in the above mentioned petition and the proposed equipment lease and agreement creating the said Equipment Trust, Series "B," and so that by the use of such certificates or the proceeds thereof there shall be paid for and discharged, as set forth in the proposed Equipment Trust instruments, an amount of the cost of construction of the cars in said instruments described equal to not less than 96% of the par value of the said \$2,250,000 of certificates.

(b) that the said Interborough Rapid Transit Company shall keep separate, true and accurate accounts showing in detail the proceeds of the sale and disposal of the said equipment trust certificates hereby authorized to be issued, and on or before the 15th day of each month the said Interborough Rapid Transit Company shall make verified reports to this Commission stating the sale or sales of said certificates during the previous month, the moneys realized therefrom and the use and application of such moneys, stating further the source and the use and application of any other moneys paid or received under the said equipment trust agreement and lease; and said accounts, the vouchers and the records shall be open to audit and may be audited from time to time by accountants and examiners designated for such purpose by the Commission.

(c) that the approval herein given for the issuance of said equipment trust certificates is without prejudice to any contentions or arguments which the City of New York or the Transit Commission or either of them may have or desire to make at any time with respect to the proper construction of and the force and effect of any of the terms, provisions and conditions of said Contract No. 3 and is also without prejudice to any claims which the City of New York may desire to assert that the Interborough Rapid Transit Company under said Contract No. 3 is at the present time in default thereunder.

(d) that nothing contained in this approval shall amend or modify or be deemed to amend or modify said Contract No. 3 or to relieve the Interborough Rapid Transit Company thereunder of the performance of the obligations of said contract in accordance with its terms.

(e) that nothing herein in this Order contained shall prejudice any right otherwise possessed by The City of New York or the Transit Commission to object to any expenditure of proceeds of certificates hereby authorized or any expenditure in connection with the equipment trust agreement and lease, the propriety or correctness of which expenditure may be presented for determination pursuant to said Contract No. 3 or to investigate further and to question and reject as a claim,

credit or charge under said Contract No. 3 any expenditure in connection with the sale of or made out of the proceeds of such certificates or any expenditure in connection with the equipment trust agreement and lease or of any part thereof even though claimed by the Interborough Rapid Transit Company to be made for the purposes specified in this Order or in the proposed agreement and equipment trust lease creating the Interborough Equipment Trust, Series "B."

(f) the consent herein contained is given upon the further express condition that such consent shall take effect if and when and only when consent to said agreement and equipment lease creating the Interborough Equipment Trust, Series "B," shall be given, duly executed and acknowledged in form to be approved by Counsel to this Commission, by the sureties upon the continuing bond deposited by said Interborough Rapid Transit Company in accordance with the provisions of Article XVII of said Contract No. 3.

(g) nothing in this Order or in the said petition and equipment lease and agreement contained or in the action of the Commission in adopting this Order shall be understood or construed to mean or provide for the extension of any period of time in Contract No. 3 for any purpose whatsoever notwithstanding that said equipment trust certificates herein authorized are not to mature for a period of five (5) years.

(h) the Interborough Rapid Transit Company shall require the submission to this Commission for approval of any contract or agreement entered into by Rapid Transit Subway Construction Company to the same extent that the Interborough Rapid Transit Company is required to submit contracts and agreements under Contract No. 3.

Further Ordered, That the Interborough Rapid Transit Company shall notify the Transit Commission within five (5) days after service upon it of a copy of this Order whether the terms of this Order are accepted and will be obeyed.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

JAMES B. WALKER,
Secretary.

Hearings

The following hearing was held:

11 A. M.; Case No. 2703; New York Central Railroad Company; Hearing on petition for an order of the Transit Commission determining the elimination of certain street crossings by railroad at grade on the West Side of Manhattan Island, from the southerly terminus of said railroad at St. John's Park, to the Harlem Ship Canal, formerly Spuyten Duyvil Creek. Commissioner O'Ryan of the Transit Commission and Chairman Prendergast of the Public Service Commission presided. Adjourned to January 7, 1924, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, December 18, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1754—R. T. 7702**Route No. 52, Section No. 2—Resolution Approving Sureties upon Bond Deposited by Contractor as Security for Furnishing and Erecting Structural Steel for Part of Flushing Line—Adopted**

The following resolution was adopted:

Resolved, That the National Surety Company and the Union Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Thirty-five thousand dollars (\$35,000) deposited by The Jobson-Gifford Company as security for furnishing and erecting structural steel for Route No. 52, Section No. 2, Flushing Line, each of said sureties being held and bound in the sum of Seventeen thousand five hundred dollars (\$17,500).

1755—R. T. 7701**Route No. 18—Resolution Approving Sureties upon Bond Deposited by Contractor for Installation of Tracks, etc., at 180th Street Yard—Adopted**

The following resolution was adopted:

Resolved, That the Maryland Casualty Company of Baltimore, Maryland, and the Union Indemnity Company of New Orleans, Louisiana, be and hereby are approved as sureties upon the bond in the sum of One thousand dollars (\$1,000) deposited by McElroy & Kerwin as security for the faithful performance of the contract for the installation of frogs and switches and preparation of tracks for the storage of cars at the 180th Street Yard, Route No. 18, each of said sureties being held and bound in the sum of Five hundred dollars (\$500).

1756—R. T. 7648**Agreement "CO"—Resolution Approving Sureties upon Bond Deposited by Contractor as Security for Miscellaneous Drainage and Sewer Construction in Boroughs of Manhattan, Brooklyn and Queens—Adopted**

The following resolution was adopted:

Resolved, That the Fidelity and Deposit Company of Maryland and the Independence Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Two thousand dollars (\$2,000) deposited by Frank Persicano as security for the faithful performance of the contract for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, each of said sureties being held and bound in the sum of One thousand dollars (\$1,000).

1757—R. T. 7457**Route No. 18—Resolution Approving Sureties upon Bond Deposited by Contractor as Guarantee for Roof of Inspection Shed Enclosure for 180th Street Yard—Adopted**

The following resolution was adopted:

Resolved, That the Globe Indemnity Company and the Independence Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Two thousand dollars (\$2,000) deposited by the Rosenthal Engineering Contracting Company in accordance with Article XLIX of the contract dated June 26 1923 for the construction of an inspection shed enclosure for the 180th Street Yard of the White Plains Road Rapid Transit Railroad guaranteeing that the roof of the said inspection shed

enclosure will not leak within a period of ten (10) years after the date of the final completion and acceptance of the work under the said contract, each of said sureties being held and bound in the sum of One thousand dollars (\$1,000).

1758—R. T. 6820

Fourth Avenue Subway—Communication from New York Rapid Transit Corporation Advising of Attitude of Company as to Removal of Mall Spaces, Subway Kiosks and Ventilators on Fourth Avenue Between Atlantic Avenue and 60th Street, Borough of Brooklyn—Report by Chief Engineer Submitting Estimate of Cost for Making Changes—Communication to Board of Estimate and Apportionment

A communication was presented from the New York Rapid Transit Corporation dated December 11, 1923, replying to the communication of this Commission dated November 23, 1923, as to the attitude of the company with respect to a resolution of the Board of Estimate and Apportionment dated November 16, 1923, as to the removal of mall spaces, subway kiosks and ventilators on Fourth Avenue between Atlantic Avenue and 60th Street, Borough of Brooklyn.

A report was presented from the Chief Engineer dated December 14, 1923, submitting estimates for making changes in the subway structure on the bases of reducing the width of the sidewalks or performing the work providing the sidewalks are not disturbed.

The following communication to the Board of Estimate and Apportionment was approved:

December 18, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission is in receipt of a communication dated November 16, 1923, from James Matthews, Assistant Secretary of your Board, as follows:

"At the meeting of the Board of Estimate and Apportionment on November 16, 1923, the Secretary was directed to request the Transit Commission to advise this Board as to the approximate cost of removing the mall spaces, the subway kiosks and ventilators on Fourth Avenue between Atlantic Avenue and 60th Street, Borough of Brooklyn. It is requested that this estimate be in alternative form; one based upon a 20-foot sidewalk, involving an increase of five feet on each side of the present roadway, and the other on a 25-foot sidewalk width as at present. It is further requested that you also give your opinion as to whether this work should be done by the Borough President, the Transit Commission or the Railroad Company, and also to advise whether or not the railroad company will consent to the reconstruction of the railroad incidental to this change.

I am directed to advise you that it is the judgment of this Board that the remodelling of the structure is a railroad purpose and that the cost thereof should be provided for from rapid transit funds. Kindly advise whether the Transit Commission concurs in this opinion."

Under date of November 23, 1923 the Secretary of this Commission, at its direction, transmitted the following communication to the President of the New York Rapid Transit Corporation:

"Removal of mall spaces, subway kiosks and ventilators on 4th Avenue, between Atlantic Avenue and 60th Street, Brooklyn."

The Board of Estimate and Apportionment has under consideration the removal of mall spaces, the subway kiosks and ventilators on 4th Avenue between Atlantic Avenue and 60th Street, Borough of Brooklyn, and it has requested the Commission for an estimate of cost for doing the work of changing the sub-

way structure to conform to this plan proposing to locate new entrances to the subway on the sidewalks of the Avenue.

The resolution of the Board of Estimate and Apportionment dated November 16, 1923, requests the Transit Commission to ascertain the attitude of your Company upon the proposed public improvement. Will you therefore be good enough to communicate to this Commission, at your earliest convenience, the attitude of your Company with respect to this matter."

In respect thereto the President of New York Rapid Transit Corporation has advised this Commission, as follows:

"Referring to your communication of November 23rd forwarding resolution of the Board of Estimate and Apportionment dated November 16th, 1923, requesting the Commission to ascertain the attitude of this company as to the removal of mall spaces, subway kiosks and ventilators on 4th Avenue between Atlantic Avenue and 60th Street in the Borough of Brooklyn:

In the absence of any definite plans showing what substitute facilities can be provided in case the construction in the street is removed, we are of course unable to definitely state our attitude.

As to stairways, etc., connecting with stations, we do not believe that anything should be done which will decrease these facilities in connection with any of the stations, and if the station entrances, etc., which are now in the middle of the street are removed to the sidewalk, facilities at least equal to those now provided should be furnished.

As to the ventilating gratings, we believe that a portion of these where the grade of the street is low and where the drainage is not very effective could be closed without seriously affecting the ventilation of the subway. As to the rest of the ventilating gratings, substitute ventilating gratings will of course have to be provided on the sidewalk.

It is our understanding that any changes like this could be made at the expense of the City without any charge under Contract No. 4, and we suggest that if the City proposes to make changes such as suggested, that plans for substitute facilities be submitted to us for our consideration."

The Chief Engineer of this Commission, in a report dated December 14, 1923, in reply to the questions propounded in the letter of your Board, has reported as follows:

"This refers to a communication from the Board of Estimate and Apportionment, dated November 16, 1923 requesting that this Commission advise them as to the approximate cost of removing the mall spaces, subway kiosks and ventilators on Fourth Avenue, Brooklyn, between Atlantic Avenue and 60th Street; in one case on the assumption that no changes will be made in the widths of the sidewalk's and in another on the assumption that the sidewalk widths will be reduced 5 feet to 20 feet.

The work to be done consists in cutting down the ventilator flues now located in the malls and roofing them over; constructing new ventilator openings, chambers, gratings and fan chambers from the side of the Broadway-Fourth Avenue Subway, and the shifting of station entrances. If no change is contemplated in the widths of the sidewalks, only the entrances of the three express stations at Pacific Street, 36th Street and 59th Street, which are now located in the Roadway, will be affected and these entrances must be moved to the sidewalk. Should the sidewalks be narrowed five feet the entrance of the six intermediate local stations also will be affected and will have to be moved a corresponding amount.

The above changes have been estimated to cost approximately:

If sidewalks are not narrowed.....	\$2 010,000
If sidewalks are narrowed five feet.....	2,560,000

These figures cover only the cost of actual subway changes and do not include the cost of street changes. The latter would be made, I presume, under a contract by the Borough President.

In the original construction ventilation was exceptionally good with gratings in malls in each block, and no fan chambers were required. This change in the ventilating grating, however, makes it necessary to provide fan chambers. On the other hand, it is only necessary to replace about two-thirds of the present grating area in order to meet our present requirements. The cost of the sixteen new fan chambers is estimated at \$264,000. This amount is included in the above estimates.

In addition to the construction costs, I would point out that the installation of the blower equipment in the fan chambers, and of louvres at the ventilation openings will cost about \$250,000. The maintenance of this equipment will, moreover, amount to \$12,000 to \$15,000 annually, representing a capital investment of \$300,000. The operating company, furthermore, will be put under additional maintenance expenses because the gratings in the sidewalks will permit considerably more drainage to come into the Subway than now enters through the present openings.

Since the proposed changes are required on account of highway conditions, it is not clear on what grounds the costs involved may be charged to Rapid Transit funds."

It will be noted that the New York Rapid Transit Corporation does not definitely state its attitude with respect to this matter in the absence of definite plans showing the proposed changes. It is the opinion of the Commission that under the legal relation of the City of New York and the railroad company of lessor and lessee, that such consent must be voluntary on the part of the railroad corporation.

The letter of your Board states that it is its judgment that such changes are for a railroad purpose and that the cost thereof should be provided for from rapid transit funds. In this conclusion the Commission does not concur. Contract No. 4 provides for the making of "Additions" which are defined to mean betterments, additions and improvements to the Railroad and Equipment and to the Existing Railroads and the equipment thereof as defined in said Contract No. 4. Article LXVIII of Contract No. 4 providing for the making of such Additions and changes, is as follows:

"The principal object of the City in making this contract is to secure for the public convenience an adequate, comfortable and rapid system of passenger transportation in the portion of New York which will be served by the Railroad and the Existing Railroads. By the foregoing provisions of the Lease the Lessee has covenanted, among other things, to operate the Railroad and the Existing Railroads carefully and skillfully, according to the highest standards of railway operation; to supply adequate equipment; to run trains so as to furnish adequate service; to use the best safety devices; to keep the Railroad and Equipment and the Existing Railroads clean, dry, well lighted, heated and ventilated; and to do other things, as hereinbefore set forth, for the convenience and accommodation of the public. These covenants on the part of the Lessee are among the principal moving considerations to the City in making this contract, and any breach thereof will entitle the City to the remedies provided in this contract. If at any time Additions to the Railroad or Equipment or to the Existing Railroads or any change in the mode of operating the Railroad or the Existing Railroads or conducting the business thereof are necessary in order to carry out the purposes of the Lease in securing service and facilities as shall be safe and adequate and in all respects just and reasonable, the Commission may direct the provision of construction of such Additions and the making of such changes in the mode of operation of the Railroad or the Existing Railroads or in the conduct of the business thereof as may be necessary to accomplish such purposes."

The existing rapid transit railroad structure under and along Fourth Avenue in the Borough of Brooklyn is in the opinion of the Commission in all respects safe and adequate so far as the needs of the travelling public who utilize such facility are concerned. The proposed change is in no way attributable to the lack of facilities or inadequacy of provisions for proper service and convenience to the users of the railroad. The element of danger which is referred to is caused solely by the vehicular traffic along Fourth Avenue which has increased very considerably since the construction of this rapid transit railroad. It has been stated that the existence of the entrances to the rapid transit railroad in the middle of Fourth Avenue necessitate intending passengers and passengers leaving the railroad to cross this very heavy and dangerous movement of vehicles in order to get to the entrances or to their homes. It has apparently been overlooked, however, that under the existing conditions, a very large number of persons desiring to use the rapid transit railroad from either side of the avenue must only cross one line of one-way vehicles. The proposed changes will necessarily therefore double the hazard since persons desiring to get to the entrances or leaving the rapid transit railroad station must to a large extent cross the full width of the street and of course encounter the two lines of vehicular traffic in opposite

directions. To this extent the Commission feels that instead of promoting the safety and convenience of the travelling public, i. e., the people who use the rapid transit line, it involves an additional risk to many of them. The cost of such work as is proposed not being for a rapid transit purpose, may not, the Commission feels, be paid for from rapid transit funds.

If there is any additional information or supplementary data that your Board desires as to this matter, the Commission will of course be glad to furnish it upon request.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1759—R. T. 7251

**Contract No. 4—Copy of Communication to New York Rapid Transit Corporation
Requesting Attitude of Company as to Ashland Place Connection—Reply
from Company—Copy of Letter Approved and Reply Ordered Filed**

A copy of the following communication was approved:

December 14, 1923.

W. S. MENDEN, Esq.,
President, NEW YORK RAPID TRANSIT CORPORATION,
85 Clinton Street,
Brooklyn, New York.

Dear Sir:

The Transit Commission desires to have for its record and as a possible basis for official action an expression of the present attitude of your company towards the project known generally as the Ashland Place Connection.

After protracted negotiations the Public Service Commission for the First District, since succeeded by this Commission, and the New York Municipal Railway Corporation, predecessor of your corporation, agreed in 1917 upon a proposed modification of Contract No. 4 providing for the connection of the Fulton Street Elevated Line with the Fourth Avenue Subway at Ashland Place and for the operation of Fulton Street trains through the Fourth Avenue-Broadway System, instead of across Brooklyn Bridge to the present terminus at the City Hall. The proposed agreement, however, failed of approval by the Board of Estimate and Apportionment and the matter was held in abeyance until after Transit Construction Commissioner Delaney succeeded to the rapid transit functions of the Public Service Commission. Commissioner Delaney worked out a modified form of agreement, different from the previous form, chiefly, in that the entire cost for the connection was to be charged to the rapid transit lines operated by the Company under Contract No. 4 and that the consideration of the Brooklyn Bridge tolls as an element was eliminated.

By this time, however, the B.R.T. System had gone into the hands of the receiver and the limited financial ability under receivership stood in the way of accomplishment. There were, apparently, no further official references to the matter until in May, 1922 when the Transit Commission in presenting its general plans for new subway construction again indicated the necessity for the Ashland Place Connection and submitted for the consideration of the city authorities and of the public certain alternative new subway routes linking central Brooklyn with Manhattan in a manner designed incidentally to fit in with the proposed connection and to accommodate Fulton Street trains. Upon the particulars of these routes and of the Commission's then recommendations, it is assumed that your company is informed. Generally speaking, however, there is no change in the situation so far as the working out of the Ashland Place Connection is concerned or so far as the proposed improvement would affect the elasticity and comfort of Brooklyn Rapid Transit Company traffic or the better accommodation and development of the great central district of the Borough.

In connection with the development of the plans for the Crosstown Line careful consideration has been given to the Ashland Place Connection with a view to its inclusion in any connection between that line and the Fourth Avenue Subway. Recently, at the joint public hearing of the Transit Commissioners and the members of the Transportation Facilities Committee of the Board of Estimate and Apportionment upon the question of the routing of the Crosstown Line west of Bedford Avenue, whether under

Lafayette Avenue or Fulton Street, there was considerable discussion of the Ashland Place Connection. This discussion led to the unequivocal statement on behalf of the representatives of the Commission and the Board of Estimate and Apportionment that they favored the construction of the connection along the lines laid down in Commissioner Delaney's proposed agreement.

In view of this indicated attitude on the part of public authorities, it is essential, in connection with the development of the new lines, that the Commission know the present attitude of your company in the matter, with particular reference to the latest form of agreement proposed in 1919, which in a sense may be considered as still pending not only before the public authorities but before your company.

The Commission will appreciate your early reply to the question submitted.

Very truly yours,
LEROY T. HARKNESS,
Commissioner.

W. S. MENDEN,
President.

Ashland Place Connection.

TRANSIT COMMISSION,
Mr. JAMES B. WALKER,
Secretary,
49 Lafayette Street,
New York City, N. Y.
Dear Sir:

We have the letter of Commissioner Harkness under date of December 14, 1923, in which he advises us that the Commission desires to have for its record and as a possible basis for official action an expression of the present attitude of this Company toward the proposed Ashland Place Connection, with particular reference to the forms of tentative agreements worked out by former Commissioner Delaney for this improvement and for a revision in respect of bridge tolls of the contract under which elevated trains are operated upon the Brooklyn Bridge. In reply, we are pleased to advise that this Company is entirely willing to sign these agreements, with such changes therein as may be necessary to adopt them to the identity of this Company as one of the parties, as soon as it has definite assurance through appropriation of the necessary moneys and award of construction contracts or in some other satisfactory manner that the City will promptly proceed with the construction and completion of the 14th Street-Eastern Line and the Nassau Street Branch of the Broadway-Fourth Avenue Line, both of which are included among the lines required to be built by the City under the existing contract.

As the people of Brooklyn are so vitally interested in the Ashland Place Connection it is appropriate that we should state briefly some of the problems involved in this improvement and the reasons why its construction and operation must necessarily be made conditional upon the construction and completion of the 14th Street Line and the Nassau Street Branch.

It is estimated that in case this improvement is provided the ultimate minimum cost to the Company will be \$5,000,000 for construction and equipment, which includes 100 additional steel subway cars. This is in addition to the cost to the City of constructing a short section of subway, the incline to connect with the Fulton Street Elevated Line tracks, and the incidental cost of real estate. It is apparent, therefore, that this additional expense should not be incurred unless the improvement can be provided under conditions which will afford real transit relief and not merely intensify the existing traffic congestion at DeKalb Avenue Station.

The six tracks at DeKalb Avenue Station are the heart of the rapid transit system of the Company in Brooklyn and the proposed Ashland Place Connection will be made directly to this group of tracks. At the present time five lines with sixteen tracks radiate south and east in Brooklyn and serve great and growing communities. Passengers originating on the e lines and carried to points in downtown Brooklyn and Manhattan, with the possible exception of Culver Line passengers en route to Park Row, pass through or transfer at DeKalb Avenue Station. This station has only two plat-

forms and six tracks, two of which are through tracks having no platform facilities, and the station is today inadequate for the existing traffic. Because of these limited facilities and because of the dead end at Chambers Street in Manhattan, due to the failure of the City to construct the Nassau Street Branch, the Company is unable to operate more than 60 trains per hour through the DeKalb Avenue Station in rush hours period when it would be possible, if the Nassau Street Branch were constructed, to operate at least 90 trains per hour.

The reasons for the congestion on the DeKalb Avenue Station are apparent. Sixteen tracks now feed into the six tracks at this station directly or indirectly from Brooklyn and there are only four tracks of the six to Manhattan in use. Traffic on these tracks is constantly increasing and the facilities at this station are at present inadequate. Two of these outlet tracks pass through Willoughby Street via the Montague Street Tunnel, Whitehall and Church Streets to the Broadway Subway in Manhattan and four tracks pass over the Manhattan Bridge, two going through the Canal Street station to the connection with the Broadway Subway and two joining the Centre Street Loop and terminating at the Chambers Street Station. The contract with the City provided that the two tracks joining the Centre Street Loop, instead of terminating and forming a dead end at the Chambers Street Station, should continue down Nassau and Broad Streets to a connection with the Whitehall-Montague Street Tunnel with the extra tracks in Broad Street for a terminal. This was an integral part of the system planned in 1913 to provide for double loop operation by way of the Manhattan Bridge and the Montague Street Tunnel. Its absence today constitutes a serious limitation on the capacity of the lines already built and in operation. It renders practically useless the two southerly tracks on the Manhattan Bridge and by limiting the number of trains through the DeKalb Avenue Station makes it impossible to use the six tracks at this Station to their capacity.

It would intensify the existing congestion to attempt to route additional trains by way of the Ashland Place Connection into the DeKalb Avenue Station, and it is apparent that this connection should not be provided unless at the same time more outlets are provided through the construction of the Nassau Street Branch as contemplated by the contract with the City. The construction and operation of this Branch would permit of the use of the two southerly tracks on the Manhattan Bridge, and in this way increase by approximately 50% the capacity of the group of tracks at DeKalb Avenue Station.

The southerly pair of tracks on the Manhattan Bridge connect with Chambers Street and these cannot be used for trains through DeKalb Avenue Station until Chambers Street Station and connecting tracks are relieved of trains from Ridgewood and eastern district in Brooklyn which cannot be done until the 14th Street-Eastern Line is ready for operation.

In view of the above there would seem to be no justification for constructing the Ashland Place connection until such time as definite provisions are made for completing the 14th Street-Eastern Line and constructing the Nassau Street Branch.

We desire in this connection to note that if the Ashland Place Connection is made and trains of the Fulton Street Line are operated into the DeKalb Avenue group of tracks together with trains from the other connecting lines in South Brooklyn, these six tracks at DeKalb Avenue will soon be insufficient for the traffic of all the connecting lines and that additional outlet will be necessary. This is a phase of the situation which we understand has already been discussed by the Transit Commission or its predecessors, and we think we are justified in assuming it will be given serious consideration.

Very truly yours,
W. S. MENDEN,
President,
N. Y. RAPID TRANSIT CORP.

1760—R. T. 6896

Route No. 8, Section No. 6—Copy of Communication to New York Rapid Transit Corporation Requesting Attitude of Company as to Substitution of Subway for Elevated Extension of Fourteenth Street-Eastern Line—Reply from Company—Copy of Letter Approved and Reply Ordered Filed

A copy of the following communication was approved:

December 14, 1923.

W. S. MENDEN, Esq.,
President, NEW YORK RAPID TRANSIT CORPORATION,
85 Clinton Street,
Brooklyn, New York.

Dear Sir:

Under date of July 6, 1921, the Transit Commission addressed the following communication to Honorable Lindley M. Garrison, Receiver of the New York Municipal Railway Corporation, with regard to the suggested substitution of subway for elevated construction of the extension of the Fourteenth Street-Eastern Rapid Transit Railroad:

"Certain civic associations and property owners along the line of the 14th Street-Eastern Rapid Transit Railroad have suggested to the Commission the construction of a subway instead of an elevated railroad for that portion of the line now planned for elevated construction.

"I am directed by the Commission to make inquiry of the New York Municipal Railway Corporation and its Receiver as to whether they would approve a modification of Contract No. 4 to accord with such a change, in the event the Transit Commission would approve it?

"An early reply will be appreciated."

Under date of July 11, 1921, Receiver Garrison replied to the above communication as follows:

"This is to acknowledge receipt of your letter of July 6th, in which you make inquiry of the New York Municipal and its Receiver as to whether or not they would approve a modification of Contract No. 4 to accord with a change in construction suggested by certain civic associations and property owners along the line of the 14th Street-Eastern Rapid Transit Railroad, the suggestion being that the construction be a subway instead of an elevated line for that part now planned for elevated construction.

"The work of reconstructing the 'Existing Railroads' at East New York and the work of third tracking the Myrtle Avenue Line between Wyckoff Avenue and Broadway has been completed by the company, and the construction at East New York is completed and ready for connection with an elevated line to permit of connecting the Canarsie Line with the 14th Street-Eastern Line to be constructed by the City, and the third tracking of the Myrtle Avenue Line was done with a view to accommodating considerable transfer traffic between Myrtle Avenue Line and the 14th Street-Eastern Line at the point of intersection of the Myrtle Avenue Line with the 14th Street Line, all on the assumption that the 14th Street-Eastern Line would be an elevated line at Myrtle Avenue.

"For these reasons, and for the additional reason that the substitution of subway construction would necessarily result in a further delay in the completion of the line for operation, it does not seem to me that I, as Receiver, would be justified in consenting to any modification in Contract No. 4, such as suggested by the civic associations."

Following this correspondence the Commission advertised a contract for the first part of the Fourteenth Street Extension on plans involving the construction of an elevated railroad in accordance with the provisions of Contract No. 4. Upon receipt of the bids the Commission awarded the contract, subject to the approval of the Board of Estimate and Apportionment, and transmitted the proposed contract to that Board with the request for its consent and the appropriation of the necessary funds. Whereupon the Board of Estimate and Apportionment refused to consent to the proposed contract and stated that it would approve a contract calling for the construction of a subway instead of an elevated railroad.

As the Board of Estimate and Apportionment refused to approve a contract for an elevated structure and the Receiver of the New York Municipal Railway Corporation

[December 18, 1923]

refused to consent to any change in operating Contract No. 4 so as to waive the company's contractual right to the construction of an elevated structure, the matter came to an *impasse* which has prevented the Commission from taking any action.

The Commission looks upon the prompt completion of the Fourteenth Street-Eastern Line as one of the most vital transit improvements it has before it. The intolerable congestion of the lines entering Center Street Loop and the really dangerous conditions at the Canal Street Station, which can only adequately be met by the full operation of the Fourteenth Street Line, imperatively call for the adjustment of differences and the starting of the work on the extension at the earliest possible moment.

As the receivership of the rapid transit lines operated by your company has terminated and a sufficient time has elapsed for the new management to consider these problems, the Commission would be obliged if you would promptly inform it of the attitude of the present administration of your company toward the further modification of the route approved by the city authorities and the substitution under such modification of subway for elevated construction for the part of the Fourteenth Street Extension to the point where a connection must necessarily be made with the existing lines at East New York.

A prompt reply to this inquiry will be appreciated.

Yours very truly,
JAMES B. WALKER,
Secretary.

The following reply was ordered filed:

NEW YORK RAPID TRANSIT CORPORATION

W. S. MENDEN,
President.

December 17, 1923.

14th Street-Eastern Line.

TRANSIT COMMISSION,
Mr. JAMES B. WALKER,
Secretary,
49 Lafayette Street,
New York City, N. Y.

Dear Sir:

We have your communication of December 14, 1923, in which you say the Commission looks upon the prompt completion of the 14th Street-Eastern Line as one of the most vital transit improvements it has before it and would be obliged for a statement of the attitude of the present management of this Company toward the further modification of the route approved by the City authorities and the substitution under such modification of subway for elevated construction for the eastern portion of this line to the point where a connection must necessarily be made with the existing lines at East New York. Other public bodies and civic organizations have requested us to consent to the modification of the contract with the city so as to provide for the substitution of a subway for the portion of this line which the contract requires to be constructed as an elevated railroad.

The contract with the city was signed on March 19, 1913. Under this contract the city agreed to construct the 14th Street-Eastern Line partly as a subway and partly as an elevated line, but although more than ten years have elapsed since the contract was signed the line has not been completed and construction of the elevated portion has not been commenced. The present management of this Company is thoroughly in accord with the views of the Commission that the prompt completion of this line is one of the most vital improvements in the existing transit situation, particularly because of the remedial effect its operation will have upon the existing congestion of the lines in the Centre Street Loop and conditions at the Canal Street Station (resulting from not having the 14th Street Line in operation to East New York) and as the public requests for the substitution of subway for elevated construction evidently expresses the public need, we are pleased to advise you that the Company will consent to such modification of the contract as may be necessary to effect this substitution provided its present legal rights and claims are adequately preserved and provided the subway is constructed under plans which will connect it with the existing structures at East New York.

In this connection it should be pointed out that approximately \$500,000 was expended by the Company several years ago under the contract as it now stands, in anticipation of the early construction of the 14th Street Line, in third-tracking Myrtle Avenue elevated line, and in the construction of an express station at Wyckoff Avenue to connect with the 14th Street-Eastern Line. This expenditure will be wasted unless facilities are provided for the convenient transfer of passengers between the 14th Street-Eastern Line and the Myrtle Avenue Line at this point. It should be understood, therefore, in case the contract is modified so as to provide for the substitution of subway for elevated construction, that the city will provide suitable and adequate facilities for the transfer of passengers between the subway and elevated lines at Myrtle and Wyckoff Avenues, in order that the third track and station facilities already provided by the Company may be utilized.

Very truly yours,
W. S. MENDEN,
President,
N. Y. RAPID TRANSIT CORP.

1761—R. T. 6924

Routes Nos. 4 & 38, Section No. 4—Application by Marjohn Realty Corporation and Others for Approval of Proposed Permit for Substitution of Ventilator Gratings in Front of the Premises on Easterly Side of Seventh Avenue North of Perry Street, Borough of Manhattan—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Marjohn Realty Corporation and others dated October 1, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company for permission to substitute a heavier type of ventilator grating in front of the premises on the easterly side of Seventh Avenue, about 70 feet north of Perry Street, Borough of Manhattan.

A report was presented from the Chief Engineer dated December 13, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Interborough Rapid Transit Company has submitted for the consent and approval of this Commission a proposed permit dated October 1, 1923 to Marjohn Realty Corporation, Long Beach Operators Corporation and McKone Tire & Rubber Company of New York, the owners and tenant respectively, of premises located on the easterly side of Seventh Avenue about 70 feet north of Perry Street, for the substitution by and at the expense of said owners and tenant of a heavier type of ventilator grating in place of the ventilator gratings now in front of the said premises, upon terms and conditions in said permit more particularly set forth; and

Whereas, The Chief Engineer of the Commission, by communication dated December 13, 1923, has advised that said permit has been examined and found to be satisfactory from an engineering standpoint; and

Whereas, Counsel has examined said permit and finds no objection thereto,

Resolved, That the Commission approve the proposed permit dated October 1, 1923 from the Interborough Rapid Transit Company to Marjohn Realty Corporation, Long Beach Operators Corporation and McKone Tire and Rubber Company of New York, the owners and tenant, respectively, of the premises located on the easterly side of Seventh Avenue about 70 feet north of Perry Street, in the Borough of Manhattan, for the substitution by and at the expense of the said owners and tenant of a heavier type of ventilator grating in front of the said premises, upon the terms and conditions in said permit more particularly set forth.

Further Resolved, That the Chairman and Secretary of the Commission be and they are hereby authorized and directed to endorse the consent and approval of the Commission upon said permit.

1762—R. T. 6924

Route No. 29—Application by Abraham Levitt for Approval of Proposed Permit to Wolcott Holding Corporation for Substitution of Ventilator Gratings in Front of the Premises at the Southwest Corner of Nostrand Avenue and Montgomery Street, Brooklyn—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Abraham Levitt, dated December 6, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company to the Wolcott Holding Corporation for permission to substitute a heavier type of ventilating grating in front of the premises at the southwest corner of Nostrand Avenue and Montgomery Street, Borough of Brooklyn.

A report was presented from the Chief Engineer dated December 10, 1923, recommending the application be approved.

The following resolution was adopted:

Whereas, By communication dated December 6, 1923 Abraham Levitt has submitted to this Commission for its approval, a proposed permit dated November 15, 1923, proposed to be issued by Interborough Rapid Transit Company to Wolcott Holding Corporation and granting the right to remove certain sections of the ventilator gratings of the municipal rapid transit railroad extending under and along Nostrand Avenue in the Borough of Brooklyn, in front of the premises at the southwest corner of Nostrand Avenue and Montgomery Street in said borough and to substitute therefor a heavier type of grating in connection with providing two driveways across the sidewalk to a garage upon the said premises; and

Whereas, The Chief Engineer of this Commission by communication dated December 10, 1923 has reported that the said proposed permit has been examined and found satisfactory from an engineering standpoint and recommends that it be approved; and

Whereas, Counsel to the Commission has examined said proposed permit and finds no objection thereto.

Resolved, That the said proposed permit so submitted be and the same hereby is approved, and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1763—R. T. 4010

Route No. 26—Communication from Mandel-Ehrich Corporation Requesting Approval of Abandonment of Subway Entrance at 156-158 East 42nd Street, Borough of Manhattan—Report by Chief Engineer Recommending Matter Be Deferred—Reply Denying Application

A communication was presented from Mandel-Ehrich Corporation dated November 16, 1923, requesting that the subway entrance at the Grand Central Station of the Steinway Tunnel Line through the premises at No. 156-158 West 42nd Street, Borough of Manhattan, be abandoned as the stairway is of little importance to traffic.

A report was presented from the Chief Engineer dated December 8, 1923, recommending that the matter of abandoning the entrance be deferred until the Fifth Avenue Station is open for traffic.

Upon motion duly seconded and adopted the application was denied and the Secretary was directed to advise the applicant.

1764—R. T. 7109

Extensions Certificate—Application by Interborough Rapid Transit Company for Approval of Lease of Store and Basement at No. 2361 Third Avenue, Borough of Manhattan—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated November 2, 1923, requesting approval of a proposed lease to Unit Electric Company, Inc., of the store and basement at No. 2361 Third Avenue, Borough of Manhattan, for a term of three years from December 1, 1923, at an annual rental of \$1500.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 14, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by application dated November 2, 1923 has requested the approval of this Commission as follows:

The Interborough Rapid Transit Company requests approval to lease to Unit Electric Company, Inc., the store and basement at 2361 Third Avenue, Manhattan, for a term of three years from December 1st, 1923, at an annual rental of \$1,500.00; the tenant to make all necessary repairs at its own cost and expense.

Dated, November 2nd, 1923.

INTERBOROUGH RAPID TRANSIT COMPANY,
By FRANK HEDLEY,
President & General Manager.

which application has been caused to be designated "Approval No. 510"; and

Whereas, Said application has been approved by the Real Estate Clerk; and

Whereas, By communication dated December 14, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that no developments are contemplated which will require the use of said property for the Operation of the railroad and that it is not so used now; that the rental payable under this lease will be credited to the revenue of the Manhattan Division of the Interborough lines and recommend the approval of the application so submitted.

Resolved, That the said application of Interborough Rapid Transit Company as aforesaid be and the same hereby is approved and that the Chairman of this Commission be and he hereby is authorized and directed to execute the form of approval of this Commission made part of said application.

1765—R. T. 6449

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Sale of Property at Northwesterly Corner of Avenue "U" and West Seventh Street, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated November 21, 1923, requesting approval of the sale of the property at the northwesterly corner of Avenue "U" and West Seventh Street, Borough of Brooklyn, to the Knickerbocker Associates, Inc., for the selling price of \$7,500.

A report was presented from the Real Estate Clerk dated December 10, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, J. H. Bennington, Real Estate & Tax Agent for the New York Rapid Transit Corporation, under date of November 21, 1923, has made application to the

Commission for approval of a contract for the sale by it to Knickerbocker Associates, Inc., of certain vacant land originally acquired for purposes of the reconstruction of the Sea Beach Line, at the northwesterly corner of West 7th Street and Avenue U, in the Borough of Brooklyn, the selling price to be \$7,500, payable \$750 on the signing of the contract, \$2,250 on the delivery of the deed, the balance to be covered by a purchase money bond and mortgage in the amount of \$4,500, payable on or before three years with interest thereon at the rate of 6% per annum, and upon certain other terms contained in the form of said contract; and

Whereas, The Real Estate Clerk, under date of December 10, 1923, has reported that the assessed valuation of the said property is 3,600, that the value is approximately double the assessed valuation and that the proposed sale price of \$7,500 is fair, recommending that the proposed contract be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said contract for the sale of said property, and that the Secretary be, and he hereby is, authorized and directed to transmit a copy of this resolution to the said J. H. Bennington.

1766—R. T. 7406

Route No. 39, Section No. 2—Report by Chief Engineer Recommending that He Be Authorized to Prepare Plans and Contract for Repairing Leaks in Mezzanine Roofs of West End Line—Approved

A report was presented from the Chief Engineer dated December 11, 1923, recommending that he be authorized to prepare plans and contract for repairing the leaks in the mezzanine roofs of the West End Line—Route No. 39, Section No. 2, for the purpose of advertising for bids for the work.

Upon motion duly seconded and adopted, the report was approved.

1767—R. T. 7177

Routes Nos. 36 & 37—Copy of Notice to Queens Subway Apartment and Loft Building Corporation with Respect to Removal of Fill on City-owned Site for Proposed Corona Storage Yard—Approved and Ordered Filed

A copy of the following notice was approved and ordered filed:

December 15, 1923.

Mr. N. G. DEGNON, Treasurer,
QUEENS SUBWAY APARTMENT & LOFT BLDG., CORPN.,
50 East 42nd Street,
New York City.

Dear Sir:

In a letter dated November 13, 1923, concerning the removal of excess fill from the site of the Corona Car Storage Yard, you, as successor to the Degnon Realty & Terminal Improvement Co., were notified that, in accordance with our information, the time specified by the court for this work had expired on Nov. 1, 1923. In view of your continued occupancy of the premises you were requested to take up with Counsel to the Commission, before December 1, 1923, arrangements necessary for such occupancy. This you have failed to do, and it is, therefore, necessary to urge your compliance with the previous request at the earliest moment possible. If this is not done in a few days, I am advised that it will be necessary for Counsel to take some action.

Very truly yours,
JAMES B. WALKER,
Secretary.

1768—R. T. 6080

Contract No. 3—Application by Daly Brothers Company for Permission to Continue in Occupancy of Premises on Northerly Side of West 145th Street Between Lenox Avenue and Harlem River, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Daly Brothers Company, dated December 15, 1923, requesting permission to continue in occupancy of the premises on the northerly side of West 145th Street between Lenox Avenue and Harlem River, Borough of Manhattan, agreeing to surrender all right, title and interest to the buildings, etc., constructed under the original concession, which was terminated by resolution adopted on October 11, 1923, and agreeing to pay a rental of \$5.00 per month beginning November 1, 1923.

A report was presented from the Real Estate Clerk, dated December 17, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Daly Brothers Company by application dated December 15, 1923, has requested permission to continue in occupancy of a portion of the premises included in the concession originally occupied by it prior to November 1, 1923, on the northerly side of West 145th Street, between Lenox Avenue and the Harlem River, Borough of Manhattan, agreeing to surrender to The City of New York all right, title and interest to the buildings, sheds, water, gas and electric supply lines, constructed or owned by it on its original concession prior to November 1, 1923, and to pay a rental of \$5.00 per month beginning as of that date, to vacate the premises on thirty (30) days' notice and to other conditions similar to those contained in like applications; and

Whereas, The Real Estate Clerk, under date of December 17, 1923, has reported upon this application stating that the cancelling of the original rental agreement with Daly Brothers Company and the terms of the present application of Daly Brothers Company have made possible an increase of rental from \$200.00 per month to \$440.00 per month beginning November 1, 1923, and to \$505.00 per month beginning July 1, 1924, recommending that the application be approved, in which recommendation Counsel has concurred:

Resolved, That the Commission do, and it hereby does, approve the said application of Daly Brothers Company, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

1769—R. T. 6080

Route No. 8—Report by Real Estate Clerk Advising of Abandonment of Concession by Gordon & Freedman of Portion of Pier at Foot of North Seventh Street, Borough of Brooklyn—Resolution Terminating Concession

A report was presented from the Real Estate Clerk dated December 17, 1923, advising of the abandonment of the concession held by Gordon & Freedman, of a portion of a pier at the foot of North Seventh Street, Borough of Brooklyn, as of November 15, 1923, by reason of the operations of subway contractors making the premises untenable.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of December 17, 1923, has reported that Gordon & Freedman, a partnership, which by virtue of an application dated March 16, 1922, duly approved by the Commission on March 21, 1922, became a tenant in occupancy of a portion of the partially wrecked pier at the foot of North 7th Street, Borough of Brooklyn, on April 16, 1922, at a rental of \$100.00 per month, and that by reason of the operations of subway contractors the pier became practically un-

tenantable for Gordon & Freedman around November 1, 1923, and that Gordon & Freedman has paid rental up to and including November 15, 1923, recommending that occupancy by Gordon & Freedman be deemed to have been abandoned as of November 15, 1923, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, terminate the concession of Gordon & Freedman at the above location effective as of November 15, 1923, without prejudice, however, to the right of Gordon & Freedman to remove personal property blocked off or covered by subway contractors' or City owned materials as soon as such removal may be possible without the Commission or the City assuming any liability for the safety thereof.

1770—Case 1587

New York Dock Railway—Issue of Stock—Extension Order Adopted

The Secretary presented a petition, dated December 10, 1923, of the New York Dock Railway, asking for an extension of time to December 31, 1924, in which to issue the stock authorized by the Order in Case No. 1587, adopted March 28, 1913.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1587, granting an extension of time to March 31, 1924.

1771—Case 2601

New York Railways Company and the Ninth Avenue Railroad Company—Complaint of S. M. Jackson Jacobs as to Refusal to Issue Transfers at 53rd Street and Seventh Avenue—Letter from Counsel Transmitting Check of Receiver of New York Railways Company for Costs—Check Authorized Transmitted to State Comptroller

The Secretary presented a communication, dated December 14, 1923, from Counsel to the Commission, transmitting check for \$231.63 of the Receiver of the New York Railways Company, representing costs and disbursements on appeal in the above entitled matter and recommending transmittal of check to the State Comptroller.

Thereupon the Auditor of the Commission was authorized to transmit said check to the State Comptroller.

1772

Board of Estimate and Apportionment—Certified Copy of Resolution Adopted by Board Requesting Commission to Direct Repair of Street Surface Railroad Tracks in Manhattan—Referred to Acting Chief Executive Officer

The Secretary presented a certified copy of Resolution adopted by the Board of Estimate and Apportionment on November 23, 1923, requesting the Commission to issue orders to railroad companies requiring the repair of tracks in Manhattan.

Thereupon the above mentioned resolution was referred to the Acting Chief Executive Officer.

1773

Brooklyn City Railroad Company et al.—Operation of Nostrand Avenue Line from Kings Highway to Avenue U—Complaints of Brooklyn Chamber of Commerce and Nathan D. Shapiro—Referred to Counsel

The Secretary presented a report, dated November 7, 1923, by R. R. Monroe, Assistant Counsel, with respect to the complaints of the Brooklyn Chamber of Commerce and Nathan D. Shapiro, Esq., representing property owners, requesting the

Commission to compel the resumption of service on the Nostrand Avenue Line from Kings Highway to Avenue U, together with a report, dated December 10, 1923, by George L. Lucas, Acting Chief Executive Officer, relative to the matter.

Thereupon the above mentioned papers were referred to Counsel to the Commission.

1774—Case 2704

Manhattan Railway Company and Interborough Rapid Transit Company—42nd Street Spur—Report by Chief of Transit Bureau of Discontinuance of Operation—Filed

The Secretary presented a report, dated December 7, 1923, by George F. Daggett, Chief of Transit Bureau, advising that at midnight on December 6, 1923, the Interborough Rapid Transit Company discontinued operation of the shuttle on the 42nd Street spur of the Third Avenue Elevated Line.

Thereupon the above mentioned report was ordered filed.

1775—R. T. 7645

Agreement "CS"—Certified Copy of Resolution of Board of Estimate and Apportionment Amending Resolution of November 16, 1923, Approving Contract for Construction of Duct Line at 239th Street Yard—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 7, 1923, was ordered filed:

(Cal. No. 110)

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on November 16, 1923 (Cal. No. 96), be *amended* so that the concluding five lines of said resolution would read as follows:

"said issue of corporate stock to be charged as a subauthorization from the general appropriation of \$28,200,000 of corporate stock made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations of corporate stock subsequently made thereto for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3."

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1776—R. T. 7702

Route No. 52, Section No. 2—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Jobson-Gifford Company for Furnishing and Erecting Structural Steel and Authorizing Appropriation of \$443,239.—Communication from Acting Incorporating Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Papers and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on November 26, 1923, was ordered filed:

(Cal. No. 27)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 7, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with the Jobson-Gifford Company for furnishing and erecting structural steel for part of the Flushing Line, Route No. 52, Section No. 2, at an estimated cost of four hundred and forty-three thousand two hundred and thirty-nine dollars (\$443,239), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be four hundred and forty-three thousand two hundred and thirty-nine dollars (\$443,239); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission dated November 7, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding four hundred and forty-three thousand two hundred and thirty-nine dollars (\$443,239), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated December 10, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract approved as to form, was also ordered filed.

An original contract dated December 15, 1923, between the Transit Commission and McElroy & Kerwin, which contract had been executed on behalf of both parties, and delivered on December 17, 1923, was also ordered filed.

1778—R. T. 7684

Agreement "CO"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Frank Persicano for Miscellaneous Drainage and Sewer Construction and Authorizing Appropriation of \$17,700—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Papers and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 7, 1923, was ordered filed:

(Cal. No. 40.)

Resolved, That, pursuant to the requisitions of the Transit Commission to this Board, dated September 12 and 28, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with Frank Persicano, for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, City of New York (Agreement "CO") in Municipal Rapid Transit Railroads, at an estimated cost of sixteen thousand five hundred and seventy-nine dollars (\$16,579), and to additional work in connection therewith at an estimated cost of eleven hundred and twenty-one dollars (\$1,121), being a total estimated cost of seventeen thousand seven hundred dollars (\$17,700), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be seventeen thousand seven hundred dollars (\$17,700); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding seventeen thousand seven hundred dollars (\$17,700), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract and said additional work; said issue of corporate stock to be charged to the extent of sixteen thousand nine hundred and sixty dollars (\$16,960) as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3, and to the extent of seven hundred and forty dollars (\$740), as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated November 28, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

An original contract between The City of New York, acting by the Transit Commission, and Frank Persicano dated December 12, 1923, which contract had been executed on behalf of both parties and delivered on December 13, 1923, was also ordered filed.

1779—R. T. 6423

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$750,000 for Interest—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 7, 1923, was ordered filed:

(Cal. No. 333-A)

Whereas, The Transit Commission, under date of October 25, 1923, made formal requisition upon the Board of Estimate and Apportionment for an appropriation of seven hundred and fifty thousand dollars (\$750,000) from the general debt-incurring power of the City, to be provided by issue of corporate stock, for the purpose of meeting the interest charges on corporate stock and corporate stock notes issued and which will be issued to provide funds wherewith to meet the City's commitments under Rapid Transit Contract No. 3; therefore be it

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891 as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission dated October 25, 1923, and without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, the Comptroller be and he is hereby authorized and requested to issue corporate stock of The City of New York to the amount of seven hundred and fifty thousand dollars (\$750,000), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe; the proceeds to the amount of the par value thereof to be applied to the purposes specified in said requisition in respect of the contract known as Contract No. 3 between The City of New York, acting by the Public Service Commission for the First District, and the Interborough Rapid Transit Company; said appropriation of seven hundred and fifty thousand dollars (\$750,000) of corporate stock from the general debt-incurring power of the City being stated in said requisition of the Transit Commission as being required to meet the interest charges on bonds and notes issued and to be issued by the City to provide funds for the purpose of carrying out the City's obligations under the contract known as Contract No. 3; and said authorization is in addition to the appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) of corporate stock authorized on March 18, 1913, and the supplemental general appropriations subsequently made thereto by the City in respect of Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1780—R. T. 6424

Contract No. 4—Certified Copy of Resolution of Board of Estimate and Apportionment—Authorizing Appropriation of \$1,000,000 for Interest—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 7, 1923, was ordered filed:

(Cal. No. 333-B)

Whereas, The Transit Commission, under date of October 25, 1923, made formal requisition upon the Board of Estimate and Apportionment for an appropriation of one million dollars (\$1,000,000) from the general debt-incurring power of the City to be provided by the issue of corporate stock for the purpose of meeting the interest charges

on corporate stock and corporate stock notes issued and which will be issued to provide funds wherewith to meet the City's commitments under Rapid Transit Contract No. 4; therefore be it

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891 as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission dated October 25, 1923, and without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, the Comptroller be and he is hereby authorized and requested to issue corporate stock of The City of New York to the amount of one million dollars (\$1,000,000), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe; the proceeds to the amount of the par value thereof to be applied to the purposes specified in said requisition in respect of the contract known as Contract No. 4 between The City of New York, acting by the Public Service Commission for the First District, and the New York Municipal Railway Corporation; said appropriation of one million dollars (\$1,000,000) of corporate stock from the general debt-incurring power of the City being stated in said requisition of the Transit Commission as being required to meet the interest charges on bonds and notes issued and to be issued by the City to provide funds for the purpose of carrying out the City's obligations under the contract known as Contract No. 4; and said authorization is in addition to the appropriation of sixty million dollars (\$60,000,000) of corporate stock authorized on March 18, 1913, and the supplemental general appropriations subsequently made thereto by the City in respect of Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1781—R. T. 6080

Route No. 39—Report by Real Estate Clerk Advising of Surrender of Concession by John E. Wenzel, Inc., of Premises on Easterly Side of New Utrecht Avenue, South of 81st Street, Borough of Brooklyn—Filed

The Commission ordered filed, a report by the Real Estate Clerk, dated December 17, 1923, advising of the surrender of the concession held by John E. Wenzel, Inc., on the easterly side of New Utrecht Avenue, south of 81st Street, Borough of Brooklyn, as of December 31, 1923.

1782—R. T. 7603

Route No. 52, Section No. 3—Consents of Sureties to Assignment by Contractor to Equitable Trust Company of Sum of \$75,224.28—Filed

The Commission ordered filed consents of sureties upon the bond deposited by the contractor to an assignment by the Oakdale Contracting Company, Inc., to the Equitable Trust Company of the sum of \$75,224.28 of moneys due or to grow due under the contract for the construction of Section No. 3 of Route No. 52, Flushing Line.

1783—R. T. 7702

Route No. 52, Section No. 2—Notice by Chief Engineer of Commencement of Work for Construction of Column Foundations—Filed

The Commission ordered filed a notice from the Chief Engineer dated December 11, 1923, advising of the commencement of work by the Gotham Construction Corporation on November 28, 1923 for the construction of column foundations on Section No. 2, Route No. 52, Flushing Line.

1784

Fees Received During November, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of November, 1923, fees, etc., to the amount of \$71.86 and refunds of rental from rapid transit real estate to the amount of \$3,801.56 had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$71.86 to be accredited to the General Fund of The City of New York and the sum of \$3,801.56 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

1785

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Morris Bass, draftsman, at \$175.08 per month, to take effect December 21, 1923; Sidney R. Brown, draftsman, at \$175.08 per month, to take effect December 21, 1923; Daniel C. Corwin, draftsman, at \$175.08 per month, to take effect December 21, 1923; Hyman Cranberg, draftsman, at \$175.08 per month, to take effect December 21, 1923; Juan A. Delgado, draftsman, at \$175.08 per month, to take effect December 21, 1923; Stanley DuBuske, draftsman, at \$175.08 per month, to take effect December 21, 1923; Samuel Fox, draftsman, at \$175.08 per month, to take effect December 21, 1923; Eli Frankle, draftsman, at \$175.08 per month, to take effect December 21, 1923; Samuel N. Gerson, draftsman, at \$175.08 per month, to take effect December 21, 1923; Abraham Josefson, draftsman, at \$175.08 per month, to take effect December 21, 1923; Louis S. Kirjassoff, draftsman, at \$175.08 per month, to take effect December 21, 1923; Irving H. Lembeck, draftsman, at \$175.08 per month, to take effect December 21, 1923; William R. Nugent, draftsman, at \$175.08 per month, to take effect December 21, 1923; William A. O'Leary, draftsman, at \$175.08 per month, to take effect December 21, 1923; Reuben Rubin, draftsman, at \$175.08 per month, to take effect December 21, 1923; James E. Sampson, draftsman, at \$175.08 per month, to take effect December 21, 1923; Samuel Steinfeld, draftsman, at \$175.08 per month, to take effect December 21, 1923; Francis J. Weber, draftsman, at \$175.08 per month, to take effect December 21, 1923.

Appointments under Rule VIII:4—Elvin J. Andrews, junior assistant, at \$125.08 per month, to take effect December 17, 1923; Edward V. Andrulonis, junior assistant, at \$125.08 per month, to take effect December 17, 1923; Frederick B. Barshell, draftsman, at \$175.08 per month, to take effect December 12, 1923; Frank J. Burrell, junior clerk, at \$60 per month, to take effect December 12, 1923; Alexander Charles, draftsman, at \$175.08 per month, to take effect December 17, 1923; John Cook, junior clerk, at \$60 per month, to take effect December 12, 1923; George Deitz, junior assistant, at \$125.08 per month, to take effect December 11, 1923; Samuel I. Kaufman, draftsman, at \$175.08 per month, to take effect December 12, 1923; Gerlando Lamarca, draftsman, at \$175.08 per month, to take effect December 17, 1923; Ulysses E. Lutz, junior assistant, at \$125.08 per month, to take effect December 17, 1923; Joseph Smolensky, draftsman, at \$175.08 per month, to take effect December 17, 1923.

Resignations—Irving Eimerman, junior assistant, at \$125.08 per month, to take effect December 5, 1923; Irving H. Lembeck, junior assistant, at \$125.08 per month, to take effect December 20, 1923.

Terminations of Appointments under Rule VIII:4—Harry Beller, draftsman, at \$175.08 per month, to take effect December 21, 1923; Daniel C. Corwin, draftsman, at \$175.08 per month, to take effect December 20, 1923; Samuel Fox, draftsman, at \$175.08 per month, to take effect December 20, 1923; Eli Frankle, draftsman, at \$175.08 per month, to take effect December 20, 1923; Hyman Cranberg, draftsman, at \$175.08 per

month, to take effect December 20, 1923; Stanley DuBuske, draftsman, at \$175.08 per month, to take effect December 20, 1923; Abraham Josefson, draftsman, at \$175.08 per month, to take effect December 20, 1923; Kenneth H. Minch, draftsman, at \$175.08 per month, to take effect December 3, 1923; Abraham M. Morris, draftsman, at \$175.08 per month, to take effect December 21, 1923.

Terminations of Appointments under Rule VIII:9—Morris Baas, draftsman, at \$175.08 per month, to take effect December 20, 1923; Juan A. Delgado, draftsman, at \$175.08 per month, to take effect December 20, 1923; Samuel N. Gerson, draftsman, at \$175.08 per month, to take effect December 20, 1923; Louis S. Kirjassoff, draftsman, at \$175.08 per month, to take effect December 20, 1923; William R. Nugent, draftsman, at \$175.08 per month, to take effect December 20, 1923; William A. O'Leary, draftsman, at \$175.08 per month, to take effect December 20, 1923; Reuben Rubin, draftsman, at \$175.08 per month, to take effect December 20, 1923; Vincent Schiliro, draftsman, at \$175.08 per month, to take effect December 21, 1923; Samuel Steinfeld, draftsman, at \$175.08 per month, to take effect December 20, 1923; Francis J. Weber, draftsman, at \$175.08 per month, to take effect December 20, 1923.

Rescission of Appointment under Rule VIII:4—Wallace Moir, junior assistant, at \$125.08 per month, to take effect December 10, 1923.

Rescissions of Appointments under Rule VIII:9—Sidney R. Brown, draftsman, at \$175.08 per month, to take effect December 24, 1923; William Fierstein, draftsman, at \$175.08 per month, to take effect December 27, 1923; William F. Johnson, draftsman, at \$175.08 per month, to take effect December 27, 1923; James E. Sampson, draftsman, at \$175.08 per month, to take effect December 21, 1923.

Changes of Items in Resolution of December 5, 1923, Concerning the Following so as to Read as Follows: (Terminations of appointments under Rule VIII:4)—Sidney R. Brown, draftsman, at \$175.08 per month, to take effect December 20, 1923; William Fierstein, draftsman, at \$175.08 per month, to take effect December 21, 1923; William F. Johnson, draftsman, at \$175.08 per month, to take effect December 21, 1923.

Leaves of Absences with Pay—Muriel F. E. Booth, clerk, from November 15, 1923 to November 20, 1923; John H. Griffin, assistant engineer, from December 4, 1923 to December 10, 1923; Margaret J. Knott, file clerk, from January 1, 1924 to June 30, 1924; John A. McDermott, engineering inspector, from November 13, 1923 to November 24, 1923.

Transferred to Westchester County Park Commission—Stanley M. Northrop, assistant engineer, at \$254.16 per month, to take effect January 1, 1924.

1786

Voucher Schedule No. 52

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, the Comptroller of The State of New York, The Brooklyn-Manhattan Transit Corporation, or The South Brooklyn Railway Company, as the vouchers may direct.

Secretary.

Proceedings for Thursday, December 20, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner, James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1791—R. T. 4010

Route No. 26—Resolution Declaring Westerly Extension of Westbound Platform of Jackson Avenue Station to be Ready for Operation—Adopted

The following resolution was adopted:

Resolved, That under and in pursuance of the provisions of the contract dated March 19, 1913 between the City of New York acting by the Public Service Commission and the Interborough Rapid Transit Company, known as Contract No. 3, this commission hereby declares the following portion of the Queensboro Subway Rapid Transit Railroad (described in said Contract No. 3 as the Steinway Tunnel Line) to be ready for operation at eleven o'clock A. M. on Thursday, December 20, 1923, to wit:

The westerly extension of the westbound platform of the Jackson Avenue Station between base line Station 174+98 and the westerly limits of the original westbound platform.

1792

Voucher Schedule No. 54

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that said vouchers be transmitted for payment to the Comptroller of The City of New York.
Vouchers Nos. 1161-1208, open market orders, \$11,417.02; Vouchers Nos. 662-672, miscellaneous bills, \$1,750.00.

1793

Upon motion duly seconded and adopted, the meeting was adjourned to Friday, December 21, 1923.

1794

Hearing

The following hearing was held:

10:50 A. M.; Case No. 2688; The Long Island Railroad Company; Application of The City of New York for a determination as to the manner in which Queens Boulevard from 74th Street (17th Street) to Jacobus Street shall cross the Flushing and North Side Division in the Borough of Queens. George L. Lucas, Acting Chief Executive Officer, designated to conduct this hearing, presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, December 21, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1795—S. P. 755

Brooklyn, Queens County and Suburban Railroad Company—New Schedule Showing Termination of Receivership—Special Permission Approved

The Secretary presented a communication, dated December 20, 1923, from H. A. Crowe, General Passenger Agent, for the Brooklyn, Queens County and Suburban Railroad Company, requesting permission to file on one day's notice and to put into effect December 22, 1923, new schedule showing termination of receivership and resumption of operation by the company on December 22, 1923.

Thereupon the Commission approved and ordered filed Special Permission No. 755, granting the desired permission.

1796

Upon motion duly seconded and adopted, the meeting was adjourned to Thursday, December 27, 1923.

1797

Hearing

The following hearing was held:

11:00 A. M.; R. T. 7591—Draft form of contract for construction of the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route No. 70-A-1 and the Manhattan Avenue, Roebling Street and Bedford Avenue Route No. 70-B. Commissioner Harkness presided. Hearing closed.

1798—R. T. 7591

Route No. 70-C-1—Resolution Adopting Route and General Plan for Bedford Avenue, Fulton Street and Livingston Street Route—Revised—Communication to Board of Estimate and Apportionment—Adopted

The following resolution was adopted:

BEDFORD AVENUE, FULTON STREET AND LIVINGSTON STREET ROUTE—Revised
Borough of Brooklyn.
(Route No. 70-C-1.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination.

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Brooklyn, the center line of which shall begin at a point in Bedford Avenue, at or near Hancock Street where a connection can conveniently be made with other proposed rapid transit railroads; thence curving southwesterly as a subway or tunnel under and across private property, Spencer Place and private property to a point in Fulton Street at or near Franklin Avenue; thence extending westerly and northwesterly under and along Fulton Street to a point at or near Fort Greene Place and Lafayette Avenue; thence curving and extending westerly along and under Lafayette Avenue to a point in Lafayette Avenue at or near Ashland Place; thence curving and extending northwesterly across and under private property, Rockwell Place, private property and Flatbush Avenue to a point in Livingston Street at or near Flatbush Avenue; thence northwesterly, along and under Livingston Street to a point in Livingston Street about 300 feet west of Flatbush Avenue, where a connection can conveniently be made with other proposed rapid transit railroads.

There shall be three branches to the route as above described:

The first branch begins at a point under Fulton Street at or near Ft. Greene Place. Two tracks of this branch shall continue under and along Fulton Street to a point in Fulton Street at or near Ashland Place; and a third track shall run under and along Lafayette Avenue, and under and across private property, Ashland Place and private property, to a point in Fulton Street at or near Rockwell Place.

The second branch begins at a point under Fulton Street at or near South Elliott Place and runs thence northwesterly under, along and across Fulton Street, Lafayette

Avenue, private property and Fort Greene Place to a point in Fort Greene Place about 300 feet north of Fulton Street.

The third branch begins at a point under Fulton Street at or near Franklin Avenue and runs thence easterly along and under Fulton Street to a point in Fulton Street at or near Bedford Avenue.

These branches are to be so arranged that connections may be made therefrom to existing or other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire main route there shall be four (4) tracks.

The first branch as above described shall have three (3) tracks. The other two branches shall each have four (4) tracks.

The tracks shall be substantially parallel with each other, and on substantially the same level, except that wherever required by surface or subsurface structures or other special or local necessities and at stations and curves and for the purpose of avoiding grade crossings and at or near all points of connections with existing or proposed rapid transit railroads, any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary. Generally, the tracks and track structures shall be within the street limits. Where the route changes direction, and elsewhere as may be deemed necessary, private property will be required.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used

for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "an Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING

It is further resolved, That the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route & General Plan, Route No. 70-C-1, Bedford Avenue, Fulton Street and Livingston Street Route—Revised, Borough of Brooklyn," dated December 11, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on December 27, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Brooklyn, City of New York, to be known as Bedford Avenue, Fulton Street and Livingston Street Route—Revised (Route No. 70-C-1).

This route begins at a point in Bedford Avenue at or near Hancock Street, and extends thence southwesterly under and across private property, Spencer Place and private property to a point in Fulton Street at or near Franklin Avenue; thence westerly and northwesterly along and under Fulton Street to a point at or near Fort Greene Place and Lafayette Avenue; thence along, across and under Lafayette Avenue, private property, intervening streets and Livingston Street to a point about 300 feet west of Flatbush Avenue.

This route has three branches:

The first branch begins at a point under Fulton Street at or near Ft. Greene Place.

Two tracks of this branch shall continue under and along Fulton Street to a point in Fulton Street at or near Ashland Place; and a third track shall run under and along Lafayette Avenue, and under and across private property, Ashland Place and private property, to a point in Fulton Street at or near Rockwell Place.

The second branch begins at a point under Fulton Street at or near South Elliott Place and runs thence northwesterly under, along and across Fulton Street, Lafayette Avenue, private property and Fort Greene Place to a point in Fort Greene Place about 300 feet north of Fulton Street.

The third branch begins at a point under Fulton Street at or near Franklin Avenue and runs thence easterly along and under Fulton Street to a point in Fulton Street at or near Bedford Avenue.

These branches are to be so arranged that connections may be made therefrom to existing or other proposed rapid transit railroads.

Dated December 27, 1923.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

Attest:

JAMES B. WALKER,
Secretary.

1799—R. T. 7621

Route No. 75-F—Resolution Adopting Route and General Plan for Eighth Avenue Route, 30th Street to 59th Street—Communication to Board of Estimate and Apportionment—Adopted

The following resolution was adopted:

EIGHTH AVENUE ROUTE, 30TH STREET TO 59TH STREET.

Borough of Manhattan.

(Route No. 75-F)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point under Eighth Avenue at or near West 30th Street; thence extending northerly as a subway or tunnel along and under Eighth Avenue to a point in Eighth Avenue at or near West 59th Street, Columbus Circle and Broadway, where a connection can conveniently be made with other proposed rapid transit railroads.

For the purpose of returning trains at the southerly terminus of this route, the tracks may be extended southerly under Eighth Avenue, from West 30th Street as far as may be considered necessary.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and generally on the same level, except that wherever required by surface or subsurface structures or other special or local necessities and at stations and curves and for the purpose of avoiding grade crossings and at or near all points of connections with existing or proposed rapid transit railroads, any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary. Generally, the tracks and track structures shall be within the street limits.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OF DRAWING

It is Further Resolved, that the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 75-F, Eighth Avenue Route, 30th Street to 59th Street, Borough of Manhattan," dated December 22, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment, was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on December 27, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Manhattan, City of New York, to be known as the Eighth Avenue Route, 30th Street to 59th Street (Route No. 75-F).

This route begins at a point under Eighth Avenue at or near West 30th Street, and extends thence northerly along and under Eighth Avenue to a point in Eighth Avenue at or near West 59th Street, Columbus Circle and Broadway.

Secretary.

1800—R. T. 7661

Route No. 76—Resolution Adopting Route and General Plan for Lafayette Avenue Route, Bedford Avenue to Flatbush Avenue—Communication to Board of Estimate and Apportionment—Adopted

The following resolution was adopted:

LAFAYETTE AVENUE ROUTE,
BEDFORD AVENUE TO FLATBUSH AVENUE
Borough of Brooklyn.
(Route No. 76.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already

existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Brooklyn, the center line of which shall begin at a point in Lafayette Avenue, at or near Bedford Avenue where a connection can conveniently be made with other proposed rapid transit railroads; and extends thence westerly as a subway or tunnel across Bedford Avenue and under and along Lafayette Avenue to a point at or near Rockwell Place; thence curving northwesterly along and under Lafayette Avenue, across and under private property, and along and under Flatbush Avenue to a point in Flatbush Avenue at or near Third Avenue, where a connection can conveniently be made with the existing rapid transit railroad or with other proposed rapid transit railroads.

There shall also be four-branches to the route as above described.

The first branch begins at a point in Lafayette Avenue at or near Skillman Street, and runs thence northeasterly along and under Lafayette Avenue, across and under private property and along and under Bedford Avenue to a point in Bedford Avenue at or near Kosciuszko Street.

The second branch also begins at a point in Lafayette Avenue at or near Skillman Street, and runs thence southeasterly along and under Lafayette Avenue, across and under private property and along and under Bedford Avenue to a point in Bedford Avenue at or near Clifton Place.

The third branch begins at a point in Lafayette Avenue at or near South Elliott Place and runs thence northwesterly along and under Lafayette Avenue, and Fulton Street and across and under private property and along and under Fort Greene Place to a point in Fort Greene Place about 300 feet north of Fulton Street.

The fourth branch begins at a point in Lafayette Avenue at or near South Elliott Place and runs thence westerly and northwesterly along and under Lafayette Avenue, Fulton Street and across and under private property and intervening streets to points under Fulton Street at or near Ashland Place and at or near Rockwell Place to connect with the existing Fourth Avenue rapid transit railroad under Fulton Street and Ashland Place. One or more tracks of this branch shall run under and across private property, and under and along Fulton Street to a point under Fulton Street at or near Ashland Place; and one or more tracks shall continue under and along Lafayette Avenue and under and across private property, Ashland Place and private property to a point in Fulton Street at or near Rockwell Place.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire main route there shall be four (4) tracks. For the branches or spurs there shall be two (2) or more tracks.

The tracks shall be substantially parallel with each other, and on substantially the same level, except that wherever required by surface or subsurface structures or other special or local necessities and at stations and curves and for the purpose of avoiding grade crossings and at or near all points of connections with existing or proposed rapid transit railroads, any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary. Generally, the tracks and track structures shall be within

the street limits. Where the route changes direction, private property will be required as indicated in the foregoing descriptions or as may be deemed necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or

other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.
The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "an Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING

It is further resolved, That the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 76, Lafayette Avenue Route, Bedford Avenue to Flatbush Avenue, Borough of Brooklyn," dated October 9, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment, was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on December 27, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Brooklyn, City of New York, to be known as the Lafayette Avenue Route, Bedford Avenue to Flatbush Avenue (Route No. 76).

This route begins at a point in Lafayette Avenue at or near Bedford Avenue where a connection can conveniently be made with other proposed rapid transit railroads, and extends thence westerly across Bedford Avenue and along and under Lafayette Avenue to a point at or near Flatbush Avenue and Third Avenue where a connection can conveniently be made with the existing rapid transit railroad or with other proposed rapid transit railroads.

This route has four branches:

The first branch begins at a point in Lafayette Avenue at or near Skillman Street, and runs thence northeasterly along and under Lafayette Avenue, across and under private property and along and under Bedford Avenue to a point in Bedford Avenue at or near Kosciusko Street.

The Second branch also begins at a point in Lafayette Avenue at or near Skillman Street, and runs thence southeasterly along and under Lafayette Avenue, across and under private property and along and under Bedford Avenue to a point in Bedford Avenue at or near Clifton Place.

The third branch begins at a point in Lafayette Avenue at or near South Elliott Place and runs thence northwesterly along and under Lafayette Avenue, and Fulton Street and across and under private property and along and under Fort Greene Place to a point in Fort Greene Place about 300 feet north of Fulton Street.

The fourth branch begins at a point in Lafayette Avenue at or near South Elliott Street and runs thence westerly and northwesterly along and under Lafayette Avenue, Fulton Street and across and under private property and intervening streets to points under Fulton Street at or near Ashland Place and at or near Rockwell Place. These branches are to be so arranged that connections may be made therefrom to existing or other proposed rapid transit railroads.

Dated, December 27, 1923.

1801—R. T. 7661

Route No. 78-C—Resolution Adopting Route and General Plan for Fort Washington Avenue Route, 175th Street to Overlook Terrace—Communication to Board of Estimate and Apportionment—Adopted

The following resolution was adopted:

FORT WASHINGTON AVENUE ROUTE, 175TH STREET TO OVERLOOK TERRACE.
(Route No. 78-C.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination.

Now, Therefore, this Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point under Fort Washington Avenue at or near West 175th Street, where a connection can conveniently be made with other proposed rapid transit railroads; and extending thence northerly as a subway or tunnel under and along Fort Washington Avenue to a point under Fort Washington Avenue north of West 190th Street; thence northerly across and under private property to Overlook Terrace.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or sub-surface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or anyone or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed, over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portion by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING

It is Further Resolved, That the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 78-C, Ft. Washington Avenue Route, 175th Street to Overlook Terrace, Borough of Manhattan," dated December 22, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment, was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on December 27, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Manhattan, City of New York, to be known as the Fort Washington Avenue Route, 175th Street to Overlook Terrace (Route No. 78-C).

This route begins at a point under Fort Washington Avenue at or near West 175th Street, where a connection can conveniently be made with other proposed rapid transit railroads; and extends thence northerly along and under Fort Washington Avenue to a point north of 190th Street, thence across and under private property, to Overlook Terrace.

Dated December 27, 1923.

**Route No. 79—Resolution Adopting Route and General Plan for Broadway,
Columbus Avenue and Manhattan Avenue Route, 59th Street to 114th
Street—Communication to Board of Estimate and Apportionment—Adopted**

The following resolution was adopted:

**BROADWAY, COLUMBUS AVENUE AND MANHATTAN AVENUE ROUTE
59th Street to 114th Street
(Route No. 79)**

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point under Broadway at or near West 59th Street, Eighth Avenue and Columbus Circle, where a connection can conveniently be made with other proposed rapid transit railroads; thence extending northwesterly as a subway or tunnel along and under Broadway to a point under Broadway at or near Columbus Avenue and West 65th Street; thence extending northerly along and under Columbus Avenue to a point under Columbus Avenue at or near West 110th Street; thence curving northeasterly across and under Morningside Park, across and under Morningside Avenue East, and across, under and along Manhattan Avenue to a point under Manhattan

Avenue at or near West 114th Street, where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or subsurface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to any part of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purpose of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in one tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of roadway.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission, in cases of necessity and for such times as may be necessary, permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity, or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railroads in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAPS OR DRAWINGS

It is Further Resolved, That the three (3) maps or drawings entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 79, Broadway, Columbus Avenue and Manhattan Avenue Route, 59th Street to 114th Street, Borough of Manhattan," and further marked "Key Map," "Sheet No. 1" and "Sheet No. 2," respectively, all dated December 22, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby are adopted as showing the foregoing route and general plan for convenience merely and that said maps or drawings are not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment, was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on December 27, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Manhattan, City of New York, to be known as the Broadway, Columbus Avenue and Manhattan Avenue Route, 59th Street to 114th Street (Route No. 79).

This route begins at a point under Broadway at or near West 59th Street, Eighth Avenue and Columbus Circle in the Borough of Manhattan, where a connection can conveniently be made with other proposed rapid transit railroads and extends thence northwesterly under and along Broadway to Columbus Avenue and West 65th Street; thence continuing northerly under and along Columbus Avenue to West 110th Street; thence curving northeasterly across and under Morningside Park, Morningside Avenue East and Manhattan Avenue to a point under Manhattan Avenue at or near West 114th Street, where a connection can conveniently be made with other proposed rapid transit railroads.

Route No. 79-A—Resolution Adopting Route and General Plan for Seventh Avenue-Broadway Connection, 59th Street and Seventh Avenue to 61st Street and Broadway—Communication to Board of Estimate and Apportionment—Adopted

The following resolution was adopted:

SEVENTH AVENUE-BROADWAY CONNECTION 59TH STREET AND SEVENTH AVENUE TO 61ST STREET AND BROADWAY.

(Route No. 79-A)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point under Central Park adjacent to West 59th Street and Seventh Avenue, where a connection can conveniently be made with other existing rapid transit railroads; thence curving and extending northwesterly and westerly as a subway or tunnel across and under the southwesterly corner of Central Park, to a point in Central Park West at or near West 61st Street; thence extending westerly and crossing under Central Park West to a point in West 61st Street at or near Central Park West, thence along and under West 61st Street to a point under West 61st Street at or near Broadway, where a connection can conveniently be made with existing or other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

This connection shall have two (2) tracks.

The tracks shall be substantially parallel with each other, and shall generally be on the same level, except that wherever required by surface or subsurface structures or other special or local necessities and at stations and curves and for the purpose of avoiding grade crossings and at or near all points of connections with existing or proposed rapid transit railroads, any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary. Generally, the tracks and track structures shall be within the street limits.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry

walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary, permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING

It is Further Resolved, That the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 79-A, Seventh Avenue-Broadway Connection, 59th Street and Seventh Avenue to 61st Street and Broadway, Borough of Manhattan," dated December 22, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment, was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on December 27, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Manhattan, City of New York, to be known as the Seventh Avenue-Broadway Connection, 59th Street and Seventh Avenue to 61st Street and Broadway (Route No. 79-A).

This route begins at a point under Central Park adjacent to West 59th Street and Seventh Avenue, and extends thence northwesterly and westerly across and under the southwesterly Corner of Central Park to Central Park West and West 61st Street; thence westerly across and under Central Park West and along and under West 61st Street to Broadway.

1804

Rapid Transit Railroads—Proposed Communication to Board of Estimate and Apportionment Submitting Revised Routes and General Plans for Brooklyn and Manhattan Routes—Approved

The following proposed communication was approved:

December , 1923

To the Honorable

THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

On May 15, 1923, pursuant to the provisions of the Rapid Transit Act, the Transit Commission submitted to your Honorable Board, as a part of the so-called Crosstown Rapid Transit Route in the Borough of Brooklyn, the Route and General Plan for the section known as the *Bedford Avenue, Fulton Street and Livingston Street Route, Route No. 70-C*. The general plan of construction for this route provided a maximum of three tracks, with three tracks for the branch or spur therein described. Subsequently, the consideration of this proposed Route and General Plan was referred by your Board to your Transportation Conference Committee, and has been the subject of several conferences between that Committee and the members of this Commission.

At the outset, it was suggested by members of your Committee and agreed to by the Transit Commission, that the proposed Route and General Plan should provide for a maximum of four tracks, with additional proposed branches or spurs, in order to allow a greater flexibility in the future, should the main Route and General Plan be constructed. The chief point of discussion in conference, however, has been that of the general character of the territory to be served, beyond the point of conjunction of Bedford and Lafayette Avenue, and of the means affording the maximum service to such territory. The Transit Commission has maintained that in order to give the fullest service to the territory at present without such service, and to fit most logically with the general transit layout of the future, the Crosstown Line should be carried

southward on Bedford Avenue to a point of conjunction with Fulton Street, and thence along Fulton Street to a point of conjunction with the Fourth Avenue Subway, and with whatever additional subway lines may in future be constructed beneath the East River to Manhattan. The members of your Committee have advocated the desirability of shortening the line upon Bedford Avenue and of making the connection with Central Brooklyn and the Manhattan lines by way of Lafayette Avenue.

The choice to be made between these alternatives is one of such importance and has developed views of such opposite character, that it appeared advisable, both to the Transit Commission and to your Committee, to invite an expression of public opinion upon the general subject, and accordingly a public hearing was held before a joint session of the two bodies in the City Hall on November 15, 1923. This hearing was addressed by the representatives of various Brooklyn organizations and by representative citizens interested in the determination to be made. It was clearly indicated that the same main difference of opinion existed in the public mind as exist between the conferees, and while helpful, the hearing given was not determinative of the final action to be taken. The Commission still holds the view that actuated it in giving its original approval to the Fulton Street Route and in submitting this route to your Honorable Board, and it is still of the opinion that the proper location for this branch of the Crosstown line is that submitted in the Route and General Plan presented to your Board on May 15, 1923, as aforesaid.

It is unnecessary, of course, to outline the arguments of your Committee supporting its contention that the Lafayette Avenue Route is the more desirable. It is assumed, naturally, that it will report directly to your Honorable Board upon the subject and that it will submit its views for your consideration.

In order, however, that there may be no delay in advancing the main Crosstown project, due to differences of opinion, and in view of the fact that the action of your Board in setting aside for the purposes of routing, whichever street or streets are to be used, is essential to the completion of that project, the Commission has agreed with your Committee to adopt and submit: (1) a Revised Route and General Plan covering the Bedford Avenue, Fulton Street and Livingston Street Route (No. 70-C-1), so as to provide for a maximum of four tracks upon this line, in substitution for the three track plan heretofore submitted, and (2): a new Route and General Plan (No. 76) covering the Lafayette Avenue alternative. The Commission is prepared, for the reasons it has stated, to take whichever of these routes your Honorable Board is prepared to approve and to proceed with the validation of and the preparation of plans and contracts for the construction of either accordingly.

The revised Fulton Street Route, in addition to the branch or spur described in the original Route No. 70-C, includes also two additional branches, one extending under and along the full length of Fulton Street to Bedford Avenue, and the second extending into Fort Greene Place, each of these spurs providing for two or more tracks. These changes have been discussed with and have been approved by the members of your Committee.

The Commission, in further pursuance of the understanding with your Committee, requests your Honorable Board to return its communication submitting the original Route and General Plan No. 70-C-1, without further consideration thereon by your Honorable Board, and to take up for consideration instead the aforesaid substitute route and the alternative Lafayette Avenue Route, extending from Bedford Avenue to Flatbush Avenue, herewith coincidentally submitted.

As a part of the discussion of the entire transit subject with the members of your Committee, it has also been agreed that, simultaneously with the submission of the alternative routes for the Brooklyn Line, the Commission would submit for the consideration of your Honorable Board, the revised routes intended to relieve the necessities of the transit situation in the Borough of Manhattan. The so-called Central Park West Route (No. 78-B), now pending before your Honorable Board, has been the subject of considerable attention, both publicly and between the conferees. Various alternative proposals have been considered and what appears to be the better of these alternatives, has been agreed upon. This agreement includes provision for a full four-track subway to run from the point of connection with that part of the route that has already been validated, under and along St. Nicholas and Manhattan Avenues to a point at about 114th Street; thence curving under Morningside Park into Columbus Avenue, and southerly under and along Columbus Avenue to 66th Street; thence as a two track subway under and along the easterly side of Broadway, 59th

Street, under West 61st Street, Central Park West and the southerly end of Central Park to the connection with the existing stub tracks of the Broadway-Fourth Avenue Line in Seventh Avenue; thence also as a four track line under and along the westerly side of Broadway, Columbus Circle and Eighth Avenue to a point in Eighth Avenue immediately south of the Pennsylvania Terminal.

The major advantages of the routing so proposed is that it will obviate the physical difficulties and hazards and a considerable amount of incidental cost in the taking care of existing subsurface structures, especially aqueducts and water mains which obtain both in Amsterdam Avenue and Central Park West.

In addition, the adoption of these routes will meet the popular objections that have been made to any disturbance of the surface of Central Park itself. The present existence of the elevated structure over and along Columbus Avenue has not been overlooked, in the consideration of the conferees, but it has been determined by the engineers that the cost of supporting the elevated structure during the construction will be considerably less than the cost of taking care of subsurface structures upon any other of the north and south streets that have been under consideration.

The Commission has adopted, and, by communications of this date, submitted to your Honorable Board for its action, three separate but contiguous Routes and General Plans covering the lines above outlined. In this connection the Commission also requests of your Honorable Board the return, without further consideration, of the so-called Central Park Route (No. 78-D), covering the section northward from 65th to 110th Streets and proposed for construction along the marginal tract of Central Park.

In rearranging these Manhattan routes, it has been considered desirable to extend the route already validated along St. Nicholas and Fort Washington Avenues, from its present terminus at 175th Street northward under and along Fort Washington Avenue to 193rd Street or Overlook Terrace. The construction of a full four track line would readily permit the operation of both express and local trains to this part or point, operation that the development of this territory, in the opinion of the Commission and of your Committee, demands. It is planned also to connect the Queensboro line now under course of construction from the Grand Central Station westerly along 41st Street to Eighth Avenue, through the use of two of the four tracks for which provision is made on this line southward to the Pennsylvania Station.

The estimated costs of these various proposals have been reported to the members of your Committee and will no doubt form part of the report it will submit to your Honorable Board.

The Commission will very gladly furnish either your Honorable Board or its Committee with whatever additional information or supplementary data with relation to any of the lines referred to, as you may desire.

Respectfully,
TRANSIT COMMISSION,
By

Chairman.

1805—C. 19414

Property Owners' Association of Coney Island, Inc.—Complaint as to Extra Five-Cent Fare Charged on Norton's Point Line—Communication to Board of Estimate and Apportionment Approved

The Commission approved a communication, to the Board of Estimate and Apportionment, reading as follows:

December , 1923

BOARD OF ESTIMATE AND APPORTIONMENT,
JAMES MATTHEWS, Esq., Assistant Secretary,
Municipal Building,
New York, N. Y.

Dear Sir:

At a meeting of your Honorable Board held on the 21st day of September, 1923, there was referred to the Transit Commission (Cal. No. 79) a communication dated May 29, 1923, addressed to the Mayor of The City of New York from the Property Owners' Association of Coney Island, Inc., calling attention to the extra five-cent fare

charged on the Norton's Point Railway, which operates between Stillwell Avenue and Sea Gate, Coney Island, a distance of about one mile, and stating that the association is opposed to the unification of the Brooklyn Rapid Transit System unless the Norton's Point Line is included in the one unit for a five-cent fare.

Replying to the aforesaid communication as well as the communication dated September 24, 1923, from the Assistant Secretary of your Honorable Board with which he transmitted a copy of said communication of May 29, 1923 and in which he advised the Transit Commission of the action of your Honorable Board at its meeting on September 21, 1923 and of the expression of its opinion that it considers the charge of an additional five-cents outrageous and the condition should be corrected, the Transit Commission informs your Honorable Board as follows:

The so-called Norton's Point Line of railway is at the present time owned and operated by the South Brooklyn Railway Company, an independent operating railway company having all the characteristics of a street railroad company. The Commission's records indicate that this line is operated almost wholly over a private-right-of-way and that it was constructed and originally operated by the New York and Coney Island Railroad Company as a steam railroad. On or about September 14, 1923, the South Brooklyn Railway Company merged the New York and Coney Island Railroad Company among other companies and thereby acquired ownership of the Norton's Point Line, which previously thereto it was operating under a lease. Records of this Commission further indicate that the South Brooklyn Railway Company has a legal right to charge a five-cent fare on its Norton's Point Line. In view of that fact this Commission finds it difficult to see anything outrageous about the railroad company charging a fare which it is rightfully entitled to charge.

The Commission is aware of its power to provide for a passenger joint rate, fare, charge, through route or transfer between the Norton's Point Line and the rapid transit railroad lines of the New York Rapid Transit Corporation entering Coney Island, but deems it an inadvisable proceeding to institute involving a line of a little over a mile in length with lines of upward of 12 to 15 miles and in one instance upwards of 20 miles in length. A joint rate necessarily would have to be an adequate one. To prescribe for the rapid transit railroads entering Coney Island a fare less than five cents at the present time would undoubtedly work an injustice not only to the company that operates these lines, but to The City of New York as well. To require reduction of the fare on the Norton's Point Line is considered of uncertain validity and is believed would with respect to transportation generally upon the lines of the South Brooklyn Railway Company result in injury to service by that company to the public it now serves.

It has been suggested that the Norton's Point Line be acquired by the City either outright or by lease for reconstruction as an elevated structure as an extension to the rapid transit railroads now serving Coney Island. Such proposal has received consideration not only by this Commission but its predecessors and in a general way is favored, but in view of the City's present financial condition and demands of other sections of the City greater in need of rapid transit facilities the Commission is of the opinion such proposal should be held in abeyance at this time.

As for including the Norton's Point Line in the unit for a five-cent fare in the proceeding before this Commission last summer for approval of the reorganization of the Brooklyn Rapid Transit System, the proceeding as such did not extend to a proposition of that character and the matter before the Commission at that time did not permit of any such action by the Commission.

TRANSIT COMMISSION,
By

Secretary.

1806—R. T. 5006

Agreement "CI"—Report by Chief Engineer Recommending Return of Certified Check in Sum of Two Hundred Dollars Deposited by Philip J. Healey, as Security for Repair of Bridge over Hubbards Creek under Contract for Making Test Borings—Approval Resolution

A report was presented from the Chief Engineer dated December 19, 1923, recommending the return of the certified check in the sum of Two Hundred (\$200) Dollars,

deposited by Philip J. Healey, as security for making repairs to bridge over Hubbards Creek, which was damaged in connection with the contract for making test borings at yard sites and extension of Broadway Subway, under Central Park.

The following resolution was adopted:

Whereas, By resolution dated November 7, 1923 Philip J. Healey was required to deposit with this Commission a certified check or cash in the sum of \$200 as security for the rebuilding of the foot bridge across Hubbards Creek in the Coney Island Yard destroyed by said contractor's vehicle while transporting equipment in the course of the performance of the contract dated May 28, 1923 between The City of New York, acting by the Transit Commission and said Philip J. Healey for test borings on the sites of the proposed Coney Island Yard (Borough of Brooklyn); and

Whereas, The Chief Engineer of the Commission by communication dated December 19, 1923 has reported that said bridge has been rebuilt by the contractor to a condition similar to and equally as good as originally existed and has recommended that the security deposited by the contractor to insure the rebuilding of the bridge be released,

Resolved, That the security deposited by Philip J. Healey for the rebuilding of the bridge across Hubbards Creek in the Coney Island Yard (Borough of Brooklyn) pursuant to resolution of this Commission dated November 7, 1923 and the said contract dated May 28, 1923 be released and the Secretary be and he is hereby authorized and directed to return the same to said Philip J. Healey.

1807—R. T. 7665

Routes Nos. 36 & 37, Section No. 1—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Manufacturing Beveled Blocks for Use under Contract for Installation of Switch Back Track and Miscellaneous Work East of Queensboro Plaza Station—Approval Resolution

A report was presented from the Chief Engineer dated December 19, 1923, recommending the establishment of a supplementary schedule item as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated August 2, 1923, between The City of New York, acting by the Commission and B. T. and J. J. Mack, Inc., for the installation of a switchback track near the Queensboro Plaza Station, Routes 36 and 37, having subject to the approval of the Commission agreed with the said Contractor upon the following schedule item:

Item No. 1-X—For the work of manufacturing approximately 340 beveled blocks of the dimensions directed by the Engineer in the field from City's material stored at Metropolitan and Bushwick Avenues in the Borough of Brooklyn, and the delivery of the finished blocks to the Works, the price of eighty-one cents (81c.) each.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1808—R. T. 7600

Route No. 52, Section No. 1—Report by Chief Engineer Recommending Approval of Lump Sum Price for Making Core Borings under Contract for Construction of Column Foundations—Approval Resolution

A report was presented from the Chief Engineer dated December 17, 1923, recommending the establishment of a lump sum price, as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item 150 of the contract dated March 20, 1923 between The City of New York, acting by the Transit Commission, and the Gustin-Morris Contracting Corporation, for the Construction of Column Foundations, Route No. 52, Section 1, Flushing Route, having,

subject to the approval of the Commission, agreed with the said Contractor upon the following supplementary schedule item:—

Item No. 3-A—For making 7½-inch core borings through the lower lift of four column foundations, the lump sum of \$517.50.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1809—R. T. 6685

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Installation of Additional Signal on Southbound Express Track at Grand Central Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated December 6, 1923, requesting approval of the installation of an additional signal on the southbound express track at the Grand Central Station of the Lexington Avenue Line at an estimated cost of \$2,400.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 14, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad and assigning Work Order No. DL-6-A thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated December 6, 1923, requested the approval of this Commission to the installation of an additional signal on the southbound express track at the Grand Central Station of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad, as defined and described in said Contract No. 3; and

Whereas, By communication dated December 14, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported with respect to said application; that the estimated cost of such work is \$2,400; that such proposed additional signal will allow a closer headway between southbound express trains entering said station, thus increasing the number of trains which can be passed through said station; that the heavy traffic at said point justifies the expenditure; that the estimated cost is reasonable; that the proposed installation is similar to one recently made on the northbound express track at said station, and recommend the approval of said proposal, subject to the condition that the location and all details of the installation of such additional signal shall be subject to the approval of the Chief Engineer of this Commission in advance of installation; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated December 19, 1923, has recommended that the cost of such work be classified as Additional Equipment for the Railroad and that Work Order No. DL-6-A be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that said proposal of Interborough Rapid Transit Company as aforesaid be and the same hereby is approved upon condition that the location and all details of installation of such additional signal shall receive the approval of the Chief Engineer of this Commission in advance of such installation, the cost of such work to be classified as Additional Equipment for the Railroad, as defined and described in said Contract No. 3 and as to which this Commission assigns Work Order No. DL-6-A.

1810—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for 5,000 Feet of Copper Cable—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated November 19, 1923, requesting approval of a proposed purchasing agent's order directed to Kerite Insulated Wire and Cable Company for furnishing 5,000 feet of copper cable at a cost of \$10,974.50 for use in supplying power to the third rails of the tracks and inspection barn at the 239th Street Yard.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 5, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Operating Materials and Supplies Account.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated November 19, 1923, has submitted for the approval of this Commission proposed purchasing agent's order dated November 19, 1923, directed to Kerite Insulated Wire and Cable Company for the following:

5,000 Ft. 2,000,000 C.M. strand copper cable, 127 strands 4/32 Kerite Ins. 1 tape, 2 W.P. braid.

Price: \$2,194.90 per M. Ft. \$10,974.50

which proposed purchasing agent's order has been caused to be designated as "Approval No. 508"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated December 5, 1923, have reported that no other bids were taken for this material since Kerite insulation is standard with the railroad company, for this type of work; that the use of this insulation has heretofore been approved by the Public Service Commission for the First District; that the cable is necessary to supply power to the third rails of the car-storage tracks and to the inspection barn, now being completed at the 239th Street Yard of the Railroad, described in said Contract No. 3 and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated December 18, 1923 has recommended that such portion of such cable as is necessary for original installation be classified as Operating Materials and Supplies Account.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval made part of said proposed purchasing agent's order, the cable to be classified as recommended by the Auditor of Rapid Transit Costs as hereinbefore indicated.

1811—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Ties, Slating, Guard Rail, etc., for Maintenance of All Divisions—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated December 1, 1923, requesting approval of a proposed purchasing agent's order directed to

the Ansley Lumber Company, for furnishing ties, slatting, guard rail, etc., for the maintenance of all divisions, at a cost of \$133,923.27.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer dated December 11, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the material as Operating Material and Supplies Account.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated December 1, 1923 has submitted for the approval of this Commission a proposed purchasing agent's order dated December 1, 1923 directed to Ansley Lumber Company for the following:

50,000 Ft. B. M. 1 $\frac{3}{4}$ " x 6" x 16' and up, slatting
 550,000 Ft. B. M. 2" x 6" x 18' and up, slatting
 40,000 Ft. B. M. 2 $\frac{3}{4}$ " x 9 $\frac{1}{2}$ " x 22' and up, planking
 365,000 Ft. B. M. 6" x 8" x 30' and up, Guard Rail
 371,200 Ft. B. M. 6" x 8" x 8' 0" Ties, 11,600 pcs.
 85,000 Ft. B. M. 6" x 8" x 8' 6" Ties, 2,500 pcs.
 126,000 Ft. B. M. 6" x 8" x 9' 0" Ties, 3,500 pcs.
 288,000 Ft. B. M. 6" x 8" x 12' 0" Ties, 6,000 pcs.
 24,000 Ft. B. M. 8" x 8" x 9' 0" Ties, 500 pcs.
 4,000 Ft. B. M. 10" x 10" x 30' Timber
 5,000 Ft. B. M. 10" x 12" x 24' to 30' Timber
 13,500 Ft. B. M. 12" x 12" x 30' Timber.

All of the foregoing to be Long Leaf Yellow Pine and to conform to the Manhattan Railway Division Standard Specifications for Track Timber, dated October 15, 1904.

1 $\frac{3}{4}$ " x 6" Slatting to be in length of 16' to 30' multiples of 2'.

2" x 6" Slatting to be in multiples of 4' 6" minimum length 18' and at least 50% to be 22' 6" and longer.

2 $\frac{3}{4}$ x 9 $\frac{1}{2}$ " Planking to contain 15% each of 22', 26' and 28', lengths, and the remainder to be 30' and longer.

6" x 8" Guard Rail to be 30' and up in lengths, multiples of 2'.

Ties to be saw-butted to exact length given.

Twenty (20) per cent of the items of 2" x 6" slatting and 6" x 8" guard rail to be shipped prior to the shipment of any other items.

All remaining shipments to embrace as nearly as possible an assortment of the different items proportionate in amount of each item to the total order.

Price: \$69.69 per M. Ft. Board Measure, finished sizes f. o. b. 159th Street and Harlem River Dock, N. Y. C. 2% ten days.

Total bid: \$133,923.27.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 509"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated December 11, 1923 reported that the following bids were received for such material:

Ansley Lumber Company.....	\$69.69 per M. Ft.
Hughes Lumber Co.....	83.85 per M. Ft.
Robinson Lumber Co.....	85.00 per M. Ft.
Close Lumber Co.....	87.50 per M. Ft.
Long Bell Lumber Co.....	88.00 per M. Ft.
McLeod Lumber Co.....	93.00 per M. Ft.

that Invitations to bid were sent to thirty-seven other companies but no other bids were received; that such material is necessary for the maintenance of the railroad both in the Manhattan and Subway Divisions of said Interborough Rapid Transit Company; that the price to be paid is reasonable; that the quantity of lumber to be purchased is reason-

able for the amount of maintenance work to be done and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated December 14, 1923 has recommended that the cost of such material be classified as Operating Material and Supplies Account,

Resolved, That said reports and recommendations so submitted be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such material to be classified as Operating Material and Supplies Account.

1812—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Soot Blowers for 59th Street Power House—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated December 4, 1923, requesting approval of a proposed purchasing agent's order directed to Kissick-Fenno Company, Inc., for furnishing four sets of Soot Blowers to be installed in the 59th Street Power House at a cost of \$3,916.

A report was presented from the Consulting Engineer, Dr. Charles E. Lucke, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad to be performed under Work Order D-11-A, heretofore assigned.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated December 4, 1923, has submitted for the approval of this Commission a proposed purchasing agent's order directed to Kissick-Fenno Co., Inc., for the following:

4 Sets Vulcan Soot Blowers, with Ratchet Swivel Heads	
Special parts only as specified, with Ratchet Swivel Heads, per boiler..	\$735.00
Element No. 1, of Vulcan Hardite, replacing Element No. 7, per boiler	85.00
	<hr/>
	\$820.00
Less 5% on purchase of blowers for 4 boilers.....	41.00
	<hr/>
	\$779.00
Erection, per boiler	200.00
	<hr/>
Price per set, delivered and erected.....	\$979.00
Total Bid: \$3,916.00	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 511"; and

Whereas, The Consulting Engineer, Charles E. Lucke, of this Commission, has, by communication dated December 14, 1923, reported that these soot blowers are necessary as part of the equipment of the four new boilers now being installed in the 59th Street Power House; that the following bids were received for such work:

- Bayer Company, \$3,900, Within 60 days from date of order
- Kissick-Fenno Co., Inc., \$3,916 (2 sets within 4 weeks from date of order and 2 sets by March 1st, 1924).
- Diamond Power Specialty Corp., \$7,075, (Within 5 or 6 weeks from date of order).

; that it is believed the type of soot blower cleaner submitted by Kissick-Fenno Co., Inc. is the better type of the two lower bidders, and recommends that said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated December 18, 1923, has recommended that such work be classified as Additional Equipment for the Railroad under Work Order No. D-11-A heretofore assigned,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission, made part of said proposed purchasing agent's order, the cost of such work to be classified as Additional Equipment for the Railroad under Work Order No. D-11-A, heretofore assigned by this Commission.

1813—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase and Installation of Indication and Alarm System of Track Circuit Breakers in Certain Substations—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated November 20, 1923, requesting approval to the purchase and installation in substations Nos. 11, 12, 13, 26, 40 and 42, of an indication and alarm system of track circuit breakers.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 5, 1923, stating that the approximate cost will be \$5,300 and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad and assigning Work Order No. D-34-A thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3 said Interborough Rapid Transit Company by communication dated November 20, 1923, has requested the approval of this Commission to the purchase and installation by it in its Substations Nos. 11, 12, 13, 26, 40 and 42 of an indication and alarm system of the track circuit breakers of the New York Rapid Transit Corporation the opening and closing of which are controlled from said substations in connection with the supply of power pursuant to the agreement of August 1, 1917; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated December 5, 1923 have reported that the approximate cost will be \$5,300 which is reasonable; that the installation of such equipment is desirable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated December 18, 1923, has recommended that the cost of such work be classified as Additional Equipment for the Railroad and that Work Order No. D-34-A be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company be and the same hereby is approved; the cost of the purchase and installation of such material to be classified as Additional Equipment for the Railroad as defined and described in said Contract No. 3 and as to which this Commission assigns Work Order No. D-34-A.

1814—R. T. 6567

Contract No. 3—Communication from Interborough Rapid Transit Company Submitting Copy of Objections to Thirty-Seventh Quarterly Determination of Cost—Referred to Chief Accountant

The Commission referred to the Chief Accountant, a communication dated December 21, 1923, from the Interborough Rapid Transit Company, by J. L. Quackenbush, General Attorney, submitting copy of objections by the Interborough Rapid Transit Company, to the Thirty-Seventh Quarterly Determination of Cost, rendered by the Chief Engineer, under Contract No. 3, the original of which had been filed with the Chief Engineer.

1815—R. T. 6553

Contract No. 4—Stipulation with New York Rapid Transit Corporation Extending Time to January 21, 1924, Within Which to File Objections to Thirty-seventh Quarterly Determination of Cost—Approved

The Commission approved a stipulation dated December 22, 1923, between the Commission and the New York Rapid Transit Corporation, extending the time to and including January 21, 1924, within which to file with the Chief Engineer of the Transit Commission, objections to the Thirty-Seventh Quarterly Determination of Cost rendered under Contract No. 4 and the Related Certificates.

1816—R. T. 6567

Contract No. 3—Communication from Acting Corporation Counsel Requesting Objections Be Made to Certain Items in Thirty-seventh Quarterly Determination of Cost—Communication to Chief Engineer Making Objections on Behalf of Corporation Counsel—Approved

A communication was presented from Arthur J. W. Hilly, Acting Corporation Counsel dated December 21, 1923, requesting that objections be made to certain items in the Thirty-Seventh Quarterly Determination of Cost, rendered under Contract No. 3.

The following communication to the Chief Engineer, was approved:

December 21, 1923.

ROBERT RIDGWAY, Esq.,
Chief Engineer,
TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sir:

The Transit Commission of the State of New York, by virtue of the provisions of Chapter 134 of the Laws of 1921 has examined the Quarterly Determination rendered by you dated August 30, 1923 for the period beginning April 1, 1922 and ended June 30, 1922, being the Thirty-seventh Quarterly Determination made pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, and desires to apprise you that it has no objections (except as hereinafter quoted) to file to the determinations therein made. On behalf of the Corporation Counsel of The City of New York, the Transit Commission, in compliance with the written request of said Corporation Counsel dated December 21, 1923 herewith files with you the following objections to the determinations made as aforesaid.

"TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sirs:

I am in receipt of the Thirty-seventh Quarterly Determination dated August 30, 1923, of the Chief Engineer for the Transit Commission, under contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, of the Cost Paid or Accrued to June 30, 1922, of Contract 3, together with Report of the Cost in Operation to June 30, 1922.

The City of New York objects to the said Determination as prepared by the Chief Engineer for the Transit Commission and especially refers to the following items; and the reasons for its objections thereto, to wit:

- (1) On Page 44 of the Thirty-seventh Determination this entry:
C. S. 33-1—2-3000 Ampere Breakers with boxes on
account of Seventh Avenue Subway Connection.. \$109.33
- (2) Also on Page 44:
C. S. 47-1—Repairs to plumbing of the Cortlandt
Street Station 59.50
This is a maintenance charge.
- (3) On Page 49:
C. E. 10-1—Changes in interlocking plant at Atlantic
Avenue on account of connection with Eastern
Parkway Line \$600.00
This item should be charged to 'Equipment.'
- (4) On Page 160 of the Thirty-seventh Determination, it is
stated that the total cost reported to June 30, 1922,
under Agreement No. 4 is..... \$103,998.34

Agreement No. 4 was consented to in the amount of \$100,000 by the Board of Estimate and Apportionment; and exception is taken to the inclusion under that agreement of all cost in excess of the amount consented to by the Board.

(5) Exception is taken to the inclusion within the Thirty-seventh Determination of each item on Pages 161 and 162 under proposed agreement No. 8.

Irrespective of the equity or fairness of the items so listed, exception is taken to the inclusion in the Determination of cost of any amount under a proposed agreement before it has received the consent of the Board of Estimate and Apportionment as provided by Contract No. 3.

(6) Objection is made to the inclusion within any or each of the Determinations of items covering the cost of the installation, maintenance, operation or removal of temporary equipment. It is conceded that the removal or replacement of items of equipment where such removal or replacement is incidental to construction may be properly charged as construction items. But definite exception is taken to the inclusion within construction costs of the installation, maintenance, operation or removal of temporary equipment. Equipment, its installation and operation, whether temporary or permanent, are proper charges against the operating Company's contribution to equipment under Contract No. 3, and should not under any circumstances be included in construction costs.

(7) Exception is taken to the inclusion within the Determination of items covering cost of construction or erection of special houses, shelter or protective coverings of special or regular items of equipment, except where the same are or may be properly included within the building or shelter on elevated or proposed portions of rapid transit lines for signal or other purposes. It is contended that the covering and protection of such items of equipment are in a large measure incidental to the nature of that equipment and that the City is not bound to cover or protect equipment aside from the general construction of the subway and the masonry ducts therein.

(8) Objection is made to the inclusion within any or in part the cost of replacements, removals, rearrangements, relocations, etc., of property previously existing. The amount of depreciation accrued on the replaced items should be credited

and only net cost representing net additions should be included within the determinations, in accordance with the definitions of costs of Contract No. 3.

(9) Exception is taken to items of interest on the 8 per cent. notes. These excessive charges of interest were made necessary because of the profligate manner in the handling of its finances by the Interborough Rapid Transit Company. Also, a large part of the moneys raised by the note issue were used to reimburse the treasury for past construction expenditures and not to finance new construction. Thus, objection is made to the charges on page 172 of \$409,999.52.

(10) Objection is made to the inclusion within any and each of the Determinations of items covering the allowance for Superintendence because the same are excessive and unreasonable.

(11) The City also takes exception to the inclusion within the Determination of each and every one of the several items which have been deducted by the Chief Engineer as improper charges of the lessee and which are given in detail upon page 144 of the Volume of Determinations.

In addition to the objections above set forth, further objection is made to the items so determined by the Chief Engineer by reason of the fact that they are deemed, by The City of New York, to be excessive, improper and unauthorized, by the provisions of Contract No. 3.

I, therefore, respectfully request that you file on behalf of The City of New York, with the Chief Engineer, objections to his determination, in order that redeterminations may be made by him under and in pursuance of the provisions of Contract No. 3.

Respectfully yours,

ARTHUR J. W. HILLY,
Acting Corporation Counsel."

1817—R. T. 6553

Contract No. 4—Communication from Acting Corporation Counsel Requesting Objections Be Made to Certain Items in Thirty-seventh Quarterly Determination of Cost—Communication to Chief Engineer Making Objections on Behalf of Corporation Counsel—Approved

A communication was presented from Arthur J. W. Hilly, Acting Corporation Counsel dated December 21, 1923, requesting that objections be made to certain items in the Thirty-Seventh Quarterly Determination of Cost, rendered under Contract No. 4.

The following communication to the Chief Engineer, was approved:

December 21, 1923.

ROBERT RIDGWAY, Esq.,
Chief Engineer,
TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sir:

The Transit Commission of the State of New York, by virtue of the provisions of Chapter 134 of the Laws of 1921 has examined the Quarterly Determination rendered by you dated August 30, 1923, for the period beginning April 1, 1922 and ended June 30, 1922, being the Thirty-seventh Quarterly Determination made pursuant to the provisions of

(1) the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation;

(2) the certificate dated March 19, 1913 granted by the Public Service Commission for the First District to New York Municipal Railway Corporation for additional tracks;

(3) the certificate dated March 19, 1913 granted by the Public Service Commission for the First District to New York Municipal Railway Corporation for elevated extensions;

and desires to apprise you that it has no objections (except as hereinafter quoted) to file to the determination therein made.

On behalf of the Corporation Counsel of the City of New York the Transit Commission, in compliance with the written request of said Corporation Counsel, dated December 21, 1923, herewith files with you the following objections to the determinations made as aforesaid:

"TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Sirs:

I am in receipt of the Thirty-seventh Quarterly Determination dated August 30, 1923, of the Chief Engineer for the Transit Commission under the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, and under the certificates related thereto of the Costs Paid or Accrued to June 30, 1922, of The Railroad, Reconstruction of Existing Railroads, Additional Tracks, Elevated Extensions.

The City of New York, under and in pursuance of the provisions of Contract No. 4, hereby files with you its objections to the Thirty-seventh Quarterly Determination of the Chief Engineer for the Transit Commission, dated August 30, 1923, and especially refers to the following items and the reasons for its objections thereto, to wit:

(1) Objection is made to the inclusion within any or each of the determinations of items covering in whole or in part of the cost of replacements, removals, rearrangements, relocations, etc., of property previously existing. The amount of depreciation accrued on the replaced items should be credited and only net cost representing net additions should be included within the determinations in accordance with the definitions of cost of Contract No. 4 and Related Certificates.

(2) The City takes exception to the interest cost as charged by the lessee under Contract No. 4; and supports the contention of the Chief Engineer that \$4,747,031.07 should be deducted from the Company's interest charge.

(3) The City also joins in taking exception to the inclusion in the Company's cost of the itemized charges noted on Page 198 in the 37th Determination under the heading of "Summary of Adjustments to Company's Reported Costs."

In addition to the objections above set forth, further objection is made to the items so determined by the Chief Engineer by reason of the fact that they are deemed, by The City of New York, to be excessive, improper and unauthorized under the provisions of Contract No. 4.

I, therefore, respectfully request that you file, on behalf of the City, with the Chief Engineer, objections to the said determination, in order that a redetermination may be made by him under and pursuant to the provisions of Contract No. 4.

Respectfully yours,

ARTHUR J. W. HILLY,
Acting Corporation Counsel."

1818—R. T. 7697

Additional Tracks and Extensions Certificates—Communication from Acting Corporation Counsel Requesting Objections Be Made to Certain Items in Statement of Cost of Additional Tracks and Extensions, for Period Ended June 30, 1922—Communication to Chief Engineer Making Objections on Behalf of Corporation Counsel—Approved

A communication was presented from Arthur J. W. Hilly, Acting Corporation Counsel, dated December 21, 1923, requesting that objections be made to certain items in the Statement of Cost of Additional Tracks and Extensions, rendered by the Chief Engineer, for the period ended June 30, 1922, under the certificates granted to the Manhattan Railway Company and the Interborough Rapid Transit Company.

The following communication to the Chief Engineer was approved:

December 21, 1923.

ROBERT RIDGWAY, Esq.,
Chief Engineer,
TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sir:

On behalf of the Corporation Counsel of The City of New York the Transit Commission in compliance with the written request of said Corporation Counsel dated December 21, 1923, herewith files with you the following objections to your report dated August 30, 1923, of the Cost to June 30, 1922 of Manhattan Railroad Extensions and Additional Tracks authorized by the certificate granted to Interborough Rapid Transit Company for Elevated Extensions and the certificate granted to the Manhattan Railway Company for Additional Tracks dated March 19, 1913, granted by the Public Service Commission for the First District:

"TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sirs:

I am in receipt of the Report dated August 30, 1923, of the Chief Engineer for the Transit Commission of the Cost to June 30, 1922, of Manhattan Railroad Extensions and Additional Tracks, authorized by the certificate granted the Interborough Rapid Transit Company for Elevated Extensions and certificate granted the Manhattan Railway Company for Additional Tracks, March 19, 1913, by the Public Service Commission for the First District.

The City of New York objects to the said Report of the Chief Engineer for the Transit Commission, and especially refers to the following items and the reasons for its objections thereto, to wit:

(1) Objection is made to the inclusion within any or each of these reports of items covering in whole or in part the cost of replacements, removals, rearrangements, relocations, etc., of property previously existing. The amount of depreciation accrued on the replaced items should be credited and only net cost representing net additions should be included in these costs, in accordance with the definitions of costs of the certificates granted to the Interborough Rapid Transit Company and to the Manhattan Railway Company.

(2) Exception is taken to items of interest on the 8 per cent. notes. These excessive charges of interest were made necessary because of the profligate manner in the handling of its finances by the Interborough Rapid Transit Company. Also, a large part of the moneys raised by the note issue were used to reimburse the treasury for past construction expenditures and not to finance new construction. Thus, objection is made to the following amounts on pages 104 and 105:

\$32,882.94
27,767.37
27,767.37
5,134.50

(3) Objection is made to the inclusion within any and each of the Determinations of items covering the allowance for Superintendence because the same are excessive and unreasonable.

(4) The City also joins in taking exception to the inclusion in costs of the itemized charges noted on pages 2 and 3 in the Report under the heading of 'Questioned Items.'

In addition to the objections above set forth, further objection is made to the items contained in the said Report of Cost by reason of the fact that they are deemed, by the City of New York, to be excessive, improper and unauthorized.

I, therefore, respectfully request that you file on behalf of The City of New York, with the Chief Engineer, objections to his Report dated August 30, 1923, of the Cost to June 30, 1922, and that these items be disallowed.

Respectfully yours,

ARTHUR J. W. HILLY,
Acting Corporation Counsel."

Although the Transit Commission does not understand that your report constitutes any "statement in writing" such as Article XI of the Elevated Extensions Certificate and Article X of the Additional Tracks Certificate contemplate are to be presented to the Commission by Interborough Rapid Transit Company and Manhattan Railway Company, and although under said Certificates there are no provisions for "determinations," nor even for "reports," to be made by the Chief Engineer, nor for objections to be made thereto, the above quoted objections on behalf of the Corporation Counsel are made to you for such effect, if any, to which they may be entitled. The making of the above objections to your said report, on behalf of the Corporation Counsel, will not, of course, serve in any way to affect or prejudice any right on the part of the Commission to agree to or to object to any statement or statements in writing, such as are contemplated by said certificates, whenever any such statements shall have been presented to the Commission.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1819—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing Car Heaters for Fifty New Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated December 3, 1923, requesting approval of a proposed purchasing agent's order directed to the Consolidated Car Heating Company, for furnishing 1500 car heaters, at a total cost of \$12,750, for installation in 50 new trailer cars.

A report was presented from the Engineer of Equipment and Operation, and the Chief Engineer dated December 11, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment, to be performed under Work Order No. MBA-25 heretofore assigned.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4 has submitted for the approval of this Commission by communication dated December 3, 1923, a proposed purchasing agent's order dated December 1, 1923, directed to Consolidated Car Heating Co. for the following:

For Trailer Cars 4000 to 4049 Inclusive

1500 Panel Type Electric Car Heaters, Dimensions and Drilling same as shown on Plan Sk. B-407 furnished \$8.50 Each Delivered

which proposed purchasing agent's order has been caused to be designated as "Approval No. 391"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated December 11, 1923, reported that the said car heaters are necessary for installation in the fifty new trailer cars now being procured under said Contract No. 4; that the following bids were taken for such material:

Consolidated Car Heating Co.....	\$8.50 each
Gold Car Heating and Lighting Co.....	8.25 each
Cutler Hammer Mfg. Co.....	7.90 each

that the heaters are a standard item of car equipment; that the proposed heater is superior to any of those proposed by the other bidders and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated December 19, 1923, has recommended that the cost of such equipment be classified as Additional Equipment for the Railroad under Work Order No. MBA-25 heretofore assigned by this Commission,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such equipment to be classified as Additional Equipment for the Railroad, as defined and described in said Contract No. 4, under Work Order No. MBA-25 heretofore assigned by this Commission.

1820—R. T. 6695

Contract No. 4—Application by New York Rapid Transit Corporation Requesting Approval of Installation of Signals at Stillwell Avenue Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated November 15, 1923, requesting approval of the installation of a set of signals at the southerly end of the platform of the Stillwell Avenue Station at a cost of \$800.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated December 19, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work and assigning Work Order No. MCR-20 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, W. S. Menden as President of New York Rapid Transit Corporation, the successor to the rights and obligations under said Contract No. 4 addressed to the Chief Engineer of this Commission under date of November 15, 1923, the following communication:

"On Track 'C' at Stillwell Avenue Station, Coney Island, our summer operating arrangements requires six (6) car standing room at the northerly end of the station track and in the winter six (6) car standing room at the southerly end of the station track. In the present signaling, signals C-792 and C-793 are located near the southerly end of the platform so that while right for the summer operation they do not provide the proper arrangement for the winter operation.

We proposed to install a duplicate set of signals six (6) car lengths north of the southerly end of the platform with an arrangement of duplicate wiring connections so that one pair of signals can be cut into service in the spring and the other in the fall. This will involve an expenditure of approximately \$800.

Will you please advise if you approve of this additional signaling and also the classification of this work from an accounting standpoint."

; and

Whereas, The Chief Engineer of this Commission by communication dated December 19, 1923 recommends that the said proposal aforesaid be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated December 19, 1923 has recommended that the cost of such work be paid for out of that portion of the moneys of the "Depreciation Fund for Existing Railroads," which has been made available by Retirements from Service and that Work Order No. MCR-20 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of New York Rapid Transit Corporation as hereinbefore

set forth be and the same hereby is approved, the cost thereof to be paid for out of that portion of the moneys of the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from Service and as to which this Commission assigns Work Order No. MCR-20.

1821—R. T. 6668, 6895

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Installation of Additional Signal Apparatus in Montague Street Tunnel—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated November 28, 1923, requesting approval of a proposed purchasing agent's order directed to the General Railway Signal Company for additional signal apparatus in the Montague Street Tunnel from a point west of Court Street Station to the DeKalb Avenue Station at an estimated cost of \$25,033.50.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 8, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as described below.

The following resolution was adopted:

Whereas, By resolution adopted July 24, 1923 this Commission, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4 approved the proposal of New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4 to make certain signal changes and the installation of additional signal apparatus in the Montague Street Tunnel of the Broadway-Fourth Avenue line of the Railroad as described in said Contract No. 4 from a point west of Court Street Station to the DeKalb Avenue Station, in the Borough of Brooklyn, at an estimated cost of \$35,100, upon the condition that the cost thereof be charged as follows:

(1) That the cost of new signal apparatus on account of placing Lawrence Street Station in operation be classified as Equipment of the Railroad for Initial Operation.

(2) That the cost of new signal apparatus necessary to expedite train operation, to an amount equal to the original cost of facilities retired on account of this work, be charged to maintenance. The salvage of facilities retired to be credited to maintenance and the cost of removing or rearranging existing facilities to be charged to maintenance.

(3) That the cost of new signal apparatus necessary to expedite train operation, in excess of the original cost of facilities retired on account of this work, be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. MBA-26.

; and

Whereas, By communication dated November 28, 1923 said New York Rapid Transit Corporation, pursuant to the authority aforesaid, has submitted for the approval of this Commission, a proposed purchasing agent's order dated November 27, 1923 directed to General Railway Signal Company for the following:

General Railway Signal Company Catalogue

28	40 way iron junction boxes, Ref. GRS Co's drawing 45850— A Pg. 1, complete with RSA terminals.....	\$37.50 each net
6	98 way iron junction boxes, Ref. GRS Co. drawing 48590— 1 complete with RSA terminals.....	75.00 each net
17	Junction boxes complete for use with standard relay boxes, Ref. GRS Co. Dwg. 48783. Revision dated 4/19/19.....	25.00 each net

- 2 Line Transformers complete with oil and without hanger irons. Capacity 1½ K. V. A. Primary Volts 2200, Secondary volts 110 (55-55), Frequency—25 cycle. Primary winding to have 5% & 10% reduced voltage taps. Ref. GRS Co's Type L, size 3..... \$80.00 each net

f. o. b. Point of shipment

Part shipment within two months and shipment completed within three to four months from date of order.

Additional items forming part of this proposed order as per list attached.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 390"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have by communication dated December 8, 1923 reported that the work indicated in said proposed purchasing agent's order is that authorized by resolution adopted on July 24, 1923 as aforesaid; that the total cost of such work will be \$25,033.50; that the following companies were requested to bid on the material

- Federal Signal Co.
- Union Switch and Signal Co.
- Hall Switch and Signal Co.
- Chicago Railway Signal and Supply Co.

but did not submit a bid; that the unit prices to be paid are reasonable; that the General Railway Signal Company has furnished satisfactory apparatus in the past and is a reliable concern and recommend the approval of said proposed purchasing agent's order so submitted; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated December 18, 1923 has recommended that the cost of such material be classified in accordance with the direction with respect thereto contained in the resolution of July 24, 1923 adopted as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such material to be classified in accordance with the direction and pursuant to the work order number assigned in the resolution of July 24, 1923 as aforesaid.

1822—R. T. 6597

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing Turnstiles and Parts—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated October 26, 1923, requesting approval of a proposed purchasing agent's order directed to Perey Mfg. Company, Inc., for furnishing prepayment turnstiles and parts for use at various stations at a cost of \$10,250.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated December 1, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work and assigning Work Order Nos. as described below:

The following resolution was adopted:

Whereas, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract

No. 4 has submitted for the approval of this Commission proposed purchasing agent's order dated October 26, 1923 directed to Perey Mfg. Company, Inc., for the following:

Furnish and deliver the following equipment:

Item No. 1—One (1) New Standard Wing Type Manual Release Passimeter, equipped with wooden arms, for the sum of..... \$160.00

Item No. 2—Seven (7) Electrically Operated Prepayment Passimeters with coin boxes, etc. These Passimeters are to have cast wings for fastening same to side of ticket booth same as standard wing type passimeters.

Passimeters shall be equipped with automatic locking and magnetic release mechanism, compression spring centering device, quick break circuit breaker, wooden arms, etc. all as indicated upon our drawing C-5742.

Coin boxes, complete, to be 12"x12"x3'-3¾" with automatic magnetic release, coin return, counting register and money bag. The entire mechanism, shall be properly mounted in the coin box, ready for operation, all as shown on Dwg. C-5744 for the sum of.. \$1,750.00

Item No. 3—Thirty (30) Electrically Operated prepayment passimeters with coin boxes, etc. complete.

Passimeters shall be equipped with automatic locking and magnetic release mechanism, compression spring centering device, quick break circuit breaker, wooden arms, etc. all as indicated upon our Dwg. C-5742.

Coin boxes to be 12"x12"x3'-3¾" and are to be furnished complete with automatic magnetic release, coin return and counting register. The entire mechanism shall be equipped with a money drawer, together with a shutter with automatic locking device and lock. One additional money drawer shall be furnished with each coin box, all as indicated upon our Dwgs. C-5740 and C-5743 for the sum of..... \$7,500.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 385"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated December 1, 1923, reported that such material constitutes turnstiles and parts for forty-one automatic turnstile installations and one manually-controlled turnstile at a total cost of \$10,250; that such turnstiles are to be installed in the stations of the 14th Street-Eastern Line, Lawrence Street Station, Montague Street, Union Square and Queens Plaza Stations, Broadway-Fourth Avenue Line and Twentieth Avenue Station of the West End Line; that the use of automatic turnstiles of this type has been approved by this Commission; that the prices are reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated December 1, 1923 has recommended that the cost of such material be classified as follows:

Prepayment turnstiles and parts for 14th St.-Eastern Line, and
Prepayment turnstiles and parts for Lawrence St. Station of the Broadway-4th Avenue Line:

Equipment of The Railroad.

Prepayment turnstile parts for 20th Ave. Station of the West End Branch, and
Prepayment turnstile parts for Queens Plaza Station,

Broadway-4th Avenue Line:

Additional Equipment for The Railroad under Work Order No. MBA-21 heretofore assigned.

Prepayment turnstiles for Union Square Station of the Broadway-4th Ave. Line:

Additional Equipment for The Railroad under Work Order No. MBA-14 heretofore assigned.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such material to be classified as recommended by the Auditor of Rapid Transit Costs as hereinbefore set forth.

1823—R. T. 7592

Route No. 11-B, Section No. 3—Communication from New York Rapid Transit Corporation Submitting Plan Showing Additional Tracks Which Should Be Constructed Between 85th Street and 95th Street Stations—Report by Chief Engineer Recommending that Company Be Advised that Extension Will Be Built in Accordance with Contract Drawings—Report by Chief Engineer Approved

A communication was presented from the New York Rapid Transit Corporation dated December 1, 1923, submitting a plan showing additional tracks which should be constructed between 85th Street and 95th Street Stations of the Fourth Avenue Subway so as to provide adequate switching and storage facilities.

A report was presented from the Chief Engineer dated December 17, 1923, calling attention to his recommendation dated July 21, 1923, which was approved on September 28, 1923, that the company be advised that the additional storage tracks will not be considered and that the extension will be constructed in accordance with the contract drawings already prepared and recommending that the company be again advised that the extension will be built in accordance with the drawings of the work which is now under contract.

Upon motion duly seconded and adopted, the report was approved.

1824—R. T. 6317

Routes Nos. 36 & 37—Petition from Queens Chamber of Commerce Requesting Approval of Addition of Name of Astoria Avenue to Name of Hoyt Avenue Station—Report by Chief of Transit Bureau Recommending Approval—Approved

A petition was presented from the Queens Chamber of Commerce dated December 19, 1923, requesting the addition of the name of Astoria Avenue to the name of the Hoyt Avenue Station of the Astoria Branch of the Queensboro Subway.

A report was presented from the Chief of the Transit Bureau dated December 26, 1923, recommending that the name of Astoria Avenue be added to the Hoyt Avenue signs.

Upon motion duly seconded and adopted the petition and report were approved and referred to Counsel to prepare the necessary papers.

1825—Cases 1264, 1380

The Long Island Railroad Company—Alteration of Grade Crossings at Hempstead and Jamaica Turnpike, etc.—Report and Opinion Approved—Resolution Directing Executing of Certificate of Partial Performance of Work and Further Payment on Account Approved—Certificate Executed

The Secretary presented a Report and Opinion in Cases Nos. 1264 and 1380, dated December 21, 1923, by Carleton S. Cooke, Assistant Counsel, recommending partial payment of \$86,000 each by the City and State of New York, on account of the elimination by The Long Island Railroad Company of grade crossings with its tracks at Hempstead and Jamaica Turnpike et al.

Thereupon the above mentioned Report and Opinion in Cases Nos. 1264 and 1380 was approved, a resolution therein approved and ordered filed in the following form:

Present:

GEORGE McANENY, Chairman, LE ROY T. HARKNESS, JOHN F. O'RYAN,	}	Commissioners.
--	---	----------------

IN THE MATTER of the Hearing on Motion of the Commission on the question of alterations and changes in the following grade crossing with the tracks of The Long Island Railroad Company: Hempstead and Jamaica Turnpike
IN THE MATTER of the Hearing on Motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of The Long Island Railroad Company: Bennett or Baylis Avenue Wertland Avenue Creed Avenue Madison Avenue

CASE No. 1264.

RESOLUTION AUTHORIZING
 CERTIFICATE OF PARTIAL
 PERFORMANCE OF WORK AND
 PAYMENT ON ACCOUNT.

CASE No. 1380.

Whereas, A final order and determination herein was made by the Public Service Commission for the First District on December 8, 1911 and modified by the order of the Transit Commission on December 7, 1922 determining the manner in which the following grade crossings with the tracks of The Long Island Railroad Company should be altered or changed, viz: Hempstead and Jamaica Turnpike, Bennett or Baylis Avenue, Wertland Avenue, Creed Avenue and Madison Avenue; and

Whereas, The Long Island Railroad Company has proceeded with the work of altering or changing said grade crossings substantially as required by said order and determination and has made substantial progress in such work; and

Whereas, Said Long Island Railroad Company has submitted a second verified intermediate or partial statement or account to the Commission showing certain expenditures by it in and about the work of carrying out the provisions of said order and determination; and

Whereas, After a hearing on said second partial accounting duly held on December 18, 1923, before Carleton S. Cooke, Assistant Counsel to the Commission, designated and certified to conduct the hearing herein by resolution of the Commission dated December 5, 1923 pursuant to Sections 8 and 11 of the Public Service Commission Law, the Commission after reading and filing the report and opinion of said Assistant Counsel, dated December 21, 1923 is of the opinion that the Long Island Railroad Company has expended at least the sum of \$766,755.42 on account of the necessary work of carrying out the provisions of said order and determination aforesaid, provided, however, that the rights of the Commission and of the City of New York to object to or contest any of the items or expenditures in said partial accounting should be reserved without prejudice to objection or contest of any of such items or expenditures upon future partial or final accountings herein and that no party shall upon future or partial accountings herein be precluded from contesting any expenditures made or hereafter to be made during the entire performance of the work necessary to comply with said order as modified; and

Whereas, By resolution and certificate of the Commission dated September 6, 1923, the Transit Commission found that a payment of \$70,000 each by the State of

New York and the City of New York to the Long Island Railroad Company on account of the balance due from the State and City to said railroad subject to the proviso contained in such resolution and certificate,

Now, Therefore, It is

Resolved, That the Chairman and Secretary of the Commission be and they are hereby authorized to execute and file with the Comptroller of the State of New York a certificate in the form attached hereto and made a part hereof that work to the extent of at least \$766,755.42 has been properly performed by the Long Island Railroad Company on account of the necessary work of carrying out the provisions of said order and determination subject to the proviso aforesaid.

Further Resolved, That pursuant to the provisions of the Railroad Law, payment by the State of New York to the Long Island Railroad Company of \$86,000, being a proper and conservative payment on account of the balance due or to become due from the State of New York to the Long Island Railroad Company as its share of the cost of said work is hereby directed.

Further Resolved, That pursuant to the provisions of the Railroad Law, payment by the City of New York to the Long Island Railroad Company of \$86,000, being a proper and conservative payment on account of the balance due or to become due from the City of New York to the Long Island Railroad Company as its share of the cost of said work is hereby directed.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

The Certificate authorized by the foregoing resolution was executed in the following form:

STATE OF NEW YORK,
TRANSIT COMMISSION.

<p>IN THE MATTER of the Hearing on Motion of the Commission on the question of alterations and changes in the following grade crossing with the tracks of The Long Island Railroad Company: Hempstead and Jamaica Turnpike</p>	<p>CASE No. 1264.</p> <p>CERTIFICATE OF PARTIAL PERFORMANCE OF WORK AND PAYMENT ON ACCOUNT. DECEMBER 27, 1923.</p>
<p>IN THE MATTER of the Hearing on Motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of The Long Island Railroad Company: Bennett or Baylis Avenue Wertland Avenue Creed Avenue Madison Avenue</p>	<p>CASE No. 1380.</p>

A final order and determination having been made herein on December 8, 1911 by the Public Service Commission for the First District and modified by order of the Transit Commission on December 7, 1922, determining the manner in which the following grade crossings with the tracks of the Long Island Railroad Company should be altered or changed. Hempstead and Jamaica Turnpike, Bennett or Baylis Avenue, Wertland Avenue, Creed Avenue, Madison Avenue, and it appearing that the Long Island Railroad Company, pursuant to the provisions of the Railroad Law and under the supervision and direction of this Commission has proceeded with the work of altering or changing said grade crossings substantially as required by said order and determination

and has made substantial progress in such work, and this Commission having theretofore by certificate of partial performance of work and payment on account authorized by resolution of the Commission dated September 6, 1923 certified first payments on account to the Long Island Railroad Company of \$70,000 each by the State of New York and the City of New York, and the Long Island Railroad Company having on or about the 3rd day of October, 1923 submitted to the Transit Commission its request for a second partial or intermediate accounting and the said railroad company having further submitted its verified intermediate or partial statement of account showing certain expenditures by it in and about the work of carrying out the provisions of said order and determination, and a hearing on said partial accounting having been held before Carleton S. Cooke, Assistant Counsel to the Commission, duly designated to conduct the same on the 18th day of December, 1923; and it appearing that the Long Island Railroad Company has expended at least the sum of \$766,755.42 on account of the necessary work of carrying out the provisions of said order and determination, provided however that the rights of the Commission and of the City of New York to object to or contest any of the items or expenditures in said second partial accounting shall be reserved without prejudice to objection or contest of any of such items or expenditures upon future partial or final accountings herein and that no party shall upon future partial or final accountings herein be precluded from contesting any expenditures nor from submitting any further expenditures made or hereafter to be made during the entire performance of the work necessary to comply with said order as modified,

Now, Therefore, The Transit Commission of the State of New York does hereby certify:

First: That an order determining the manner in which the following grade crossings with the tracks of the Long Island Railroad Company should be altered or changed: Hempstead and Jamaica Turnpike, Bennett or Baylis Avenue, Wertland Avenue, Creed Avenue, Madison Avenue, was made by the Public Service Commission for the First District on December 8, 1911 and modified by order of the Transit Commission on December 7, 1922.

Second: That heretofore and on or about the 6th day of September, 1923, this Commission by resolution authorized a certificate of partial performance of work and payment on account by the City of New York and the State of New York to the Long Island Railroad Company of \$70,000 each subject to the provisos contained in said certificate.

Third: That the Long Island Railroad Company has proceeded with the work of altering said grade crossings and has made further substantial progress therewith under the supervision of the Commission pursuant to said order and determination.

Fourth: That the Long Island Railroad Company has expended in such work at least the sum of \$766,755.42, the items and expenditures in connection with such work being subject to the proviso hereinbefore set forth.

Fifth: That subject to such proviso a second payment of \$86,000 on account of the balance due from the State of New York to the Long Island Railroad Company is due from the State of New York to the Long Island Railroad Company.

Sixth: That subject to such proviso a second payment of \$86,000 on account of the balance due from the City of New York to the Long Island Railroad Company is due from the City of New York to the Long Island Railroad Company.

TRANSIT COMMISSION OF THE STATE OF NEW YORK,

By GEORGE McANENY,

Chairman.

Attest:

JAMES B. WALKER,
Secretary.

1826—Case 2628

New York Rapid Transit Corporation—Service and Equipment—Order Approving Train Schedules on Sea Beach Line, etc., Adopted

The Secretary presented reports dated December 19 and 26, 1923, by George F. Daggett, Chief of Transit Bureau, approved by George L. Lucas, Acting Chief Executive Officer, on December 26, 1923, recommending the approval of train schedules effective as of September 24, 1923, on the Sea Beach Line, Fulton Street Line, Lexington

Avenue Line, Fourth Avenue Line and the Broadway Elevated Line, operated by the New York Rapid Transit Corporation.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2628, approving the above mentioned train schedules.

1827—Case 2700

The Staten Island Rapid Transit Railway Company and the Staten Island Railway Company—Service and Equipment—Discontinuance Order Adopted

The Secretary presented a report, dated December 3, 1923, by George F. Daggett, Chief of Transit Bureau, advising that all complaints had been disposed of and there was no reason for holding Case No. 2700 with respect to service and equipment on lines of The Staten Island Rapid Transit Railway Company et al., open any longer.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2700, discontinuing the proceedings with respect to the above matter, without prejudice to any of the parties thereto.

1828—Case 2706

Eighth Avenue Railroad Company—Application for Authority to Issue \$750,000 Additional Bonds Secured by Mortgage on Real Estate—Hearing Order Adopted

The Secretary presented a petition, dated December 21, 1923, of the Eighth Avenue Railroad Company asking authority to issue its mortgage on certain real estate in the Borough of Manhattan in the sum of \$750,000.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2706, directing a hearing on said application on January 7, 1924 at 10:30 A. M., certifying and authorizing James B. Walker, Secretary to the Commission, pursuant to Sections 8 and 11 of the Public Service Commission Law to conduct said hearing, to take the testimony therein, and report same to the Commission with his opinion thereon for its decision and determination.

1829

Interborough Rapid Transit Company and New York Rapid Transit Corporation—Communications to and from Companies Relative to Recommendations of Kings County Grand Jury for June as to Trackwalkers, etc.—Filed

The Secretary presented copies of communications, dated October 26, 1923, addressed to the Interborough Rapid Transit Company, and October 24, 1923, addressed to the New York Rapid Transit Corporation, reading as follows:

October 26, 1923.

INTERBOROUGH RAPID TRANSIT COMPANY,
165 Broadway,
New York City.
Gentlemen:

As a result of an investigation of the serious accident occurring at Atlantic Avenue and Flatbush Avenue, Brooklyn, on June 26, 1923, the Kings County June Grand Jury, in a presentment recently made, has offered a number of recommendations bearing upon the operation of elevated railway trains within the city, certain of which, in the opinion of the Transit Commission, are of sufficient importance to call officially to your attention.

While the presentment in question had to do immediately with the elevated structure,

the equipment and the practices of the Brooklyn-Manhattan Company, the Commission is of the opinion that wherever its recommendations affect other companies engaged in elevated transportation, an equal effort should be made to effect any improvement that may be practicable along the lines they suggest. For this reason the Commission is inclined to ask that the attention of your Company be also given the recommendations in question and, that wherever there is room for improvement, you will act upon them.

It was the conclusion of the Grand Jury, as a result of the evidence submitted to it, that trackwalkers employed upon elevated structures have frequently been of an inferior type, and that such should be replaced by more intelligent men. While it is realized that there may be present difficulty in obtaining competent help, it is believed that improvement may well be made in this regard.

The Grand Jury also recommended the shortening of the amount of line now assigned to individual trackwalkers, believing that it is impossible for one man to cover efficiently and at proper intervals the amount of territory apparently assigned to each. The Commission will be glad to have information as to the present practice of your Company in this respect with the operation of the Manhattan elevated lines and as to any measures of improvement that may properly be taken.

A further recommendation deals with the amount of bonus paid to employees who discover defective equipment or construction of a dangerous or threatening nature. It is recommended that the amount of such bonuses be increased, as a means of quickening the interest of employees in the proper condition of equipment. The practice in this respect, we understand, has been changed somewhat since the war period, and it is possible that the matter is now of sufficient importance to warrant a careful review with the idea of increasing the rate of bonuses paid, as well as the list of items upon which they may be paid. The Commission will be glad to have a statement indicating exactly your present practice in the matter of the payment of bonuses covering the inspection of both cars and line, and your proposals as to increases either in rates or in items.

A recommendation is made that inside steel guard rails be used to the limit of practicability at switches or other vulnerable points. Rails of this sort usually have not been installed upon elevated lines. You are requested to see that they are now installed at all points where it is physically possible to employ them.

Some criticism was directed toward the running of trains through frogs and switches at excessive rates of speed. It is understood that your employees have certain general instructions covering this matter and that at particularly dangerous points special indicating devices or signals have been installed that are supposed to limit speeds to proper rates. The Commission would be glad to be advised, however, as to the fixed procedure through which these rules are enforced. It would like, particularly, to be acquainted with the method under which you receive what you consider to be satisfactory assurances that your instructions to employees as to speed of operation through switches and special work are followed, and as to what further precautionary measures might be taken in this regard.

I am,

Very truly yours,
JAMES B. WALKER,
Secretary.

October 24th, 1923.

NEW YORK RAPID TRANSIT CORPORATION,
85 Clinton Street,
Brooklyn, N. Y.

Gentlemen:

As a result of an investigation of the serious accident occurring at Atlantic Avenue and Flatbush Avenue, Brooklyn, on June 26, 1923, the Kings County June Grand Jury, in a presentment recently made, has offered a number of recommendations, certain of which, in the opinion of the Transit Commission, are of sufficient importance to call officially to your attention, with the request that you do everything that may be possible to comply with them.

It was the conclusion of the Grand Jury, as a result of the evidence submitted to it, that the trackwalkers employed upon the elevated structure have been of an inferior type and should be replaced by more intelligent men. While it is realized that there may be present difficulty in obtaining competent help, it is believed that im-

provement can be made in this regard, and you are requested to make an active effort to eliminate any incompetence of this description.

The Grand Jury also recommended the shortening of the amount of line now assigned to individual trackwalkers, believing that it is impossible for one man to cover efficiently and at proper intervals the amount of territory now assigned to each. The Commission will be glad to have information as to your present practice in this respect and as to what improvements you propose for bettering such practice.

A further recommendation deals with the amount of bonus paid to employees who discover defective equipment or construction of a dangerous or threatening nature. It is recommended that the amount of such bonuses be increased as a means of quickening the interest of employees in the proper condition of equipment. The practice in this respect, we understand, has been changed somewhat since the war period, and it is possible that the matter is now of sufficient importance to warrant a careful review with the idea of increasing the rate of bonuses paid, as well as the list of items upon which they may be paid. The Commission will be glad to have a statement indicating exactly your present practice in the matter of the payment of bonuses covering the inspection of both cars and line, and your proposals as to increases either in rates or in items.

A recommendation is made that inside steel guard rails be used to the limit of practicability at switches or other vulnerable points. Rails of this sort usually have not been installed upon elevated lines. You are requested to see that they are now installed at all points where it is physically possible to employ them.

A criticism was made of the excessive rates of speed frequently maintained in running trains through frogs and switches. It is understood that your employees have certain general instructions covering this matter, and that at particular dangerous points you have installed special indicating devices or signals that are supposed to limit speeds to proper rates, but it is not clear that you have any fixed procedure for the enforcement of these rules. Will you please advise the Commission as to the nature of the procedure actually employed under which you receive what you consider to be satisfactory assurances that your instructions as to speed of operation through switches and special work are followed, and as to what further precautionary measures you propose to take in this regard.

Please give the above submitted questions your early consideration.

Very truly yours,
JAMES B. WALKER,

The Secretary also presented replies from the above mentioned companies, dated December 19, 1923, from the Interborough Rapid Transit Company, and November 8, 1923, from the New York Rapid Transit Corporation, to the foregoing communications, reading as follows:

INTERBOROUGH RAPID TRANSIT COMPANY
165 Broadway.

New York, December 19, 1923.

JAMES B. WALKER, Esq.,
Secretary, TRANSIT COMMISSION,
No. 49 Lafayette Street,
New York City.

Dear Sir:

Referring to your letter of October 26th, calling attention to certain recommendations bearing upon the operation of elevated railway trains, made by the Kings County June Grand Jury, following investigation of an accident occurring on the lines of the Brooklyn-Manhattan Company, and requesting a statement indicating the present practice of this Company in the matters referred to:

As I advised you under date of October 29th, I took this matter up with the heads of departments concerned with the various questions, who have given the matter consideration, as a result of which I now advise you with respect to the various items enumerated in your letter as follows:

1. That it was the conclusion of the Grand Jury that "track walkers employed upon elevated structures have frequently been of an inferior type, and that such should be replaced by more intelligent men."

It is the practice of the Engineering Department of this Company to select the most competent track men as track walkers. Many of them have had years of service as track walkers and it is believed they are thoroughly competent to do the work expected of them. It must also be remembered that the track is inspected by foremen, supervisors and the Road Master, as well as by the track walkers. While better educated men might be used as track walkers, it is the opinion of our Engineering Department that such men would not give the same reliable and conscientious service for the length of time now obtained from the class of men at present employed.

2. That the Grand Jury also recommended "the shortening of the amount of line now assigned to individual track walkers." In the apportioning of sections to track walkers, it is the practice to give consideration to the number of curves where check rail bolts are used, as well as the amount of special work. The average length of single track per track walker at present is about $4\frac{1}{2}$ miles. Our Engineering Department does not recommend shortening the amount of line now assigned to each track walker.

3. With respect to "the amount of bonus paid to employees who discover defective equipment or construction of a dangerous or threatening nature": The employees of the Engineering Department are allowed a bonus equal to one day's pay for each broken rail discovered. Employees of the Car Equipment Department, Manhattan Division, are allowed bonuses according to the following schedule:

Employees Detecting the Following Unusual Failures will be Awarded the Bonuses Listed Herewith. Employees Whose Duties Require the Detection of These Failures Will Not Be Allowed Bonuses, But on the Other Hand Their Neglect to Find Such Defects Will Result in Such Demerits as Each Case, in the judgment of the Foreman, Calls for:

Wheels:	Cracked wheels	2 days' pay
	Cracked or broken spokes or tires.....	1 day's pay
	Cracked flanges exceeding $\frac{1}{8}$ " in depth.....	$\frac{1}{2}$ day's pay
Trucks:	Broken swing motion hanger causing spring plank to drop down on safety hanger	2 days' pay
	Cracked swing motion hanger.....	1 day's pay
	Broken swing motion hanger pin.....	1 day's pay
	Cracked equalizer bar	1 day's pay
	Pedestal binder strap or belt broken.....	$\frac{1}{2}$ day's pay
Contact		
Devices:	Dropped contact shoe beams.....	1 day's pay
Brakes:	Dropped or broken brake rigging	$\frac{1}{2}$ day's pay
Drawbars:	Broken housing or yoke.....	$\frac{1}{2}$ day's pay

This schedule, I may say, was revised effective November 21st, 1923, and it is believed is sufficient to accomplish the purpose for which it is intended; namely, to quicken the interest of employees in the proper condition of equipment. I may add that in addition to the fixed rates of bonus above mentioned, other cases of meritorious service by employees in any other department are rewarded as consideration of the specific instance may warrant.

4. That "inside steel guard rails be used to the limit of practicability at switches or other vulnerable points." Our Engineering Department is arranging to install inside steel guard rails where practicable at switches and other vulnerable points, and such rails are already in place at a number of locations.

5. With respect to instructions covering the subject of "running trains through frogs and switches" and methods of enforcing the Company's rules with respect thereto: On straight track where switches are properly locked, trains are safe in operating over the switching frogs at high speed. In operating around short radius curves, or operating over short radius switches, in the yards, centre track and main line, instructions are issued covering the speed allowed at these various points. These speeds on the main line are rated in the Book of Rules and are periodically checked up by the Supervising Officers in the Transportation Department, and also by operatives in the Secret Service Department.

Very truly yours,
FRANK HEDLEY,
President and General Manager.

December 27, 1923]

W. S. MENDEN,
President.

November 8, 1923.

Car and Track Inspection with special reference to the accident—Atlantic and Flatbush Avenues.

TRANSIT COMMISSION,
MR. JAMES B. WALKER,
Secretary,
49 Lafayette Street,
New York City, N. Y.

Dear Sir:

This is to acknowledge receipt of your letter of October 24th with reference to the above.

We are giving the matter of track inspection to the extent that this is performed by the so-called track walkers special attention with a view to covering this work more efficiently. Mr. Kolb is preparing a revised schedule showing assignment of the track walkers to the respective sections, and we are also considering the possible use of some time-clock check on the work of track walkers, similar to recent new devices which have been gotten out for use in connection with watchmen's services. As soon as we have completed investigation and arrangements above proposed we will advise you definitely with reference thereto.

As to the bonus payment to employees who discover defective equipment or construction of a dangerous or threatening nature, we have reviewed this carefully during the last thirty days, and expect to have ready by November 15th a schedule covering list of bonuses to be paid in the Equipment Department in connection with car inspection, and we will send you a copy of this when this is issued. This is in addition to the arrangement now in effect in the Way and Structure Department under which employees are paid a bonus for discovering broken rails.

As to the recommendation that inside steel guard rail be used at switches, we have made a number of studies with reference to this, and thus far have not developed a satisfactory arrangement which would permit of carrying the inside steel guard rail through switch construction. The rails of this sort that have heretofore been installed on the elevated lines provide guard rail protection only to a limited extent, and we had hoped that some plan could be developed which would carry the protection which is now afforded by the inside guard timber through the switch construction, and in this connection consideration has been given to the question of substituting an inside guard rail for the present inside guard timber. We will be glad to have the engineers of the Commission make recommendations with reference to additional guard rail protection above referred to.

As to excessive rates of speed of trains running through frogs and switches, we have, as stated in your letter, at certain points installed special devices or signals that are intended to limit the speed of the respective trains. These devices are being installed principally at curves and on heavy grades. Where on tangent track the speed of trains should be limited by reason of local conditions we have installed signs, and, as stated in your letter, our general instructions fully cover this. The question as to whether these rules and instructions are observed is checked by inspectors who are constantly on duty on the respective lines, and this arrangement has been considered satisfactory. Our Transportation Department is giving this further study with a view to determining whether additional precautions or measures in this respect are practicable.

Very truly yours,

W. S. MENDEN,
President,
N. Y. RAPID TRANSIT CORP.

Thereupon the above mentioned papers were ordered filed.

1830—R. T. 7661

Route No. 78-B—Certified Copy of Resolution of Board of Estimate and Apportionment Extending Time for Further Period of Thirty Days from December 18, 1923, Within which to Consider Route and General Plan for Central Park, Eighth Avenue and St. Nicholas Avenue Route—Filed

The following certified copy of the Resolution adopted by the Board of Estimate and Apportionment on December 14, 1923, was ordered filed:

Resolved, That the period of time prescribed by Section 242 of the Greater New York Charter within which this Board shall consider and act upon the resolution of the Transit Commission, establishing route and general plan of construction for an additional rapid transit railway in the Borough of Manhattan, known as Central Park, Eighth Avenue and St. Nicholas Avenue Route, Route No. 78-B, adopted by the Commission October 11, 1923, and transmitted to this Board for its approval, as required by law, and within which this Board shall transmit in writing to the Commission its determination in regard thereto, whether of consent or refusal, be and hereby is extended for a further period of thirty (30) days from December 18, 1923; said December 18, 1923 being sixty days after October 19, 1923, the date on which said communication was received at a meeting of the Board.

A true copy of resolution adopted by the Board of Estimate and Apportionment December 14, 1923.

PETER J. MCGOWAN,
Secretary.

1831—R. T. 3013

Agreement "CR"—Certified Copies of Resolutions of Board of Estimate and Apportionment Consenting to Proposed Contract with John Riches for Relocation of Entrances to 157th Street Station and Authorizing Appropriation of \$51,911.50—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on December 7, 1923, were ordered filed.

(Cal. No. 311-A)

Resolved, That the resolutions (2) adopted by the Board of Estimate and Apportionment on January 19, 1923 (Cal. Nos. 239-A and 239-B):

(a) Authorizing an issue of tax notes in an amount not exceeding twenty-six thousand dollars (\$26,000), the proceeds to the amount of the par value thereof to be used for the relocation of subway stairways at the southeast and northwest corners of 157th street and Broadway, and work incidental thereto, under the jurisdiction of the President, Borough of Manhattan; the work of such relocation to be performed by the operating company under the supervision of the Transit Commission; and

(b) Authorizing the President of the Borough of Manhattan to charge the cost of such restoration of curb and roadway changes as are due to the relocation of the subway stairways at the southeast and northwest corners of 157th street and Broadway, Manhattan, to the extent of the available balance in the tax note fund of twenty-six thousand dollars (\$26,000) authorized for said relocation of stairways, and to charge any excess cost of such restoration of curb and roadway changes to the 1922 Repaving Fund.

—be and the same hereby are *rescinded*.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 311-B)

Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of the City of New York in an amount not exceeding fifty-one thousand nine hundred and eleven dollars and fifty cents (\$51,911.50) which shall be included in annual tax levies, in the manner provided by said section 189 of

the Charter, the proceeds of which, to the amount of the par value thereof to be used for the relocation of the entrances to the 157th street station of the Manhattan-Bronx Rapid Transit Railroad, under the jurisdiction of the Transit Commission.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 311-C)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 7, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with John Riches for the relocation of the entrances to the 157th street station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan, Contract No. 1, Agreement "C.R.," at an estimated cost of fifty-one thousand nine hundred and eleven dollars and fifty cents (\$51,911.50), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Comptroller be and he is hereby authorized to charge the cost of said work against the tax notes appropriation in the sum of fifty-one thousand nine hundred and eleven dollars and fifty cents (\$51,911.50), authorized by the Board of Estimate and Apportionment on this date, to provide for the cost of said work.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1832—R. T. 7494

Routes Nos. 16, 18, 36 & 37 and 50—Certified Copies of Resolutions of Board of Estimate and Apportionment Consenting to Proposed Agreements for Repairs to Mezzanine Roofs of Stations of Jerome Avenue, White Plains Road and Queensboro Subway Lines—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on December 7, 1923, were ordered filed:

(Cal. No. 312-A)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 13, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed agreement with the Interborough Rapid Transit Company for remedying the leaky condition of the mezzanine roofs of three (3) stations of the Jerome Avenue Line and six (6) stations of the White Plains Road Line of the elevated portions of Municipal Rapid Transit Railroad, constructed under Contract No. 3, at an estimated cost of seventeen thousand dollars (\$17,000), without waiving the contention of the city that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be seventeen thousand dollars (\$17,000); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission, dated November 13, 1923; the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding seventeen thousand dollars (\$17,000), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purpose of said agreement; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million, two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 312-B)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 13, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed agreement with the Interborough Rapid Transit Company for remedying the leaky condition of the mezzanine roofs of six (6) stations of Routes 36 and 37, Section 2; eight (8) stations of Routes 36 and 37, Section 3; and one (1) station of Route 50 of the elevated portions of the Queensboro Subway Line of the Municipal Rapid Transit Railroad, constructed under Contract No. 3; at an estimated cost of twenty thousand dollars (\$20,000), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporation stock available for said purpose shall be twenty thousand dollars (\$20,000); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission, dated November 13, 1923; the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty thousand dollars (\$20,000) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said agreement; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913; and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

JAMES MATTHEWS,
Assistant Secretary.

1833—R. T. 7011

Contract No. 4—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$3,000 for Maintenance Prior to Operation—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 7, 1923, was ordered filed:

(Cal. No. 313)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 13, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to and authorize an appropriation of three thousand dollars (\$3,000), (in addition to the appropriations heretofore made) for the purpose of providing funds for the maintenance prior to operation of the rapid transit railroads constructed under Contract No. 4; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be three thousand dollars (\$3,000); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding three thousand dollars (\$3,000), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes aforesaid, said issue of corporate stock to be charged as a sub-authorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 7, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1834—R. T. 7706

Agreement "CU"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with John B. Roberts & Company for Construction of Signal Tower in 239th Street Yard and Authorizing Appropriation of \$12,757.50—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 7, 1923, was ordered filed:

(Cal. No. 314)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 13, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with John B. Roberts & Co. for the construction of a signal tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Agreement ("CU"), Route No. 18, Section No. 2, Borough of The Bronx, at an estimated cost of twelve thousand seven hundred and fifty-seven dollars and fifty cents (\$12,757.50), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twelve thousand seven hundred and fifty-seven dollars and fifty cents (\$12,757.50), and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission dated November 13, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of the City of New York to an amount not exceeding twelve thousand seven hundred and fifty-seven dollars and fifty cents (\$12,757.50), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

Route No. 18—Certified Copy of Resolution of Board of Estimate and Apportionment, Consenting to Proposed Contract with Isaac E. Abbott for Erection of Fence at 239th Street Yard, and Authorizing Appropriation of \$2,856.40—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 14, 1923, was ordered filed:

(Cal. No. 188)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 27, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed contract with Isaac E. Abbott for the erection of a fence, etc., in the 239th Street Yard of the White Plains Road Rapid Transit Railroad (Route No. 18), at an estimated cost of two thousand eight hundred and fifty-six dollars and forty cents (\$2,856.40), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be two thousand eight hundred and fifty-six dollars and forty cents (\$2,856.40); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission dated November 27, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding two thousand eight hundred and fifty-six dollars and forty cents (\$2,856.40), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

JAMES MATTHEWS,
Assistant Secretary.

1837—R. T. 6881

Order No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Readjustment of Appropriation under Contract for Storage and Hauling of Untreated Ties and Timber—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 14, 1923, was ordered filed:

(Cal. No. 189)

Whereas, The Board of Estimate and Apportionment on April 25, 1919, upon the requisition of the Public Service Commission, authorized an appropriation of twenty-four thousand five hundred dollars (\$24,500) rapid transit corporate stock to provide for the estimated cost of a contract with J. H. Burton & Co., Inc., for the storage and hauling of untreated ties and timber for use in the construction of municipal rapid transit railroads to be constructed under Contracts No. 3 and No. 4, said corporate stock to be charged to the extent of fifteen thousand six hundred dollars (\$15,600) as a subauthorization against the general appropriation for Contract No. 3, and to the extent of eight thousand nine hundred dollars (\$8,900) as a subauthorization against the general appropriation for Contract No. 4; and on August 12, 1921, upon the requisition of the Transit Commission, authorized an additional appropriation in the sum of seven thousand dollars (\$7,000) for the said purpose, of which amount the sum of six thousand dollars (\$6,000) was to be charged as a subauthorization against the general appropriation for Contract No. 3, and the sum of one thousand dollars (\$1,000) to be charged as a subauthorization against the general appropriation for Contract No. 4; and on October 13, 1922, on the requisition of the Transit Commission, authorized a further additional appropriation for said purpose in the sum of twenty-three hundred dollars (\$2,300), to be charged as a subauthorization against the general appropriation for Contract No. 3, and rescinded the sum of three hundred dollars (\$300) from the amount previously authorized for said contract chargeable to Contract No. 4; thus subauthorizing a total amount of twenty-three thousand nine hundred dollars (\$23,900) as a charge against Contract No. 3 and nine thousand six hundred dollars (\$9,600) as a charge against Contract No. 4; and

Whereas, The expenditures from these subauthorizations under Contract No. 3 have aggregated twenty-two thousand five hundred and twenty-four dollars and sixty-five cents (\$22,524.65) and under Contract No. 4 have aggregated nine thousand five hundred and fifteen dollars and thirty-six cents (\$9,515.36), but on the basis of the said work actually performed the charges against Contract No. 3 should be twenty-five thousand eight hundred and sixty-three dollars and ninety-five cents (\$25,863.95) and the charges against Contract No. 4 should be six thousand one hundred and seventy-six dollars and six cents (\$6,176.06), therefore necessitating an adjustment of the charges between Contracts No. 3 and No. 4, and an additional authorization of one thousand nine hundred and sixty-three dollars and ninety-five cents (\$1,963.95) for the purposes of Contract No. 3 and a consequent rescindment of three thousand four hundred and twenty-three dollars and ninety-four cents (\$3,423.94) from the subauthorizations made for the purposes of Contract No. 4; now therefore be it

Resolved, That the Board of Estimate and Apportionment, pursuant to the requisition of the Transit Commission dated November 27, 1923, and without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby approve of and consent to an additional appropriation of corporate stock in the sum of one thousand nine hundred and sixty-three dollars and ninety-five cents (\$1,963.95) to provide funds to cover the cost of additional work under Rapid Transit Contract No. 3, for the purposes under contract No. 51164 with J. H. Burton & Co., Inc.; and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission dated November 27, 1923, the Comptroller be and is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one thousand nine hundred and sixty-three dollars and ninety-five cents (\$1,963.95), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to liquidate the cost of that portion of the work performed under said contract No. 51164 with J. H. Burton & Co., Inc., which is properly chargeable

to Rapid Transit Contract No. 3, said issue of corporate stock to be in addition to all appropriations heretofore made for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3; and be it further

Resolved, That the sum of three thousand four hundred and twenty-three dollars and ninety-four cents (\$3,423.94) be and hereby is *rescinded* from the subauthorizations made by the Board of Estimate on April 25, 1919, and August 12, 1921, as amended, aggregating nine thousand six hundred dollars (\$9,600) for the purposes of said contract No. 51164 with J. H. Burton & Co., Inc., and that said sum of three thousand four hundred and twenty-three dollars and ninety-four cents (\$3,423.94) be credited back to the general appropriation of corporate stock made for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 14, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Chief Engineer.

1844—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company, Transmitting Copy of Contract for Manufacture and Delivery of Valves for 59th Street Power Station—Filed

The Commission ordered filed, a communication from the Interborough Rapid Transit Company, dated December 18, 1923, transmitting a copy of a contract dated August 11, 1923, with the Chapman Valve Manufacturing Company, for the manufacture and delivery of eight cast steel gate valves together with one extra control station, for installation in the 59th Street Power Station.

1845

Lease—Proposed Lease for Second Floor of Premises at No. 225 South Fourth Street, Borough of Brooklyn—Approval Resolution

The following resolution was adopted:

Resolved, That this Commission do and it hereby does approve the proposed form of lease from Ada J. Haassler, now submitted to this Commission, covering the entire second floor of the premises located at and designated as 225 South 4th Street, Borough of Brooklyn, City of New York, to be occupied as offices for a term commencing on the 1st day of January, 1924 and ending on the 31st day of December, 1924, with option of renewal for a further term of one year from the last mentioned date, at the annual rental of One thousand and twenty (\$1,020) dollars, payable in monthly installments and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said lease for and on behalf of this Commission.

1846

Fees Received during December, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of December, 1923, fees, etc. to the amount of \$1,667.50 and refunds of rental from rapid transit real estate to the amount of \$5,226 had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$1,667.50 to be accredited to the General Fund of The City of New York and the sum of \$5,226 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

1847

Employees' Calendar No. 181

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Samuel Baron, draftsman, at \$175.08 per month, to take effect December 18, 1923; Robert Gilbert, junior clerk, at \$60.00 per month, to take effect December 22, 1923; Walter R. Many, draftsman, at \$175.08 per month, to take effect January 4, 1924; Emmett J. Scott, Jr., draftsman, at \$175.08 per month, to take effect January 4, 1924; Kopple Tennygold, draftsman, at \$175.08 per month, to take effect January 4, 1924; Irving Troemel, draftsman, at \$175.08 per month, to take effect January 4, 1924.

Appointments under Rule VIII:4—Irving D. Feinman, junior clerk, at \$60.00 per month, to take effect December 26, 1923; Harold H. R. Haase, junior assistant, at \$125.08 per month, to take effect December 18, 1923; Ida Margolis, junior clerk, at \$60.00 per month, to take effect December 21, 1923; Max Morel, junior clerk, at \$60.00 per month, to take effect December 21, 1923; Morton Sandler, junior clerk, at \$60.00 per month, to take effect December 21, 1923.

Resignations—Howard P. Michener, assistant engineer, at \$237.50 per month, to take effect December 31, 1923; George F. Porter, draftsman, at \$175.08 per month, to take effect December 19, 1923; William Shemin, junior assistant, at \$125.08 per month, to take effect December 17, 1923; Charles F. Tague, junior electrical engineer, at \$165.00 per month, to take effect December 31, 1923; Kopple Tennygold, mechanical engineer, at \$150.08 per month, to take effect January 3, 1924; Irving Troemel, junior assistant, at \$125.08 per month, to take effect January 3, 1924.

Rescission of Appointment—Morris Bass, draftsman, at \$175.08 per month, to take effect December 21, 1923.

Terminations of Appointments under Rule VIII:4—William A. Caprell, draftsman, at \$175.08 per month, to take effect January 4, 1924; Nathan November, draftsman, at \$175.08 per month, to take effect January 4, 1924; Emmett J. Scott, Jr., draftsman, at \$175.08 per month, to take effect January 3, 1924.

Terminations of Appointments under Rule VIII:9—Arnold Brauer, draftsman, at \$175.08 per month, to take effect January 4, 1924; Walter R. Many, draftsman, at \$175.08 per month, to take effect January 3, 1924.

Change of Item in Resolution of December 18, 1923, Concerning Morris Bass so as to read as follows: (Termination of appointment under Rule VIII:9)—Morris Bass, draftsman, at \$175.08 per month, to take effect December 17, 1923.

Changes of Item in Resolution of December 18, 1923, Concerning William F. Johnson and Samuel Steinfeld so as to read as follows: (Rescission of appointment under Rule VIII:9)—William F. Johnson, draftsman, at \$175.08 per month, to take effect December 28, 1923; Samuel Steinfeld, draftsman, at \$175.08 per month, to take effect December 21, 1923.

Leaves of Absence with Pay—Lydia E. Kaufman, senior clerk, from January 1, 1924 to January 2, 1924; Rose B. Steinman, file clerk, from October 22, 1923 to November 24, 1923.

Leaves of Absence without Pay—Frances R. Chelimer, statistician, from December 23, 1923 to January 1, 1924; Lydia E. Kaufman, senior clerk, from January 3, 1924 to June 30, 1924.

1848

Employees' Calendar No. 182

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Promotions—James H. Allatt, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Henry Altemeier, inspector of conduits, from \$214.50 per month to \$225.00 per month, to take effect January 1, 1924; Leo Antin, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Gustave G. Atwood, draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Thomas H. Barrington, stenographer, from \$152.00 per month to \$162.50 per month, to take effect January 1, 1924; Edison D. Bassett, junior electrical engineer, from \$195.00 per month to \$200.08 per month, to take effect January 1, 1924; Grant Bateman, junior electrical engineer, from \$165.00 per month to \$175.00 per month, to take effect January 1, 1924; Maximilian Becker, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Yetta Benjamin, clerk, from \$74.66 per month to \$90.00 per month, to take effect January 1, 1924; Raymond S. Bennett, assistant engineer, from \$266.66 per month to \$300.00 per month, to take effect January 1, 1924; Edward Bergman, correspondence clerk, from \$175.00 per month to \$187.50 per month, to take effect January 1, 1924; Sol E. Berkenblit, assistant chemist, from \$150.00 per month to \$162.50 per month, to take effect January 1, 1924; Sybil R. Berman, stenographer, from \$137.50 per month to \$150.00 per month, to take effect January 1, 1924; Joseph Bernstein, designer, from \$291.66 per month to \$312.50 per month, to take effect January 1, 1924; Urian Bernstein, draftsman, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Richard A. Berry, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Jacques Birkhahn, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Benjamin S. Blatteis, stenographer, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Joseph Bleich, junior engineer, from \$180.08 per month to \$190.00 per month, to take effect January 1, 1924; Louis Blum, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Chas. A. Bock, architectural draftsman from \$195.00 per month to \$210.00 per month, to take effect January 1, 1924; Louis Bossgang, junior engineer, from \$180.08 per month to \$187.50 per month, to take effect January 1, 1924; Alfred Brahdy, assistant engineer, from \$266.66 per month, to \$291.66 per month, to take effect January 1, 1924; Augustus Breitenberger, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Arthur C. Brockway, asst. super. transit inspector, from \$150.08 per month to \$162.50 per month, to take effect January 1, 1924; Eva Brodie, clerk, from \$70.00 per

month to \$90.00 per month, to take effect January 1, 1924; Catherine I. Brosnan, stenographer, from \$90.00 per month to \$100.00 per month, to take effect January 1, 1924; Robert Brushhaber, engineer accountant, from \$279.16 per month to \$291.66 per month, to take effect January 1, 1924; Carl H. Busath, junior engineer, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; J. Nathan Cahan, junior engineer, from \$180.08 per month to \$190.00 per month, to take effect January 1, 1924; Rocco M. Carbone, stenographer, from \$100.00 per month to \$110.00 per month, to take effect January 1, 1924; Frances S. Cardile, jr. clerk to clerk, from \$60.00 per month to \$70.00 per month, to take effect January 1, 1924; Mary G. Cardile, stenographer, from \$90.00 per month to \$100.00 per month, to take effect January 1, 1924; James J. Casey, junior engineer, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Samuel Chafets, draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Ralph R. Clark, architectural designer, from \$254.16 per month to \$266.66 per month, to take effect January 1, 1924; Harold J. Cloutman, assistant counsel, from \$275.00 per month to \$300.00 per month, to take effect January 1, 1924; Walker C. Cole, accountant, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Edwin Cole, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Perry E. Collette, junior engineer, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Leo Comyns, Clerk, from \$70.00 per month to \$80.00 per month, to take effect January 1, 1924; Margaret F. Connelly, clerk, from \$70.00 per month to \$75.00 per month, to take effect January 1, 1924; Sidney H. Coombe, assistant engineer, from \$237.50 per month, to \$250.00 per month, to take effect January 1, 1924; John J. Cope, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Michael J. Corcoran, supervising transit inspector, from \$237.50 per month to \$250.00 per month, to take effect January 1, 1924; Bayard W. Corson, architectural draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Estelle Coster, clerk, from \$90.00 per month to \$95.00 per month, to take effect January 1, 1924; Frank J. Coughlin, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; Newell S. Covert, assistant engineer, from \$237.50 per month to \$250.08 per month, to take effect January 1, 1924; Patrick J. Crennan, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Richard J. Cullinan, draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Sverre Dahm, engineer of designs, from \$666.66 per month to \$750.00 per month, to take effect January 1, 1924; William E. Dalton, assistant chief clerk, from \$275.00 per month to \$300.00 per month, to take effect January 1, 1924; John W. Daly, assistant engineer, from \$254.16 per month to \$266.66 per month to take effect January 1, 1924; Francis G. Daniell, assistant electrical engineer, from \$240.00 per month to \$250.00 per month, to take effect January 1, 1924; John J. Devery, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Margaret T. Dougherty, junior clerk to clerk, from \$60.00 per month to \$65.00 per month, to take effect January 1, 1924; Alfred J. Doyle, assistant electrical engineer, from \$304.16 per month to \$316.66 per month, to take effect January 1, 1924; Abraham A. Drabkin, junior electrical engineer, from \$195.00 per month to \$200.08 per month, to take effect January 1, 1924; Moses A. Drucker, designer, from \$250.00 per month to \$266.66 per month, to take effect January 1, 1924; Denis Duggan, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Henry C. Duncan, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Frederick R. Eddy, stenographer, from \$152.00 per month to \$162.50 per month, to take effect January 1, 1924; Walter T. Edgerton, supervising transit inspector, from \$237.50 per month to \$250.00 per month, to take effect January 1, 1924; Joseph Epstein, draftsman, from \$195.00 per month to \$210.00 per month, to take effect January 1, 1924; Tillie Falkin, stenographer to senior clerk, from \$150.00 per month to \$166.66 per month, to take effect January 1, 1924; George B. Faucett, junior electrical engineer, from \$175.00 per month to \$187.50 per month, to take effect January 1, 1924; Frank T. Fellner, architectural draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Fred L. Fenton, draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Peter Ferreri, junior electrical engineer, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Isaac Finkel, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Leo Fish, junior electrical engineer, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Daniel J. R. Foley, asst. super. transit inspector, from \$150.08 per month to \$162.50 per month, to take effect January 1, 1924; Samuel M. Forer, junior

engineer, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Max Freedman, accountant, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Samuel Freedman, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Louis V. Fucci, stenographer, from \$125.00 per month to \$137.50 per month, to take effect January 1, 1924; Berge B. Furre, designer, from \$254.16 per month to \$266.66 per month to take effect January 1, 1924; Cornelius J. Gaffney, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Joseph J. Gaffney, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Frank Gallagher, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; Frederick D. Gardner, architectural designer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Warren Gardner, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Sidney W. Gay, supervising transit inspector, from \$175.08 per month to \$200.00 per month, to take effect January 1, 1924; Mildred Germaine, junior clerk to clerk, from \$60.00 per month to \$70.00 per month, to take effect January 1, 1924; Mabelle N. Gleason, file clerk, from \$137.50 per month to \$145.00 per month, to take effect January 1, 1924; Joseph Goldberg, draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Morris Goldman, clerk, from \$70.00 per month to \$80.00 per month to take effect January 1, 1924; Sarah E. Goldman, stenographer, from \$125.00 per month to \$125.08 per month, to take effect January 1, 1924; Rebecca Goldstein, clerk, from \$66.66 per month to \$75.00 per month, to take effect January 1, 1924; Joseph Graef, junior electrical engineer, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Max Gray, draftsman, from \$195.00 per month to \$210.00 per month, to take effect January 1, 1924; Jacob Grayman, junior electrical engineer, from \$162.50 per month to \$170.00 per month, to take effect January 1, 1924; J. Harry Griffin, assistant engineer, from \$250.00 per month to \$266.66 per month, to take effect January 1, 1924; Michael J. Griffin, inspector of steel, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Harry G. Grill, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; George Haag, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Joseph S. Harris, junior engineer, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Joseph Harwood, assistant engineer, from \$210.00 per month to \$225.08 per month, to take effect January 1, 1924; William D. Heimsoth, architectural draftsman, from \$192.50 per month to \$200.08 per month, to take effect January 1, 1924; Henry Heins, assistant engineer, from \$250.00 per month to \$266.66 per month, to take effect January 1, 1924; Hyman E. Helfand, designer, from \$254.16 per month to \$266.66 per month, to take effect January 1, 1924; Nathan I. Helfand, draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; George W. Herrington, assistant engineer, from \$254.16 per month to \$266.66 per month, to take effect January 1, 1924; Norman C. Hill, engineer accountant, from \$279.16 per month to \$312.50 per month, to take effect January 1, 1924; John W. Hilliard, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Mary A. Hirshhorn, stenographer to senior clerk, from \$150.00 per month to \$166.66 per month, to take effect January 1, 1924; Julius C. Hoeffler, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; Benjamin Holand, junior electrical engineer, from \$165.00 per month to \$175.00 per month, to take effect January 1, 1924; William Hotter, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Harry L. Hurd, assistant engineer, from \$250.00 per month to \$266.66 per month, to take effect January 1, 1924; Dorothy Israel, stenographer, from \$125.00 per month to \$125.08 per month, to take effect January 1, 1924; Samuel Israel, bookkeeper, from \$137.50 per month to \$150.00 per month, to take effect January 1, 1924; Isidor Jacobs, junior engineer, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Moses Jacobson, junior electrical engineer, from \$195.00 per month to \$205.00 per month, to take effect January 1, 1924; George H. Johnson, statistician, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Virginia Joyce, clerk, from \$75.00 per month to \$80.00 per month, to take effect January 1, 1924; Charles B. Kain, inspector of steel, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Henry Kamp, architectural designer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Bessie Katz, stenographer to senior clerk, from \$137.50 per month to \$150.08 per month.

to take effect January 1, 1924; John Keegan, junior assistant, from \$152.50 per month to \$162.50 per month to take effect January 1, 1924; Katherine B. Kehoe, stenographer, from \$90.00 per month to \$100.00 per month, to take effect January 1, 1924; Chester M. Kendall, assistant engineer, from \$291.66 per month to \$316.66 per month, to take effect January 1, 1924; Charles Kessler, chauffeur, from \$150.00 per month to \$162.50 per month to take effect January 1, 1924; Martin I. Kohn, junior engineer, from \$187.50 per month to \$200.00 per month to take effect January 1, 1924; Solomon Kranis, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Arthur L. Krellen, draftsman, from \$195.00 per month to \$200.08 per month, to take effect January 1, 1924; Robert P. Krum, junior electrical engineer from \$180.00 per month to \$190.00 per month, to take effect January 1, 1924; Edward A. Lanigan, inspector of equipment, from \$125.08 per month to \$137.50 per month, to take effect January 1, 1924; Clarence M. Larkin, engineering inspector, from \$170.00 per month to \$180.00 per month, to take effect January 1, 1924; Joseph B. Laux, junior electrical engineer, from \$162.50 per month to \$170.00 per month to take effect January 1, 1924; Edwin B. Lefferts, railway engineer, from \$291.66 per month to \$312.50 per month, to take effect January 1, 1924; Victor J. Lefkowitz, junior assistant, from \$152.50 per month to \$162.50 per month to take effect January 1, 1924; Augustus F. Leimbach, assistant supervising transit inspector, from \$150.08 per month to \$162.50 per month, to take effect January 1, 1924; Margaret Lennon, statistician, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Sylvia B. Lerner, stenographer, from \$120.00 per month to \$125.08 per month, to take effect January 1, 1924; Lillian Leventhal, clerk, from \$70.00 per month to \$80.00 per month, to take effect January 1, 1924; Sabina Levine, stenographer, from \$90.00 per month to \$100.00 per month, to take effect January 1, 1924; Abraham Levy, stenographer, from \$137.50 per month to \$150.00 per month to take effect January 1, 1924; Edward Levy, M. D., physician, \$341.66 per month to \$375.00 per month to take effect January 1, 1924; Nathan Levy, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Charles D. Lidstrom, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; John T. Little, cement tester, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Leon G. Lord, junior engineer, from \$175.08 per month to \$187.50 per month, to take effect January 1, 1924; Ira D. Lovin, assistant engineer, from \$254.16 per month to \$266.66 per month, to take effect January 1, 1924; Edward W. Lynch, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Isidor Lukowsky, stenographer, from \$125.00 per month to \$125.08 per month, to take effect January 1, 1924; Joseph L. Mack, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; Abraham B. Malcolmsun, assistant engineer, from \$254.16 per month to \$266.66 per month, to take effect January 1, 1924; Thomas A. Maloney, Jr., chauffeur, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Louis Marder, accountant, from \$150.08 per month to \$162.50 per month, to take effect January 1, 1924; Joseph A. Mauser, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; Mae Maxwell, stenographer, from \$125.00 per month to \$125.08 per month, to take effect January 1, 1924; John R. McCarney, draftsman, from \$195.00 per month to \$200.08 per month, to take effect January 1, 1924; Thomas J. McDermott, engineering inspector, from \$180.00 per month to \$200.00 per month, to take effect January 1, 1924; William McElroy, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Peter McGrath, clerk, from \$70.00 per month to \$90.00 per month, to take effect January 1, 1924; Frank C. McGuire, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; James J. McGuire, Jr., assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; James McKeever, junior clerk to clerk, from \$60.00 per month to \$70.00 per month, to take effect January 1, 1924; Arthur A. McKinney, assistant secretary, from \$366.66 per month to \$400.00 per month, to take effect January 1, 1924; James J. McNicholas, assistant supervising transit inspector, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Louis Meade, engineering inspector, from \$180.00 per month to \$200.00 per month, to take effect January 1, 1924; Meyer Messinger, stenographer to senior clerk, from \$150.00 per month to \$162.50 per month, to take effect January 1, 1924; Samuel M. Messer, junior engineer, from \$180.00 per month to \$200.00 per month, to take effect January 1, 1924; Lillian Myers, stenographer, from \$125.00 per month to \$125.08 per month.

to take effect January 1, 1924; Barnett Michels, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Melville S. Miller, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; William Mittler, accountant, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Ralph R. Monroe, assistant counsel, from \$300.00 per month to \$325.00 per month, to take effect January 1, 1924; Frank E. Moore, office assistant, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Frank D. Mott, junior engineer, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Kenneth Mott, assistant engineer, from \$266.66 per month to \$279.16 per month, to take effect January 1, 1924; John P. Moynehan, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; George Murgatroyd, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; John F. Murray, supervising transit inspector, from \$237.50 per month to \$250.00 per month, to take effect January 1, 1924; Norman C. Neugebauer, junior engineer, from \$180.00 per month to \$190.00 per month, to take effect January 1, 1924; John F. New, Jr., architectural draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Olaf A. Nilsson, designer, from \$279.16 per month to \$291.66 per month, to take effect January 1, 1924; Estelle Nutoff, stenographer, from \$90.00 per month to \$100.00 per month, to take effect January 1, 1924; Patrick J. O'Connor, junior electrical engineer, from \$175.00 per month to \$187.50 per month, to take effect January 1, 1924; Thomas O'Hara, assistant supervising transit inspector, from \$150.08 per month to \$162.50 per month, to take effect January 1, 1924; Edward O'Keefe, assistant supervising transit inspector, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Jeremiah J. O'Neill, junior electrical engineer, from \$175.00 per month to \$187.50 per month, to take effect January 1, 1924; William H. O'Neil, chauffeur, from \$175.00 per month to \$187.50 per month, to take effect January 1, 1924; George Passwell, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Minnie Pandolf, clerk, from \$70.00 per month to \$80.00 per month, to take effect January 1, 1924; Laurence Patterson, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Jesse Perlmutter, accountant, from \$150.08 per month to \$162.50 per month, to take effect January 1, 1924; Alexander Petersen, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Carl A. Peterson, junior engineer, from \$180.00 per month to \$200.00 per month, to take effect January 1, 1924; Arthur F. Pfaudler, junior assistant, from \$152.50 per month to \$162.50 per month, to take effect January 1, 1924; Nathan Podolsky, stenographer, from \$125.00 per month to \$150.00 per month, to take effect January 1, 1924; Charles J. Pommerer, supervising transit inspector, from \$225.00 per month to \$237.50 per month, to take effect January 1, 1924; Charles C. Puckhafer, junior engineer, from \$212.50 per month to \$225.00 per month, to take effect January 1, 1924; Irene Quinn, stenographer, from \$90.00 per month to \$100.00 per month, to take effect January 16, 1924; John J. Quinn, assistant engineer, from \$250.00 per month to \$287.50 per month, to take effect January 1, 1924; Aaron I. Raisman, designing engineer, from \$583.33 per month to \$666.66 per month, to take effect January 1, 1924; Helen Riordan, clerk, from \$70.00 per month to \$80.00 per month, to take effect January 1, 1924; Frank N. Robinson, assistant secretary, from \$366.66 per month to \$400.00 per month, to take effect January 1, 1924; Ferdinand A. Roche, Jr., junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Dorothy Rosenthal, stenographer, from \$90.00 per month to \$95.00 per month, to take effect January 1, 1924; Abraham A. Rosenzweig, draftsman, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; D. Dunlop Routh, accountant, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Maurice Rubin, junior electrical engineer, from \$180.08 per month to \$190.00 per month, to take effect January 1, 1924; Francis G. Russell, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Philip Sachs, assistant engineer, from \$254.16 per month to \$266.66 per month, to take effect January 1, 1924; Julius Samkoff, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Philip Sander, junior engineer, from \$180.08 per month to \$200.00 per month, to take effect January 1, 1924; Frank W. Sattler, clerk, from \$145.00 per month to \$155.00 per month, to take effect January 1, 1924; Leslie Saunders, assistant supervising transit inspector, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; William A. Schaefer, inspector of steel, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Minnie Scheimberg, junior

clerk to clerk, from \$60.00 per month to \$65.00 per month, to take effect January 1, 1924; Avery M. Schermerhorn, real estate clerk, from \$366.66 per month to \$400.00 per month, to take effect January 1, 1924; Emanuel Scheyer, designer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Joseph Schlam, draftsman, from \$192.50 per month to \$200.08 per month, to take effect January 1, 1924; Otto W. Schmidt, junior electrical engineer, from \$165.00 per month to \$175.00 per month, to take effect January 1, 1924; Stephen Schmidt, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; L. Seymour Schneider, junior assistant, from \$152.50 per month to \$162.50 per month to take effect January 1, 1924; Viola Schnitzler, junior statistical clerk, from \$112.50 per month to \$122.50 per month, to take effect January 1, 1924; Leonard Schollderfer, junior engineer, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; David Schubert, draftsman from \$207.50 per month to \$210.00 per month, to take effect January 1, 1924; Prosser J. Schwartz, inspector of track, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Sander Schwartz, assistant engineer, from \$212.50 per month to \$225.00 per month, to take effect January 1, 1924; Morris Serating, designer, from \$250.00 per month to \$266.66 per month, to take effect January 1, 1924; Irving Sesit, accountant, from \$225.00 per month to \$237.50 per month, to take effect January 1, 1924; Nathan W. Shapiro, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect January 1, 1924; Isidore Shaw, junior engineer, from \$180.08 per month to \$190.00 per month, to take effect January 1, 1924; Floy T. Sheldon, junior engineer, from \$210.00 per month to \$225.00 per month, to take effect January 1, 1924; Edward J. Shields, inspector of conduits, from \$185.00 per month to \$200.00 per month, to take effect January 1, 1924; George H. Siedenburg, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Morris Silverman, draftsman, from \$195.00 per month to \$200.08 per month, to take effect January 1, 1924; David Singer, junior engineer, from \$195.00 per month to \$200.00 per month, to take effect January 1, 1924; Charles J. Slipper, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect January 1, 1924; William H. Slocomb, chauffeur, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; William O. Smith, supervising transit inspector, from \$237.50 per month to \$250.00 per month, to take effect January 1, 1924; Benjamin Solomon, draftsman, from \$180.00 per month to \$200.00 per month, to take effect January 1, 1924; Florence Spillane, junior clerk to clerk, from \$60.00 per month to \$65.00 per month, to take effect January 1, 1924; Charles A. Standfast, supervising transit inspector, from \$237.50 per month to \$250.00 per month, to take effect January 1, 1924; Morris A. Steinberg, engineer accountant, from \$266.66 per month to \$279.16 per month, to take effect January 1, 1924; Rose B. Steinman, file clerk, from \$109.83 per month to \$116.66 per month, to take effect January 1, 1924; Charles Stikeman, Jr., designer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; William Stroebel, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Mary Strool, clerk, from \$80.00 per month to \$85.00 per month, to take effect January 1, 1924; Patrick F. Sullivan, engineering inspector, from \$180.00 per month to \$200.00 per month, to take effect January 1, 1924; Arthur E. Sundholm, assistant supervising transit inspector, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; Tillie M. Tannenbaum, stenographer, from \$95.00 per month to \$108.33 per month, to take effect January 1, 1924; Henry E. Tatro, junior engineer, from \$210.00 per month to \$225.00 per month to take effect January 1, 1924; Cecelia W. Teale, stenographer, from \$137.50 per month to \$150.00 per month, to take effect January 1, 1924; Reginald H. Thayer, assistant engineer, from \$250.00 per month to \$250.08 per month, to take effect January 1, 1924; Nathaniel A. Thayer, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect January 1, 1924; Bernard Thickman, junior electrical engineer, from \$152.50 per month to \$160.00 per month, to take effect January 1, 1924; Willis E. Thompson, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Charles E. Thomson, assistant engineer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; Margaret Thornton, clerk, from \$90.00 per month to \$100.00 per month to take effect January 1, 1924; Arthur H. Travers, architectural draftsman, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Ethel Treppel, junior clerk to clerk, from \$60.00 per month to \$70.00 per month, to take effect January 1, 1924; Oscar F. Untervinger, architectural designer, from \$266.66 per month to \$291.66 per month, to take effect January 1, 1924; George F. Wagner, junior engineer, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924; Fred L. Warburton, stenographer, from \$90.00 per month

to \$100.00 per month, to take effect January 1, 1924; Arthur Weindorf, architectural designer, from \$250.00 per month to \$275.00 per month, to take effect January 1, 1924; Wilhelmenia Weinert, stenographer, from \$95.00 per month to \$108.33 per month, to take effect January 1, 1924; Solomon Widrewitch, draftsman, from \$195.00 per month to \$210.00 per month, to take effect January 1, 1924; Harry D. Winsor, assistant engineer, from \$266.66 per month to \$300.00 per month, to take effect January 1, 1924; Solomon Wolf, accountant, from \$162.50 per month to \$175.00 per month, to take effect January 1, 1924; William Zeidler, junior electrical engineer, from \$195.00 per month to \$205.00 per month, to take effect January 1, 1924; Hyman Zirulick, draftsman, from \$195.00 per month to \$210.00 per month, to take effect January 1, 1924; David N. Zuckerman, junior engineer, from \$187.50 per month to \$200.08 per month, to take effect January 1, 1924.

1849

Voucher Schedule No. 55

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of The State of New York, as the vouchers may direct.

Vouchers Nos. 1209-1224, open market orders, \$1,427.33; Vouchers Nos. 673-677, miscellaneous bills, \$2,418.39; Vouchers Nos. 39 and 40, Special Payrolls, \$1,625.00; Vouchers Nos. 227-236, City payroll, \$94,519.32; Voucher No. CM-25, State payroll, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 352; Pattelli & Wilson, approximate estimate No. 1, for the construction of station finish work at the Queens Plaza Station, Borough of Queens, from November 28, 1923 to December 20, 1923 (R. T. 7695) \$2,017.80;

Voucher No. 353; McClintic-Marshall Co., approximate estimate No. 4, for furnishing and erecting structural steel for Third Addition to Shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from November 16, 1923 to December 15, 1923 (R. T. 7590) \$50,803.20;

Voucher No. 354; Jacob Schlesinger, Inc., approximate estimate No. 17, for the construction of a Second Addition to Shops at Lenox Avenue and 148th Street Yard, under Contract No. 3, from November 16, 1923 to December 15, 1923 (R. T. 7368) \$15,061.22;

Voucher No. 355; Rosenthal Engineering Contracting Co., Inc., approximate estimate No. 10, for the construction of foundations for third addition to shops at Lenox Avenue and 148th Street Yard, under Contract No. 3, from November 21, 1923 to December 20, 1923 (R. T. 7589) \$18,086.72.

1850

Upon motion duly seconded and adopted, the meeting was adjourned to Thursday, January 3, 1924.

JAMES B. WALKER,

Secretary.

INDEX TO PROCEEDINGS

of the

TRANSIT COMMISSION

VOLUME III

From January 1 to December 31, 1923

INDEX

A

	ITEM
Aarons, Ada W.:	
Deed of release for easement in front of premises at No. 2145 86th St.....	440
Abbott, Isaac E.:	
Award of contract for erection of fence 239th St. Yard and requisition on Board of Estimate	1651
Resolution of Board of Estimate consenting to contract for erection of fence 239th St. Yard	1896

Agreement "CM": modification of railroad structure east of Boulevard to allow raising of street grades in Borough of Queens:	
Advertisement for bids.....	686
Certified copy of resolution of Board of Estimate authorizing issue of \$40,000 tax notes.....	737
Receipt of bids.....	768
Release of checks to all but lowest and next to lowest bidders.....	770
Award of contract to Hamme & Jackson, Inc., and requisition on Board of Estimate for appropriation.....	772
Letter from Acting Corporation Counsel returning contract approved as to form.....	981
Resolution of Board of Estimate consenting to contract.....	1021
Resolution approving sureties on bond Hamme & Jackson, changes in structure to permit raising grade of N. Jane St.....	1147
Execution and delivery of contract Hamme & Jackson.....	1162
Commencement of work Hamme & Jackson.....	1200
Agreement "CN": changes in subway structure due to widening of W. 32d St. and construction of ventilating flue at W. 32d St. and Broadway:	
Resolution directing advertisement for bids.....	750
Receipt of bids.....	819
Resolution authorizing release of checks.....	820
Award of contract to D. C. Serber and requisition on Board of Estimate.....	847
Letter from Board of Estimate referring back proposed contract with D. C. Serber, referred to Chief Engineer.....	991
Resolution directing readvertisement for bids.....	1038
Receipt of bids.....	1136
Resolution releasing checks to all but lowest bidder.....	1137
Approval of report by Chief Engineer recommending award of contract to Slattery Engineering & Construction Co.....	1171
Approval of requisition on Board of Estimate for appropriation.....	1171
Approval of application by John Riches for return of checks account structural changes, Broadway and 32d St., and miscellaneous drainage and sewerage construction.....	1307
Adoption of resolution approving sureties upon bond by Slattery Engineering & Construction Co. re construction changes of ventilation flue at W. 32d St. and Broadway, R. T. 7653.....	1436
Certified resolution of Board of Estimate re changes in subway structure and construction of ventilation flue at W. 32d St. and Broadway and authorizing appropriation of \$28,810; communication from Acting Corporation Counsel returning approved contract; execution and delivery of original contract; R. T. 7653.....	1463
Filing of notice from Chief Engineer as to commencement of work.....	1617
Agreement "CO": miscellaneous drainage and sewer construction:	
Resolution directing advertisement for bids.....	989
Receipt of bids.....	1114
Release of checks.....	1116
Rejection of bids.....	1138
Receipt of bids.....	1247
Release of checks.....	1250
Receipt of bids and award of contract Frank Persicano, requisition made on Board of Estimate.....	1252
Approval of application by John Riches for return of checks account structural changes, Broadway and 32d St., etc.....	1307
Report of Chief Engineer giving reasons for inclusion of cost-plus items (communication to Board of Estimate), R. T. 7684.....	1336
Resolution approving sureties on bond of Frank Persicano.....	1756
Resolution of Board of Estimate consenting to contract Frank Persicano.....	1778
Agreement "CP": changes in subway structure to provide for crossover on Rte. 8, Sec. 5, Bushwick Ave.:	
Resolution directing advertisement for bids.....	1070
Receipt of bids and referred to Chief Engineer.....	1176
Resolution authorizing release of checks.....	1177
Resolution approving award of contract to David Levy and requisition on Board of Estimate, \$47,147.75.....	1178
Resolution approving sureties upon bond by David Levy for changes in railroad structure providing for crossover, R. T. 7644.....	1437
Certified resolution of Board of Estimate re changes in railroad structure providing for crossover, Sec. 5, Rte. 8, and authorizing appropriation of \$47,147.75; communication from Acting Corporation Counsel returning approved contract; execution and delivery of original contract; R. T. 7644.....	1464
Commencement of work, Rte. 8, Sec. 8, crossovers, David Levy, R. T. 7644.....	1527

	ITEM
Agreement "CQ": form of contracts, specification, invitation to contractors, etc., for construction of station finish at Queensboro Plaza Station:	
Resolution directing advertising for bids, R. T. 7695	1346
Receipt of bids, referred to Chief Engineer; R. T. 7695	1372
Resolution authorizing release of checks; R. T. 7695	1373
Chief Engineer's report on bids, recommending award to Patelli & Wilson, at \$4,969; requisition upon Board of Estimate; R. T. 7695	1416
Resolution of Board of Estimate consenting to contract with Patelli & Wilson	1640
Approval of sureties on bond	1656
Statement as to execution and delivery of agreement with Patelli & Wilson	1674
Commencement of work	1715
Agreement "CR":	
Invitation to contractors for relocation of entrances to 157th St. Station, R. T. 3013	1414
Receipt of bids for relocation of entrances to 157th St. Station, R. T. 3013	1535
Resolution authorizing release of checks for relocation of entrances to 157th St. Station, R. T. 3013	1540
Chief Engineer's report on bids for relocation of stairways, 157th St. Station, and recommending award to John Riches at price of \$51,911.50; requisition upon Board of Estimate; R. T. 3013	1544
Resolution of Board of Estimate consenting to contract with John Riches	1831
Agreement "CS": construction of duct line 239th St. Yard, <i>see</i> Duct Lines.	
Agreement "CU":	
Invitation to contractors for construction of signal tower at 239th St. Yard; resolution directing advertising for bids; R. T. 7706	1478
Receipt of bids	1578
Release of checks	1582
Award of contract to John B. Roberts and requisition on Board of Estimate	1585
Resolution of Board of Estimate consenting to contract with John B. Roberts & Co.	1834
Air Compressors: Contract No. 4, N. Y. Rapid Transit Corp.; air compressors, cars, Westinghouse Traction Brake Co.; R. T. 6481	1486
Air Line: approval of I. R. T. purchasing agent's order for installation of, in south-bound track of Harlem River Tunnel	830
Alarm System: approval of application of I. R. T. for installation at substations Nos. 11, 12, 13, 26, 40 and 42	1813
Almfrall & Co.: contract for erection of steam heating system for inspection sheds at 180th St. and Livonia Ave. Yards	872
Alphons Custodis Construction Company:	
Approval of acceptance of bid for construction of brick stack at 59th St. Power House	199

No. 6	B. T. & J. J. Mack, approximate estimate No. 7, installation of tracks in Livonia Ave. yard, Rte. 31, \$5,856.21.....	44
No. 7	Wagner Engineering Co., Inc., approximate estimate No. 1, construction of direction signs at stations of rapid transit railroads, \$903.24.....	44
No. 8	T. H. Reynolds Cont. Co., Inc., approximate estimate No. 1, installation of tracks in Secs. 1 to 5, Rte. 8, \$22,700.70.....	44
No. 10	P. J. Healey, approximate estimate No. 1, making land borings along proposed extension of Corona branch, Queensboro R. T. R. R., \$1,667.59..	73
No. 11	Bethlehem Steel Products Co., approximate estimate No. 34, supply of open hearth rails, Order No. 3, \$54,048.83.....	73
No. 12	Powers-Kennedy Contr. Corp., approximate estimate No. 7, construction of part of Queensboro subway, Rtes. 35 and 67, \$46,805.07.....	73
No. 13	Joslin Const. Co., Inc., approximate estimate No. 5, reconstruction of part of Queensboro Subway, Rte. 26, Jackson Ave. station, \$13,540.50....	73
No. 14	George Colon & Co., approximate estimate No. 7, construction of Union Square passageway connection, Rtes. 5 and 8, \$3,163.28.....	73
No. 15	Rosenthal Engineering Contr. Co., Inc., approximate estimate No. 9, construction of inspection shed enclosure at Livonia Ave. yard, Rte. 31, \$5,353.97.....	73
No. 16	Hamme & Jackson, Inc., final estimate, altering and reconstructing emergency exits and stopping leaks in Mam. and Blackwells Island shafts, Rte. 61, \$3,148.22.....	73
No. 17	Interborough Rapid Transit Co., approximate estimate No. 2, remedying leaky condition of mezzanine roofs of stations on Jerome Ave. and White Plains Rd. lines, \$5,463.27.....	106
No. 18	Frederick L. Cranford, Inc., approximate estimate No. 6, reconstruction of part of Sec. 3, Rte. 33, completion of Lawrence St. station, \$13,881.49..	106
No. 19	Ramapo Iron Works, approximate estimate No. 3, supply special work Order No. 21, use in construction 14th St.-Eastern and Bway-Fourth Ave. lines, Rtes. 8, 4 and 36, \$11,792.70.....	106
No. 20	Charles H. Brown & Son, Corporation (assignee), approximate estimate No. 11, construction of station finish on Secs. 1 and 2, Rte. 8, 14th St.-Eastern R. T. R. R., \$2,324.65.....	106
No. 21	John C. Orr Co., approximate estimate No. 22, storing, insuring and transporting ties and timber for rapid transit railroad, \$59.36.....	106
No. 22	Jacob Schlesinger, Inc., approximate estimate No. 6, construction of second addition to shops, Lenox Ave. and 148th St. yard, Contract No. 3, \$10,637.48.....	106
No. 23	Alfred R. Sax Lumber Co., approximate estimate No. 5, supply of ties and timber, Order No. 7, for rapid transit railroads, \$10,665.30.....	145
No. 24	Interborough Rapid Transit Co., approximate estimate No. 6, construction of connection between 7th Ave. branch of 7th Ave.-Lexington Ave. R. T. R. R. and Brooklyn-Manhattan R. T. R. R.; between Eastern Parkway Line and Brooklyn-Manhattan R. T. R. R., and between 7th Ave. branch of 7th Ave.-Lexington Ave. Line and Manhattan-Bronx R. T. R. R., \$7,296.99.....	145
No. 25	Booth & Flinn, Ltd., final estimate for value of work done and materials furnished, construction of Sec. 1, Rte. 8, \$308,987.81.....	145
No. 26	Gustin-Morris Contr. Corp., final estimate, miscellaneous construction and station finish on portions of rapid transit railways of New York City, Agreement "AU", \$759.68.....	145
No. 27	Interborough Rapid Transit Co. (assignee), approximate estimate No. 6 and final estimate, construction of additional entrance to Borough Hall station of Brooklyn-Manhattan R. T. R. R., \$467.32.....	145
No. 28	Interborough Rapid Transit Co., approximate estimate No. 1, changing subway structure at 59th St. for rearrangement of curb lines at north-east corner of Columbus Circle and Broadway, \$7,301.09.....	145
No. 29	Powers-Kennedy Contr. Corp., retained percentage certificate No. 1-R, construction of part of Queensboro Subway R. T. R. R., Rtes. 35 and 67, \$59,000.....	145
No. 30	Eppinger & Russell Co., approximate estimate No. 1, supply of treated ties (Order No. 6), 14th St.-Eastern Line, \$11,341.86.....	192
No. 31	Station Finish Corporation (assignee), approximate estimate No. 6, construction of station finish on Secs. 3, 4 and 5, Rte. 8, \$13,269.03.....	192
No. 32	B. T. & J. J. Mack, approximate estimate No. 8, installation of tracks at Livonia Ave. yard, Rte. 31, \$2,727.90.....	192

Vouchers—(Continued):		ITEM
No. 33	John Pollock, approximate estimate No. 1, construction of transformer closets for emergency lighting for part of Broadway-4th Ave. Line, \$1,513.76	192
No. 34	Charles F. Adams & Son, Inc., approximate estimate No. 7, construction of entrance, Borough Hall station, isle of safety, Agreement "AZ", \$1,619.33	192
No. 35	J. H. Burton & Co., approximate estimate No. 21, storage and hauling untreated ties and timber for rapid transit railways, \$369.55	192
No. 36	T. H. Reynolds Contr. Co., Inc., approximate estimate No. 2, installation of tracks on Secs. 1 to 5, Rte. 8, \$19,078.83	192
No. 37	Rosenthal Engineering Contr. Co., Inc., approximate estimate No. 6, construction of inspection shed enclosure, Rte. 18, 180th St. yard, \$11,623.53	192
No. 38	Slattery Engr. & Const. Co., Inc., approximate estimate No. 3, construction of additional approach track, Lenox Ave. and 148th St. yard, Contract No. 3, \$15,104.50	192
No. 39	Michael Del Balso, approximate estimate No. 1, installation of tracks, including furnishing of part of track materials and construction of drainage system and concrete inspection pits for portion of White Plains Rd. Line, 239th St. yard, \$29,948.40	213
No. 40	Holbrook, Cabot & Rollins Corp., approximate estimate No. 8, construction of new entrance to 168th St. station of Manhattan-Bronx R. T. R. R., \$9,224.54	213
No. 41	Lindley M. Garrison, Receiver, N. Y. Mun. R. R. Corp., approximate estimate No. 1, and final, additional bracing of elevated structure at 10th and 39th Sts., Sec. 2, Rte. 39, \$4,947.19	213
No. 42	Powers-Kennedy Contr. Corp., approximate estimate No. 8, construction of part of Queensboro Subway R. T. R. R., Rtes. 35 and 67, 41st and 42d Sts., 8th Ave. to Vanderbilt Ave., \$43,013.53	213
No. 43	Frederick L. Cranford, Inc., approximate estimate No. 7, reconstruction of part of Sec. 3, Rte. 33, completion of Lawrence St. station, \$19,879.12	213
No. 44	Joslin Const. Co., Inc., approximate estimate No. 6, reconstruction of part of Queensboro Subway R. T. R. R., Rte. 26, Jackson Ave. station, \$10,059.75	213
No. 45	Rapid Transit Subway Const. Co., Inc. (assignee), third installation on account of net amount of \$2,260,534.58 to be paid by City under award of arbitration made under date of February 2, 1912, \$270,139	213
No. 46	George Colon & Co., approximate estimate No. 8, construction of Union Square passageway connection station, Rtes. 5 and 8, Broadway-4th Ave. Line and 14th St.-Eastern R. T. R. R., \$1,262.55	213
No. 48	Charles H. Brown & Son, Corporation (assignee), approximate estimate No. 12, construction of station finish, Secs. 1 and 2, Rte. 8, \$5,830.41	242
No. 49	Bethlehem Steel Products Co., approximate estimate No. 1, supply of special work and other track materials (Order No. 20) for use in construction, Rte. 16, \$19,718.99	273
No. 50	Slattery Engr. & Const. Co., Inc., final estimate for installation of frogs, switches, etc., in yard near Jerome Ave. and Mosholu Parkway, Rte. 16, \$2,813.19	273
No. 51	Stander & Solow, Inc., final estimate for completion of station finish, sub-passageway at 23d St. station, Sec. 1, Rtes. 4 and 36, \$1,065.07	273
No. 52	Jacob Schlesinger, Inc., approximate estimate No. 7, constructing second addition to shops at Lenox Ave. and 148th St. yard, Contract No. 3, \$4,596.78	273
No. 53	Lindley M. Garrison, Receiver, N. Y. Consolidated R. R. Co., approximate estimate No. 1, installing tracks, including special work at Queensboro Plaza station, \$1,302.28	273
No. 54	Vulcan Rail and Construction Co., final estimate, construction of steel ladders and gratings in two shafts, Bronx River Duct Tunnel, Sec. 2, Rtes. 19 and 22, \$514.63	273
No. 55	Station Finish Corporation (assignee), approximate estimate No. 7, construction of station finish, Secs. 3, 4 and 5, Rte. 8, \$9,967.19	302
No. 56	John Pollock, approximate estimate No. 2, construction of transformer closets for emergency lighting, part of Broadway-Fourth Ave. R. T. Line, \$1,032.97	302
No. 57	Patrick McGovern, Inc. (assignee), final estimate, complete construction, Sec. 2, Rte. 8, \$63,318.93	302
No. 58	Wagner Engr. Co., Inc., approximate estimate No. 2, construction of direction signs at stations of rapid transit railroads, \$1,012.08	302
No. 59	T. H. Reynolds Cont. Co., Inc., approximate estimate No. 3, installation of tracks, Secs. 1 to 5, Rte. 8, \$20,586.05	302
No. 60	Michael Del Balso, approximate estimate No. 2, installation of tracks, etc., portion of White Plains Rd. Line, Rte. 18, 239th St. yard, \$13,278.60	302
No. 61	P. J. Henley, final estimate, land and river borings along proposed extension, Corona branch, Queensboro R. T. R. R., \$1,186.89	302
No. 62	Charles J. Adams & Son, Inc., approximate estimate No. 8, construction of entrance to Borough Hall station through isle of safety, Agreement "AZ", \$664.64	340
No. 63	Frederick L. Cranford, Inc., approximate estimate No. 8, construction of part of Sec. 3, Rte. 33, completion of Lawrence St. station, \$14,379.77	340

No. 146	Holbrook, Cabot & Rollins Corp., approximate estimate No. 12 for construction of new entrance to 168th St. station of Manhattan-Bronx R. T. R. R., \$8,615.77.....	816
No. 147	Benedetto & Saussez, approximate estimate No. 2 for making alterations in structure of Broadway-Fourth Ave. Line at various locations in Borough of Manhattan, \$988.87.....	844
No. 148	Gustin-Morris Cont. Corp., approximate estimate No. 2 for construction of foundations, Sec. 1, Rte. 52, Flushing route, \$7,860.83.....	816
No. 149	Powers-Kennedy Contr. Corp., approximate estimate No. 12 for construction of part of Queensboro Subway Rapid Transit Line, Rtes. 35 and 67, \$83,456.11.....	816
No. 150	Slattery Engr. & Const. Co., Inc., approximate estimate No. 7 for construction of additional approach track to Lenox Ave. and 148th St. yard, Contract No. 3, \$22,032.27.....	844
No. 151	John Pollock, approximate estimate No. 5 for construction of transformer closets for emergency lighting for part of Broadway-Fourth Ave. Line, Brooklyn, \$1,753.83.....	844
No. 152	Ramapo Iron Works, final estimate for supply of special work (Order No. 21), for use in construction of parts of the 14th St.-Eastern and Broadway-Fourth Ave. R. T. R. R., Rtes. 8 and 36, \$1,310.30.....	844
No. 153	Department of Water Supply, Gas and Electricity, for relocating water mains on Jerome Ave. from Kingsbridge Rd. to a point about 300 feet north of 198th St., The Bronx, \$40,000.....	844
No. 154	Charles H. Brown & Son Corporation (assignee), approximate estimate No. 16 for construction of station finish, Secs. 1 and 2, Rte. 8, \$6,282.79.....	844
No. 155	Charles J. Adams & Son, Inc., final estimate for construction of entrance to Borough Hall station through isle of safety, Agreement "AZ", \$2,342.45.....	844
No. 156	Patrick McGovern & Charles L. Perrin, in full payment of judgment in action of Patrick McGovern & Charles L. Perrin vs. City of New York in connection with contract dated February 13, 1912, for construction of Sec. 9, Rte. 5, \$182,403.16.....	844
No. 157	B. T. & J. J. Mack, Inc., approximate estimate No. 4 for construction of transformer closets for emergency lighting for part of the Broadway-Fourth Ave. Line in Manhattan and Queens, \$1,038.76.....	866
No. 158	New York Rapid Transit Corp., approximate estimate No. 2 for distribution and installing covers, frames and asbestos lumber panels for low bench duct manholes, Contract No. 4, \$596.81.....	866
No. 159	Rosenthal Engineering Contr. Co., final estimate for construction of inspection shed enclosure at Livonia Ave. yard, Rte. 31, \$19,067.24.....	866

Vouchers—(Continued):		ITEM
No. 160	Jacob Schlesinger, Inc., approximate estimate No. 11 for construction of second addition to shops at Lenox Ave. and 148th St. yard, Contract No. 3, \$21,024.27	866
No. 161	Fox, Reynolds Co., Inc., approximate estimate No. 2 for completion of newsstand enclosures at stations of Municipal Rapid Transit R. R., Contracts Nos. 3 and 4, \$1,667.52	897
No. 162	Powers-Kennedy Contr. Corp., for retained percentage payment in accordance with Certificate No. 2-R under contract for construction of Rtes. 35 and 67, \$50,000	897
No. 163	Bethlehem Steel Products Co., final estimate for the supply of special work and other track material (Order No. 20) for constructing Jerome Ave. yard, Rte. 16, \$5,977.75	897
No. 164	George Colon & Co., final estimate for miscellaneous construction and station finish, Agreement "BH", Groups I, II and III, \$2,764.89	897
No. 165	Station Finish Corporation (assignee), approximate estimate No. 11 for construction of station finish, Secs. 3, 4 and 5, Rte. 8, \$6,737.57	897
No. 166	Rosenthal Engineering Contr. Co., approximate estimate No. 4 for construction of foundations for third addition to shops, Lenox Ave. and 148th St. yard, Contract No. 3, \$47,646.13	897
No. 167	Fox, Reynolds Co., Inc., approximate estimate No. 1 for excavation and construction of retaining wall at Lenox Ave. yard, 7th Ave. between 148th and 150th Sts., \$14,830.20	937
No. 168	Otis Elevator Co., approximate estimate No. 1 for furnishing and installing two electric passenger elevators in new entrance to 163th St. station, \$4,029.75	937
No. 169	Michael Del Balso, approximate estimate No. 6 for installation of tracks, including furnishing part of track materials and construction of drainage system, 239th St. yard, Rte. 18, \$23,736.12	937
No. 170	Wagner Engr. Co., Inc., approximate estimate No. 6 for construction of direction signs at stations, \$1,087.21	937
No. 171	Frederick L. Cranford, approximate estimate No. 3 for construction, Sec. 6-A-1, Rte. 8, \$34,163.88	937
No. 172	Interborough Rapid Transit Co., estimate No. 1 for installation and change of construction of tracks between Jerome Ave. yard and existing elevated line on Jerome Ave., \$2,042.42	937
No. 173	Frederick L. Cranford, Inc., approximate estimate No. 12 for reconstruction of part of Sec. 3, Rte. 33, completion of Lawrence St. station, \$12,570.34	937
No. 174	New York R. T. Corp., approximate estimate No. 3 for lengthening platforms at Canal St. station, \$25,862.89	937
No. 175	Rosenthal Engineering Contr. Co., Inc., approximate estimate No. 10 for construction of inspection shed enclosure for Rte. 18, 180th St. yard, \$19,164.96	937
No. 176	Holbrook, Cabot & Rollins Corp., approximate estimate No. 13 for construction of new entrance to the 163th St. station, \$4,550.83	937
No. 177	Oakdale Cont. Co., Inc., approximate estimate No. 2 for the construction of part of Flushing route, Sec. 3, Rte. 52, \$30,941.70	937
No. 178	Philip J. Healy, approximate estimate No. 1 for making test borings in proposed Coney Island Line, in proposed Westchester Line and along proposed extension of Broadway-Fourth Ave. Line, Agreement "CI", \$960.36	937
No. 179	Gustin-Morris Contr. Co., approximate estimate No. 3 for construction of foundations, Sec. 1, Rte. 52, Flushing route, \$7,187.35	937
No. 180	Jacob Schlesinger, Inc., approximate estimate No. 1 for making changes in subway structures necessitated by the widening of 60th St. between 2d and 5th Aves., \$2,398.95	937
No. 181	Alfred R. Sax Lumber Co., final estimate for supply of ties and timber (Order No. 7), \$2,667.55	987
No. 182	Joslin Construction Co., Inc., approximate estimate No. 11 for reconstruction of part of Queensboro Subway R. T. R. R., Rte. 26, Jackson Ave. station, \$12,132.48	987
No. 183	Powers-Kennedy Contr. Corp., approximate estimate No. 13 for construction of part of Queensboro Subway R. T. R. R., Rtes. 35 and 67, \$58,565.68	987
No. 184	T. H. Reynolds Contr. Co., Inc., approximate estimate No. 7 for installation of tracks in Secs. 1 to 5, Rte. 8, \$8,978.92	987
No. 185	George Colon Co., supplementary approximate estimate No. 1-A for the construction of Union Square passageway, Rtes. 5 and 8, \$2,134.66	987
No. 186	Slattery Engineering Const. Co., Inc., approximate estimate No. 8 for construction of additional approach track, Lenox Ave. and 148th St. yard, Contract No. 3, \$20,674.35	987
No. 187	Benedetto & Saussez, approximate estimate No. 3 for making alterations in the Broadway-Fourth Ave. R. T. R. R. at various locations to permit widening of streets, \$2,640.29	987
No. 188	Jobson-Gifford Co., approximate estimate No. 1 for making changes in steel work at easterly approach to Queensboro Plaza station, Sec. 1, Rtes. 36 and 37, \$9,951.11	987
No. 189	Charles H. Brown & Son Corporation (assignee), approximate estimate No. 17 for construction of station finish, Secs. 1 and 2, Rte. 8, \$9,260.93	987
